Overview

Thank you for your willingness to serve clients of the Medicaid Program and other medical assistance programs administered by the Division of Healthcare Financing. This manual supersedes all prior versions.

Rule References

Providers must be familiar with all current rules and regulations governing the Medicaid Program. Provider manuals are to assist providers with billing Medicaid; they do not contain all Medicaid rules and regulations. Rule citations in the text are only a reference tool. They are not a summary of the entire rule. In the event that the manual conflicts with a rule, the rule prevails. Wyoming State Rules may be located at, http://soswy.state.wy.us/Rules/default.aspx.
Importance of Fee Schedules and Provider’s Responsibility

Procedure codes listed in the following Sections are subject to change at any time without prior notice. The most accurate way to verify coverage for a specific service is to review the Medicaid fee schedules on the website (2.1, Quick Reference). Fee schedules list Medicaid covered codes, provide clarification of indicators, such as whether a code requires prior authorization and the number of days in which follow-up procedures are included. Not all codes are covered by Medicaid or are allowed for all taxonomy codes (provider types). It is the provider’s responsibility to verify this information. Use the current fee schedule in conjunction with the more detailed coding descriptions listed in the current CPT-4 and HCPCS Level II coding books. Remember to use the fee schedule and coding books that pertain to the appropriate dates of service. Wyoming Medicaid is required to comply with the coding restrictions under the National Correct Coding Initiative (NCCI) and providers should be familiar with the NCCI billing guidelines. NCCI information may be reviewed at http://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html.

Getting Questions Answered

The provider manuals are designed to answer most questions; however, questions may arise that require a call to a specific department such as Provider Relations or Medical Policy (2.1, Quick Reference).

Medicaid manuals, bulletins, fee schedules, forms, and other resources are available on the Medicaid website or by contacting Provider Relations.
AUTHORITY

The Wyoming Department of Health is the single state agency appointed as required in the Code of Federal Regulations (CFR) to comply with the Social Security Act to administer the Medicaid Program in Wyoming. The Division of Healthcare Financing (DHCF) directly administers the Medicaid Program in accordance with the Social Security Act, the Wyoming Medical Assistance and Services Act, (W.S. 42-4-101 et seq.), and the Wyoming Administrative Procedure Act (W.S. 16-3-101 et seq.). Medicaid is the name chosen by the Wyoming Department of Health for its Medicaid Program.

This manual is intended to be a guide for providers when filing medical claims with Medicaid. The manual is to be read and interpreted in conjunction with Federal regulations, State statutes, administrative procedures, and Federally approved State Plan and approved amendments. This manual does not take precedence over Federal regulation, State statutes or administrative procedures.

### 1.1 How the CMS-1500 Manual is Organized

The table below provides a quick reference describing how the CMS-1500 Manual is organized.

<table>
<thead>
<tr>
<th>Chapter</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Two</strong></td>
<td><em>Getting Help When You Need It</em> – Quick Reference guide, telephone numbers and addresses and web sites for help and training.</td>
</tr>
<tr>
<td><strong>Three</strong></td>
<td><em>Provider Responsibilities</em> – Obligations and rights as a Medicaid provider. The topics covered include enrollment changes, civil rights, group practices, provider-patient relationship, and record keeping requirements.</td>
</tr>
<tr>
<td><strong>Four</strong></td>
<td><em>Utilization Review</em> – Fraud and abuse definitions, the review process, and rights and responsibilities.</td>
</tr>
<tr>
<td><strong>Five</strong></td>
<td><em>Client Eligibility</em> – How to verify eligibility when a client presents their Medicaid card.</td>
</tr>
<tr>
<td><strong>Six</strong></td>
<td><em>Institutional/UB Common Billing Information</em> – Basic claim information, completing the claim form, authorization for medical necessity requirements, co-pays, prior authorizations, timely filing, consent forms, NDC, working the Medicaid remittance advice (RA) and completing adjustments.</td>
</tr>
<tr>
<td><strong>Seven</strong></td>
<td><em>CMS 1500 Common Billing Information</em> – Basic claim information, completing the claim form, authorization for medical necessity requirements, co-pays, prior authorizations, timely filing, consent forms, NDC, working the Medicaid remittance advice (RA) and completing adjustments.</td>
</tr>
<tr>
<td><strong>Eight</strong></td>
<td><em>Dental Common Billing Information</em> – Basic claim information, completing the claim form, authorization for medical necessity requirements, co-pays, prior authorizations, timely filing, consent forms, NDC, working the Medicaid remittance advice (RA) and completing adjustments.</td>
</tr>
<tr>
<td><strong>Nine</strong></td>
<td><em>Third Party Liability (TPL)/Medicare</em> – Explains what TPL/Medicare is, how to bill it and exceptions to it.</td>
</tr>
<tr>
<td><strong>Ten</strong></td>
<td><em>Electronic Data Interchange (EDI)</em> – Explains the advantages of exchanging documents electronically. Secured Provider Web Portal registration process.</td>
</tr>
</tbody>
</table>
1.2 Updating the Manual

When there is a change in the Medicaid Program, Medicaid will update the manual on a quarterly (January, April, July, and October) basis and publish them to the Medicaid website. Most of the changes come in the form of provider bulletins (via email) and Remittance Advice (RA) banners, although others may be newsletters or Wyoming Department of Health letters (via email) from state officials. The updated provider manuals will be posted to the website and will include all updates from the previous quarter. It is in the provider’s best interest to download an updated provider manual and keep their email addresses up-to-date. Bulletin, RA banner, newsletter and state letter information will be posted to the website as it is sent to providers, and will be incorporated into the provider manuals as appropriate to ensure the provider has access to the most up to date information regarding Medicaid policies and procedures.

RA banner notices appear on the first page of the proprietary Wyoming Medicaid Remittance Advice (RA), which is available for download through the Secured Provider Web Portal after each payment cycle in which the provider has claims processed or “in process”. This same notice also appears on the RA payment summary email that is sent out each week after payment, and is published to the “What’s New” section of the website.

It is critical for providers to keep their contact email address(es) up-to-date to ensure they receive all notices published by Wyoming Medicaid. It is recommended that providers add the “wycustomersvc@conduent.com” email address from which
notices are sent to their address books to avoid these emails being inadvertently sent to junk or spam folders.

All bulletins and updates are published to the Medicaid website (2.1, Quick Reference).

NOTE: Provider bulletins and state letter email notifications are sent to the email addresses on-file with Medicaid and are sent in two (2) formats, plain text and HTML. If the HTML format is received or accepted then the plain text format is not sent.
1.2.1 RA Banner Notices/Samples

RA banners are limited in space and formatting options and are used to notify providers quickly and often refer providers elsewhere for additional information.

**Sample RA Banner:**

************************************************************************
ICD-10 IMPLEMENTATION OCTOBER 1, 2015

EXPECT:
1) LONGER WAIT TIMES WHEN CALLING PROVIDER RELATIONS OR EDI SERVICES
2) INCREASED POSSIBILITY OF RECEIVING A BUSY DISCONNECT WHEN EXITING THE IVR
3) DO NOT EXPECT THE AGENTS TO PROVIDE ICD-10 CODES

TROUBLESHOOTING TIPS PRIOR TO CALLING THE CALL CENTERS:

1) IF YOUR SOFTWARE OR VENDOR/CLEARINGHOUSE IS NOT ICD-10 READY--FREE SOFTWARE AVAILABLE ON THE WY MEDICAID WEBSITE (CANNOT DROP TO PAPER)
2) ICD-10 DX/SURGICAL DENIALS, VERIFY FIRST: CODES ARE BOTH ALPHA & NUMERIC, DX QUALIFIER, O VS 0, I VS 1
3) VERIFY DOS, PRIOR TO 10/1/15 BILL WITH ICD-9 AND ON OR AFTER 10/1/15 BILL WITH ICD-10 CODES
4) INPATIENT SERVICES THAT SPAN 9/2015-10/2015 BILL WITH ICD-10

To: Provider Email Name
Subject: Remittance Advice Payment Summary

On 05/27/2015, at 05:16, Wyoming Medicaid wrote:

Dear Provider Name,

The following is a summary of your Wyoming Medicaid remittance advice 123456 for 05/27/2015, an RA Banner with important information may follow.

**************************************************************************

RA PAYMENT SUMMARY
**************************************************************************

To: Provider Name
NPI Number: 1234567890
Provider ID: 111111111

Remittance Advice Number: 123456
Amount of Check: 16,070.85

*The RA banner notification will appear here when activated for the provider’s taxonomy (provider type)*
1.2.2 Medicaid Bulletin Notification/Sample

Medicaid bulletin email notifications typically announce billing changes, new codes requiring prior authorization, reminders, up and coming initiatives, etc.

Sample bulletin email notification (HTML format):
1.2.3 Wyoming Department of Health (WDH) State Letter/Sample

WDH email notifications typically announce significant Medicaid policy changes, RAC and other audits, etc.

Sample WDH email notification (HTML format):

1.3 State Agency Responsibilities

The Division of Healthcare Financing administers the Medicaid Program for the Department of Health. They are responsible for financial management, developing policy, establishing benefit limitations, payment methodologies and fees, and performing utilization review.

1.4 Fiscal Agent Responsibilities

Conduent is the fiscal agent for Medicaid. They process all claims and adjustments, with the exception of pharmacy. They also answer provider inquiries regarding claim status, payments, client eligibility, known third party insurance information and provider training visits to train and assist the provider office staff on Medicaid billing procedures or to resolve claims payment issues.

NOTE: Wyoming Medicaid is not responsible for the training of the provider’s billing staff or to provide procedure or diagnosis codes or coding training.

## 2.2 How to Call for Help

The fiscal agent maintains a well-trained call center that is dedicated to assisting providers. These individuals are prepared to answer inquiries regarding client eligibility, service limitations, third party coverage, electronic transaction questions and provider payment issues.

## 2.3 How to Write for Help

In many cases, writing for help provides the provider with more detailed information about the provider claims or clients. In addition, written responses may be kept as permanent records.

Reasons to write vs. calling:

- **Appeals** – Include claim, all documentation previously submitted with the claim, explanation for request, documentation supporting the request.
- **Written documentation of answers** – Include all documentation to support the provider request.
- **Rate change requests** – Include request and any documentation supporting the provider request.
- **Requesting a service to be covered by Wyoming Medicaid** – Include request and any documentation supporting the provider request.

To expedite the handling of written inquiries, we recommend providers use a Provider Inquiry Form ([2.3.1, Provider Inquiry Form](#)). Providers may copy the form in this manual. Provider Relations will respond to the provider inquiry within ten business days of receipt.

NOTE: Click image above to be taken to a printable version of this form.

2.4 How to Get a Provider Training Visit

Provider Relations Field Representatives are available to train or address questions the provider’s office staff may have on Medicaid billing procedures or to resolve claims payment issues.

Provider Relations Field Representatives are available to assist providers with help in their location, by phone, or webinar with Wyoming Medicaid billing questions and issues. Generally, to assist a provider with claims specific questions, it is best for the Field Representative to communicate via phone or webinar as they will then have access to the systems and tools needed to review claims and policy information. Provider Training visits may be conducted when larger groups are interested in training related to Wyoming Medicaid billing. When conducted with an individual provider’s office, a Provider Training visit generally consists of a review of a provider’s claims statistics, including top reasons for denials and denial rates, and a review of important Medicaid training and resource information. Provider Training Workshops may be held during the summer months to review this information in a larger group format.

Due to the rural and frontier nature, and weather in Wyoming, visits are generally conducted during the warmer months only. For immediate assistance, a provider should always contact Provider Relations (2.1, Quick Reference).
2.5 How to Get Help Online

The address for Medicaid’s public website is https://wymedicaid.portal.conduent.com. This site connects Wyoming’s provider community to a variety of information including:

- Answers to the providers frequently asked Medicaid questions.
- Claim, prior authorization, and other forms for download.
- Free download of latest WINASAP software and latest WINASAP updates.
- Free download of WINASAP Training Manuals and Tutorials.
- Medicaid publications, such as provider handbooks and bulletins.
- Payment Schedule.
- Primary resource for all information related to Medicaid.
- Wyoming Medicaid Secured Provider Web Portal.
- Wyoming Medicaid Secured Provider Web Portal tutorials.

The Medicaid public website also links providers to Medicaid’s Secured Provider Web Portal, which delivers the following services:

- **278 Electronic Prior Authorization Requests** – Ability to submit and retrieve prior authorization requests and responses electronically via the web.
- **Data Exchange** – Upload and download of electronic HIPAA transaction files.
- **Remittance Advice Reports** – Retrieve recent Remittance Advices
  - Wyoming Medicaid proprietary RA
    - 835
- **User Administration** – Add, edit, and delete users within the provider’s organization who can access the Secured Provider Web Portal.
- **837 Electronic Claim Entry** – Interactively enter dental, institutional and medical claims without buying expensive software.
- **PASRR entry**
- **LT101 Look-Up**

2.6 Training Seminars/Presentations

The fiscal agent and the Division of Healthcare Financing may sponsor periodic training seminars at selected in-state and out-of-state locations. Providers will receive advance notice of seminars by Medicaid bulletin email notifications, provider bulletins (hard copies) or Remittance Advice (RA) banners. Providers may also check the Medicaid website for any recent seminar information.

3.1 Enrollment/Re-Enrollment

Medicaid payment is made only to providers who are actively enrolled in the Medicaid Program. Providers are required to complete an enrollment application, undergo a screening process and sign a Provider Agreement at least every five (5) years. In addition, certain provider types are required to pay an application fee and submit proof of licensure and/or certification. These requirements apply to both in-state and out-of-state providers.

Due to the screening requirement of enrollments, backdating enrollments must be handled through an appeal process. If the provider is requesting an effective date prior to the completion of the enrollment, a letter of appeal must be submitted with proof of enrollment with Medicare or another State’s Medicaid that covers the requested effective date to present.

All providers have been assigned one (1) of three (3) categorical risk levels under the Affordable Care Act (ACA) and are required to be screened as follows:

<table>
<thead>
<tr>
<th>Categorical Risk Level</th>
<th>Screening Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>LIMITED</strong></td>
<td>Verifies provider or supplier meets all applicable Federal regulations and State requirements for the provider or supplier type prior to making an enrollment determination</td>
</tr>
<tr>
<td>Includes:</td>
<td>Conducts license verifications, including licensure verification across State lines for physicians or non-physician practitioners and providers and suppliers that obtain or maintain Medicare billing privileges as a result of State licensure, including State licensure in States other than where the provider or supplier is enrolling</td>
</tr>
<tr>
<td>• Physician and nonphysician practitioners, (includes nurse practitioners, CRNAs, occupational therapists, speech/language pathologist audiologists) and medical groups or clinics</td>
<td>Conducts database checks on a pre- and post-enrollment basis to ensure that providers and suppliers continue to meet the enrollment criteria for their provider/supplier type.</td>

<td>- Has been excluded from any Federal health care program</td>
</tr>
<tr>
<td></td>
<td>Has been subject to a final adverse action as defined in §424.502 within the previous ten (10) years</td>
</tr>
</tbody>
</table>

The ACA has imposed an application fee on the following institutional providers:

- In-state only
  - Institutional Providers
  - PRTFs
  - Substance abuse centers (SAC)
  - Wyoming Medicaid-only nursing facilities
  - Community Mental Health Centers (CMHC)
  - Wyoming Medicaid-only home health agencies (both newly enrolling and re-enrolling)

Providers that are enrolled in Medicare, Medicaid in other states, and CHIP are only required to pay one (1) enrollment fee. Verification of this payment must be included with the enrollment application.

The application fee is required for:
Provider Responsibilities

- New enrollments
- Enrollments for new locations
- Re-enrollments
- Medicaid requested re-enrollments (as a result of inactive enrollment statuses)

The application fee is non-refundable and is adjusted annually based on the Consumer Price Index (CPI) for all urban consumers.

After a provider's enrollment application has been approved, a welcome letter will be sent.

If an application is not approved, a notice including the reasons for the decision will be sent to the provider. No medical provider is declared ineligible to participate in the Medicaid Program without prior notice.

To enroll as a Medicaid provider, all providers must complete the on-line enrollment application available on the Medicaid website (2.1, Quick Reference).

### 3.1.1 Ordering, Referring and Prescribing Providers (ORP)

Providers who are enrolled as an ORP ONLY will not term due to 12 months of inactivity (no paid claims on file). If they are enrolled as a treating provider but only being used as an ORP provider, these providers will term due to 12 months of inactivity (no paid claims on file).

### Provider Responsibilities

#### 3.1.2 Enrollment Termination

#### 3.1.2.1 License/ Certification

Seventy Five (75) days prior to licensure/certification expiration, Medicaid sends all providers a letter requesting a copy of their current license or other certifications. If these documents are not submitted by the expiration date of the license or other certificate, the provider will be terminated as of the expiration date as a Medicaid provider. Once the updated license or certification is received, the provider will be reactivated and a re-enrollment will not be required unless the provider remains termed for license more than one year, which the provider will then be termed due to inactivity.

</table>
Contact Information

If any information listed on the original enrollment application subsequently changes, providers must notify Medicaid in writing 30-days prior to the effective date of the change. Changes that would require notifying Medicaid include, but are not limited to, the following:

- Current licensing information
- Facility or name changes
- New ownership information
- New telephone or fax numbers
- Physical, correspondence or payment address change
- New email addresses
- Tax Identification Number

It is critical that providers maintain accurate contact information, including email addresses, for the distribution of notifications to providers. Wyoming Medicaid policy updates and changes are distributed by email, and occasionally by postal mail. Providers are obligated to read, know and follow all policy changes. Individuals who receive notifications on behalf of an enrolled provider are responsible for ensuring they are distributed to the appropriate personnel in the organization, office, billing office, etc.

If any of the above contact information is found to be inaccurate (mail is returned, emails bounce, phone calls are unable to be placed or physical site verification fails, etc.) the provider will be placed on a claims hold. Claims will be held for 30 days pending an update of the information. A letter will be sent to the provider, unless both the physical and correspondence addresses have had mail returned, notifying them of the hold and describing options to update contact information. If the information is updated within the 30 days, the claim will be released to complete normal processing; if a claim is held for this reason for more than 30 days, it will then be denied and the provider will have to resubmit once the incorrect information is updated. The letter will document the information currently on file with Wyoming Medicaid and allow you to make updates/changes as needed.

3.1.2.2 Inactivity

Providers who do not submit a clean claim within one year will be terminated due to inactivity and a new enrollment will be required. No notification will be sent out to providers for this type of termination.

3.1.2.3 Re-enrollment

Providers are required to complete an enrollment application, undergo a screening process and sign a Provider Agreement at least every five (5) years. Prior to any re-enrollment termination, providers will be notified in advance that a re-enrollment is required to remain active. If a re-enrollment is completed an approved prior to the set
termination date, the provider will remain active with no lapse in their enrollment period.

3.1.3 Discontinuing Participation in the Medicaid Program

The provider may discontinue participation in the Medicaid Program at any time. Thirty (30) days written notice of voluntary termination is requested. Notices should be addressed to Provider Relations, attention Enrollment Services (2.1, Quick Reference).

3.2 Accepting Medicaid Clients

3.2.1 Compliance Requirements

All providers of care and suppliers of services participating in the Medicaid Program must comply with the requirements of Title VI of the Civil Rights Act of 1964, which requires that services be furnished to clients without regard to race, color, or national origin.

Section 504 of the Rehabilitation Act provides that no individual with a disability shall, solely by reason of the handicap:

- Be excluded from participation;
- Be denied the benefits; or
- Be subjected to discrimination under any program or activity receiving federal assistance.

Each Medicaid provider, as a condition of participation, is responsible for making provision for such individuals with a disability in their program activities.

As an agent of the Federal government in the distribution of funds, the Division of Healthcare Financing is responsible for monitoring the compliance of individual providers and, in the event a discrimination complaint is lodged, is required to provide the Office of Civil Rights (OCR) with any evidence regarding compliance with these requirements.

3.2.2 Provider-Patient Relationship

The relationship established between the client and the provider is both a medical and a financial one. If a client presents himself/herself as a Medicaid client, the provider must determine whether the provider is willing to accept the client as a Medicaid patient before treatment is rendered.

Providers must verify eligibility each month as programs and plans are re-determined on a varying basis, and a client eligible one (1) month may not necessarily be eligible the next month.
NOTE:  Presumptive Eligibility may begin or end mid-month.

It is the provider’s responsibility to determine all sources of coverage for any client. If the client is insured, by an entity other than Medicaid and Medicaid is unaware of the insurance, the provider must submit a Third Party Resources Information Sheet (7.2.1, Third Party Resources Information Sheet) to Medicaid. The provider may not discriminate based on whether or not a client is insured.

Providers may not discriminate against Wyoming Medicaid clients. Providers must treat Wyoming Medicaid clients the same as any other patient in their practice. Policies must be posted or supplied in writing and enforced with all patients regardless of payment source.

When and what may be billed to a Medicaid client.

Once this agreement has been reached, all Wyoming Medicaid covered services the provider renders to an eligible client are billed to Medicaid.

<table>

<td>Provider can bill client</td>
<td></td>
</tr>
</tbody>
</table>
Full Coverage Plan – Plan covers the full range of medical, dental, hospital, and pharmacy services and may cover additional nursing home or waiver services.

Limited Coverage Plan – Plan with services limited to a specific category or type of coverage.

Specific Financial Agreement – specific written agreement between a provider and a client, outlining the specific services and financial charges for a specific date of service, with the client agreeing to the financial responsibility for the charges.

3.2.2.1 Medicare/Medicaid Dual Eligible Clients

Dual eligible clients are those clients who have both Medicare and Medicaid. For clients on the QMB plan, CMS guidelines indicate that coinsurance and deductible amounts remaining after Medicare pays cannot be billed to the client under any circumstances, regardless of whether you bill Medicaid or not.

For clients on other plans who are dual eligible, coinsurance and deductible amounts remaining after Medicare payment cannot be billed to the client if the claim was billed to Wyoming Medicaid, regardless of payment amount (including claims that Medicaid pays at $0).

If the claim is not billed to Wyoming Medicaid, and the provider agrees in writing prior to providing the service not to accept the client as a Medicaid client and advises the client of his or her financial responsibility, and the client is not on a QMB plan, then the client can be billed for the coinsurance and deductible under Medicare guidelines.

3.2.2.2 Accepting a Client as Medicaid After Billing the Client

If the provider collected money from the client for services rendered during the eligibility period and decides later to accept the client as a Medicaid client, and receive payment from Medicaid:

- Prior to submitting the claim to Medicaid, the provider must refund the entire amount previously collected from the client to him or her for the services rendered; and
- The 12-month timely filing deadline will not be waived (6.20, Timely Filing).

In cases of retroactive eligibility when a provider agrees to bill Medicaid for services provided during the retroactive eligibility period:

- Prior to billing Medicaid, the provider must refund the entire amount previously collected from the client to him or her for the services rendered; and
- The twelve month timely filing deadline will be waived (6.20, Timely Filing).
NOTE: Medicaid will not pay for services rendered to the clients until eligibility has been determined for the month services were rendered.

The provider may, at a subsequent date, decide not to further treat the client as a Medicaid patient. If this occurs, the provider must advise the client of this fact in writing before rendering treatment.

3.2.2.3 Mutual Agreements Between the Provider & Client

Medicaid covers only those services that are medically necessary and cost-efficient. It is the providers’ responsibility to be knowledgeable regarding covered services, limitations and exclusions of the Medicaid Program. Therefore, if the provider, without mutual written agreement of the client, deliver services and are subsequently denied Medicaid payment because the services were not covered or the services were covered but not medically necessary and/or cost-efficient, the provider may not obtain payment from the client.

If the provider and the client mutually agree in writing to services which are not covered (or are covered but are not medically necessary and/or cost-efficient), and the provider informs the client of his/her financial responsibility prior to rendering service, then the provider may bill the client for the services rendered.

3.2.3 Missed Appointments

Appointments missed by Medicaid clients cannot be billed to Medicaid. However, if a provider’s policy is to bill all patients for missed appointments, then the provider may bill Medicaid clients directly.

Any policy must be equally applied to all clients and a provider may not impose separate charges on Medicaid clients, regardless of payment source. Policy must be publically posted or provided in writing to all patients.

Medicaid only pays providers for services they render (i.e., services as identified in 1905 (a) of the Social Security Act). They must accept that payment as full reimbursement for their services in accordance with 42 CFR 447.15. Missed appointments are not a distinct, reimbursable Medicaid service. Rather, they are considered part of a provider’s overall cost of doing business. The Medicaid reimbursement rates set by the State are designed to cover the cost of doing business.

NOTE: For clients, who miss dental appointments, Wyoming Medicaid has a tracking process. Refer to 28.1.7, No Show Appointments/Broken Appointments for specifics.
3.3 Medicare Covered Services

Claims for services rendered to clients eligible for both Medicare and Medicaid which are furnished by an out-of-state provider must be filed with the Medicare intermediary or carrier in the state in which the provider is located.

Questions concerning a client’s Medicare eligibility should be directed to the Social Security Administration (2.1, Quick Reference).

