Attention

Wyoming Medicaid Postpartum Care Reporting Code

Effective with dates of service February 1, 2021 and after:

Providers billing maternity global codes (59400, 59610, 59510, or 59618) will need to wait until after the postpartum visit has occurred. On the same claim with the global code, the provider will need to bill code 0503F with the date of service for the postpartum visit. This code will not pay anything additional, it is informational only. Any claims with dates of service 2/1/21 or later will deny if this code is not present on the claim.

As a reminder, it is inappropriate to bill the global code unless all three components – antepartum, delivery, and postpartum care are delivered by the same provider/provider's group. It is also inappropriate to bill the components separately if billing the requirements to bill the global code have been met.

Example:

DOS	Code	Units
2/1/21	59400	1
3/25/21	0503F	1

Wyoming Medicaid is obligated to report certain measures to CMS on an annual basis. One of these measures involves the number of people who receive an appropriate postpartum care visit after delivering a baby. CMS requires this data to come from claims data only, it cannot come from EHRs, attachments, or other sources. When providers bill global care, these postpartum visits do not get

counted. In order to report more accurate numbers, Wyoming Medicaid is implementing the above policy change.

If you have questions, please contact Provider Relations at 1-800-251-1268.