3.4 Medical Necessity

The Medicaid Program is designed to assist eligible clients in obtaining medical care within the guidelines specified by policy. Medicaid will pay only for medical services that are medically necessary and are sponsored under program directives. Medically necessary means the service is required to:

- Diagnose
- Treat
- Cure
- Prevent an illness which has been diagnosed or is reasonably suspected to:
  - Relieve pain
  - Improve and preserve health
  - Be essential for life

Additionally, the service must be:

- Consistent with the diagnosis and treatment of the patient’s condition.
- In accordance with standards of good medical practice.
- Required to meet the medical needs of the patient and undertaken for reasons other than the convenience of the patient or his/her physician.
- Performed in the least costly setting required by the patient’s condition.

Documentation which substantiates that the client’s condition meets the coverage criteria must be on file with the provider.

All claims are subject to both pre-payment and post-payment review for medical necessity by Medicaid. Should a review determine that services do not meet all the criteria listed above, payment will be denied or, if the claim has already been paid, action will be taken to recoup the payment for those services.
3.5 Medicaid Payment is Payment in Full

As a condition of becoming a Medicaid provider (see provider agreement), the provider must accept payment from Medicaid as payment in full for a covered service.

The provider may never bill a Medicaid client:

- When the provider bills Medicaid for a covered service, and Medicaid denies the providers claim due to billing errors such as wrong procedure and diagnosis codes, lack of prior authorization, invalid consent forms, missing attachments or an incorrectly filled out claim form.
- When Medicare or another third party payer has paid up to or exceeded what Medicaid would have paid.
- For the difference in the providers charges and the amount Medicaid has paid (balance billing).

The Provider may bill a Medicaid client:

- If the provider has not billed Medicaid, the service provided is not covered by Medicaid, and prior to providing service, the provider informed the client in writing that the service is non-covered and he/she is responsible for the charges.
- If a provider does not accept a patient as a Medicaid client (because they cannot produce a Medicaid ID card or because they did not inform the provider they are eligible.
- If the client is not Medicaid eligible at the time the provider provides the services or on a plan that does not cover those particular services. Refer to the table above for guidance.
- If the client has reached the threshold on physical therapy, occupational therapy, speech therapy, behavioral health services, chiropractic services, prescriptions, and/or office/outpatient hospital visits and has been notified that the services are not medically necessary in writing by the provider. (6.8 Services Requiring Authorization of Medical Necessity)

**NOTE:** The provider may contact Provider Relations or the IVR to receive service thresholds for a client (2.1, Quick Reference).

- If the provider is an out-of-state provider and are not enrolled and have no intention of enrolling.
3.6 Medicaid ID Card

It is each provider’s responsibility to verify the person receiving services is the same person listed on the card. If necessary, providers should request additional materials to confirm identification. It is illegal for anyone other than the person named on the Medicaid ID Card to obtain or attempt to obtain services by using the card. Providers who suspect misuse of a card should report the occurrence to the Program Integrity Unit or complete the Report of Suspected Abuse of the Medicaid Healthcare System Form (4.9, Referral of Suspected Fraud and Abuse).

3.7 Verification of Client Age

Because certain services have age restrictions, such as services covered only for clients under the age of 21, and informed consent for sterilizations, providers should verify a client’s age before a service is rendered.

Routine services may be covered through the month of the client’s 21st birthday.

3.8 Verification Options

One (1) Medicaid ID Card is issued to each client. Their eligibility information is updated every month. The presentation of a card is not verification of eligibility. It is each provider’s responsibility to ensure that their patient is eligible for the services rendered. A client may state that he/she is covered by Medicaid, but not have any proof of eligibility. This can occur if the client is newly eligible or if his/her card was lost. Providers have several options when checking patient eligibility.

3.8.1 Free Services

The following is a list of free services offered by Medicaid for verifying client eligibility:

- Contact Provider Relations. There is a limit of three (3) verifications per call but no limit on the number of calls.
- Fax a list of identifying information to Provider Relations for verification. Send a list of beneficiaries for verification and receive a response within ten (10) business days.
- Call the Interactive Voice Response (IVR) System. IVR is available 24-hours a day, seven (7) days a week. The IVR System allows 30 minutes per phone call. (2.1, Quick Reference).
- Use the Ask Wyoming Medicaid feature on the Secured Provider Web Portal (2.1, Quick Reference).

3.8.2 Fee for Service
Several independent vendors offer web-based applications and/or swipe card readers that electronically check the eligibility of Medicaid clients. These vendors typically charge a monthly subscription and/or transaction fee. A complete list of approved vendors is available on the Medicaid website.

### 3.9 Freedom of Choice

Any eligible non-restricted client may select any provider of health services in Wyoming who participates in the Medicaid Program, unless Medicaid specifically restricts his/her choice through provider lock-in or an approved Freedom of Choice waiver. However, payments can be made only to health service providers who are enrolled in the Medicaid Program.

### 3.10 Out-of-State Service Limitations

Medicaid covers services rendered to Medicaid clients when providers participating in the Medicaid Program administer the services. If services are available in Wyoming within a reasonable distance from the client’s home, the client must not utilize an out-of-state provider.

Medicaid has designated the Wyoming Medical Service Area (WMSA) to be Wyoming and selected border cities in adjacent states. WMSA cities include:

<table>
<thead>
<tr>
<th>Colorado</th>
<th>Montana</th>
<th>South Dakota</th>
</tr>
</thead>
<tbody>
<tr>
<td>Craig</td>
<td>Billings</td>
<td>Deadwood</td>
</tr>
<tr>
<td>Idaho</td>
<td></td>
<td>Deadwood</td>
</tr>
<tr>
<td>Montpelier</td>
<td>Bozeman</td>
<td>Custer</td>
</tr>
<tr>
<td>Pocatello</td>
<td></td>
<td>Rapid City</td>
</tr>
<tr>
<td>Idaho Falls</td>
<td>Scottsbluff</td>
<td>Spearfish</td>
</tr>
</tbody>
</table>

**Utah**
Salt Lake City
Ogden

**Nebraska**
Kimball

NOTE: The cities of Greeley, Fort Collins, and Denver, Colorado are excluded from the WMSA and are not considered border cities.

Medicaid compensates out-of-state providers within the WMSA when:

- The service is not available locally and the border city is closer for the Wyoming resident than a major city in Wyoming; and
- The out-of-state provider in the selected border city is enrolled in Medicaid.
Medicaid compensates providers outside the WMSA only under the following conditions:

- **Emergency Care** – When a client is traveling and an emergency arises due to accident or illness.
- **Other Care** – When a client is referred by a Wyoming physician to a provider outside the WMSA for services not available within the WMSA. The referral must be documented in the provider’s records. Prior authorization is not required unless the specific service is identified as requiring prior authorization (6.14, Prior Authorization).
- Children in out-of-state placement.

If the provider is an out-of-state, non-enrolled provider and renders services to a Medicaid client, the provider may choose to enroll in the Medicaid Program and submit the claim according to Medicaid billing instructions, or bill the client.

Out-of-state providers furnishing services within the state on a routine or extended basis must meet all of the certification requirements of the State of Wyoming. The provider must enroll in Medicaid prior to furnishing services.

### 3.11 Record Keeping, Retention and Access

#### 3.11.1 Requirements

The Provider Agreement requires that the medical and financial records fully disclose the extent of services provided to Medicaid clients. The following elements include but are not limited to:

- The record must be typed or legibly written.
- The record must identify the client on each page.
- The record must contain a preliminary working diagnosis and the elements of a history and physical examination upon which the diagnosis is based.
- All services, as well as the treatment plan, must be entered in the record. Any drugs prescribed as part of a treatment, including the quantities and the dosage, must be entered in the record. For any drugs administered, the NDC on the product must be recorded, as well as the lot number and expiration date.
- The record must indicate the observed medical condition of the client, the progress at each visit, any change in diagnosis or treatment, and the client’s response to treatment. Progress notes must be written for every service, including, but not limited to: office, clinic, nursing home, or hospital visits billed to Medicaid.
- Total treatment minutes of the client, including those minutes of active treatment reported under the timed codes and those minutes represented by the
untimed codes, must be documented separately, to include beginning time and ending time for services billed.

NOTE: Specific or additional documentation requirements may be listed in the covered services sections or designated policy manuals.

3.11.2 Retention of Records

The provider must retain medical and financial records, including information regarding dates of service, diagnoses, and services provided, and bills for services for at least six (6) years from the end of the State fiscal year (July through June) in which the services were rendered. If an audit is in progress, the records must be maintained until the audit is resolved.

3.11.3 Access to Records

Under the Provider Agreement, the provider must allow access to all records concerning services and payment to authorized personnel of-Medicaid, CMS Comptroller General of the United States, State Auditor’s Office (SAO), the Office of the Inspector General (OIG), the Wyoming Attorney General’s Office, the United States Department of Health and Human Services, and/or their designees. Records must be accessible to authorized personnel during normal business hours for the purpose of reviewing, copying and reproducing documents. Access to the provider records must be granted regardless of the providers continued participation in the program.

In addition, the provider is required to furnish copies of claims and any other documentation upon request from Medicaid and/or their designee.

3.11.4 Audits

Medicaid has the authority to conduct routine audits to monitor compliance with program requirements.

Audits may include, but are not limited to:

- Examination of records;
- Interviews of providers, their associates, and employees;
- Interviews of clients;
- Verification of the professional credentials of providers, their associates, and their employees;
- Examination of any equipment, stock, materials, or other items used in or for the treatment of clients;
- Examination of prescriptions written for clients;
- Determination of whether the healthcare provided was medically necessary;
- Random sampling of claims submitted by and payments made to providers; and/or
- Audit of facility financial records for reimbursement.
- Actual records reviewed may be extrapolated and applied to all services billed by the provider.

The provider must grant the State and its representative’s access during regular business hours to examine medical and financial records related to healthcare billed to the program. Medicaid notifies the provider before examining such records.

Medicaid reserves the right to make unscheduled visits i.e., when the client’s health may be endangered, when criminal/fraud activities are suspected, etc.

Medicaid is authorized to examine all provider records in that:

- All eligible clients have granted Medicaid access to all personal medical records developed while receiving Medicaid benefits.
- All providers who have at any time participated in the Medicaid Program, by signing the Provider Agreement, have authorized the State and their designated agents to access the provider’s financial and medical records.
- Provider’s refusal to grant the State and its representative’s access to examine records or to provide copies of records when requested may result in:
  - Immediate suspension of all Medicaid payments.
  - All Medicaid payments made to the provider during the six (6)-year record retention period for which records supporting such payments are not produced shall be repaid to the Division of Healthcare Financing after written request for such repayment is made.
  - Suspension of all Medicaid payments furnished after the requested date of service.
  - Reimbursement will not be reinstated until adequate records are produced or are being maintained.
  - Prosecution under the Wyoming Statute.

### 3.12 Tamper Resistant RX Pads

On May 25, 2007, Section 7002(b) of the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act of 2007 was signed into law.

The above law requires that ALL written, non-electronic prescriptions for Medicaid outpatient drugs must be executed on tamper-resistant pads in order for them to be reimbursable by the federal government. All prescriptions paid for by Medicaid must meet the following requirements to help insure against tampering:
• Written Prescriptions: As of October 1, 2008 prescriptions, must contain all three (3) of the following characteristics:
  1. One (1) or more industry-recognized features designed to prevent unauthorized copying of a completed or blank prescription form. In order to meet this requirement all written prescriptions must contain:
     ▪ Some type of “void” or illegal pantograph that appears if the prescription is copied.
     ▪ May also contain any of the features listed within category one, recommendations provided by the National Council for Prescription Drug Programs (NCPDP) or that meets the standards set forth in this category.
  2. One (1) or more industry-recognized features designed to prevent the erasure or modification of information written on the prescription by the prescriber. This requirement applies only to prescriptions written for controlled substances. In order to meet this requirement all written prescriptions must contain:
     ▪ Quantity check-off boxes PLUS numeric form of quantity values OR alpha and numeric forms of quantity value.
     ▪ Refill Indicator (circle or check number of refills or “NR”) PLUS numeric form of refill values OR alpha AND numeric forms of refill values.
     ▪ May also contain any of the features listed within category two, recommendations provided by the NCPDP, or that meets the standards set forth in this category.
  3. One (1) or more industry-recognized features designed to prevent the use of counterfeit prescription forms. In order to meet this requirement all written prescriptions must contain:
     ▪ Security features and descriptions listed on the FRONT of the prescription blank.
     ▪ May also contain any of the features listed within category three (3), recommendations provided by the NCPDP, or that meets that standards set forth in this category.

• Computer Printed Prescriptions: As of October 1, 2008 prescriptions, must contain all three (3) of the following characteristics:
  1. One (1) or more industry-recognized features designed to prevent unauthorized copying of a completed or blank prescription form. In order to meet this requirement all prescriber’s computer generated prescriptions must contain:
     ▪ Same as Written Prescription for this category.
  2. One (1) or more industry-recognized features designed to prevent the erasure or modification of information printed on the prescription by
the prescriber. In order to meet this requirement all computer generated prescriptions must contain:

- Same as Written Prescription for this category.

3. One (1) or more industry-recognized features designed to prevent the use of counterfeit prescription forms. In order to meet this requirement all prescriber’s computer generated prescriptions must contain:

- Security features and descriptions listed on the FRONT or BACK of the prescription blank.
- May also contain any of the features listed within category three (3), recommendations provided by the NCPDP, or that meets the standards set forth in this category.

In addition to the guidance outlined above, the tamper-resistant requirement does not apply when a prescription is communicated by the prescriber to the pharmacy electronically, verbally, or by fax; when a managed care entity pays for the prescription; or in most situations when drugs are provided in designated institutional and clinical settings. The guidance also allows emergency fills with a non-compliant written prescription as long as the prescriber provides a verbal, faxed, electronic, or compliant written prescription within 72-hours.

Audits of pharmacies will be performed by the Wyoming Department of Health, to ensure that the above requirement is being followed. If the provider has any questions about these audits or this regulation, please contact the Pharmacy Program Manager at (307)777-7531.
4.1 Utilization Review

The Division of Healthcare Financing (DHCF) has established a Program Integrity Unit whose duties include, but are not limited to:

- Review of claims submitted for payment (pre and post payment reviews)
- Review of medical records and documents related to covered services
- Audit of medical records and client interviews
- Review of client Explanation of Medical Benefits (EOMB) responses
- Operation of the Surveillance/Utilization Review (SUR) process
- Provider screening and monitoring
- Program compliance and enforcement

4.2 Complaint Referral

The Program Integrity Unit reviews complaints regarding inappropriate use of services from providers and clients. No action is taken without a complete investigation. To file a complaint, please submit the details in writing and attach supporting documentation to:

Program Integrity Unit
Division of Healthcare Financing
6101 Yellowstone Rd., Suite 210
Cheyenne, WY 82002
Or contact: (855) 846-2563
Or email: https://health.wyo.gov/healthcarefin/program-integrity/

4.3 Release of Medical Records

Every effort is made to ensure the confidentiality of records in accordance with Federal Regulations and Wyoming Medicaid Rules. Medical records must be released to the agency or its designee. The signed Provider Agreement allows the Division of Healthcare Financing or its designated agent’s access to all medical and financial records. In addition, each client agrees to the release of medical records to the Division of Healthcare Financing when they accept Medicaid benefits.

The Division of Healthcare Financing will not reimburse for the copying of medical records when the Division or its designated agents requests records.
4.4 Client Lock-In

In designated circumstances, it may be necessary to restrict certain services or “lock-in” a client to a certain physician, hospice, pharmacy or other provider. If a lock-in restriction applies to a client, the lock-in information is provided on the Interactive Voice Response System (2.1, Quick Reference).

A participating Medicaid provider who is not designated as the client’s primary practitioner may provide and be reimbursed for services rendered to lock-in clients only under the following circumstances:

- In a medical emergency where a delay in treatment may cause death or result in lasting injury or harm to the client.
- As a physician covering for the designated primary physician or on referral from the designated primary physician.

In cases where lock-in restrictions are indicated, it is the responsibility of each provider to determine whether he/she may bill for services provided to a lock-in client. Contact Provider Relations in circumstances where coverage of a lock-in client is unclear. Refer to the Medicaid Pharmacy Provider Manual (2.1, Quick Reference).

4.5 Pharmacy Lock-In

The Medicaid Pharmacy Lock-In Program limits certain Medicaid clients to receiving prescription services from multiple prescribers and utilizes multiple pharmacies within a designated time period is a candidate for the Lock-In Program.

When a pharmacy is chosen to be a client’s designated Lock-In provider, notification is sent to that pharmacy with all important client identifying information. If a Lock-In client attempts to fill a prescription at a pharmacy other than their Lock-In pharmacy, the claim will be denied with an electronic response of “NON-MATCHED PHARMACY NUMBER-Pharmacy Lock-In”.

Pharmacies have the right to refuse Lock-In provider status for any client. The client may be counseled to contact the Medicaid Pharmacy Case Manager at (307)777-8773 in order to obtain a new provider designation form to complete.

Expectations of a Medicaid designated Lock-In pharmacy:

- Medicaid pharmacy providers should be aware of the Pharmacy Lock-In Program and the criteria for client lock-in status as stated above. The entire pharmacy staff should be notified of current Lock-In clients.
- Review and monitor all drug interactions, allergies duplicate therapy, and seeking of medications from multiple prescribers. Be aware that the client is locked-in when “refill too soon” or “therapeutic duplication” edits occur. Cash payment for controlled substances should serve as an alert and require further review. Gather additional information which may include, but is not limited to, asking the client for more information and/or contacting the prescriber. Document findings and outcomes. The Wyoming Board of Pharmacy will be
contacted when early refills and cash payment are allowed without appropriate clinical care and documentation.

When doctor shopping for controlled substances is suspected, please contact the Medicaid Pharmacy Case Manager at (307)777-8773. The Wyoming Online Prescription Database (WORx) is online with 24/7 access for practitioners and pharmacists. The WORx program is managed by the Wyoming Board of Pharmacy at [http://worxpdpmp.com/](http://worxpdpmp.com/) to view client profiles with all scheduled II through IV prescriptions the client has received. The Wyoming Board of Pharmacy may be reached at (307)634-9636 to answer questions about WORx.

**EMERGENCY LOCK-IN PRESCRIPTIONS**

If the dispensing pharmacist feels that in his/her professional judgment a prescription should be filled and they are not the Lock-In provider, they may submit a hand-billed claim to Goold Health Systems (GHS), an Emdeon company for review ([2.1, Quick Reference](#)). Overrides may be approved for true emergencies (auto accidents, sudden illness, etc.).

Any Wyoming Medicaid client suspected of controlled substance abuse, diversion, or doctor shopping should be referred to the Medicaid Pharmacy Case Manager.

- Pharmacy Case Manager (307)777-8773 or
- Fax referrals to (307)777-6964.
- Referral forms may be found on the Pharmacy website ([2.1, Quick Reference](#)).

### 4.6 Hospice Lock-In

Clients requesting coverage of hospice services under Wyoming Medicaid are locked-in to the hospice for all care related to their terminal illness. All services and supplies must be billed to the hospice provider, and the hospice provider will bill Wyoming Medicaid for covered services. For more information regarding the hospice program, refer to the Institutional Provider Manual on the Medicaid website ([2.1, Quick Reference](#)).

### 4.7 Fraud and Abuse

The Medicaid Program operates under the anti-fraud provisions of Section 1909 of the Social Security Act, as amended, and employs utilization management, surveillance, and utilization review. The Program Integrity Unit’s function is to perform pre- and post-payment review of services funded by Medicaid. Surveillance is defined as the process of monitoring for service and controlling improper or illegal utilization of the program. While the surveillance function addresses administrative concerns, utilization review addresses medical concerns and may be defined as monitoring and controlling the quality and appropriateness of medical services.
delivered to Medicaid clients. Medicaid may utilize the services of a Professional Review Organization (PRO) to assist in these functions.

Since payment of claims is made from both State and Federal funds, submission of false or fraudulent claims, statements, documents or concealment of material facts may be prosecuted as a felony in either Federal or State court. The program has processes in place for referral to the Medicaid Fraud Control Unit (MFCU) when suspicion of fraud and abuse arise.

Medicaid has the responsibility, under Federal Regulations and Medicaid Rules, to refer all cases of credible allegations of fraud and abuse to the MFCU. In accordance with 42 CFR Part 455, and Medicaid Rules, the following definitions of fraud and abuse are used:

<table>
<thead>
<tr>
<th>Fraud</th>
<th>“An intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes fraud under applicable Federal or State law.”</th>
</tr>
</thead>
<tbody>
<tr>
<td>Abuse</td>
<td>“Provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the Medicaid program or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for healthcare. It also includes recipient practices that result in unnecessary cost to the Medicaid Program.”</td>
</tr>
</tbody>
</table>

### 4.8 Provider Responsibilities

The provider is responsible for reading and adhering to applicable State and Federal regulations and the requirements set forth in this manual. The provider is also responsible for ensuring that all employees are likewise informed of these regulations and requirements. The provider certifies by his/her signature or the signature of his/her authorized agent on each claim or invoice for payment that all information provided to Medicaid is true, accurate, and complete. Although claims may be prepared and submitted by an employee, billing agent or other authorized person, providers are responsible for ensuring the completeness and accuracy of all claims submitted to Medicaid.
4.9 Referral of Suspected Fraud and Abuse

If a provider becomes aware of possible fraudulent or program abusive conduct/activity by another provider, or eligible client, the provider should notify the Program Integrity Unit in writing. Return a completed Report of Suspected Abuse of the Medicaid Healthcare System to or call or reference the below website:

Program Integrity Unit  
Division of Healthcare Financing  
6101 Yellowstone Rd., Suite 210  
Cheyenne, WY 82002  
Or contact: (855)846-2563  
https://health.wyo.gov/healthcarefin/program-integrity/

4.9.1 Report of Suspected Abuse of the Medicaid Healthcare System

NOTE: Click image above to be taken to a printable version of this form.

4.10 Sanctions

The Division of Healthcare Financing (DHCF) may invoke administrative sanctions against a Medicaid provider when a credible allegation of fraud abuse, waste, non-compliance (i.e., Provider Agreement and/or Medicaid Rules) exists or who is under sanction by another regulatory entity (i.e. Medicare, licensing boards, OIG, or other Medicaid designated agents).

Providers who have had sanctions levied against them may be subject to prohibitions or additional requirements as defined by Medicaid Rules (2.1, Quick Reference).
4.11 Adverse Actions

Providers and clients have the right to request an administrative hearing regarding an adverse action, after reconsideration, taken by the Division of Healthcare Financing. This process is defined in Wyoming Medicaid Rule, Chapter 4, entitled “Medicaid Administrative Hearings”.

5.1 What is Medicaid?

Medicaid is a health coverage program jointly funded by the Federal government and the State of Wyoming. The program is designed to help pay for medically necessary healthcare services for children, pregnant women, family Modified Adjusted Gross Income (MAGI) adults and the aged, blind or disabled.

5.2 Who is Eligible?

Eligibility is generally based on family income and sometimes resources and/or healthcare needs. Federal statutes define more than 50 groups of individuals that may qualify for Medicaid coverage. There are four (4) broad categories of Medicaid eligibility in Wyoming:

- Children;
- Pregnant women;
- Family MAGI Adults; and
- Aged, Blind, or Disabled.

5.2.1 Children

- Newborns are automatically eligible if the mother is Medicaid eligible at the time of the birth.
- Low Income Children are eligible if family income is at or below 133% federal poverty level (FPL) or 154% FPL, dependent on age of the child.
- Presumptive Eligibility (PE) for Children allows temporary coverage for a child who meets eligibility criteria for the full Children’s Medicaid program.
  - PE Coverage will end the date a determination is made on the full Medicaid application or the last day of the next month after PE is approved if a full Medicaid application is not submitted.
- Foster Care Children in Department of Family Services (DFS) custody are eligible in different income levels including some who enter subsidized adoption or who age out of foster care until they are age 26.
- Presumptive Eligibility (PE) for Former Foster Youth allows temporary coverage for a person who meets eligibility criteria for the full Former Foster Youth Medicaid.
  - PE Coverage will end the date a determination is made on the full Medicaid application or the last day of the next month after PE is approved if a full Medicaid application is not submitted.
5.2.2 Pregnant Women

- Pregnant Women are eligible if family income is at or below 154% FPL. Women with income less than or equal to the MAGI conversion of the 1996 Family Care Standard must cooperate with child support to be eligible.
- Presumptive Eligibility (PE) for Pregnant Women allows temporary outpatient coverage for a pregnant woman who meets eligibility criteria for the full Pregnant Woman Medicaid program.
  - PE Coverage will end the date a determination is made on the full Medicaid application or the last day of the next month after PE is approved if a full Medicaid application is not submitted.

5.2.3 Family MAGI Adult

- Family MAGI Adults (caretaker relatives with a dependent child) are eligible if family income is at or below the MAGI conversion of the 1996 Family Care Standard.
- Presumptive Eligibility (PE) for Caretaker Relatives allows temporary coverage for the parent or caretaker relative of a Medicaid eligible child who meets eligibility criteria for the full Family MAGI Medicaid program.
  - PE Coverage will end the date a determination is made on the full Medicaid application or the last day of the next month after PE is approved if a full Medicaid application is not submitted.

5.2.4 Aged, Blind or Disabled

5.2.4.1 Supplemental Security Income (SSI) and SSI Related

- SSI – A person receiving SSI automatically qualifies for Medicaid
- SSI Related – A person no longer receiving SSI payment may be eligible using SSI criteria.

5.2.4.2 Institution

All categories are income eligible up to 300% SSI Standard.

- Nursing Home
- Hospital
- Hospice
- ICF ID – Wyoming Life Resource Center
- INPAT-PSYCH – WY State Hospital – clients are 65 years and older.
5.2.4.3 Home and Community Based Waiver

All waiver groups are income eligible when income is less than or equal to 300% SSI Standard.

- Acquired Brain Injury
- Community Choice
- Children’s Mental Health
- Comprehensive
- Supports

5.2.5 Other

5.2.5.1 Special Groups

- **Breast and Cervical Cancer (BCC) Treatment Program** – Uninsured women diagnosed with breast or cervical cancer are income eligible at or below 100% FPL
- Presumptive Eligibility (PE) for BCC allows temporary coverage for a woman who meets eligibility criteria for the full BCC Medicaid program.
  - PE Coverage will end the date a determination is made on the full Medicaid application or the last day of the next month after PE is approved if a full Medicaid application is not submitted.
- **Tuberculosis (TB) Program** – Individuals diagnosed with tuberculosis are eligible based on the SSI Standard.
- **Program for All Inclusive Care for the Elderly (PACE)** – Individuals over the age of 55 assessed to be in need of nursing home level of care receive all services coordinated through the PACE provider. This program is currently available in Laramie County only.

5.2.5.2 Employed Individuals with Disabilities (EID)

As of 9/1/17 Employed Individuals with Disabilities are income eligible when income is less than or equal to 100% SSI using unearned income and must pay a premium calculated using total gross income.

5.2.5.3 Medicare Savings Programs

- Qualified Medicare Beneficiaries (QMB) are income eligible at or below 100% FPL. Benefits include payment of Medicare premiums, deductibles, and cost sharing.
- Specified Low Income Beneficiaries (SLMB) are income eligible at or below 135% FPL. Benefits include payment of Medicare premiums only.
5.2.5.4 Non-Citizens with Medical Emergencies (ALEN)

A non-citizen who meets all eligibility factors under a Medicaid group except for citizenship and social security number is eligible for emergency services. This does not include dental services.

5.3 Maternal and Child Health (MCH)

Maternal and Child Health (MCH) provides services for high-risk pregnant women, high-risk newborns and children with special healthcare needs through the Children’s Special Health (CSH) program. The purpose is to identify eligible clients, assure diagnostic and treatment services are available, provide payment for authorized specialty care for those eligible, and provide care coordination services. CSH does not cover acute or emergency care.

- A client may be eligible only for a MCH program or may be dually eligible for a MCH program or other Medicaid programs. Care coordination for both MCH only and dually eligible clients is provided through the Public Health Nurse (PHN).
- MCH has a dollar cap and limits on some services for those clients who are eligible for MCH only.
- Contact MCH for the following information:
  - The nearest Public Health Nurse (PHN)
  - Questions related to eligibility determination
  - Questions related to the type of services authorized by MCH.

Maternal & Child Health
6101 N. Yellowstone Rd., Ste. 420
Cheyenne, WY 82002
(800)438-5795 or Fax: (307)777-7215

Providers must be enrolled with Medicaid and MCH to receive payment for MCH services. Claims for both programs are submitted to and processed by the fiscal agent for Wyoming Medicaid (2.1, Quick Reference). Providers are asked to submit the medical record to CSH in a timely manner assure coordination of referrals and services.

5.4 Eligibility Determination

5.4.1 Applying for Medicaid

- Persons applying for Children, Pregnant Women and/or Family MAGI Adult programs may complete the Application for Wyoming’s Healthcare Coverage, which is also used for the Kid Care CHIP program. The application may be
mailed to the Wyoming Department of Health (WDH). Applicants may also apply online at https://www.wesystem.wyo.gov/ or by telephone at 1-855-294-2127.

- Presumptive Eligibility (PE) applicants may also apply through a qualified provider or qualified hospital for the PE programs.

### 5.4.2 Determination

Eligibility determination is conducted by the Wyoming Department of Health Customer Service Center (CSC) or the Long Term Care (LTC) Unit centrally located in Cheyenne, WY [2.1, Quick Reference].

Persons who want to apply for programs offered through the Department of Family Services (DFS), such as Supplemental Nutrition Assistance Program (SNAP) or Child Care need to apply in person at their local DFS office. Persons applying for Supplemental Security Income (SSI) need to contact the Social Security Administration (SSA) [2.1, Quick Reference].

Medicaid assumes no financial responsibility for services rendered prior to the effective date of client eligibility as determined by the WDH or the SSA. However, the effective date of eligibility as determined by the WDH may be retroactive up to 90-days prior to the month in which the application is filed, as long as the client meets eligibility criteria during each month of the retroactive period. If the SSA deems the client eligible, the period of original entitlement could precede the application date beyond the 90-day retroactive eligibility period and/or the 12-month timely filing deadline for Medicaid claims [7.19, Timely Filing]. This situation could arise for the following reasons:

- Administrative Law Judge decisions or reversals.
- Delays encountered in processing applications or receiving necessary client information concerning income or resources.
5.5 Client Identification Cards

A Medicaid ID Card is mailed to clients upon enrollment in the Medicaid Program or other health programs such as the AIDS Drug Assistance Program (ADAP), Children’s Special Health (CSH), and Prescription Drug Assistance Program (PDAP). Not all programs receive a Medicaid ID Card, to confirm if a plan generates a card or not refer to the “card” indicator on the Medicaid and State Benefit Plan Guide.

If you have been on Medicaid previously and have reapplied you will not receive a new Medicaid card. If you would like a new card, please call 1-800-251-1269.

Sample Medicaid ID card:

5.6 Other Types of Eligibility Identification

5.6.1 Medicaid Approval Notice

In some cases, a provider may be presented with a copy of a Medicaid Approval Notice in lieu of the client’s Medicaid ID Card. Providers should always verify eligibility before rendering services to a client who presents a Medicaid Approval Notice.

NOTE: Refer to “Verification Options” (3.8, Verification Options) on ways to verify a client’s eligibility.

6.1 Electronic Billing

As of July 1, 2015 Wyoming Medicaid requires all providers to submit electronically. There are two (2) exceptions to this requirement:

- Providers who do not submit at least 25 claims in a calendar year.
- Providers who do not bill diagnosis codes on their claims.

If a provider is unable to submit electronically, the provider must submit a request for an exemption in writing and must include:

- Provider name, NPI, contact name and phone number
- The calendar year for which the exemption is being requested
- Detailed explanation of the reason for the exemption request. Mail to:

  Wyoming Medicaid  
  Attn: Provider Relations  
  PO Box 667  
  Cheyenne, WY 82003-0667

A new exemption request must be submitted for each calendar year. Wyoming Medicaid has free software or applications available for providers to bill electronically ([Chapter 10, Electronic Data Interchange (EDI)]).

6.2 Basic Claim Information

The fiscal agent processes paper CMS-1500 and UB04 claims using Optical Character Recognition (OCR). OCR is the process of using a scanner to read the information on a claim and convert it into electronic format instead of being manually entered. This process improves accuracy and increases the speed at which claims are entered into the claims processing system. The quality of the claim will affect the accuracy in which the claim is processed through OCR.

The following is a list of tips to aid providers in avoiding paper claims processing problems with OCR:

- Use an original, standard, red-dropout form (CMS-1500 (08/05) and UB04).
- Use typewritten print; for best results use a laser printer.
- Use a clean, non-proportional font.
- Use black ink.
- Print claim data within the defined boxes on the claim form.
- Print only the information asked for on the claim form.
- Use all capital letters.
- Use correction tape for corrections.
To avoid delays in the processing of claims it is recommended that providers avoid the following:

- Using copies of claim forms.
- Faxing claims.
- Using fonts smaller than 8 point.
- Handwritten information on the claim form.
- Entering “none”, “NA”, or “Same” if there is no information (leave the box blank).
- Mixing fonts on the same claim form.
- Using italics or script fonts.
- Printing slashed zeros.
- Using highlighters to highlight field information.
- Using stamps, labels, or stickers.
- Marking out information on the form with a black marker.

Claims that do not follow Medicaid provider billing policies and procedures will be returned unprocessed with a letter. When a claim is returned because of billing errors and/or missing attachments, the provider may correct the claim and return it to Medicaid for processing.

**NOTE:** The fiscal agent and the Division of Healthcare Financing (DHCF) are prohibited by federal law from altering a claim.

Billing errors detected after a claim is submitted cannot be corrected until after Medicaid has made payment or notified the provider of the denial. Providers should not resubmit or attempt to adjust a claim until it is reported on their Remittance Advice (6.18, Resubmitting Versus Adjusting Claims).

**NOTE:** Claims are to be submitted only after service(s) have been rendered, not before. For deliverable items (i.e. dentures, DME, glasses, hearing aids, etc.) the date of service must be the date of delivery, not the order date.

### 6.3 Authorized Signatures

All paper claims must be signed by the provider or the provider’s authorized representative. Acceptable signatures may be either handwritten, a stamped facsimile, typed, computer generated, or initialed. The signature certifies all information on the claim is true, accurate, complete, and contains no false or erroneous information. Remarks such as signature on file or facility names will not be accepted.
### 6.4 Completing the UB-04 Claim Form

#### 6.4.1 Instructions for Completing the UB-04 Claim Form

6.5 Medicare Crossovers

Medicaid processes claims for Medicare/Medicaid services when provided to a Medicaid eligible client.
6.5.1 General information

- Dually eligible clients are clients that are eligible for Medicare and Medicaid.
- Providers may verify Medicare and Medicaid eligibility through the IVR (2.1, Quick Reference).
- Providers must accept assignment of claims for dually eligible clients.
- Be sure Wyoming Medicaid has record of all applicable NPIs under which the provider is submitting to Medicare to facilitate the electronic crossover process.
- Medicaid reimburses the lesser of the assigned coinsurance and deductible amounts or the difference between the Medicaid allowable and the Medicare paid amount for dually eligible clients as indicated on the Medicare (Explanation of Medicare Benefits) EOMB.
  - Wyoming Medicaid’s payment is payment in full. The client is not responsible for any amount left over, even if assigned to coinsurance or deductible by Medicare.

6.5.2 Billing Information

- Medicare is primary and must be billed first. Direct Medicare claims processing questions to the Medicare carrier.
- When posting the Medicare payment, the EOMB (Explanation of Medicare Benefits) may state that the claim has been forwarded to Medicaid. **No further action is required**; it has automatically been submitted.
- Medicare transmits electronic claims to Medicaid daily. Medicare transmits all lines on a claim with any Medicare paid claim – if one (1) line pays, and three (3) others are denied by Medicare, all four (4) lines will be transmitted to Wyoming Medicaid.
- The time limit for filing Medicare crossover claims to Medicaid is 12 months from the date of service or six (6) months from the date of the Medicare payment, whichever is later.
- **If payment is not received from Medicaid after 45-days of the Medicare payment, submit a claim to Medicaid and include the COB (Coordination of Benefits) information in the electronic claim.** The line items on the claim being submitted to Medicaid must be exactly the same as the claim submitted to Medicare, except when Medicare denies then the claim must conform to Medicaid policy.
- If a paper claim is being submitted, the EOMB must be attached. If the Medicare policy is a replacement/advantage or supplement, this information must be noted (it can be hand written) on the EOMB.

**NOTE:** Do not resubmit a claim for coinsurance or deductible amounts unless you have waited 45-days from Medicare’s payment date. A provider’s claims may be returned if submitted without waiting the 45-days after the Medicare payment date.
6.6 Examples of Billing

6.6.1 Client has Medicaid Coverage Only

---

**Example Billing Statement**

**Bill to: WYOMING MEDICAID**

**PO BOX 667**

**Cheyenne, WY 82003-0667**

**TAX EXEMPT**

**Date:** 06/03/15

**Total:** $11,093.28

**Services Rendered:**

- Room & Board/Semi: $979.00
- Pharmacy: $1,172.42
- IV Therapy: $881.10
- Med-Sur Supplies: $1,404.04
- Sterile Supply: $235.62
- Laboratory or Lab: $270.20
- Path Lab: $130.60
- Path Lab: $157.50
- Anesthesia: $153.00
- Respiratory: $142.30
- Recovery Room: $113.50
- Laboratory Fee: $135.00

**Other Information:**

**Provider:** SAMPLE, CLIENT

**Tax ID:** 0612345678

**Insurance Information:**

- Medicaid

---

**Institutional/UB**
6.6.2 Client has Medicaid and Medicare

NOTE: When client has dual coverage, (Medicaid and Medicare) attach the EOMB to the claim.
### 6.6.3 Client has Medicaid and Third Party Liability (TPL)

**NOTE:** If the client has both Medicare and TPL in addition to Medicaid, attach the TPL EOB and the Medicare EOMB to the claim. If the client has TPL and Medicaid but no Medicare, attach the TPL EOB to the claim.
6.6.4 Client has Medicaid, TPL and Medicare

NOTE: If the client has both Medicare and TPL in addition to Medicaid, attach the TPL EOB and the Medicare EOMB to the claim. If the client has TPL and Medicaid but no Medicare, attach the TPL EOB to the claim.
6.7 Provider Preventable Conditions (PPC)

The following conditions are Health Care-Acquired Conditions (HCACs) and will be denied in any Medicaid inpatient hospital setting:

- Foreign object retained after surgery
- Air Embolism
- Blood Incompatibility
- Stage III and IV Pressure Ulcers
- Falls and Trauma; including fractures, dislocations, intracranial injuries, crushing injuries, burns, electric shock
- Catheter-Associated Urinary Tract Infection (UTI)
- Vascular catheter-associated infection
- Manifestations of poor Glycemic control including: Diabetic Ketoacidosis, Nonketotic Hyperosmolar Coma, Hypoglycemic Coma, Secondary Diabetes with Ketoacidosis, Secondary Diabetes with Hyperosmolarity
- Surgical site infections following:
  - Coronary artery bypass graft (CABG) – Mediastinitis
  - Bariatric Surgery; including Laparoscopic Gastric Bypass, Gastroenterostomy, Laparoscopic Gastric Restrictive Surgery
  - Orthopedic Procedures; including Spine, Neck, Shoulder, Elbow
- Deep Vein Thrombosis (DVT) / Pulmonary Embolism (PE) following Total Knee Replacement or Hip Replacement with pediatric and obstetric exceptions
- Iatrogenic Pneumothorax with Venous Catheterization
- Surgical Site Infection Following Cardiac Implantable Electronic Device (CIED)

The following are Outpatient Provider Preventable Conditions (OPPC) and will be denied in any health care setting:

- Wrong Surgical or other invasive procedure performed on a patient.
- Surgical or other invasive procedure performed on the wrong body part.
- Surgical or other invasive procedure performed on the wrong patient.

6.7.1 Providers Included in the PPC Review

Under Medicaid, the State must deny payments in any inpatient hospital setting for the identified PPCs. This includes Medicare’s inpatient prospective payment system (IPPS) hospitals, as well as other inpatient hospital settings that may be IPPS exempt under Medicare. This also includes facilities that States identify as inpatient hospital settings in their Medicaid plans, critical access hospitals (CAHs) that operate as inpatient hospitals and psychiatric hospitals.

6.7.2 Present on Admission (POA) Indicator

Wyoming Medicaid requires POA indicators on all inpatient hospital for all hospital types participating in Wyoming Medicaid. Wyoming Medicaid has adopted
Medicare’s list of exempt ICD-10 diagnosis codes. The list of diagnosis codes exempt from the POA requirement can be found at:

https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalAcqCond/Hospital-Acquired_Conditions.html

**Wyoming’s Health Care-Acquired Condition Inpatient Payment Adjustment Process.**

- At the end of each quarter, identify inpatient claims from the prior quarter for non-exempt hospitals with non-principle diagnosis codes falling into one (1) of the 11 Hospital-Acquired Condition (HAC) categories.
- Request POA indicator information from the hospitals for each of the claims identified in Step 1. *Effective January 1, 2012, review POA indicators submitted on the claim instead of requesting information from hospitals.*
- Review POA indicator information submitted by the hospitals and, based on the indicator, take the following actions:

<table>
<thead>
<tr>
<th>POA Indicator</th>
<th>Definition</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Y</td>
<td>Diagnosis was present at time of inpatient admission</td>
<td>Claim is not a HAC. Drop from HAC adjustment consideration.</td>
</tr>
<tr>
<td>N</td>
<td>Diagnosis was not present at time of inpatient admission.</td>
<td>Claim is a HAC. Request adjusted claim from the hospital (see Step 4).</td>
</tr>
<tr>
<td>U</td>
<td>Documentation insufficient to determine if condition was present at the time of inpatient admission.</td>
<td>Request medical records related to the claim to determine appropriateness of the “U” indicator assignment (see Step 6).</td>
</tr>
<tr>
<td>W</td>
<td>Clinically undetermined. Provider unable to clinically determine whether the condition was present at the time of inpatient admission.</td>
<td>Claim cannot be confirmed as a HAC. Drop from HAC adjustment consideration.</td>
</tr>
<tr>
<td>Blank</td>
<td>Exempt from POA reporting.</td>
<td>Diagnosis code is not subject to HAC payment policy. Drop claim from adjustment consideration.</td>
</tr>
</tbody>
</table>

- For all claims with a POA indicator of “N”, request that the hospital submit an adjusted claim which identifies all charges associated with the HAC as “non-covered” and all charges not associated with the HAC as “covered.”
- Determine the LOC assignment and outlier payment for each of the adjusted claims received in Step 4. If the total payment is less than what was originally paid for the claim, then request a refund from the hospital for the difference. The fiscal agent for Wyoming Medicaid will maintain a listing of these claims, including the submitted charges and payment, and the adjusted charges and payment.
• Request medical records for all claims identified in Step 3 with a POA indicator of “U” and for a sample of claims with a POA indicator of “Y” (no more than five (5) from each hospital).
  o For claims with a POA indicator of “Y,” review medical record documentation to validate the accuracy of the assignment of the “Y” indicator by verifying that the condition was present on admission. If the review determines that the indicator should be “N,” then proceed to Steps 4 and 5. Further, based on the results of the review, Wyoming Medicaid may request additional claims.
  o For claims with a POA indicator of “U”, review the medical record to determine whether the use of the “U” indicator is appropriate. If the review determines that the indicator should be “N,” then proceed to Steps 4 and 5. If the review determines that the indicator should be “Y,” then the claim is not a HAC. Drop from the HAC adjustment consideration.
  o Wyoming Medicaid will monitor the results and increase or decrease the sample size in each subsequent quarter, as necessary. Wyoming Medicaid may also drop hospitals from future sampling, depending on the results of the first year of reviews.

NOTE: CMS site list: [http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalAcqCond/Hospital-Acquired_Conditions.html](http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalAcqCond/Hospital-Acquired_Conditions.html)

### 6.8 Value Codes

Most frequently used value codes by Wyoming Medicaid providers:

**Value code 54**

- Must be populated on Inpatient and Inpatient crossover claims.
- Must be populated when:
  - Newborn is less than or equal to 29 days old.
  - Inpatient/Inpatient crossover claims will be denied if:
    - If value code 54 is submitted with value of 0 or less
    - Or value code 54 is submitted with value of 10,000 greater
    - Or value code 54 is submitted multiple times on a claim

**Value Code 80 and 81**

Value code 80 is to be billed as covered days and value code 81 is to be billed as non-covered days.

- Value codes and your accommodation units must total the number of days within the coverage period.
6.9 National Drug Code (NDC) Billings Requirement

Effective for dates of service on and after March 1, 2008 Medicaid will require providers to include National Drug Codes (NDCs) on professional and institutional claims when certain drug-related procedure codes are billed. This policy is mandated by the Federal Deficit Reduction Act (DRA) of 2005, which requires state Medicaid programs to collect rebates from drug manufacturers when their products are administered in an office, clinic, hospital or other outpatient setting.

The NDC is a unique 11-digit identifier assigned to a drug product by the labeler/manufacturer under Federal Drug Administration (FDA) regulations. It is comprised of three (3) segments configured in a 5-4-2 format.

\[
\begin{array}{ccc}
6 & 5 & 2 \ 9 \ 3 \ - \ 0 \ 0 \ 0 \ 1 \ - \ 0 \ 1 \\
\hline
\text{Labeler Code} & \text{Product Code} & \text{Package Code} \\
(5 \text{ Digits}) & (4 \text{ Digits}) & (2 \text{ Digits})
\end{array}
\]

Labeler Code – Five (5) digit number assigned by the Food and Drug Administration (FDA) to uniquely identify each firm that manufactures, repacks or distributes drug products.

Product Code – Four (4) digit number that identifies the specific drug, strength and dosage form.

Package Code – Two (2) digit number that identifies the package size.

6.9.1 Converting 10-Digit NDCs to 11 Digits

Many NDCs are displayed on drug products using a ten (10) digit format. However, to meet the requirements of the new policy, NDCs must be billed to Medicaid using the 11-digit FDA standard. Converting an NDC from ten (10) to eleven digits requires the strategic placement of a zero (0). The following table shows three (3) common ten (10) digit NDC formats converted to 11 digits.

<table>
<thead>
<tr>
<th>10-Digit Format</th>
<th>Sample 10-Digit NDC</th>
<th>Required 11-Digit Format</th>
<th>Sample 10-Digit NDC Converted to 11 Digits</th>
</tr>
</thead>
<tbody>
<tr>
<td>99999-9999-99 (4-4-2)</td>
<td>0002-7597-01 Zyprexa 10mg vial</td>
<td>099999-9999-99 (5-4-2)</td>
<td>00002-7597-01</td>
</tr>
<tr>
<td>99999-9999 (5-3-2)</td>
<td>50242-040-62 Xolair 150mg vial</td>
<td>999999-0999-99 (5-4-2)</td>
<td>50242-0040-62</td>
</tr>
<tr>
<td>99999-9999-9 (5-4-1)</td>
<td>60575-4112-1 Synagis 50mg vial</td>
<td>999999-9999-09 (5-4-2)</td>
<td>60575-4112-01</td>
</tr>
</tbody>
</table>
NOTE: Hyphens are used solely to illustrate the various ten (10) and 11 digit formats. Do not use hyphens when billing NDCs.

6.9.2 Documenting and Billing the Appropriate NDC

A drug may have multiple manufacturers so it is vital to use the NDC of the administered drug and not another manufacturer’s product, even if the chemical name is the same. It is important that providers develop a process to capture the NDC when the drug is administered, before the packaging is thrown away. It is not permissible to bill Medicaid with any NDC other than the one (1) administered. Providers should not pre-program their billing systems to automatically utilize a certain NDC for a procedure code that does not accurately reflect the product that was administered to the client.

Clinical documentation must record the NDC from the actual product, not just from the packaging, as these may not match. Documentation must also record the lot number and expiration date for future reference in the event of a health or safety product recall.

6.9.3 Billing Requirements

The requirement to report NDCs on professional and institutional claims is meant to supplement procedure code billing, not replace it. Providers are still required to include applicable procedure code information such as dates of service, CPT/HCPCS code, modifier(s), charges and units.

6.9.4 Submitting One NDC per Procedure Code

If one (1) NDC is to be submitted for a procedure code, the procedure code, procedure quantity and NDC must be reported. No modifier is required.

<table>
<thead>
<tr>
<th>Procedure Code</th>
<th>Modifier</th>
<th>Procedure Quantity</th>
<th>NDC</th>
</tr>
</thead>
<tbody>
<tr>
<td>90378</td>
<td></td>
<td>2</td>
<td>60574-4111-01</td>
</tr>
</tbody>
</table>

6.9.5 Submitting Multiple NDCs per Procedure Code

If two (2) or more NDCs are to be submitted for a procedure code, the procedure code must be repeated on separate lines for each unique NDC. For example, if a provider administers 150 mg of Synagis, a 50 mg vial and a 100 mg vial would be used. Although the vials have separate NDCs, the drug has one (1) procedure code, 90378. So, the procedure code would be reported twice on the claim, but paired with different NDCs.

<table>
<thead>
<tr>
<th>Procedure Code</th>
<th>Modifier</th>
<th>Procedure Quantity</th>
<th>NDC</th>
</tr>
</thead>
<tbody>
<tr>
<td>90378</td>
<td>KP</td>
<td>2</td>
<td>60574-4111-01</td>
</tr>
<tr>
<td>90378</td>
<td>KQ</td>
<td>1</td>
<td>60574-4112-01</td>
</tr>
</tbody>
</table>
On the first line, the procedure code, procedure quantity, and NDC are reported with a KP modifier (first drug of a multi-drug). On the second line, the procedure code, procedure quantity and NDC are reported with a KQ modifier (second/subsequent drug of a multi-drug).

NOTE: When reporting more than two (2) NDCs per procedure code, the KQ modifier is also used on the subsequent lines.

**6.9.6 OPPS Packaged Services (Critical Access and General Hospitals only)**

The NDC requirement does not apply to services considered packaged under OPPS. These services are assigned status indicator N. For a list of packaged services, consult the APC-Based Fee Schedule located on the Medicaid website (2.1, Quick Reference).

**6.9.7 UB-04 Billing Instructions**

To report a procedure code with an NDC on the UB-04 claim form, enter the following NDC information into Form Locator 43 (Description):

- NDC qualifier of N4 [Required]
- NDC 11-digit numeric code [Required]

Do not enter a space between the N4 qualifier and the NDC. Do not enter hyphens or spaces within the NDC.

**6.9.7.1 UB-04 One NDC per Procedure Code**

<table>
<thead>
<tr>

<td></td>
</tr>
<tr>
<td>0636</td>
<td>N460574411101</td>
<td>90378 KQ</td>
<td>100115</td>
<td></td>
<td>250.00</td>
<td></td>
</tr>
</tbody>
</table>

NOTE: Medicaid’s instructions follow the National Uniform Billing Committee’s (NUBC) recommended guidelines for reporting the NDC on the UB-04 claim form. Provider claims that do not adhere to these guidelines may deny. (For placement in an electronic X12N 837 Institutional Claim, consult the Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at [http://www.wpc-edi.com](http://www.wpc-edi.com).
6.10 Service Thresholds

6.10.1 Under Age 21
Medicaid clients under 21 years of age are subject to thresholds for:
- Physical therapy visits
- Occupational therapy visits
- Speech therapy visits
- Chiropractic visits
- Dietitian visits
- Emergency dental visits

6.10.2 Ages 21 and older
Medicaid clients 21 years of age and older are subject to thresholds for:
- Office/outpatient hospital visits
- Physical therapy visits
- Occupational therapy visits
- Speech therapy visits
- Chiropractic visits
- Dietitian visits
- Emergency dental visits
- Behavioral health visits

<table>
<thead>
<tr>
<th>OFFICE AND OUTPATIENT HOSPITAL VISITS</th>

| **Procedure codes:** 90785; 90791; 90792; 90832-90834; 90836-90839; 90845-90849; 90853; 90857; 92507-92508; 92526; 92609; 96105-96146; 97010-97039; 97110-97150; 97161-97546; 97802-97804; 98940-98942; (all modalities on same date of service count as 1 visit) | 20 physical therapy visits per calendar year | • Medicare Paid Crossovers  
• Inpatient and ER behavioral health services |
| **HCPCS Level II codes:** G9012; H0004; H0031; H0038; H2010; H2014; H2017; H2019; T1017 (all modalities on same date of service count as 1 visit) | 20 occupational therapy visits per calendar year | |
| **Revenue codes:** 0421 and 0441 (each unit counts as 1 visit) | 30 speech therapy visits per calendar year | |
| | 30 behavioral health visits per calendar year (21 and over only) | |
| | 20 chiropractic visits per calendar year | |
| | 20 dietitian visits per calendar year | |

### 6.10.3 Authorization of Medical Necessity

Once the threshold has been reached, or once the provider is aware the threshold will be met and the client is nearing the threshold, an Authorization of Medical Necessity may be requested for the following services:

- Dietitian visits
- Chiropractic visits

Authorizations of Medical Necessity must be submitted on the Authorization of Medical Necessity form and cite specific medical necessity. Below is the Authorization of Medical Necessity form (**6.10.3.4, Authorization of Medical Necessity Request Form**).

The form must be mailed to:

Wyoming Medicaid  
Attn: Medical Policy  
PO Box 667  
Cheyenne, WY 82003-0667
If granted, the services and length of time will be documented on the approval letter sent to the provider. For additional information, contact Medical Policy (2.1, Quick Reference).

If an authorization for medical necessity request is denied, the provider may request reconsideration by mail by providing additional supporting documentation to include but not limited to a detailed letter of explanation as to why you feel the denial is incorrect, additional medical records and/or testing results. This request must be in accordance with Medicaid rules.

</tr>
</tbody>
</table>
6.10.4 Office and Outpatient Hospital Visits Once Threshold of 12 is Met

Procedure Code Ranges: 99281 – 99285, 99201 – 99215

Revenue Code Ranges: 0450 – 0459, 0510 – 0519

Once the threshold has been reached, the process will be as follows:

- When a claim is submitted for the 13th office or outpatient hospital visit, the client will be enrolled into a care management program with our partner, WYhealth to help manage their medical conditions and healthcare needs.
- Both the client and any providers who have billed office or outpatient hospital visits for the client in that calendar year will receive a letter informing them the client has exceeded the 12 visit threshold and the client has been enrolled into the care management program.
- Wyoming Medicaid will use the client’s participation in the care management program to determine the medical necessity for services provided, and will continue to process additional claims for office or outpatient hospital visits according to Medicaid guidelines.
- As long as the client continues to participate in the care management program, no further action is required by the provider for claims to process as normal.
- Should the client choose not to participate in the program, the client and the provider will receive another letter informing them that office visit and outpatient hospital visit claims will need to be reviewed for medical necessity before being processed for payment.
  - The review of medical necessity may include review of diagnosis codes on the claim, a call from the UM Coordinator to the provider’s office, or a written request for medical records regarding the visit.
  - Providers may choose to bill the client so long as they have informed the client up front in writing before the service that the service is not medically necessary, or that they will not be providing medical records to help Medicaid determine the medical necessity of the visit, or that they will not be billing Medicaid.
- The client can begin or resume participation in the care management program at any point after meeting the threshold to reinstate claims processing without additional verification of medical necessity by the provider.
NOTE: Claims that are for clients under the age of 21, are coded as emergencies, family planning, or where Medicare has paid as primary are not subject to this process and do not count towards this threshold.

6.10.5 Prior Authorization Once Thresholds are Met

Once the threshold has been reached, or once the provider is aware the threshold will be met and the client is nearing the threshold, a Prior Authorization may be requested through Comagine Health (2.1 Quick Reference) for the following services:

- Physical therapy visits
- Occupational therapy visits
- Speech therapy visits
- Behavioral health visits

Requests can be made by:

- Physicians
- Nurse practitioner
- Physical, occupational or speech therapists
- Psychiatrist
- Psychologist
- Licensed mental health professionals (i.e. licensed professional counselor, licensed marriage and family therapist, licensed certified social workers and licensed addition therapists)
- Community mental health center
- Substance abuse treatment center

6.11 Reimbursement Methodologies

Medicaid reimbursement for covered services is based on a variety of payment methodologies depending on the service provided.

- Medicaid fee schedule
- By report pricing
- Billed charges
- Encounter rate
- Invoice charges
- Negotiated rates
- Per diem
- RBRVS
- Outpatient Prospective Payment System (OPPS)
- Level of Care (LOC)
- All Patients Refined Diagnosis-Related Grouping (APR-DRG)
6.11.1 Invoice Charges

- Invoice must be dated within 12-months prior to the date of service being billed – if the invoice is older, a letter must be included explaining the age of the invoice (i.e. product purchased in large quantity previously, and is still in stock).
- All discounts will be taken on the invoice.
- The discounted pricing or codes cannot be marked out.
- A packing slip, price quote, purchase order, delivery ticket, etc. may be used only if the provider no longer has access to the invoice, and is unable to obtain a replacement from the supplier/manufacturer, and a letter with explanation is included.
- Items must be clearly marked. (i.e. how many calories are in a can of formula, items in a case, milligrams, ounces, etc.).

6.12 Co-Payment Schedule

<table>
<thead>
<tr>
<th>Procedure and Revenue Code(s)</th>
<th>Description</th>
<th>Exceptions</th>
</tr>
</thead>
<tbody>
<tr>
<td>T1015 and 0521 Revenue Code</td>

<td>Newborn</td>
</tr>
<tr>
<td>5</td>
<td>Trauma</td>
</tr>
</tbody>
</table>
6.13 How to Bill for Newborns

When a mother is eligible for Medicaid, at the time the baby is born, the newborn is automatically eligible for Medicaid for one (1) year. However, the WDH Customer Service Center must be notified of the newborn’s name, gender, and date of birth, mom’s name and Medicaid number for a Medicaid ID Card to be issued. This information can be faxed, emailed, or mailed to the WDH Customer Service Center on letterhead from the hospital where the baby was born or reported by the parent of the baby. A provider will need to have the newborn client ID in order to bill newborn claims.

6.14 Prior Authorization

Medicaid requires Prior Authorization (PA) on selected services and equipment. Approval of a PA is never a guarantee of payment. A provider should not render services until a client’s eligibility has been verified and a PA approved (if a PA is required). Services rendered without obtaining a PA (when a PA is required) may not be reimbursed.

Selected services and equipment requiring prior authorization include, but are not limited to, the following—use in conjunction with the Medicaid Fee Schedule to verify what needs PA:

<table>

### 6.14.1 Requesting Prior Authorization from Medical Policy

This section only applies to providers requesting PA for certain surgeries and hospice services (limited to client’s residing in a nursing home). For all other types of PA requests, contact the appropriate authorizing agencies listed above for their written PA procedures.

Providers have three (3) ways to request and receive a PA:

- **Prior Authorization Form (6.14.1.1, Medicaid Prior Authorization Form)**. A hardcopy form for requesting a PA by mail or fax. For a copy of the form and instructions on how to complete it, refer to the following section.
- **X12N 278 Prior Authorization Request and Response**. A standard electronic file format used to transmit PA requests and receive responses. For additional information, refer to Chapter 10, Electronic Data Interchange (EDI) and Chapter 11, Wyoming Specific HIPAA 5010 Electronic Specifications; or
- **Web-Based Entry (Limited to Medical Policy PA requests)**. A web-based option for entering PA requests and receiving responses via Medicaid’s Secured Provider Web Portal. For direction on entering a PA request through the Secure Provider Web Portal, view the Web Portal Tutorial found on the website. (2.1, Quick Reference). For additional information, refer to Chapter 10, Electronic Data Interchange (EDI) and Chapter 11, Wyoming Specific HIPAA 5010 Electronic Specifications.

### 6.14.2 Requesting an Emergency Prior Authorization

In the case of a medical emergency, providers should contact Medical Policy by telephone, after business hours and on weekends, leave a message. Medical Policy will provide a pending PA number until a formal request is submitted. The formal request must be submitted within 30-days of receiving the pending PA number and must include all documentation required.

**NOTE:** Contact the other appropriate authorizing agencies for their pending/emergency PA procedures (6.14, Prior Authorization).

### 6.14.2.1 Prior Authorization Approval

Once a PA is approved, an approval letter (sample approval letter below) is mailed that includes the PA number. The PA number must be entered in box 63 of the UB-04 claim form. For placement in an electronic X12N 837 Institutional Claim, consult the

6.15 Submitting Attachments for Electronic Claims

Providers may either upload their documents electronically or complete the Attachment Cover Sheet and mail or email their documents.

- Steps for submitting electronic attachments
  - The fiscal agent has created a process that allows providers to submit electronic attachments for electronic claims. Providers need only follow these steps:
    - Mark the attachment indicator on the electronic claim. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Professional Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpc-edi.com.
    - Log onto Secured Provider Web Portal
    - Under the submissions menu select Electronic Attachments
    - Complete required information – information must match the claim as submitted i.e., DOS, client information, provider information, and the name of the attachment must be identical to what was submitted in the electronic file (with no spaces).
    - Select Browse
    - Navigate to the location of the electronic attachment on the providers computer
    - Click Upload
    - For support and additional information refer to Chapter 10 and Chapter 11 or contact EDI Services (2.1, Quick Reference).

- Steps for submitting paper attachments by mail.
  - The fiscal agent has created a process that allows providers to submit paper attachments for electronic claims. Providers need only follow these two (2) simple steps:
    - Mark the attachment indicator on the electronic claim and indicate by mail as the submission method. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Professional Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpc-edi.com.

NOTE: One (1) attachment per claim, providers may not attach one (1) document to many claims. Also, if the attachment is not received within 30-days of the electronic claim submission, the claim will deny and it will be necessary to resubmit it with the proper attachment.
The data entered on the form must match the claim exactly in DOS, client information, provider information, etc.

- Complete Attachment Cover Sheet (6.15.1, Attachment Cover Sheet) and mail it with the attachment to Claims (2.1, Quick Reference).

Steps for submitting paper attachments by email.
1. The fiscal agent has created a process that allows providers to submit paper attachments for electronic claims. Providers need only follow these two (2) simple steps:
   - Mark the attachment indicator on the electronic claim and indicate by mail as the submission method. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Professional Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpcedi.com. The data entered on the form must match the claim exactly in DOS, client information, provider information, etc.
   - Complete Attachment Cover Sheet (6.15.1, Attachment Cover Sheet) and email it with the attachment to wycustomersvc@conduent.com (2.1, Quick Reference).
   - All emails must come secured and cannot exceed 25 pages.

**NOTE:** All steps must be followed; otherwise, the fiscal agent will not be able to join the electronic claim and paper attachment, and the claim will deny. Also, if the paper attachment is not received within 30-days of the electronic claim submission, the claim will deny and it will be necessary to resubmit it with the proper attachment.
6.15.1 Attachment Cover Sheet

Attachment Cover Sheet

Please use this form when submitting a claim electronically which requires attachments. The supporting documentation (EOB, medical records, etc.) must be attached to this cover sheet. If the documentation is received without a cover sheet, the request CANNOT be processed and the documents will be shredded.

All information entered on this cover sheet must match the data entered in the 837 claim transaction, including the Attachment Type and Attachment Control Number. Also, the Attachment Transmission Code in the 837 claim transaction must be set to ‘BM’ (By Mail) to indicate the attachment is being sent separately.

6.16 Sterilization, Hysterectomy and Abortion Consent Form

When providing services to a Medicaid client, certain procedures or conditions require a consent form be completed and attached to the claim. This section describes the following forms and explains how to prepare them:

- Sterilization Consent Form
- Hysterectomy Consent Form
- Abortion Certification Form
6.16.1 Sterilization Consent Form and Guidelines

Federal regulations require that clients give written consent prior to sterilization; otherwise, Medicaid cannot reimburse for the procedure.

The Sterilization Consent Form may be obtained from the fiscal agent or copied from this manual. As mandated by Federal regulations, the consent form must be attached to all claims for sterilization-related procedures.

All sterilization claims must be processed according to the following Federal guidelines:

FEDERAL GUIDELINES

The waiting period between consent and sterilization must not exceed 180-days and must be at least 30-days, except in cases of premature delivery and emergency abdominal surgery. The day the client signs the consent form and the surgical dates are not included in the 30-day requirement. For example, a client signs the consent form on July 1. To determine when the waiting period is completed, count 30-days beginning on July 2. The last day of the waiting period would be July 31; therefore, surgery may be performed on August 1.

In the event of premature delivery, the consent form must be completed and signed by the client at least 72-hours prior to the sterilization, and at least 30-days prior to the expected date of delivery.

In the event of emergency abdominal surgery, the client must complete and sign the consent form at least 72-hours prior to sterilization.

The consent form supplied by the surgeon must be attached to every claim for sterilization related procedures; i.e., ambulatory surgical center clinic, physician, anesthesiologist, inpatient or outpatient hospital. Any claim for a sterilization related procedure which does not have a signed and dated, valid consent form will be denied.

All blanks on the consent form must be completed with the requested information. The consent form must be signed and dated by the client, the interpreter (if one is necessary), the person who obtained the consent, and the physician who will perform the sterilization.

The physician statement on the consent form must be signed and dated by the physician who will perform the sterilization on the date of the sterilization or after the sterilization procedure was performed. The date on the sterilization claim form must be identical to the date and type of operation given in the physician’s statement.
6.16.1.1 Sterilization Consent Form

NOTE: Click image above to be taken to a printable version of this form.

6.16.1.2 Instructions for Completing the Sterilization Consent Form

Important tips for completing the Sterilization Consent Form

- Print legibly to avoid denials – the entire form must be legible.
- The originating practitioner has ownership of this form and must supply correct, accurate copies to all involved billing parties.
- Fields 7, 8 and 15, 16 must be completed prior to the procedure.
- All fields may be corrected however corrections must be made with one (1) line through the error and must be initialed.
  - The person that signed the line is the only person that can make the alteration
  - “Whiteout” will not be accepted when making corrections
- Every effort should be taken to complete the form correctly without any changes.

### 6.16.2 Hysterectomy Acknowledgment of Consent

The Hysterectomy Acknowledgment of Consent Form must accompany all claims for hysterectomy-related services; otherwise, Medicaid will not cover the services. The originating physician is required to supply other billing providers (e.g., hospital, surgeon, anesthesiologist, etc.) with a copy of the completed consent form.

**NOTE:** Instructions for attaching documents to claims refer to Chapter 6 (6.15, Submitting Attachments for Electronic Claims).

6.16.3 Abortion Certification Guidelines

The Abortion Certification Form must accompany claims for abortion-related services; otherwise, Medicaid will not cover the services. This requirement includes, but is not limited to, claims from the attending physician, assistant surgeon, anesthesiologist, pathologist, and hospital.

6.16.3.1 Abortion Certification Form

ABORTION CERTIFICATION FORM

1. I, (Physician), ___________________________ , certify that:

2. ____ (1) My patient suffers from a physical disorder, physical injury, or physical illness including a life-endangering physical condition (directly or indirectly) that would place her in danger unless an abortion is performed; or

   ____ (2) This pregnancy is a result of sexual assault as defined in W.S. 6-2-301, which was reported to a law enforcement agency within five days after the assault or within five days after the time the victim was capable of reporting the assault; or

   ____ (3) This pregnancy is the result of a sexual assault as defined in Wyoming Statute W.S. 6-2-301 and the client waives, for physical or psychological reasons, to comply with the reporting requirements; or

   ____ (4) The pregnancy is the result of incest.

3. Patient Name: ___________________________

4. Address: ________________________________

5. Physician Signature: ______________________ Date __________________

6. Address: ________________________________

6.17 Remittance Advice

After claims have been processed weekly, Medicaid distributes a Medicaid proprietary Remittance Advice (RA) to providers. The Remittance Advice (RA) plays an important communication role between providers and Medicaid. It explains the outcome of claims submitted for payment. Aside from providing a record of transactions the RA assists providers in resolving potential errors. Providers receiving manual checks will receive their check and RA in the same mailing.

The RA is organized in the following manner:

- The first page or cover page is important and should not be overlooked; it may include an RA Banner notification from Wyoming Medicaid (1.2.1, RA Banner Notices/Samples).
- Claims are grouped by disposition category.
  - Claim Status PAID group contains all the paid claims.
  - Claim Status DENIED group reports denied claims.
  - Claim Status PENDED group reports claims pended for review. Do not resubmit these claims. All claims in pended status are reported each payment cycle until paid or denied. Claims can be in a pended status for up to 30-days.
  - Claim Status ADJUSTED group reports adjusted claims.
- All paid, denied, and pended claims and claim adjustments are itemized within each group in alphabetic order by client last name.
- A unique Transaction Control Number (TCN) is assigned to each claim. TCNs allow each claim to be tracked throughout the Medicaid claims processing system. The digits and groups of digits in the TCN have specific meanings, as explained below:
• The RA Summary Section reports the number of claim transactions, and total payment or check amount.

6.17.3 Remittance Advice Replacement Request Policy

If you are unable to obtain a copy from the web portal, a paper copy may be requested as follows:

To request a printed replacement copy of a Remittance Advice, complete the following steps:

- Print the Remittance Advice (RA) replacement request form.
- For replacement of a complete RA contact Provider Relations (2.1, Quick Reference) to obtain the RA number, date and number of pages.
- Replacements of a specific page of an RA (containing a requested specific claim/TCN) will be three (3) pages (the cover page, the page containing the claim, and the summary page for the RA).
- Review the below chart to determine the cost of the replacement RA (based on total number of pages requested – for multiple RAs requested at the same time, add total pages together).
- Send the completed form and payment as indicated on the form.
  - Make checks to Division of Healthcare Financing.
  - Mail to Provider Relations (2.1, Quick Reference).

The replacement RA will be emailed, faxed or mailed as requested on the form. Email is the preferred method of delivery, and RAs of more than ten (10) pages will not be faxed.
RAs less than 24 weeks old can be obtained from the Secured Provider Web Portal, once a provider has registered for access (10.5.2, Secure Provider Web Portal Registration Process).

<table>

6.17.4 Remittance Advice (RA) Replacement Request Form

![Remittance Advice (RA) Replacement Request Form](image)

NOTE: Click image above to be taken to a printable version of this form.

6.17.5 Obtain Your RA from the Web

Providers have the ability to view and download their last 24 weeks of RAs from the Medicaid website, refer to Chapter 10, Electronic Data Interchange (EDI).
6.17.6 When a Client Has Other Insurance

If the client has other insurance coverage reflected in Medicaid records, payment would be denied unless providers report the coverage on the claim. Medicaid is always the payer of last resort. For exceptions and additional information regarding Third Party Liability, refer to Chapter 9 of this manual. To assist providers in filing with the other carrier, the following information is provided on the RA directly below the denied claim:

- Insurance carrier name;
- Name of insured;
- Policy number;
- Insurance carrier address;
- Group number, if applicable; and
- Group employer name and address, if applicable.

The information is specific to the individual client. The Third Party Resources Information Sheet (9.2.1, Third Party Resources Information Sheet) should be used for reporting new insurance coverage or changes in insurance coverage on a client’s policy.

6.18 Resubmitting Versus Adjusting Claims

Resubmitting and adjusting claims are important steps in correcting any billing problems. Knowing when to resubmit a claim versus adjusting it is important.

<table>
<thead>
<tr>
<th>Action</th>
<th>Description</th>
<th>Timely Filing Limitation</th>
</tr>
</thead>
<tbody>
<tr>
<td>VOID</td>
<td>Claim has paid; however, the provider would like to completely cancel the claim as if it was never billed.</td>
<td>May be completed any time after the claim has been paid.</td>
</tr>
<tr>
<td>ADJUST</td>
<td>Claim has paid, even if paid $0.00; however, the provider would like to make a correction or change to this paid claim</td>
<td>Must be completed within six (6) months after the claim has paid UNLESS the result will be a lower payment being made to the provider, then no time limit.</td>
</tr>
<tr>
<td>RESUBMIT</td>
<td>Claim has denied entirely or a single line has denied, the provider may resubmit on a separate claim.</td>
<td>One (1) year from the date of service.</td>
</tr>
</tbody>
</table>
6.18.1 How long do I have to resubmit or adjust a claim?

The deadlines for resubmitting and adjusting claims are different:

- Providers may resubmit any claim within 12 months of the date of service.
- Providers may adjust any claim within six (6) months of the date of payment.

Adjustment requests for over-payments are accepted indefinitely. However, the Provider Agreement requires providers to notify Medicaid within 30-days of learning of an over-payment. When Medicaid discovers an over-payment during a claims review, the provider may be notified in writing; in most cases, the over-payment will be deducted from future payments. Refund checks are not encouraged. Refund checks are not reflected on the Remittance Advice. However, deductions from future payments are reflected on the Remittance Advice, providing a hardcopy record of the repayment.

6.18.2 Resubmitting a Claim

Resubmitting is when a provider submits a claim to Medicaid that was previously submitted for payment but was either returned unprocessed or denied. Electronically submitted claims may reject for X12 submission errors. Claims may be returned to providers before processing because key information such as an authorized signature or required attachment is missing or unreadable.

How to Resubmit:

- Review and verify EOB codes on the RA/835 transaction and make all corrections and resubmit the claim.
  - Contact Provider Relations for assistance (2.1, Quick Reference).
- Claims must be submitted with all required attachments with each new submission.
- If the claim was denied because Medicaid has record of other insurance coverage, enter the missing insurance payment on the claim or submit insurance denial information, when resubmitting the claim to Medicaid.

6.18.2.1 How to Resubmit

- Review and verify EOB codes on the RA/835 transaction and make all corrections and resubmit the claim.
  - Contact Provider Relations for assistance (2.1, Quick Reference).
- Claims must be submitted with all required attachments with each new submission.

If the claim was denied because Medicaid has record of other insurance coverage, enter the missing insurance payment on the claim or submit insurance denial information, when resubmitting the claim to Medicaid.
6.18.2.2 When to Resubmit to Medicaid

- Claim Denied. Providers may resubmit to Medicaid when the entire claim has been denied, as long as the claim was denied for reasons that can be corrected. When the entire claim is denied, check the explanation of benefits (EOB) code on the RA/835 transaction, make the appropriate corrections, and resubmit the claim.

- Paid Claim With One (1) or More Line(s) Denied. Providers may submit individually denied lines.

- Claim Returned Unprocessed. When Medicaid is unable to process a claim it will be rejected or returned to the provider for corrections and to resubmit.

6.18.3 Adjustments

**Adjusting paid claims via hardcopy/paper.**

When a provider identifies an error on a paid claim, the provider must submit an Adjustment/Void Request Form. If the incorrect payment was the result of a keying error (paper claim submission), by the fiscal agent contact Provider Relations to have the claim corrected ([2.1, Quick Reference](#)).

**NOTE:** All items on a paid claim can be corrected with an adjustment EXCEPT the pay-to provider number. In this case, the original claim will need to be voided and the corrected claim submitted.

**Denied claims cannot be adjusted.**

When adjustments are made to previously paid claims, Medicaid reverses the original payment and processes a replacement claim. The result of the adjustment appears on the RA/835 transaction as two (2) transactions. The reversal of the original payment will appear as a credit (negative) transaction. The replacement claim will appear as a debit (positive) transaction and may or may not appear on the same RA/835 transaction as the credit transaction. The replacement claim will have almost the same TCN as the credit transaction, except the 12th digit will be a 2, indicating an adjustment, whereas the credit will have a 1 in the 12th digit indicating a debit.
6.18.3.1 Adjustment/Void Request Form

NOTE: If a provider wants to void an entire RA, contact Provider Relations (2.1, Quick Reference). Click image above to be taken to a printable version of this form.

6.18.3.2 How to Request an Adjustment/Void

To request an adjustment, use the Adjustment/Void Request Form (6.18.3.1, Adjustment/Void Request Form). The requirements for adjusting/voiding a claim are as follows:

- An adjustment/void can only be processed if the claim has been paid by Medicaid.
- Medicaid must receive individual claim adjustment requests within six (6) months of the claim payment date.
- A separate Adjustment/Void Request Form must be used for each claim.
- If the provider is correcting more than one (1) error per claim, use only one (1) Adjustment/Void Request Form, and include all corrections on one (1) form.
  - If more than one (1) line of the claim needs to be adjusted, indicate which lines and items need to be adjusted in the “Reason for Adjustment or Void” section on the form or simply state, refer to the attached corrected claim.
### 6.18.3.3 How to Complete the Adjustment/Void Request Form

**Adjusting a claim electronically via an 837 transaction**

### 6.18.3.4 When to Request an Adjustment

- When a claim was overpaid or underpaid.
- When a claim was paid, but the information on the claim was incorrect (such as client ID, date of service, procedure code, diagnoses, units, etc.)
• When Medicaid pays a claim and the provider subsequently receives payment from a third party payor, the provider must adjust the paid claim to reflect the TPL amount paid.
  o If an adjustment is submitted stating that TPL paid on the claim, but the TPL paid amount is not indicated on the adjustment or an EOB is not sent in with the claim, Medicaid will list the TPL amount as either the billed or reimbursement amount from the adjusted claim (whichever is greater). It will be up to the provider to adjust again, with the corrected information.

NOTE: Cannot complete an adjustment when the mistake is the pay-to provider number or NPI.

6.18.3.5 When to Request a Void

Request a void when a claim was billed in error (such as incorrect provider number, services not rendered, etc.).

6.19 Credit Balances

A credit balance occurs when a provider’s credits (take backs) exceed their debits (pay outs), which results in the provider owing Medicaid money.

Credit balances can be resolved in two (2) ways:

1. Working off the credit balance. By taking no action, remaining credit balances will be deducted from future claim payments. The deductions appear as credits on the provider’s RA(s) until the balance owed to Medicaid has been paid.

2. Sending a check payable to the “Division of Healthcare Financing” for the amount owed. This method is typically required for providers who no longer submit claims to Medicaid. A notice is typically sent from Medicaid to the provider requesting the credit balance be paid. The provider is asked to attach the notice, a check and a letter explaining the money is to pay off a credit balance. Include your provider number to ensure the money is applied correctly.

NOTE: When a provider number with Wyoming Medicaid changes, but the provider’s tax-id remains the same, the credit balance will be moved automatically from the old Medicaid provider number to the new one, and will be reflected on RAs/835 transactions.
6.20 Timely Filing

The Division of Healthcare Financing adheres strictly to its timely filing policy. The provider must submit a clean claim to Medicaid within 12-months of the date of service. A clean claim is an error free, correctly completed claim, with all required attachments, that will process and approve to pay within the 12-month time period. Submit claims immediately after providing services so when a claim is denied, there is time to correct any errors and resubmit. Claims are to be submitted only after the service(s) have been rendered, and not before. For deliverable items (i.e. dentures, DME, glasses, hearing aids, etc.) the date of service must be the date of delivery, not the order date.

6.20.1 Exceptions to the Twelve-Month Limit

Exceptions to the 12-month claim submission limit may be made under certain circumstances. The chart below shows when an exception may be made, the time limit for each exception, and how to request an exception.

<table>

<tr>
<td>Provider finds their records to be inconsistent with filed claims, regarding rendered services. This includes dates of service, procedure/revenue codes, tooth codes, modifiers, admission or discharge dates/times, treating or referring providers or any other item which makes the records/claims non-supportive of each other.</td>
<td>Although there is no specific time limit for correcting errors, the corrected claim must be submitted in a timely manner from when the error was discovered. If the claim exceeds timely filing, the claim must be sent with a cover letter requesting an exception to timely filing citing this policy.</td>
</tr>
</tbody>
</table>

### 6.20.2 Appeal of Timely Filing

A provider may appeal a denial for timely filing ONLY under the following circumstances:

- The claim was originally filed within 12-months of the date of service and is on file with Wyoming Medicaid; and
- The provider made at least one (1) attempt to resubmit the corrected claim within 12-months of the date of service; and
- The provider must document in their appeal letter all claims information and what corrections they made to the claim (all claims history, including TCNs) as well as all contact with or assistance received from Provider Relations (dates, times, call reference number, who was spoken with, etc.) or
- A Medicaid computer or policy problem beyond the provider’s control prevented the provider from finalizing the claim within 12-months of the date of service.

Any appeal that does not meet the above criteria will be denied. Timely filing will not be waived when a claim is denied due to provider billing errors or involving third party liability.

### 6.20.2.1 How to Appeal

The provider must submit the appeal in writing to Provider Relations ([2.1, Quick Reference](#)) and should include the following:

- Documentation of previous claim submission (TCNs, documentation of the corrections made to the subsequent claims);
- Documentation of contact with Provider Relations
- An explanation of the problem; and
- A clean copy of the claim, along with any required attachments and required information on the attachments. A clean claim is an error free, correctly completed claim, with all required attachments, that will process and pay.
6.21 Important Information Regarding Retroactive Eligibility Decisions

The client is responsible for notifying the provider of the retroactive eligibility determination and supplying a copy of the notice.

A provider is responsible for billing Medicaid only if:

- They agreed to accept the patient as a Medicaid client pending Medicaid eligibility; or
- After being informed of retroactive eligibility, they elect to bill Medicaid for services previously provided under a private agreement. In this case, any money paid by the client for the services being billed to Medicaid would need to be refunded prior to a claim being submitted to Medicaid.

NOTE: The provider determines at the time they are notified of the client’s eligibility if they are choosing to accept the client as a Medicaid client. If the provider does not accept the client, they remain private pay.

In the event of retroactive eligibility, claims must be submitted within six (6) months of the date of determination of retroactive eligibility.

NOTE: Inpatient Hospital Certification: A hospital may seek admission certification for a client found retroactively eligible for Medicaid benefits after the date of admission for services that require admission certification. The hospital must request admission certification within thirty 30-days after the hospital receives notice of eligibility. To obtain certification, contact WYhealth (2.1, Quick Reference).

6.22 Client Fails to Notify a Provider of Eligibility

If a client fails to notify a provider of Medicaid eligibility and is billed as a private-pay patient, the client is responsible for the bill unless the provider agrees to submit a claim to Medicaid. In this case:

- Any money paid by the client for the service being billed to Wyoming Medicaid must be refunded prior to billing Medicaid;
- The client can no longer be billed for the service; and
- Timely filing criteria is in effect.

NOTE: The provider determines at the time they are notified of the client’s eligibility if they are choosing to accept the client as a Medicaid client. If the provider does not accept the client, they remain private pay.
6.23 Billing Tips to Avoid Timely Filing Denials

- File claims soon after services are rendered.
- Carefully review EOB codes on the Remittance Advice/835 transaction (work RAs/835s weekly).
- Resubmit the entire claim or denied line only after all corrections have been made.
- Contact Provider Relations (2.1, Quick Reference):
  - With any questions regarding billing or denials
  - When payment has not been received within 30-days of submission, verify the status of the claim.
  - When there are multiple denials on a claim, request a review of the denials prior to resubmission.

NOTE: Once a provider has agreed to accept a patient as a Medicaid client, any loss of Medicaid reimbursement due to provider failure to meet timely filing deadlines is the responsibility of the provider.

6.24 Telehealth

Telehealth is the use of an electronic media to link beneficiaries with health professionals in different locations. The examination of the client is performed via a real time interactive audio and video telecommunications system. This means that the client must be able to see and interact with the off-site practitioner at the time services are provided via telehealth technology. Telehealth services must be properly documented when offered at the discretion of the provider as deemed medically necessary.

It is the intent that telehealth services will provide better access to care by delivering services as they are needed when the client is residing in an area that does not have specialty services available. It is expected that this modality will be used when travel is prohibitive or resources won’t allow the clinician to travel to the client’s location.

Each site will be able to bill for their own services as long as they are an enrolled Medicaid provider (this includes out-of-state Medicaid providers). Each site will be able to bill for their own services as long as they are an enrolled Medicaid provider (this includes out-of-state Medicaid providers). Providers shall not bill for both the spoke and hub site. Any telehealth provider such as Community Mental Health Centers and Substance Abuse Treatment Centers can bill telehealth services where the provider is at one location and the client is at a different location even though the pay to provider is the same. A single pay to provider can bill both the originating site (spoke site) and the distant site provider (hub site) when applicable. See below for billing and documentation requirements.
6.24.1 Covered Services

Originating Sites (Spoke Site)

The Originating site or Spoke site is the location of an eligible Medicaid client at the time the service is being furnished via telecommunications system occurs.

Examples of authorized originating sites are:

- Hospitals
- Office of a physician or other practitioner (this includes medical clinics)
- Office of a psychologist or neuropsychologist
- Community mental health or substance abuse treatment center (CMHC/SATC)
- Office of an advanced practice nurse (APN) with specialty of psych/mental health
- Office of a Licensed Mental Health Professional (LCSW, LPC, LMFT, LAT)
- Federally Qualified Health Center (FQHC)
- Rural Health Clinic (RHC)
- Skilled nursing facility (SNF)
- Indian Health Services Clinic (IHS)
- Hospital-based or Critical Access Hospital-based renal dialysis centers (including satellites). Independent Renal Dialysis Facilities are not eligible originating sites
- Developmental Center
- Family Planning Clinics
- Public Health Offices
- Client’s Home (Telehealth consent form must be completed and kept in the client’s medical records)

Distant Site Providers (Hub Site)

The location of the physician or practitioner providing the professional services via a telecommunications system is call the distant site or Hub site. A medical professional is not required to be present with the client at the originating site unless medically indicated. However, in order to be reimbursed, services provided must be appropriate and medically necessary.

Examples of physician/practitioners eligible to bill for professional services are:

- Physician.
- Advanced Practice Nurse with specialty of Psychiatry/Mental Health.
- Physician’s Assistant
- Psychologist or Neuropsychologist.
- Licensed Mental Health Professional (LCSW, LPC, LMFT, LAT).
- Speech Therapist.

Provisionally licensed mental health professional cannot bill Medicaid directly. Services must be provided through an appropriate supervising provider. Services
provided by non-physician practitioners must be within their scope(s) of practice and according to Medicaid policy.

For Medicaid payment to occur, interactive audio and video telecommunications must be used permitting real-time communication between the distant site physician or practitioner and the patient with sufficient quality to assure the accuracy of the assessment, diagnosis, and visible evaluation of symptoms and potential medication side effects. All interactive video telecommunication must comply with HIPAA patient privacy regulations at the site where the patient is located, the site where the consultant is located, and in the transmission process. If distortions in the transmission make adequate diagnosis and assessment improbable and a presenter at the site where the patient is located is unavailable to assist, the visit must be halted and rescheduled. It is not appropriate to bill for portions of the evaluation unless the exam was actually performed by the billing provider.

6.24.2 Non-Covered Services

Telehealth does not include a telephone conversation, electronic mail message (email), or facsimile transmission (fax) between a healthcare practitioner and a client, or a consultation between two health care practitioners asynchronous “store and forward” technology. Group psychotherapy is not a covered service.

6.24.3 Billing Requirements

In order to obtain Medicaid reimbursement for services delivered through telehealth technology, the following standards must be observed:

- Telehealth Consent form must be completed if the originating site is the client’s home.
- The services must be medically necessary and follow generally accepted standards of care.
- The service must be a service covered by Medicaid.
- Claims must be made according to Medicaid billing instructions.
- The same procedure codes and rates apply as for services delivered in person.
  - The modifier to indicate a telehealth service is “GT” which must be used in conjunction with the appropriate procedure code to identify the professional telehealth services provided by the distant site provider (e.g., procedure code 90832 billed with modifier GT). **GT modifier MUST be billed by the distant site.** Using the GT modifier does not change the reimbursement fee.
- When billing for the originating site facility fee, use procedure code Q3014. A separate or distinct progress note isn’t required to bill Q3014. Validation of service delivery would be confirmed by the accompanying practitioner’s claim with the GT modifier indicating the practitioner’s service was delivered via telehealth. Medicaid will reimburse the originating site provider the lesser of charge or the current Medicaid fee.
Additional services provided at the originating site on the same date as the telehealth service may be billed and reimbursed separately according to published policies and the national correct coding initiative guidelines.

- Quality assurance/improvement activities relative to telehealth delivered services need to be identified, documented and monitored.
- Providers need to develop and document evaluation processes and patient outcomes related to the telehealth program, visits, provider access, and patient satisfaction.
- All service providers are required to develop and maintain written documentation in the form of progress notes the same as is originated during an in-person visit or consultation with the exception that the mode of communication (i.e. teleconference) should be noted.
- Documentation must be maintained at the hub and spoke locations to substantiate the services provided. Documentation must indicate that the services were rendered via telehealth and must clearly identify the location of the hub and spoke sites.
- Medicaid will not reimburse for the use or upgrade of technology, for transmission charges, for charges of an attendant who instructs a patient on the use of the equipment or supervises/monitors a patient during the telehealth encounter, or for consultations between professionals.
- For ESRD-related services, at least one (1) face-to-face, “hands on” visit (not telehealth) must be furnished each month to examine the vascular access site by a qualified provider.

**NOTE:** If the patient and/or legal guardian indicate at any point that he/she wants to stop using the technology, the service should cease immediately and an alternative appointment set up

### 6.24.3.1 Billing Examples

**Example 1a:** Originating (Spoke) Site provider – location of Wyoming Medicaid Client

6.24.4 Telehealth Consent Form

6.24.5 Telehealth Consent Form Instructions

Beginning October 1, 2017 Wyoming Medicaid will allow the client’s home to be a valid Origination site. Written client consent is required.

- Completion: The appropriate person at either the client’s site or the health care practitioner site completes the form and obtains the client’s signature prior to the services.
- **Distribution**: The original form is completed by the provider of the telehealth service and is retained in the client’s medical record. A copy is also given to the client or parent/guardian.

7.1 Electronic Billing

As of July 1, 2015 Wyoming Medicaid requires all providers to submit electronically. There are two (2) exceptions to this requirement:

- Providers who do not submit at least 25 claims in a calendar year.
- Providers who do not bill diagnosis codes on their claims.

If a provider is unable to submit electronically, the provider must submit a request for an exemption in writing and must include:

- Provider name, NPI, contact name and phone number.
- The calendar year for which the exemption is being requested.
- Detailed explanation of the reason for the exemption request.

Mail to:

Wyoming Medicaid
Attn: Provider Relations
PO Box 667
Cheyenne, WY 82003-0667

A new exemption request must be submitted for each calendar year. Wyoming Medicaid has free software or applications available for providers to bill electronically (Chapter 10, Electronic Data Interchange (EDI)).

7.2 Basic Paper Claim Information

The fiscal agent processes paper CMS-1500 and UB04 claims using Optical Character Recognition (OCR). OCR is the process of using a scanner to read the information on a claim and convert it into electronic format instead of being manually entered. This process improves accuracy and increases the speed at which claims are entered into the claims processing system. The quality of the claim will affect the accuracy in which the claim is processed through OCR. The following is a list of tips to aid providers in avoiding paper claims processing problems with OCR:

- Use an original, standard, red-dropout form (CMS-1500 (02-12) and UB04).
- Use typewritten print; for best results use a laser printer.
- Use a clean, non-proportional font.
- Use black ink.
- Print claim data within the defined boxes on the claim form.
- Print only the information asked for on the claim form.
- Use all capital letters.
• Use correction tape for corrections.

To avoid delays in the processing of claims it is recommended that providers avoid the following:

• Using copies of claim forms.
• Faxing claims.
• Using fonts smaller than 8 point.
• Resizing the form.
• Handwritten information on the claim form.
• Entering “none”, “NA”, or “Same” if there is no information (leave the box blank).
• Mixing fonts on the same claim form.
• Using italics or script fonts.
• Printing slashed zeros.
• Using highlighters to highlight field information.
• Using stamps, labels, or stickers.
• Marking out information on the form with a black marker.

Claims that do not follow Medicaid provider billing policies and procedures may be returned unprocessed with a letter or may be processed incorrectly. When a claim is returned the provider may correct the claim and return it to Medicaid for processing.

NOTE: The fiscal agent and the Division of Healthcare Financing (DHCF) are prohibited by federal law from altering a claim.

Billing errors detected after a claim is submitted cannot be corrected until after Medicaid has made payment or notified the provider of the denial. Providers should not resubmit or attempt to adjust a claim until it is reported on their Remittance Advice (7.17, Resubmitting Versus Adjusting Claims).

NOTE: Claims are to be submitted only after service(s) have been rendered, not before. For deliverable items (i.e. dentures, DME, glasses, hearing aids, etc.) the date of service must be the date of delivery, not the order date.

7.3 Authorized Signatures

All paper claims must be signed by the provider or the provider’s authorized representative. Acceptable signatures may be either handwritten, a stamped facsimile, typed, computer generated, or initialed. The signature certifies all information on the
claim is true, accurate, complete, and contains no false or erroneous information. Remarks such as signature on file or facility names will not be accepted.

### 7.5 Medicare Crossovers

Medicaid processes claims for Medicare/Medicaid services when provided to a Medicaid eligible client.

#### 7.5.1 General Information

- Dually eligible clients are clients that are eligible for Medicare and Medicaid.
- Providers may verify Medicare and Medicaid eligibility through the IVR (2.1, Quick Reference).
- Providers must accept assignment of claims for dually eligible clients.
- Be sure Wyoming Medicaid has record of all applicable NPIs under which the provider is submitting to Medicare to facilitate the electronic crossover process.
- Medicaid reimburses the lesser of the assigned coinsurance and deductible amounts or the difference between the Medicaid allowable and the Medicare paid amount for dually eligible clients as indicated on the Medicare (Explanation of Medicare Benefits) EOMB.
Wyoming Medicaid’s payment is payment in full. The client is not responsible for any amount left over, even if assigned to coinsurance or deductible by Medicare.

### 7.5.2 Billing Information

- Medicare is primary to Medicaid and must be billed first. Direct Medicare claims processing questions to the Medicare carrier.
- When posting the Medicare payment, the EOMB (Explanation of Medicare Benefits) may state that the claim has been forwarded to Medicaid. No further action is required, it has automatically been submitted.
- Medicare transmits electronic claims to Medicaid daily. Medicare transmits all lines on a claim with any Medicare paid claim – If one (1) line pays, and three (3) others are denied by Medicare, all four (4) lines will be transmitted to Wyoming Medicaid.
- The time limit for filing Medicare crossover claims to Medicaid is 12-months from the date of service or six (6) months from the date of the Medicare payment, whichever is later.
- If payment is not received from Medicaid after 45-days of the Medicare payment, submit a claim to Medicaid and include the COB (Coordination of Benefits) information in the electronic claim. The line items on the claim being submitted to Medicaid must be exactly the same as the claim submitted to Medicare, except when Medicare denies then the claim must conform to Medicaid policy.
- If a paper claim is being submitted, the EOMB must be attached. If the Medicare policy is a replacement/advantage or supplement, this information must be noted (it can be hand written) on the EOMB.

**NOTE:** Do not resubmit a claim for coinsurance or deductible amounts unless the provider has waited 45-days from Medicare’s payment date. A provider’s claims may be returned if submitted without waiting the 45-days after the Medicare payment date.
7.6 Examples of Billing

7.6.1 Client has Medicaid Coverage Only or Medicaid and Medicare Coverage

NOTE: When client has dual coverage, (Medicaid and Medicare) attach the EOMB to the claim.
7.6.2 Client has Medicaid and Third Party Liability (TPL) or Client has Medicaid, Medicare and TPL

NOTE: If the client has both Medicare and TPL in addition to Medicaid, attach the TPL EOB and the Medicare EOMB to the claim. If the client has TPL and Medicaid but no Medicare, attach the TPL EOB to the claim.
7.7 National Drug Code (NDC) Billing Requirement

Effective for dates of service on and after March 1, 2008 Medicaid will require providers to include National Drug Codes (NDCs) on professional and institutional claims when certain drug-related procedure codes are billed. This policy is mandated by the Federal Deficit Reduction Act (DRA) of 2005, which requires state Medicaid programs to collect rebates from drug manufacturers when their products are administered in an office, clinic, hospital or other outpatient setting.

The NDC is a unique 11-digit identifier assigned to a drug product by the labeler/manufacturer under Federal Drug Administration (FDA) regulations. It is comprised of three (3) segments configured in a 5-4-2 format.

```
6 5 2 9 3 - 0 0 0 1 - 0 1
```

- **Labeler Code** – Five (5) digit number assigned by the Food and Drug Administration (FDA) to uniquely identify each firm that manufactures, repacks, or distributes drug products.
- **Product Code** – Four (4) digit number that identifies the specific drug, strength and dosage form.
- **Package Code** – Two (2) digit number that identifies the package size.

7.7.1 Converting 10-Digit NDC’s to 11-Digits

Many NDCs are displayed on drug products using a ten (10) digit format. However, to meet the requirements of the new policy, NDCs must be billed to Medicaid using the 11-digits FDA standard. Converting an NDC from ten (10) to 11-digits requires the strategic placement of a zero (0). The following table shows three (3) common ten (10) digit NDC formats converted to 11-digits.

<table>
<thead>
<tr>
<th>10-Digit Format</th>
<th>Sample 10-Digit NDC</th>
<th>Required 11-Digit Format</th>
<th>Sample 10-Digit NDC Converted to 11-Digits</th>
</tr>
</thead>
<tbody>
<tr>
<td>9999-9999-99 (4-4-2)</td>
<td>0002-7597-01 Zyprexa 10mg vial</td>
<td>09999-9999-99 (5-4-2)</td>
<td>00002-7597-01</td>

<td>99999-9999-09 (5-4-2)</td>
<td>60575-4112-01</td>
</tr>
</tbody>
</table>
NOTE: Hyphens are used solely to illustrate the various ten (10) and 11 digit formats. Do not use hyphens when billing NDCs.

### 7.7.2 Documenting and Billing the Appropriate NDC

A drug may have multiple manufacturers so it is vital to use the NDC of the administered drug and not another manufacturer’s product, even if the chemical name is the same. It is important that providers develop a process to capture the NDC when the drug is administered, before the packaging is thrown away. It is not permissible to bill Medicaid with any NDC other than the one (1) administered. Providers should not pre-program their billing systems to automatically utilize a certain NDC for a procedure code that does not accurately reflect the product that was administered to the client.

Clinical documentation must record the NDC from the actual product, not just from the packaging, as these may not match. Documentation must also record the lot number and expiration date for future reference in the event of a health or safety product recall.

### 7.7.3 Procedure Code/NDC Combinations

The list of rebateable NDCs Medicaid posts to its website will also present providers a way to validate procedure code/NDC combinations. The table below illustrates a few sample entries from the list.

<table>
<thead>
<tr>
<th>NDC</th>
<th>Procedure Code</th>
<th>Procedure Description</th>
<th>NDC Label</th>
<th>Rebateable</th>
<th>Rebate Start Date</th>
<th>Rebate End Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>58468-0040-01</td>
<td>J0180</td>
<td>Injection, Agalsidase Beta, 1 MG</td>
<td>Fabrazyme (PF) 35 MG</td>
<td>Y</td>
<td>01/01/1991</td>
<td>99/99/9999</td>
</tr>
<tr>
<td>58468-0041-01</td>
<td>J0180</td>
<td>Injection, Agalsidase Beta, 1 MG</td>
<td>Fabrazyme (PF) 5 MG</td>
<td>Y</td>
<td>01/01/1991</td>
<td>99/99/9999</td>
</tr>
<tr>
<td>58468-1060-01</td>
<td>J0205</td>
<td>Injection, Alglucerase, Per 10</td>
<td>Ceredase 80 U/ML</td>
<td>Y</td>
<td>01/01/1991</td>
<td>99/99/9999</td>
</tr>
<tr>
<td>00517-8905-01</td>
<td>J0210</td>
<td>Injection, Methyldopate HCL</td>
<td>Methyldopate HCL (S.D.V.) 50</td>
<td>Y</td>
<td>10/01/1991</td>
<td>99/99/9999</td>
</tr>
</tbody>
</table>

The first two (2) entries show NDCs 58468-0040-01 and 58468-0041-01 can only be paired with one (1) procedure code, J0180. These are the only valid procedure code / NDC combinations when billing Agalsidase. Pairing either NDC with a different procedure code OR pairing the procedure code with a different NDC would create an
invalid combination. Procedure code / NDC combinations deemed invalid according to the list will be denied.

### 7.7.4 Billing Requirements

The requirement to report NDCs on professional and institutional claims is meant to supplement procedure code billing, not replace it. Providers are still required to include applicable procedure code information such as dates of service, CPT/HCPCS code, modifier(s), charges and units.

### 7.7.5 Submitting One NDC per Procedure Code

If one (1) NDC is to be submitted for a procedure code, the procedure code, procedure quantity and NDC must be reported. No modifier is required.

<table>
<thead>
<tr>
<th>Procedure Code</th>
<th>Modifier</th>
<th>Procedure Quantity</th>
<th>NDC</th>
</tr>
</thead>
<tbody>
<tr>
<td>90378</td>
<td></td>
<td>2</td>
<td>60574-4111-01</td>
</tr>
</tbody>
</table>

### 7.7.6 Submitting Multiple NDCs per Procedure Code

If two (2) or more NDCs are to be submitted for a procedure code, the procedure code must be repeated on separate lines for each unique NDC. For example, if a provider administers 150 mg of Synagis, a 50 mg vial and a 100 mg vial would be used. Although the vials have separate NDCs, the drug has one (1) procedure code, 90378. So, the procedure code would be reported twice on the claim, but paired with different NDCs.

<table>
<thead>
<tr>
<th>Procedure Code</th>
<th>Modifier</th>
<th>Procedure Quantity</th>
<th>NDC</th>
</tr>
</thead>
<tbody>
<tr>
<td>90378</td>
<td>KP</td>
<td>2</td>
<td>60574-4111-01</td>
</tr>
<tr>
<td>90378</td>
<td>KQ</td>
<td>1</td>
<td>60574-4112-01</td>
</tr>
</tbody>
</table>

On the first (1st) line, the procedure code, procedure quantity, and NDC are reported with a KP modifier (first drug of a multi-drug). On the second line, the procedure code, procedure quantity and NDC are reported with a KQ modifier (second/subsequent drug of a multi-drug).

**NOTE:** When reporting more than two (2) NDCs per procedure code, the KQ modifier is also used on the subsequent lines.
7.7.7 **Medicare Crossover Claims**

Because Medicaid pays Medicare coinsurance and deductible for dual-eligible clients, the NDC will also be required on Medicare crossover claims for all applicable procedure codes. Medicaid has verified that NDC information reported on claims submitted to Medicare will be included in the automated crossover claim feed to Medicaid. Crossover claim lines that are missing a required NDC will be denied.

7.7.8 **CMS-1500 02-12 Billing Instructions**

To report a procedure code with a NDC on the CMS-1500 02-12 claim form, enter the following NDC information into the shaded portion of field 24A:

- NDC qualifier of N4 [Required]
- NDC 11-digit numeric code [Required]

Do not enter a space between the N4 qualifier and the NDC. Do not enter hyphens or spaces within the NDC.

**CMS-1500 02-12 – One (1) NDC per Procedure Code:**

**CMS-1500 02-12 – Two (2) NDCs per Procedure Code:**

**NOTE:** Medicaid’s instructions follow the National Uniform Claim Committee’s (NUCC) recommended guidelines for reporting the NDC on the CMS-1500 02-12 claim form. Provider claims that do not adhere to these guidelines will be returned unprocessed.

7.8 **Service Thresholds**

See sections 6.10, **Service Thresholds**, through 6.10.5, **Prior Authorization Once Thresholds are Met**, for information concerning service thresholds.
7.9 Reimbursement Methodologies

Medicaid reimbursement for covered services is based on a variety of payment methodologies depending on the service provided.

- Medicaid fee schedule
- By report pricing
- Billed charges
- Invoice charges
- Negotiated rates
- Per diem
- RBRVS (Resource Based Relative Value Scale)

7.10 Usual and Customary Charges

Charges for services submitted to Medicaid must be made in accordance with an individual provider’s usual and customary charges to the general public unless:

- The provider has entered into an agreement with the Medicaid Program to provide services at a negotiated rate; or
- The provider has been directed by the Medicaid Program to submit charges at a Medicaid-specified rate.

7.10.1 Invoice Charges

- Invoice must be dated within 12-months prior to the date of service being billed – if the invoice is older, a letter must be included explaining the age of the invoice (i.e. product purchased in large quantity previously, and is still in stock)
- All discounts will be taken on the invoice.
- The discounted pricing or codes cannot be marked out.
- A packing slip, price quote, purchase order, delivery ticket, etc. may be used only if the provider no longer has access to the invoice, and is unable to obtain a replacement from the supplier/manufacturer, and a letter with explanation is included.
- Items must be clearly marked. (i.e. how many calories are in a can of formula, items in a case, milligrams, ounces, etc.)
7.11 Co-Payment Schedule

<table>
<thead>
<tr>
<th>Procedure and Revenue Code(s)</th>
<th>Description</th>
<th>Exceptions</th>
</tr>
</thead>
<tbody>
<tr>
<td>99201 – 99215</td>
<td>Office Visits only when the place of service code is 11</td>
<td>Co-payment requirements do not apply to:</td>
</tr>
<tr>
<td>99341 -99350</td>
<td>Home Visits</td>
<td></td>
</tr>
<tr>
<td>92002, 92004, 92014</td>
<td>Eye Examinations</td>
<td></td>
</tr>
<tr>
<td>90804 – 90815</td>
<td>Medical psychotherapy – co-payment only applies when the place of service code is 11</td>
<td></td>
</tr>
</tbody>
</table>

7.12 How to Bill for Newborns

When a mother is eligible for Medicaid, at the time the baby is born, the newborn is automatically eligible for Medicaid for one (1) year. However, the WDH Customer Service Center must be notified of the newborn’s name, gender, and date of birth, mom’s name and Medicaid number for a Medicaid ID Card to be issued. This information can be faxed, emailed, or mailed to the WDH Customer Service Center on letterhead from the hospital where the baby was born or reported by the parent of the baby. A provider will need to have the newborn client ID in order to bill newborn claims.

7.13 Prior Authorization

Medicaid requires prior authorization (PA) on selected services and equipment. Approval of a PA is never a guarantee of payment. A provider should not render services until a client’s eligibility has been verified and a PA has been approved (if a PA is required). Services rendered without obtaining a PA (when a PA is required) may not be reimbursed.

7.14 Order vs Delivery Date

All procedures that involve delivering an item to the client can only be billed to Medicaid on the date the item is delivered to the client. This includes glasses, DME products/supplies, dental appliances, etc. The provider is responsible for billing these procedures only on the delivery date.

Wyoming Medicaid will allow a provider to bill using the order date only if one of the following conditions are present:

- Client is not eligible on the delivery date but was eligible on the order date
- Client does not return to the office for the delivery of the product

A provider may use the order date as the date of service only if they have obtained a signed exception form from the State. To obtain this authorization, follow the steps below.

- Print the “Order vs Delivery Date Exception Form” (link to form below)
- Complete the form and fax or mail the form to the address at the bottom of the form
- Once the form is signed by the State, it will be returned to the provider and must be a part of the client’s permanent clinical record
- The provider may then bill the claim using the order date as the date of service

**NOTE:** If an audit of clinical records is performed, and it is found that the provider billed on the order date but does not have a signed “Order vs Delivery Date Exception Form” for the client and the DOS, the money paid will be recovered.
7.14.1 Order vs Delivery Date Exception Form

NOTE: Click image above to be taken to a printable version of this form

7.15 Submitting Attachments for Electronic Claims

Providers may either upload their documents electronically or complete the Attachment Cover Sheet and mail or email their documents.

- Steps for submitting electronic attachments:
  1. The fiscal agent has created a process that allows providers to submit electronic attachments for electronic claims. Providers need only follow these steps:
    - Mark the attachment indicator on the electronic claim. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Professional Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpc-edi.com.
Log onto Secured Provider Web Portal.
Under the submissions menu select Electronic Attachments.
Complete required information – Information must match the claim as submitted i.e., DOS, client information, provider information, and the name of the attachment must be identical to what was submitted in the electronic file (with no spaces).
Select Browse
Navigate to the location of the electronic attachment on the provider’s computer.
Click Upload.
For support and additional information refer to Chapter 8 and Chapter 9 or contact EDI Services (2.1, Quick Reference).

NOTE: One (1) attachment per claim, providers may not attach one (1) document to many claims. Also, if the attachment is not received within 30-days of the electronic claim submission, the claim will deny and it will be necessary to resubmit it with the proper attachment.

- Steps for submitting paper attachments by mail.
  1. The fiscal agent has created a process that allows providers to submit paper attachments for electronic claims. Providers need only follow these two (2) simple steps:
     - Mark the attachment indicator on the electronic claim and indicate by mail as the submission method. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Professional Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpec-edi.com. The data entered on the form must match the claim exactly in DOS, client information, provider information, etc.
     - Complete Attachment Cover Sheet (6.15.1, Attachment Cover Sheet) and mail it with the attachment to Claims (2.1, Quick Reference).

- Steps for submitting paper attachments by email.
  1. The fiscal agent has created a process that allows providers to submit paper attachments for electronic claims. Providers need only follow these two (2) simple steps:
     - Mark the attachment indicator on the electronic claim and indicate by mail as the submission method. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Professional Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpec-edi.com. The data entered on the form must match the claim exactly in DOS, client information, provider information, etc.
• Complete Attachment Cover Sheet (6.15.1, Attachment Cover Sheet) and email it with the attachment to wycustomersvc@conduent.com (2.1, Quick Reference).
• All emails must come secured and cannot exceed 25 pages.

**NOTE:** All steps must be followed; otherwise, the fiscal agent will not be able to join the electronic claim and paper attachment, and the claim will deny. Also, if the paper attachment is not received within 30-days of the electronic claim submission, the claim will deny and it will be necessary to resubmit it with the proper attachment.

### 7.16 Remittance Advice

After claims have been processed weekly, Medicaid distributes a Medicaid proprietary Remittance Advice (RA) to providers. The Remittance Advice (RA) plays an important communication role between providers and Medicaid. It explains the outcome of claims submitted for payment. Aside from providing a record of
transactions the RA assists providers in resolving potential errors. Providers receiving manual checks will receive their check and RA in the same mailing.

The RA is organized in the following manner:

- The first page or cover page is important and should not be over looked it may include an RA Banner notification from Wyoming Medicaid (1.2, RA Banner Notices/Samples).
- Claims are grouped by disposition category.
  - Claim Status PAID group contains all the paid claims.
  - Claim Status DENIED group reports denied claims.
  - Claim Status PENDED group reports claims pended for review. Do not resubmit these claims. All claims in pended status are reported each payment cycle until paid or denied. Claims can be in a pended status for up to 30-days.
  - Claim Status ADJUSTED group reports adjusted claims.
- All paid, denied, and pended claims and claim adjustments are itemized within each group in alphabetic order by client last name.

A unique Transaction Control Number (TCN) is assigned to each claim. TCNs allow each claim to be tracked throughout the Medicaid claims processing system. The digits and groups of digits in the TCN have specific meanings, as explained below:

- Claim Number
- Type of Document (0=new claim, 1=credit, 2=adjustment)
- Batch Number
- Imager Number
- Year/Julian Date
- Claim Input Medium Indicator___________ 0=Paper Claim
  1=Point of Sale (Pharmacy)
  2=Electronic Crossovers sent by Medicare
  3=Electronic claims submission
  4=Medicaid initiated adjustment
  5=Special Processing required

- The RA Summary Section reports the number of claim transactions, and total payment or check amount.

### 7.16.3 Remittance Advice Replacement Request Policy

If you are unable to obtain a copy from the web portal, a paper copy may be requested as follows:

To request a printed replacement copy of a Remittance Advice, complete the following steps:

- Print the Remittance Advice (RA) replacement request form
- For replacement of a complete RA contact Provider Relations (2.1, Quick Reference) to obtain the RA number, date and number of pages
- Replacements of a specific page of an RA (containing a requested specific claim/TCN) will be three (3) pages (the cover page, the page containing the claim, and the summary page for the RA)
- Review the below chart to determine the cost of the replacement RA (based on total number of pages requested – For multiple RAs requested at the same time, add total pages together)
- Send the completed form and payment as indicated on the form
  - Make checks to Division of Healthcare Financing
  - Mail to Provider Relations (2.1, Quick Reference)
The replacement RA will be emailed, faxed or mailed as requested on the form. Email is the preferred method of delivery, and RAs of more than ten (10) pages will not be faxed.

RAs less than 24 weeks old can be obtained from the Secured Provider Web Portal, once a provider has registered for access (8.5.2.1, Secured Provider Web Portal Registration Process).

<table>
<thead>

</tr>
</tbody>
</table>

7.16.3.1 Remittance Advice (RA) Replacement Request Form

NOTE: Click image above to be taken to a printable version of this form.
7.16.4 Obtain an RA from the Web

Providers have the ability to view and download their last 24 weeks of RAs from the Medicaid website, refer to Chapter 8, Electronic Data Interchange (EDI).

7.16.5 When a Client Has Other Insurance

If the client has other insurance coverage reflected in Medicaid records, payment may be denied unless providers report the coverage on the claim. Medicaid is always the payor of last resort. For exceptions and additional information regarding Third Party Liability, refer to Chapter 7 of this manual. To assist providers in filing with the other carrier, the following information is provided on the RA directly below the denied claim:

- Insurance carrier name;
- Name of insured;
- Policy number;
- Insurance carrier address;
- Group number, if applicable; and
- Group employer name and address, if applicable.

The information is specific to the individual client. The Third Party Resources Information Sheet (7.2.1, Third Party Resources Information Sheet) should be used for reporting new insurance coverage or changes in insurance coverage on a client’s policy.

7.17 Resubmitting Versus Adjusting Claims

Resubmitting and adjusting claims are important steps in correcting any billing problems. Knowing when to resubmit a claim versus adjusting it is important.

<table>
<thead>
<tr>
<th>Action</th>
<th>Description</th>
<th>Timely Filing Limitation</th>
</tr>
</thead>
<tbody>
<tr>
<td>VOID</td>
<td><strong>Claim has paid</strong>; however, the provider would like to completely cancel the claim as if it was never billed.</td>
<td>May be completed any time after the claim has been paid.</td>
</tr>
<tr>
<td>ADJUST</td>
<td><strong>Claim has paid, even if paid $0.00</strong>; however, the provider would like to make a correction or change to this paid claim</td>
<td>Must be completed within six (6) months after the claim has paid UNLESS the result will be a lower payment being made to the provider, then no time limit.</td>
</tr>
<tr>
<td>RESUBMIT</td>
<td><strong>Claim has denied entirely or a single line has denied</strong>, the provider may resubmit on a separate claim.</td>
<td>One (1) year from the date of service.</td>
</tr>
</tbody>
</table>
7.17.1 How Long do Providers Have to Resubmit or Adjust a Claim?

The deadlines for resubmitting and adjusting claims are different:

- Providers may resubmit any denied claim or line within 12-months of the date of service.
- Providers may adjust any paid claim within six (6) months of the date of payment.

Adjustment requests for over-payments are accepted indefinitely. However, the Provider Agreement requires providers to notify Medicaid within 30-days of learning of an over-payment. When Medicaid discovers an over-payment during a claims review, the provider may be notified in writing, in most cases, the over-payment will be deducted from future payments. Refund checks are not encouraged. Refund checks are not reflected on the Remittance Advice. However, deductions from future payments are reflected on the Remittance Advice, providing a hardcopy record of the repayment.

7.17.2 Resubmitting a Claim

Resubmitting is when a provider submits a claim to Medicaid that was previously submitted for payment but was either returned unprocessed or denied. Electronically submitted claims may reject for X12 submission errors. Claims may be returned to providers before processing because key information such as an authorized signature or required attachment is missing or unreadable.

How to Resubmit:

- Review and verify EOB codes on the RA/835 transaction and make all corrections and resubmit the claim.
  - Contact Provider Relations for assistance (2.1, Quick Reference).
- Claims must be submitted with all required attachments with each new submission.
- If the claim was denied because Medicaid has record of other insurance coverage, enter the missing insurance payment on the claim or submit insurance denial information, when resubmitting the claim to Medicaid.

7.17.2.1 When to Resubmit to Medicaid

- Claim Denied. Providers may resubmit to Medicaid when the entire claim has been denied, as long as the claim was denied for reasons that can be corrected. When the entire claim is denied, check the explanation of benefits (EOB) code on the RA/835 transaction, make the appropriate corrections, and resubmit the claim.
- Paid Claim With One (1) or More Line(s) Denied. – Providers may submit individually denied lines.
• Claim Returned Unprocessed. – When Medicaid is unable to process a claim it will be rejected or returned to the provider for corrections and to resubmit.

7.17.3 Adjustment/Void Request Form Electronically Adjusting Paid Claims via Hardcopy/Paper

When a provider identifies an error on a paid claim, the provider must submit an Adjustment/Void Request Form. If the incorrect payment was the result of a keying error (paper claim submission), by the fiscal agent contact Provider Relations to have the claim corrected (2.1, Quick Reference).

NOTE: All items on a paid claim can be corrected with an adjustment EXCEPT the pay-to provider number. In this case, the original claim will need to be voided and the corrected claim submitted.

Denied claims cannot be adjusted.

When adjustments are made to previously paid claims, Medicaid reverses the original payment and processes a replacement claim. The result of the adjustment appears on the RA/835 transaction as two (2) transactions. The reversal of the original payment will appear as a credit (negative) transaction. The replacement claim will appear as a debit (positive) transaction and may or may not appear on the same RA/835 transaction as the credit transaction. The replacement claim will have almost the same TCN as the credit transaction, except the 12th digit will be a two (2), indicating an adjustment, whereas the credit will have a one (1) in the 12th digit indicating a debit.
7.17.3.1 Adjustment/Void Request Form

Adjustment/Void Request Form

SECTION A: CHECK BOX-decoration

☐ Non-Claim Adjustment: Attach a copy of the claim with corrections made at bottom.

☐ DO NOT USE HIGHLIGHTER

☐ Void Claim: Attach a copy of the claim or Remittance Advice.

SECTION B

Complete Sections B and C. If attaching a check, the check should be payable to the Division of Healthcare Financing (DHCF).

SECTION C: SIGNATURE AND DATE REQUIRED

Provider Signature: ______________________ Date: _______________

Remarks/Status: ______________________ (For Internal Use Only)

Cash Control Number: ______________________ Date: _______________

NOTE: If a provider wants to void an entire RA, contact Provider Relations (2.1, Quick Reference). Click image above to be taken to a printable version of this form.

7.17.3.2 How to Request an Adjustment/Void

To request an adjustment, use the Adjustment/Void Request Form (7.17.3.1, Adjustment/Void Request Form). The requirements for adjusting/voiding a claim are as follows:

- An adjustment/void can only be processed if the claim has been paid by Medicaid.
- Medicaid must receive individual claim adjustment requests within six (6) months of the claim payment date.
- A separate Adjustment/Void Request Form must be used for each claim.
- If the provider is correcting more than one (1) error per claim, use only one (1) Adjustment/Void Request Form, and include all corrections on one form.
  - If more than one (1) line of the claim needs to be adjusted, indicate which lines and items need to be adjusted in the “Reason for Adjustment or Void” section on the form or simply state, refer to the attached corrected claim.
### 7.17.3.3 How to Complete the Adjustment/Void Request Form

</table>

Adjusting a claim electronically via an 837 transaction.

Wyoming Medicaid accepts claim adjustments electronically, refer to Chapter 11, Wyoming Specific HIPAA 5010 Electronic Specifications, for complete details.

#### 7.17.3.4 When to Request an Adjustment

- When a claim was overpaid or underpaid.
- When a claim was paid, but the information on the claim was incorrect (such as client ID, date of service, procedure code, diagnoses, units, etc.)
- When Medicaid pays a claim and the provider subsequently receives payment from a third party payor, the provider must adjust the paid claim to reflect the TPL amount paid.
- Attach a corrected claim showing the insurance payment and attach a copy of the insurance EOB if the payment is less than 40% of the total claim charge.
- For the complete policy regarding Third Party Liability refer to Chapter 9.
NOTE: Cannot complete an adjustment when the mistake is the pay-to provider number or NPI.

7.17.3.5 When to Request a Void

Request a void when a claim was billed in error (such as incorrect provider number, services not rendered, etc.).

7.18 Credit Balances

A credit balance occurs when a provider’s credits (take backs) exceed their debits (pay outs), which results in the provider owing Medicaid money.

Credit balances may be resolved in two (2) ways:

1. Working off the credit balance: By taking no action, remaining credit balances will be deducted from future claim payments. The deductions appear as credits on the provider’s RA(s)/835 transaction(s) until the balance owed to Medicaid has been paid.
2. Sending a check payable to the “Division of Healthcare Financing” for the amount owed. This method is typically required for providers who no longer submit claims to Medicaid or if the balance is not paid within 30-days. A notice is typically sent from Medicaid to the provider requesting the credit balance to be paid. The provider is asked to attach the notice, a check and a letter explaining the money is to pay off a credit balance. Include the provider number to ensure the money is applied correctly.

NOTE: When a provider number with Wyoming Medicaid changes, but the provider’s tax-id remains the same, the credit balance will be moved automatically from the old Medicaid provider number to the new one, and will be reflected on RAs/835 transactions.

7.19 Timely Filing

The Division of Healthcare Financing adheres strictly to its timely filing policy. The provider must submit a clean claim to Medicaid within 12-months of the date of service. A clean claim is an error free, correctly completed claim, with all required attachments, that will process and approve to pay within the twelve-month time period. Submit claims immediately after providing services so when a claim is denied, there is time to correct any errors and resubmit. Claims are to be submitted only after the service(s) have been rendered, and not before. For deliverable items (i.e. dentures, DME, glasses, hearing aids, etc.) the date of service must be the date of delivery, not the order date.
### 7.19.1 Exceptions to the Twelve-Month Limit

Exceptions to the 12-month claim submission limit may be made under certain circumstances. The chart below shows when an exception may be made, the time limit for each exception, and how to request an exception.

<table>
<thead>
<tr>
<th>Exceptions Beyond the Control of the Provider</th>
<th>The Time Limit is:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Medicare Crossover</strong></td>
<td>A Claim must be submitted within 12-months of the date of service or within six (6) months from the payment date on the Explanation of Medicare Benefits (EOMB), whichever is later.</td>
</tr>
<tr>
<td><strong>Client is determined to be eligible on appeal, reconsideration, or court decision (retroactive eligibility)</strong></td>
<td>Claims must be submitted with in six (6) months of the date of the determination of retroactive eligibility. The client must provide a copy of the dated letter to the provider to document retroactive eligibility. If a claim exceeds timely filing and the provider elects to accept the client as a Medicaid client and bill Wyoming Medicaid, a copy of the notice must me attached to the claim with a cover letter requesting an exception to timely filing. The notice of retroactive eligibility may be a SSI award notice or a notice from WDH.</td>
</tr>
<tr>
<td><strong>Client is determined to be eligible due to agency corrective actions (retroactive eligibility)</strong></td>
<td>Claims must be submitted within six (6) months of the date of the determination of retroactive eligibility. The client must provide a copy of the dated letter to the provider to document retroactive eligibility. If a claim exceeds timely filing and the provider elects to accept the client as a Medicaid client and bill Wyoming Medicaid, a copy of the notice must be attached to the claim with a cover letter requesting an exception to timely filing.</td>
</tr>
<tr>
<td><strong>Provider finds their records to be inconsistent with filed claims, regarding rendered services. This includes dates of service, procedure/revenue codes, tooth codes, modifiers, admission or discharge dates/times, treating or referring providers or any other item which makes the records/claims non-supportive of each other.</strong></td>
<td>Although there is no specific time limit for correcting errors, the corrected claim must be submitted in a timely manner from when the error was discovered. If the claim exceeds timely filing, the claim must be sent with a cover letter requesting an exception to timely filing citing this policy.</td>
</tr>
</tbody>
</table>

### 7.19.2 Appeal of Timely Filing

A provider may appeal a denial for timely filing ONLY under the following circumstances:

- The claim was originally filed within 12-months of the date of service and is on file with Wyoming Medicaid; and
• The provider made at least one (1) attempt to resubmit the corrected claim within 12-months of the date of service; and
• The provider must document in their appeal letter all claims information and what corrections they made to the claim (all claims history, including TCNs) as well as all contact with or assistance received from Provider Relations (dates, times, call reference number, who was spoken with, etc.) or
• A Medicaid computer or policy problem beyond the provider's control prevented the provider from finalizing the claim within 12-months of the date of service

Any appeal that does not meet the above criteria will be denied. Timely filing will not be waived when a claim is denied due to provider billing errors or involving third party liability.

7.19.2.1 How to Appeal

The provider must submit the appeal in writing to Provider Relations (2.1, Quick Reference) and should include the following:

• Documentation of previous claim submission (TCNs, documentation of the corrections made to the subsequent claims);
• Documentation of contact with Provider Relations
• An explanation of the problem; and
• A clean copy of the claim, along with any required attachments and required information on the attachments. A clean claim is an error free, correctly completed claim, with all required attachments, that will process and pay.

7.20 Important Information Regarding Retroactive Eligibility Decisions

The client is responsible for notifying the provider of the retroactive eligibility determination and supplying a copy of the notice.

A provider is responsible for billing Medicaid only if:

• They agreed to accept the patient as a Medicaid client pending Medicaid eligibility; or
• After being informed of retroactive eligibility, they elect to bill Medicaid for services previously provided under a private agreement. In this case, any money paid by the client for the services being billed to Medicaid would need to be refunded prior to a claim being submitted to Medicaid.
NOTE: The provider determines at the time they are notified of the client’s eligibility if they are choosing to accept the client as a Medicaid client. If the provider does not accept the client, they remain private pay.

In the event of retroactive eligibility, claims must be submitted within six (6) months of the date of determination of retroactive eligibility.

NOTE: Inpatient Hospital Certification: A hospital may seek admission certification for a client found retroactively eligible for Medicaid benefits after the date of admission for services that require admission certification. The hospital must request admission certification within 30-days after the hospital receives notice of eligibility. To obtain certification, contact WYhealth (2.1, Quick Reference).

7.21 Client Fails to Notify a Provider of Eligibility

If a client fails to notify a provider of Medicaid eligibility and is billed as a private-pay patient, the client is responsible for the bill unless the provider agrees to submit a claim to Medicaid. In this case:

- Any money paid by the client for the service being billed to Wyoming Medicaid must be refunded prior to billing Medicaid;
- The client can no longer be billed for the service; and
- Timely filing criterion is in effect.

NOTE: The provider determines at the time they are notified of the client’s eligibility if they are choosing to accept the client as a Medicaid client. If the provider does not accept the client, they remain private pay.

7.22 Billing Tips to Avoid Timely Filing Denials

- File claims soon after services are rendered.
- Carefully review EOB codes on the Remittance Advice/835 transaction (work RAs/835s weekly).
- Resubmit the entire claim or denied line only after all corrections have been made.
- Contact Provider Relations (2.1, Quick Reference):
  - With any questions regarding billing or denials.
  - When payment has not been received within 30-days of submission, verify the status of the claim.
- When there are multiple denials on a claim, request a review of the denials prior to resubmission.

**NOTE:** Once a provider has agreed to accept a patient as a Medicaid client, any loss of Medicaid reimbursement due to provider failure to meet timely filing deadlines is the responsibility of the provider.

### 7.23 Telehealth

Telehealth is the use of an electronic media to link beneficiaries with health professionals in different locations. The examination of the client is performed via a real time interactive audio and video telecommunications system. This means that the client must be able to see and interact with the off-site practitioner at the time services are provided via telehealth technology.

See sections [6.24, Telehealth](#), through [6.24.5, Telehealth Consent Form Instructions](#), for coverage information concerning telehealth.

      8.13.2.2 When to Resubmit to Medicaid ............................... 179
8.1 Electronic Billing

As of July 1, 2015 Wyoming Medicaid requires all providers to submit electronically. There are two (2) exceptions to this requirement:

- Providers who do not submit at least 25 claims in a calendar year.
- Providers who do not bill diagnosis codes on their claims.

NOTE: Effective July 1st, 2016 Dental providers will no longer be exempt under this exclusion, and will be required to bill electronically, unless exempted under the 25 claims or fewer option.

If a provider is unable to submit electronically, the provider must submit a request for an exemption in writing and must include:

1. Provider name, NPI, contact name and phone number
2. The calendar year for which the exemption is being requested
3. Detailed explanation of the reason for the exemption request

Mail to:

Wyoming Medicaid
Attn: Provider Relations
PO Box 667
Cheyenne, WY 82003-0667

A new exemption request must be submitted for each calendar year. Wyoming Medicaid has free software or applications available for providers to bill electronically (Chapter 10, Electronic Data Interchange (EDI)).

8.2 Basic Paper Claim Information

The 2012 ADA Claim Form is the only dental claim form that will be accepted. Claims that do not follow Medicaid provider policies and procedures will be returned unprocessed with a letter. When a claim is returned because of billing errors and/or missing attachments, the provider may correct the claim and return it to Medicaid for processing.

NOTE: The fiscal agent and the Division of Healthcare Financing (DHCF) are prohibited by federal law from altering a claim.
Billing errors detected after a claim is submitted cannot be corrected until after Medicaid has made payment or notified the provider of the denial. Providers should not resubmit or attempt to adjust a claim until it is reported on their Remittance Advice (8.13, Resubmitting Versus Adjusting Claims).

**NOTE:** Claims are to be submitted only after service(s) have been rendered, not before. For deliverable items (i.e. dentures, DME, glasses, hearing aids, etc.) the date of service must be the date of delivery, not the order date.

### 8.3 Authorized Signatures

All paper claims must be signed by the provider or the provider’s authorized representative. Acceptable signatures may be either handwritten, a stamped facsimile, typed, computer generated, or initialed. The signature certifies all information on the claim is true, accurate, complete, and contains no false or erroneous information. Remarks such as signature on file or facility names will not be accepted.
## 8.4 Completing the Dental Form

### 8.4.1 Dental Claim Form

8.5 Examples of Billing

8.5.1 Client has Medicaid Only
8.5.2 Client has Medicaid and Third Party Liability (TPL)
8.6 Reimbursement

Medicaid reimbursement for covered services is based on a variety of payment methodologies depending on the service provided.

- Medicaid fee schedule
- By report pricing
- Billed charges
- Invoice charges
- Negotiated rates

8.7 Usual and Customary Charges

Charges for services submitted to Medicaid must be made in accordance with an individual provider’s usual and customary charges to the general public unless:

- The provider has entered into an agreement with the Medicaid Program to provide services at a negotiated rate; or
- The provider has been directed by the Medicaid Program to submit charges at a Medicaid-specified rate.

8.7.1 Invoice/lap Charges

- Invoice must be dated within 12-months prior to the date of service being billed – if the invoice is older, a letter must be included explaining the age of the invoice (i.e. product purchased in large quantity previously, and is still in stock).
- All discounts will be taken on the invoice.
- The discounted pricing or codes cannot be marked out.
- A packing slip, price quote, purchase order, delivery ticket, etc. may be used only if the provider no longer has access to the invoice, and is unable to obtain a replacement from the supplier/manufacturer, and a letter with explanation is included.
- Items must be clearly marked. (i.e. materials used, tooth numbers replaced, etc.).

8.8 How to bill for Newborns

When a mother is eligible for Medicaid, at the time the baby is born, the newborn is automatically eligible for Medicaid for one (1) year. However, the WDH Customer Service Center must be notified of the newborn’s name, gender, and date of birth, mom’s name and Medicaid number for a Medicaid ID Card to be issued. This information can be faxed, emailed, or mailed to the WDH Customer Service Center on letterhead from the hospital where the baby was born or reported by the parent of the baby. A provider will need to have the newborn client ID in order to bill newborn claims.
8.9 Prior Authorization (PA)

Medicaid requires a Prior Authorization (PA) on selected services and equipment. **Approval of a PA is never a guarantee of payment.** A provider should not render services until a client’s eligibility has been verified and a PA approved (if a PA is required). Services rendered without obtaining a PA prior to providing services will not be reimbursed.

For further instructions on how to complete prior authorizations, please see section 28.1.6 Requesting Prior-Authorization (PA) for Dental Codes.

8.10 Submitting Attachments for Electronic Claims

Providers may either upload their documents electronically or complete the Attachment Cover Sheet and mail their documents.

- Steps for submitting electronic attachments:
  - The fiscal agent has created a process that allows providers to submit electronic attachments for electronic claims. Providers need only follow these steps:
    - a. Mark the attachment indicator on the electronic claim. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Dental Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at [http://www.wpc-edi.com/](http://www.wpc-edi.com/).
    - b. Log onto Secured Provider Web Portal.
    - c. Under the submissions menu select Electronic Attachments.
    - d. Complete required information – information must match the claim as submitted i.e., DOS, client information, provider information, and the name of the attachment must be identical to what was submitted in the electronic file (with no spaces).
    - e. Select Browse
    - f. Navigate to the location of the electronic attachment on the providers computer.
    - g. Click Upload.
h. For support and additional information refer to Chapter 10 and Chapter 11 or contact EDI Services (2.1, Quick Reference).

NOTE: One (1) attachment per claim, providers may not attach one (1) document to many claims. Also, if the attachment is not received within 30-days of the electronic claim submission, the claim will deny and it will be necessary to resubmit it with the proper attachment.

• Steps for submitting paper attachments:
  1. The fiscal agent has created a process that allows providers to submit paper attachments for electronic claims. Providers need only follow these two (2) simple steps:
     a. Mark the attachment indicator on the electronic claim and indicate by mail as the submission method. For more information on the attachment indicator, consult the provider software vendor or clearinghouse, or the X12N 837 Dental Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpc-edi.com/.
     • The data entered on the form must match the claim exactly in DOS, client information, provider information, etc.
     b. Complete Attachment Cover Sheet (8.11.1, Attachment Coversheet) and mail it with the attachment to Claims (2.1, Quick Reference).

NOTE: Both steps must be followed; otherwise, the fiscal agent will not be able to join the electronic claim and paper attachment, and the claim will deny. Also, if the paper attachment is not received within 30-days of the electronic claim submission, the claim will deny and it will be necessary to resubmit it with the proper attachment.
8.10.1 Attachment Cover Sheet

Attachment Cover Sheet

Please use this form when submitting a claim electronically which requires attachments. The supporting documentation (EORI, medical records, etc.) must be attached to this cover sheet. If this document is received without a cover sheet the request CANNOT be processed and the documents will be returned.

All information entered on this cover sheet must match the data entered in the 837 claim transaction, including the Attachment Type and Attachment Control Number. Also, the Attachment Transaction Code in the 837 claim transaction must be set to 'IM' (by mail) to indicate the attachment is being sent separately.

8.11 Remittance Advice

After claims have been processed weekly, Medicaid distributes a Medicaid proprietary Remittance Advice (RA) to providers. The Remittance Advice (RA) plays an important communication role between providers and Medicaid. It explains the outcome of claims submitted for payment. Aside from providing a record of transactions the RA assists providers in resolving potential errors. Providers receiving manual checks will receive their check and RA in the same mailing.

The RA is organized in the following manner:

- The first page or cover page is important and should not be overlooked. It may include an RA Banner notification from Wyoming Medicaid (1.2.1, RA Banner Notices/Samples).
- Claims are grouped by disposition category.
  - Claim Status PAID group contains all the paid claims.
Claim Status DENIED group reports denied claims.

Claim Status PENDED group reports claims pended for review. Do not resubmit these claims. All claims in pended status are reported each payment cycle until paid or denied. Claims can be in a pended status for up to 30-days.

Claim Status ADJUSTED group reports adjusted claims.

- All paid, denied, and pended claims and claim adjustments are itemized within each group in alphabetic order by client last name.
- A unique Transaction Control Number (TCN) is assigned to each claim. TCNs allow each claim to be tracked throughout the Medicaid claims processing system. The digits and groups of digits in the TCN have specific meanings, as explained below:

<table>
<thead>
<tr>
<th>0</th>
<th>05180</th>
<th>22</th>
<th>001</th>
<th>0</th>
<th>001 00</th>
</tr>
</thead>
</table>

- Claim Number
- Type of Document (0=new claim, 1=credit, 2=adjustment)
- Batch Number
- Imager Number
- Year/Julian Date

Claim Input Medium Indicator___________
- 0=Paper Claim
- 1=Point of Sale (Pharmacy)
- 2=Electronic Crossovers sent by Medicare
- 3=Electronic claims submission
- 4=Electronic adjustment
- 5=Special Processing required

- The RA Summary Section reports the number of claim transactions, and total payment or check amount.

8.11.3 Remittance Advice Replacement Request Policy

If you are unable to obtain a copy from the web portal, a paper copy may be requested as follows.

To request a printed replacement copy of a Remittance Advice, complete the following steps:

- Print the Remittance Advice (RA) replacement request form.
- For replacement of a complete RA contact Provider Relations (2.1, Quick Reference) to obtain the RA number, date and number of pages.
- Replacements of a specific page of an RA (containing a requested specific claim/TCN) will be three (3) pages (the cover page, the page containing the claim, and the summary page for the RA).
- Review the below chart to determine the cost of the replacement RA (based on total number of pages requested – for multiple RAs requested at the same time, add total pages together).
- Send the completed form and payment as indicated on the form.
  - Make checks to Division of Healthcare Financing
  - Mail to Provider Relations (2.1, Quick Reference)

The replacement RA will be emailed, faxed or mailed as requested on the form. Email is the preferred method of delivery, and RAs of more than ten (10) pages will not be faxed.

RAs less than 24 weeks old can be obtained from the Secured Provider Web Portal, once a provider has registered for access (10.5.2.1, Secured Provider Web Portal Registration Process).

<table>
<thead>
<tr>

<th>Provider Name (as enrolled in Wyoming Medicaid):</th>
<th>Provider NPI:</th>
<th>Provider Taxonomy:</th>
</tr>
</thead>
<tbody>
<tr>
<td>OR</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Wyoming Medicaid Provider ID:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Please complete as much of the following as possible, to enable us to locate your requested RA:

To request a complete RA:

- RA Number:
- RA Date:
- RA Amount:

To request a single RA page (includes cover sheet and summary and the page with the specific claim):

- Specific Claim TCN: ______________________
- Specific Claim Client ID and Date of Service: ______________________

Delivery Method (select one):

- Email Address (preferred):
- Fax Number (cover sheet cannot be faxed): ______________________
- Mailing Address:

Return this form, along with appropriate payment (make checks payable to the Division of Healthcare Financing), to:

Wyoming Medicaid
Attn: Provider Relations
PO Box 567
Cheyenne, WY 82003-0567

Enveloped Check Info:
- Total Amount: ______________________
- Check Number: ______________________

Your RA will be sent to you by your above chosen method within 10 business days of receipt.
Contact Provider Relations at 307-242-1264, press 1, 5, 9 for questions.

NOTE:  Click image above to be taken to a printable version of this form.

8.11.5 Obtain an RA from the Web

Providers have the ability to view and download their last 24 weeks of RAs from the Medicaid website, refer to Chapter 10, Electronic Data Interchange (EDI).

8.11.6 When a Client has Other Insurance

If the client has other insurance coverage reflected in Medicaid records, payment may be denied unless providers report the coverage on the claim. Medicaid is always the payor of last resort. For exceptions and additional information regarding Third Party Liability, refer to Chapter 9 of this manual. To assist providers in filing with the other carrier, the following information is provided on the RA directly below the denied claim:

- Insurance carrier name;
- Name of insured;
- Policy number;
- Insurance carrier address;
- Group number, if applicable; and
- Group employer name and address, if applicable.
The information is specific to the individual client. The Third Party Resources Information Sheet (9.2.1, Third Party Resources Information Sheet) should be used for reporting new insurance coverage or changes in insurance coverage on a client’s policy.

8.12 Resubmitting Versus Adjusting Claims

Resubmitting and adjusting claims are important steps in correcting any billing problems. Knowing when to resubmit a claim versus adjusting it is important.

<table>
<thead>
<tr>
<th>Action</th>
<th>Description</th>
<th>Timely Filing Limitation</th>
</tr>
</thead>
<tbody>
<tr>
<td>VOID</td>
<td>Claim has paid; however, the provider would like to completely cancel the claim as if it was never billed.</td>
<td>May be completed any time after the claim has been paid.</td>
</tr>
<tr>
<td>ADJUST</td>
<td>Claim has paid, even if paid $0.00; however, the provider would like to make a correction or change to this paid claim</td>
<td>Must be completed within six (6) months after the claim has paid UNLESS the result will be a lower payment being made to the provider, then no time limit.</td>
</tr>
<tr>
<td>RESUBMIT</td>
<td>Claim has denied entirely or a single line has denied, the provider may resubmit on a separate claim.</td>
<td>One (1) year from the date of service.</td>
</tr>
</tbody>
</table>

8.12.1 How long do providers have to resubmit or adjust a claim?

The deadlines for resubmitting and adjusting claims are different:

- Providers may resubmit any denied claim or line within 12-months of the date of service.
- Providers may adjust any paid claim within six (6) months of the date of payment.

Adjustment requests for over-payments are accepted indefinitely. However, the Provider Agreement requires providers to notify Medicaid within 30-days of learning of an over-payment. When Medicaid discovers an over-payment during a claims review, the provider may be notified in writing, in most cases, the over-payment will be deducted from future payments. **Refund checks are not encouraged.** Refund checks are not reflected on the Remittance Advice. However, deductions from future payments are reflected on the Remittance Advice, providing a hardcopy record of the repayment.
8.12.2 Resubmitting a Claim

Resubmitting is when a provider submits a claim to Medicaid that was previously submitted for payment but was either returned unprocessed or denied. Electronically submitted claims may reject for X12 submission errors. Claims may be returned to providers before processing because key information such as an authorized signature or required attachment is missing or unreadable.

How to Resubmit:

- Review and verify EOB codes on the RA/835 transaction and make all corrections and resubmit the claim.
  - Contact Provider Relations for assistance (2.1, Quick Reference).
- Claims must be submitted with all required attachments with each new submission.
- If the claim was denied because Medicaid has record of other insurance coverage, enter the missing insurance payment on the claim or submit insurance denial information, when resubmitting the claim to Medicaid.

8.12.2.1 How to Resubmit

- Review and verify EOB codes on the RA/835 transaction and make all corrections and resubmit the claim.
  - Contact Dental Services for assistance (2.1, Quick Reference).
- Claims must be submitted with all required attachments with each new submission.
- If the claim was denied because Medicaid has record of other insurance coverage, enter the missing insurance payment on the claim or submit insurance denial information, when resubmitting the claim to Medicaid.

8.12.2.2 When to Resubmit to Medicaid

- Claim Denied. Providers may resubmit to Medicaid when the entire claim has been denied, as long as the claim was denied for reasons that can be corrected. When the entire claim is denied, check the explanation of benefits (EOB) code on the RA/835 transaction, make the appropriate corrections, and resubmit the claim.
- Paid Claim With One (1) or More Line(s) Denied. Providers may submit individually denied lines.
- Claim Returned Unprocessed. When Medicaid is unable to process a claim it will be rejected or returned to the provider for corrections and to resubmit.
8.12.3 Adjustment/Void Request Form & Electronically Adjusting paid claims via hardcopy/paper

When a provider identifies an error on a paid claim, the provider must submit an Adjustment/Void Request Form. If the incorrect payment was the result of a keying error (paper claim submission), by the fiscal agent contact Dental Services to have the claim corrected (2.1, Quick Reference).

NOTE: All items on a paid claim can be corrected with an adjustment EXCEPT the pay-to provider number. In this case, the original claim will need to be voided and the corrected claim submitted.

Denied claims cannot be adjusted.

When adjustments are made to previously paid claims, Medicaid reverses the original payment and processes a replacement claim. The result of the adjustment appears on the RA/835 transaction as two (2) transactions. The reversal of the original payment will appear as a credit (negative) transaction. The replacement claim will appear as a debit (positive) transaction and may or may not appear on the same RA/835 transaction as the credit transaction. The replacement claim will have almost the same TCN as the credit transaction, except the 12th digit will be a two (2), indicating an adjustment, whereas the credit will have a one (1) in the 12th digit indicating a debit.
8.12.4 Adjustment/Void Request Form

Adjustment/void Request Form

SECTION A: INITIAL REQUEST

☐ Tar CLAIM ADJUSTMENT - Attach a copy of the claim with corrections made in black ink.

☐ Tar VOID CLAIM - Attach a copy of the claim or Remittance Advises.

DO NOT USE HIGHLIGHTER

SECTION B: TO FACILITATE CLAIM ADJUSTMENT PROCESSING, PLEASE COMPLETE THE FOLLOWING:

1. INSURANCE PLAN:

2. PAYMENT DATE:

3. SUBMITTED OR CLAIM NUMBER:

4. PROVIDER NAME:

5. INSURED/CARD NUMBER:

6. NPI NUMBER:

7. REASON FOR ADJUSTMENT OR VOID:

SECTION C: SIGNATURE AND DATE REQUIRED

PROVIDER SIGNATURE: ___________________________ DATE: __________

RETURN ALL REQUESTS TO:

WORKING, WYOMING

ATTN: CLAIMS

PO BOX 641

CHEYENNE, WY 82001-0641

NOTE: If a provider wants to void an entire RA, contact Dental Services (2.1, Quick Reference). Click image above to be taken to a printable version of this form.

8.12.4.1 How to request an adjustment/void

To request an adjustment, use the Adjustment/Void Request Form. The requirements for adjusting/voiding a claim are as follows:

- An adjustment/void can only be processed if the claim has been paid by Medicaid.
- Medicaid must receive individual claim adjustment requests within six (6) months of the claim payment date.
- A separate Adjustment/Void Request Form must be used for each claim.
- If the provider is correcting more than one (1) error per claim, use only one (1) Adjustment/Void Request Form, and include all corrections on one (1) form.
  - If more than one (1) line of the claim needs to be adjusted, indicate which lines and items need to be adjusted in the “Reason for Adjustment or Void” section on the form or simply state, refer to the attached corrected claim.
### 8.12.4.2 How to Complete the Adjustment/Void Request Form

**Adjusting a claim electronically via an 837 transaction**

Wyoming Medicaid accepts claim adjustments electronically, refer to [Chapter 11, Wyoming Specific HIPAA 5010 Electronic Specifications](#), for complete details.

### 8.12.4.3 When to Request an Adjustment

- When a claim was overpaid or underpaid.
- When a claim was paid, but the information on the claim was incorrect (such as client ID, date of service, procedure code, diagnoses, units, etc.)
- When Medicaid pays a claim and the provider subsequently receives payment from a third party payor, the provider must adjust the paid claim to reflect the TPL amount paid.
  - If an adjustment is submitted stating that TPL paid on the claim, but the TPL paid amount is not indicated on the adjustment or an EOB is not sent in with the claim, Medicaid will list the TPL amount as either the billed or reimbursement amount from the adjusted claim (whichever is greater). It will be up to the provider to adjust again, with the corrected information.
NOTE: Cannot complete an adjustment when the mistake is the pay-to provider number or NPI.

8.12.4.4 When to Request a Void

Request a void when a claim was billed in error (such as incorrect provider number, services not rendered, etc.).

8.13 Credit Balances

A credit balance occurs when a provider’s credits (take backs) exceed their debits (pay outs), which results in the provider owing Medicaid money.

Credit balances may be resolved in two (2) ways:

- Working off the credit balance. By taking no action, remaining credit balances will be deducted from future claim payments. The deductions appear as credits on the provider’s RA(s)/835 transaction(s) until the balance owed to Medicaid has been paid.
- Sending a check payable to the “Division of Healthcare Financing” for the amount owed. This method is typically required for providers who no longer submit claims to Medicaid or if the balance is not paid within 30-days. A notice is typically sent from Medicaid to the provider requesting the credit balance to be paid. The provider is asked to attach the notice, a check and a letter explaining the money is to pay off a credit balance. Include the provider number to ensure the money is applied correctly.

NOTE: When a provider number with Wyoming Medicaid changes, but the provider’s tax-id remains the same, the credit balance will be moved automatically from the old Medicaid provider number to the new one, and will be reflected on RAs/835 transactions.

8.14 Timely Filing

The Division of Healthcare Financing adheres strictly to its timely filing policy. The provider must submit a clean claim to Medicaid within 12-months of the date of service. A clean claim is an error free, correctly completed claim, with all required attachments, that will process and approve to pay within the 12-month time period. Submit claims immediately after providing services so when a claim is denied, there is time to correct any errors and resubmit. Claims are to be submitted only after the service(s) have been rendered, and not before. For deliverable items (i.e. dentures, DME, glasses, hearing aids, etc.) the date of service must be the date of delivery, not the order date.
8.14.1 Exception to the 12-Month Limit

Exceptions to the 12-month claim submission limit may be made under certain circumstances. The chart below shows when an exception may be made, the time limit for each exception, and how to request an exception.

<table>
<thead>
<tr>
<th>Exceptions Beyond the Control of the Provider</th>
<th>The time limit is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medicare Crossover</td>
<td>A claim must be submitted within 12-months of the date of service or within six (6) months from the date of service or within six (6) months from the payment date on the Explanation of Medicare Benefits (EOMB), whichever is later.</td>
</tr>
<tr>
<td>Client is determined to be eligible on appeal, reconsideration, or court decision (retroactive eligibility)</td>
<td>Claims must be submitted within six (6) months of the date of the determination of retroactive eligibility. The client must provide a copy of the dated letter to the provider to document retroactive eligibility. If a claim exceeds timely filing, and the provider elects to accept the client as a Medicaid client and bill Wyoming Medicaid, a copy of the notice must be attached to the claim with a cover letter requesting an exception to timely filing. The notice of retroactive eligibility may be a SSI award notice or a notice from WDH.</td>
</tr>
<tr>
<td>Client is determined to be eligible due to agency corrective actions (retroactive eligibility)</td>
<td>Claims must be submitted within six (6) months of the date of the determination of retroactive eligibility. The client must provide a copy of the dated letter to the provider to document retroactive eligibility. If a claim exceeds timely filing, and the provider elects to accept the client as a Medicaid client and bill Wyoming Medicaid, a copy of the notice must be attached to the claim with a cover letter requesting an exception to timely filing.</td>
</tr>
<tr>
<td>Provider finds their records to be inconsistent with filed claims, regarding rendered services. This includes dates of service, procedure/revenue codes, tooth codes, modifiers, admission or discharge dates/times, treating or referring providers or any other item which makes the records/claims non-supportive of each other.</td>
<td>Although there is no specific time limit for correcting errors, the corrected claim must be submitted in a timely manner from when the error was discovered. If the claim exceeds timely filing, the claim must be sent with a cover letter requesting an exception to timely filing citing this policy.</td>
</tr>
</tbody>
</table>

8.14.2 Appeal of Timely Filing

A provider may appeal a denial for timely filing ONLY under the following circumstances:

- The claim was originally filed within 12-months of the date of service and is on file with Wyoming Medicaid; and
The provider made at least one (1) attempt to resubmit the corrected claim within 12-months of the date of service; and

- The provider must document in their appeal letter all claims information and what corrections they made to the claim (all claims history, including TCNs) as well as all contact with or assistance received from Provider Relations (dates, times, call reference number, who was spoken with, etc.) or

- A Medicaid computer or policy problem beyond the provider’s control prevented the provider from finalizing the claim within 12-months of the date of service.

Any appeal that does not meet the above criteria will be denied. Timely filing will not be waived when a claim is denied due to provider billing errors or involving third party liability.

### 8.14.2.1 How to Appeal

The provider must submit the appeal in writing to Dental Services ([2.1, Quick Reference](#)) and should include the following:

- Documentation of previous claim submission (TCNs, documentation of the corrections made to the subsequent claims);
- Documentation of contact with Dental Services.
- An explanation of the problem; and
- A clean copy of the claim, along with any required attachments and required information on the attachments. A clean claim is an error free, correctly completed claim, with all required attachments, that will process and pay.

### 8.15 Important Information Regarding Retroactive Eligibility Decisions

The client is responsible for notifying the provider of the retroactive eligibility determination and supplying a copy of the notice.

A provider is responsible for billing Medicaid only if:

- They agreed to accept the patient as a Medicaid client pending Medicaid eligibility; or
- After being informed of retroactive eligibility, they elect to bill Medicaid for services previously provided under a private agreement. In this case, any money paid by the client for the services being billed to Medicaid would need to be refunded prior to a claim being submitted to Medicaid.

**NOTE:** The provider determines at the time they are notified of the client’s eligibility if they are choosing to accept the client as a Medicaid client. If the provider does not accept the client, they remain private pay.
In the event of retroactive eligibility, claims must be submitted within six (6) months of the date of determination of retroactive eligibility.

**NOTE:** Inpatient Hospital Certification: A hospital may seek admission certification for a client found retroactively eligible for Medicaid benefits after the date of admission for services that require admission certification. The hospital must request admission certification within 30-days after the hospital receives notice of eligibility. To obtain certification, contact WYhealth (2.1, Quick Reference).

### 8.16 Client Fails to Notify a Provider of Eligibility

If a client fails to notify a provider of Medicaid eligibility and is billed as a private-pay patient, the client is responsible for the bill unless the provider agrees to submit a claim to Medicaid. In this case:

- Any money paid by the client for the service being billed to Wyoming Medicaid must be refunded prior to billing Medicaid;
- The client can no longer be billed for the service; and
- Timely filing criteria is in effect.

**NOTE:** The provider determines at the time they are notified of the client’s eligibility if they are choosing to accept the client as a Medicaid client. If the provider does not accept the client, they remain private pay.

### 8.17 Billing Tips to Avoid Timely Filing Denials

- File claims soon after services are rendered.
- Carefully review EOB codes on the Remittance Advice/835 transaction (work RAs/835s weekly).
- Resubmit the entire claim or denied line only after all corrections have been made.
- Contact Dental Services (2.1, Quick Reference):
  - With any questions regarding billing or denials.
  - When payment has not been received within 30-days of submission, verify the status of the claim.
  - When there are multiple denials on a claim, request a review of the denials prior to resubmission.

**NOTE:** Once a provider has agreed to accept a patient as a Medicaid client, any loss of Medicaid reimbursement due to provider failure to meet timely filing deadlines is the responsibility of the provider.

9.4.3 Coinsurance and Deductible ................................................................. 199
9.1 Definition of a Third Party Liability

9.1.1 Third Party Liability (TPL)

TPL is defined as the right of the department to recover, on behalf of a client, from a third party payer the costs of Medicaid services furnished to the client (Wyoming Department of Health, Medicaid Rules, Chapter 1, Section 3 Part (b) subpart (ccxlviii)).

In simple terms, third party liability (TPL) is often referred to as other insurance, other health insurance, medical coverage, or other insurance coverage. Other insurance is considered a third-party resource for the client. Third-party resources may include but are not limited to:

- Health insurance (including Medicare)
- Vision coverage
- Dental coverage
- Casualty coverage resulting from an accidental injury or personal injury
- Payments received directly from an individual who has either voluntarily accepted or been assigned legal responsibility for the health care of one or more clients.

9.1.2 Third Party Payer

Third Party Payer is defined as a person, entity, agency, insurer, or government program that may be liable to pay, or that pays pursuant to a client’s right of recovery arising from an illness, injury, or disability for which Medicaid funds were paid or are obligated to be paid on behalf of the client. Third party payers include, but are not limited to:

- Medicare
- Medicare Replacement (Advantage or Risk Plans)
- Medicare Supplemental Insurance
- Insurance Companies
- Other
  - Disability Insurance
  - Workers’ Compensation
  - Spouse or parent who is obligated by law or by court order to pay all or part of such costs (absent parent)
  - Client’s estate
  - Title 25

**NOTE:** When attaching an EOMB to a claim and the TPL is Medicare Replacement or Medicare Supplement, hand-write the applicable type of Medicare coverage on the EOMB (i.e. Medicare Replacement, Medicare Supplement).
Medicaid is the payor of last resort. It is a secondary payer to all other payment sources and programs and should be billed only after payment or denial has been received from such carriers.

9.1.3 Medicare

Medicare is administered by the Centers for Medicare and Medicaid Services (CMS) and is the federal health insurance program for individuals age 65 and older, certain disabled individuals, individuals with End Stage Renal Disease (ESRD) and amyotrophic lateral sclerosis (ALS). Medicare entitlement is determined by the Social Security Administration. Medicare is primary to Medicaid. Services covered by Medicare must be provided by a Medicare-enrolled provider and billed to Medicare first.

9.1.4 Medicare Replacement Plans

Medicare Replacement Plans are also known as Medicare Advantage Plans or Medicare Part C and are treated the same as any other Medicare claim. Many companies have Medicare replacement policies. Providers must verify whether or not a policy is a Medicare replacement policy. If the policy is a Medicare replacement policy, the claim should be entered as any other Medicare claim.

9.1.5 Medicare Supplement Plans

Medicare Supplement Plans are additional coverage to Medicare. Providers must verify whether or not a policy is a Medicare replacement or supplement policy. If the policy is a Medicare replacement policy, the supplement information should be entered as TPL on the claim. Please see section 6.6.3 for more information on submitting tertiary claims.

9.1.6 Disability Insurance Payments

If the disability insurance carrier pays for health care items and services, the payments must be assigned to Wyoming Medicaid. The client may choose to receive a cash benefit. If the payments from the disability insurance carrier are related to a medical event that required submission of claims for payment, the reimbursement from the disability carrier is considered a third party payment. If the disability policy does not meet any of these, payments made to the Wyoming Medicaid client may be treated as income for Medicaid eligibility purposes.

9.1.7 Long-Term Care Insurance

When a long-term care (LTC) insurance policy exists, it must be treated as TPL and be cost-avoided. The provider must either collect the LTC policy money from the client or have the policy assigned to the provider. However, if the provider is a nursing facility and the LTC payment is sent to the client, the monies are considered income. The funds will be included in the calculation of the client’s patient contribution to the nursing facility.
9.1.8 Exceptions

The only exceptions to this policy are referenced below:

- Children’s Special Health (CSH) – Medical claims are sent to Wyoming Medicaid’s MMIS fiscal agent
- Indian Health Services (IHS) – 100% federally funded program
- Ryan White Foundation – 100% federally funded program
- Wyoming Division of Victim Services/Wyoming Crime Victim Compensation Program
- Policyholder is an absent parent
- Upon billing Medicaid, providers are required to certify if a third party has been billed prior to submission. The provider must also certify that they have waited 30 days from the date of service before billing Medicaid and has not received payment from the third party
- Services are for preventative pediatric care (Early and Periodic Screening, Diagnosis, and Treatment/EPSDT), prenatal care.

NOTE: Inpatient labor and delivery services and post-partum care must be cost avoided or billed to the primary health insurance. See State Medicaid Manual Section 3904.3B – Prenatal and Preventative Pediatric Care. An internet search may be performed to locate this citation by performing an internet query of the State Medicaid Manual, select Chapter 3 and go to Section sm_3_3900_to_3910.15.

- The probable existence of third-party liability cannot be established at the time the claim is filed.
- Home and community based (HCBS) waiver services as most insurance companies do not cover these types of services.

NOTE: It may be in the provider’s best interest to bill the primary insurance themselves, as they may receive higher reimbursement from the primary carrier.

9.2 Provider’s Responsibilities

Providers have an obligation to investigate and report the existence of other third-party liability information. Providers play an integral and vital role as they have direct contact with the client. The contribution providers make to Medicaid in the TPL arena is significant. Their cooperation is essential to the functioning of the Medicaid Program and to ensuring prompt payment.

At the time of client intake, the provider must obtain Medicaid billing information from the client. At the same time, the provider should also ascertain if additional insurance resources exist. When a TPL/Medicare has been reported to the provider,
these resources must be identified on the claim in order for claims to be processed properly. Other insurance information may be reported to Medicaid using the Third Party Resources Information Sheet. Claims should not be submitted prior to billing TPL/Medicare.

9.2.1 Third Party Resources Information Sheet

NOTE: Click image above to be taken to a printable version of this form.

Medicaid maintains a reference file of known commercial health insurance as well as a file for Medicare Part A and Part B entitlement information. Both files are used to deny claims that do not show proof of payment or denial by the commercial health insurer or by Medicare. Providers must use the same procedures for locating third party payers for Medicaid clients as for their non-Medicaid clients.

Providers may not refuse to furnish services to a Medicaid client because of a third party’s potential liability for payment for the service (S.S.A. §1902(a)(25)(D)) (3.2 Accepting Medicaid Clients)
9.2.2 Provider is not enrolled with TPL Carrier

Medicaid will no longer accept a letter with a claim indicating that a provider does not participate with a specific health insurance company. The provider must work with the insurance company and/or client to have the claim submitted to the carrier. Providers cannot refuse to accept Medicaid clients who have other insurance if their office does not bill other insurance. However, a provider may limit the number of Medicaid clients s/he is willing to admit into his/her practice. The provider may not discriminate in establishing a limit. If a provider chooses to opt-out of participation with a health insurance or governmental insurance, Medicaid will not pay for services covered by, but not billed to, the health insurance or governmental insurance.

9.2.3 Medicare Opt-Out

Providers may choose to opt-out of Medicare. However, Medicaid will not pay for services covered by, but not billed to, Medicare because the provider has chosen not to enroll in Medicare. The provider must enroll with Medicare if Medicare will cover the services in order to receive payment from Medicaid.

NOTE: In situations where the provider is reimbursed for services and Medicaid later discovers a source of TPL, Medicaid will seek reimbursement from the TPL source. If a provider discovers a TPL source after receiving Medicaid payment, they must complete an adjustment to their claim within 30 days of receipt of payment from the TPL source.

9.3 Billing Requirements

Providers should bill TPL/Medicare and receive payment to the fullest extent possible before billing Medicaid. The provider must follow the rules of the primary insurance plan (such as obtaining prior authorization, obtaining medical necessity, obtaining a referral or staying in-network) or the related Medicaid claim will be denied. Follow specific plan coverage rules and policies. CMS does not allow federal dollars to be spent if a client with access to other insurance does not cooperate or follow the applicable rules of his or her other insurance plan.

Medicaid will not pay for and will recover for payments made for services that could have been covered by the TPL/Medicare if the applicable rules of that plan had been followed. It is important that providers maintain adequate records of the third-party recovery efforts for a period of time not less than six (6) years after the end of the state fiscal year. These records, like all other Medicaid records, are subject to audit/post-payment review by Health and Human Services, the Centers for Medicare and Medicare Services (CMS), the state Medicaid agency, or any designee.

NOTE: If a procedure code requires a prior authorization (PA) for Medicaid payment, but not required by TPL/Medicare, it is still highly recommended to obtain a PA through Medicaid in case TPL/Medicare denies services.
Once payment/denial is received by TPL/Medicare, the claim may then be billed to Medicaid as a secondary claim. If payment is received from the other payer, the provider should compare the amount received with Medicaid’s maximum allowable fee for the same claim.

- If payment is less than Medicaid’s allowed amount for the same claim, indicate the payment in the appropriate field on the claim form.
  - CMS 1500 – TPL paid amount will be indicated in box 29 Amount Paid
  - CMS 1500 – Medicare paid amount will not be indicated on the claim, a COB must be attached for claim processing
  - UB-04 – TPL/Medicare amount will be indicated in box 54 Prior Payments
  - Dental – TPL/Medicare amount will be indicated in box 33A Other Fees

- If the TPL payer paid less than 40% of the total billed charges, include the appropriate claim reason and remark codes or attach an explanation of benefits (EOB) with the electronic claim (Electronic Attachments).
- If payment is received from the other payer after Medicaid already paid the claim, Medicaid’s payment must be refunded for either the amount of the Medicaid payment or the amount of the insurance payment, whichever is less. A copy of the EOB from the other payer must be included with the refund showing the reimbursement amount.

**NOTE:** Medicaid will accept refunds from a provider at any time. Timely filing will not apply to adjustments where money is owed to Medicaid (6.20 Timely Filing).
• If denial is obtained from the third party payer/Medicare that a service is not covered, attach the denial to the claim ([6.15 Submitting Attachments for Electronic Claims]). The denial will be accepted for one (1) calendar year, but will still need to be attached with each claim.

• If verbal denial is obtained from a third party payer, type a letter of explanation on official office letterhead. The letter must include:
  o Date of verbal denial
  o Payer’s name and contact person’s name and phone number
  o Date of Service
  o Client’s name and Medicaid ID number
  o Reason for denial

• If the third party payer/Medicare sends a request to the provider for additional information, the provider must respond. If the provider complies with the request for additional information and after ninety (90) days from the date of the original claim and the provider has not received payment or denial, the provider may submit the claim to Medicaid with the Previous Attempts to Bill Services Letter.

**NOTE:** Waivers of timely filing will not be granted due to unresponsive third party payers.

• In situations involving litigation or other extended delays in obtaining benefits from other sources, Medicaid should be billed as soon as possible to avoid timely filing. If the provider believes there may be casualty insurance, contact TPL Unit ([2.1 Quick Address and Telephone Reference]) TPL will investigate the responsibility of the other party. Medicaid does not require providers to bill a third party when liability has not been established. However, the provider cannot bill the casualty carrier and Medicaid at the same time. The provider must choose to bill Medicaid or the casualty carrier (estate). Medicaid will seek recovery of payments from liable third parties. If providers bill the casualty carrier (estate) and Medicaid, this may result in duplicate payments.

• If the client receives reimbursement from the primary insurance, the provider must pursue payment form the patient. If there are any further Medicaid benefits allowed after the other insurance payment, the provider may still submit a claim for those benefits. The provider, on submission, must supply all necessary documentation of the other insurance payment. Medicaid will not pay the provider the amount paid by the other insurance.

• Providers may not charge Medicaid clients, or any other financially responsible relative or representative of that individual any amount in excess of the Medicaid paid amount. Medicaid payment is payment in full. There is no balance billing.
NOTE: When attaching an EOMB to a claim and the TPL is Medicare Replacement or Medicare Supplement, hand-write the applicable type of Medicare coverage on the EOMB (i.e. Medicare Replacement, Medicare Supplement).

9.3.1 How TPL is applied

The amount paid to providers by primary insurance payers is often less than the original amount billed, for the following reasons:

Reductions resulting from a contractual agreement between the payer and the provider (contractual write-off); and,

Reductions reflecting patient responsibility (copay, coinsurance, deductible, etc.). Wyoming Medicaid will pay no more than the remaining patient responsibility (PR) after payment by the primary insurance.

Wyoming Medicaid will reimburse the provider for the patient liability up to the Medicaid Allowable Amount. For preferred provider agreements or preferred patient care agreements, do not bill Medicaid for the difference between the payment received from the third party based on such agreement and the providers billed charges (See the State Medicaid Manual Chapter 3, Section 3904.7 for more information).

TPL is applied to claims at the header level. Medicaid does not apply TPL amounts line by line.

Example:

- Total claim billed to Medicaid is for $100.00, with a Medicaid allowable for the total claim of $50.00. TPL has paid $25.00 for only the second line of the claim. Claim will be processed as follows: Medicaid allowable ($50.00) minus the TPL paid amount ($25) = $25.00 Medicaid Payment.

If the payer does not respond to the first attempt to bill with a written or electronic response to the claim within sixty (60) days, resubmit the claims to the TPL. Wait an additional thirty (30) days for the third party payer to respond to the second billing. If after ninety (90) days from the initial claim submission the insurance still has not responded, bill Medicaid with the Previous Attempts to Bill Services Letter.

NOTE: Waivers of timely filing will not be granted due to unresponsive third party payers.
9.3.1.1 Previous Attempts to Bill Services Letter

NOTE: Do not submit this form for Medicare or automobile/casualty insurance. Click image above to be taken to a printable version of this form.

9.3.2 Acceptable proof of Payment or Denial

Documentation of proper payment or denial of TPL/Medicare must correspond with the client’s/beneficiary’s name, date of service, charges, and TPL/Medicare payment referenced on the Medicaid claim. If there is a reason why the charges do not match (i.e. other insurance requires another code to be billed, institutional and professional charges are on the same EOB, third party payer is Medicare Advantage plan, replacement plan or supplement plan) this information must be written on the attachment.

9.3.3 Coordination of Benefits

Coordination of Benefits (COB) is the process of determining which source of coverage is the primary payer in a particular situation. COB information must be complete, indicate the payer, payment date and the payment amount.

If a client has other applicable insurance, providers who bill electronic and web claims will need to submit the claim COB information provided by the other insurance company for all affected services. For claims submitted through the Medicaid website, see the Web Portal Tutorials on billing secondary claims.

For clients with three insurances, tertiary claims cannot be submitted through the Medicaid Web Portal and will need to be sent in on paper, with both EOBs and a cover sheet indicating that the claim is a tertiary claim.
9.3.4 Blanket Denials and Non-Covered Services

When a service is not covered by a client’s primary insurance plan, a blanket denial letter should be requested from the TPL/Medicare. The insurance carrier should then issue, on company letterhead, a document stating the service is not covered by the insurance plan. The provider can also provide proof from a benefits booklet from the other insurance, as it shows that the service is not covered or the provider may use benefits information from the carrier’s website. Providers should retain this statement in the client’s file to be used as proof of denial for one calendar year. The non-covered status must be reviewed and a new letter obtained as the end of one calendar year.

If a client specific denial letter or EOB is received, the provider may use that denial or EOB as valid documentation for the denied services for that member for one calendar year. The EOB must clearly state the services are not covered. The provider must still follow the rules of the primary insurance prior to filing the claim to Medicaid.

9.3.5 TPL and Copays

A client with private health insurance primary to Wyoming Medicaid is required to pay the Wyoming Medicaid copay. Submit the claim to Wyoming Medicaid in the usual manner, reporting the insurance payment on the claim with the balance due. If the Wyoming Medicaid allowable covers all or part of the balance billed, Wyoming Medicaid will pay up to the maximum Wyoming Medicaid allowable amount, minus any applicable Wyoming Medicaid copay. Wyoming Medicaid will deduct the copay from its payment amount to the provider and report it as the copay amount on the provider’s RA. **Remember, Wyoming Medicaid is only responsible for the client’s liability amount or patient responsibility amount up to its maximum allowable amount.**

Submit claims to Wyoming Medicaid only if the TPL payer indicates a patient responsibility. If the TPL does not attribute charges to patient responsibility or non-covered services, Wyoming Medicaid will not pay.

9.3.6 Primary Insurance Recoup after Medicaid Payment

In the instance where primary insurance recovers payment after the timely filing threshold, and in order to bill Wyoming Medicaid as primary, the provider will need to submit an appeal for timely filing. The appeal must include proof from the primary insurance company that money was taken back as well as the reasoning. The appeal must be submitted within 90 days of recovered payment or notification from the primary insurance in order for it to be reviewed and processed appropriately.
9.4 Medicare Pricing

Effective dates of service beginning January 1, 2017, Wyoming Medicaid changed how reimbursement is calculated for Medicare crossover claims. This change applies to all service providers.

- Part B crossovers are processed and paid at the line level (line by line)
- Part A inpatient crossovers, claims are processed at the header level
- Part A outpatient crossovers, claims are priced at the line level (line by line) totaled, and then priced at the header level

9.4.1 Medicaid Covered Services

For services covered under the Wyoming Medicaid State Plan, the new payment methodology will consider what Medicaid would have paid, had it been the sole payer. Medicaid’s payment responsibility for a claim will be the lesser of the Medicare coinsurance and deductible, or the difference between the Medicare payment and Medicaid allowed charge(s).

Example:

- Procedure Code 99239
  - Medicaid Allowable - $97.67
  - Medicare Paid - $83.13
  - Medicare assigned Coinsurance and Deductible - $21.21
    - First payment method option: (Medicaid Allowable) $97.67 – (Medicare Payment) $83.13 = $14.54
    - Second payment method option: Coinsurance and deductible = $21.21
  - Medicaid will pay the lesser of the Medicaid payment methodology or the coinsurance and deductible
    - This procedure code would pay $14.54 since it is less than $21.21

NOTE: If the method for Medicaid covered services results in a Medicaid payment of $0 and the claim contains lines billed for physician-administered pharmaceuticals, the line will pay out at $0.01.

9.4.2 Medicaid Non-Covered Services

For specific Medicare services which are not otherwise covered by Wyoming Medicaid State plan, Medicaid will use a special rate or method to calculate the amount Medicaid would have paid for the service. This method is Medicare allowed amount, divided by 2, minus the Medicare paid amount.
Example:

- **Procedure Code: E0784** – (Not covered as a rental – no allowed amount has been established for Medicaid)
  - Medicaid Allowable – Not assigned
  - Medicare Allowable - $311.58
  - Medicare Paid – $102.45
  - Assigned Coinsurance and Deductible - $209.13
    - First payment method option: $\left(\frac{311.58}{2}\right) - 102.45 = 155.79$ (Calculated Medicaid allowable) – (Medicare Paid Amount) $102.45 = \$53.34$
    - Second payment method option: Coinsurance and deductible = $209.13$
  - Medicaid will pay the lesser of the Medicaid payment methodology or the coinsurance and deductible
    - This procedure code would pay $53.34 since it is less than $209.13

**NOTE:** If the method for Medicaid non-covered services results in a Medicaid payment of $0 and the claim contains lines billed for physician-administered pharmaceuticals, the line will pay out at $0.01.

### 9.4.3 Coinsurance and Deductible

For clients on the QMB plan, CMS guidelines indicate that coinsurance and deductible amounts remaining after Medicare pays cannot be billed to the client under any circumstances, regardless of whether you bill Medicaid or not.

For clients on other plans who are dual eligible, coinsurance and deductible amounts remaining after Medicare payment cannot be billed to the client if the claim was billed to Wyoming Medicaid, regardless of payment amount (including claims that Medicaid pays at $0).

If the claim is not billed to Wyoming Medicaid, and the provider agrees in writing prior to providing the service not to accept the client as a Medicaid client and advises the client of his or her financial responsibility, and the client is not on a QMB plan, then the client can be billed for the coinsurance and deductible under Medicare guidelines.
Chapter Ten – Electronic Data Interchange (EDI)

10.6 Additional Information Sources .................................................................................... 207
10.7 Scheduled Web Portal Downtime .................................................................................. 208
10.1 What is Electronic Data Interchange (EDI)?

In its simplest form, EDI is the electronic exchange of information between two (2) business concerns (trading partners), in a specific, predetermined format. The exchange occurs in basic units called transactions, which typically relate to standard business documents, such as healthcare claims or remittance advices.

10.2 Benefits

Several immediate advantages can be realized by exchanging documents electronically:

- **Speed** – Information moving between computers moves more rapidly, and with little or no human intervention. Sending an electronic message across the country takes minutes or less. Mailing the same document will usually take a minimum of one (1) day.

- **Accuracy** – Information that passes directly between computers without having to be re-entered eliminates the chance of data entry errors.

- **Reduction in Labor Costs** – In a paper-based system, labor costs are higher due to data entry, document storage and retrieval, document matching, etc. As stated above, EDI only requires the data to be keyed once, thus lowering labor costs.

10.3 Standard Transaction Formats

In October 2000, under the authority of the Health Insurance Portability and Accountability Act (HIPAA), the Department of Health and Human Services (DHHS) adopted a series of standard EDI transaction formats developed by the Accredited Standards Committee (ASC) X12N. These HIPAA-compliant formats cover a wide range of business needs in the healthcare industry from eligibility verification to claims submission. The specific transaction formats adopted by DHHS are listed below.

- X12N 270/271 Eligibility Benefit Inquiry and Response
- X12N 276/277 Claims Status Request and Response
- X12N 278 Request for Prior Authorization and Response
- X12N 277CA Implementation Guide Error Reporting
- X12N 835 Claim Payment/Remittance Advice
- X12N 837 Dental, Professional and Institutional Claims
- X12N 999 Functional Acknowledgement
NOTE: As there is no business need, Medicaid does not currently accept nor generate X12N 820 and X12N 834 transactions.

10.4 Sending and Receiving Transactions

Medicaid has established a variety of methods for providers to send and receive EDI transactions. The following table is a guide to understanding and selecting the best method.

<table>

### 10.5 EDI Services

#### 10.5.1 Getting Started

The first step the provider needs to complete before the provider is able to start sending electronic information is to complete the EDI Enrollment Application. The application is located on the Medicaid website ([2.1, Quick Reference](#)) under “Forms” and “Enrollment/Agreement Forms”.

Once the form is completed and sent to Medicaid the provider will be sent an EDI Welcome Letter which will include a User Name and Password. Below are the benefits of using Web Portal and WINASAP and instructions for registering.

**NOTE:** Web Portal Tutorials and WINASAP Tutorials are published to the Medicaid website ([2.1, Quick Reference](#)).

#### 10.5.2 Web Portal

The Web Portal allows all trading partners to retrieve and submit data via the internet 24-hours a day, seven (7) days a week from anywhere.

##### 10.5.2.1 Secured Provider Web Portal Registration Process

- Go to the Medicaid website: https://wymedicaid.protal.conduent.com
- Select Provider.
- Select Provider Portal from the left hand menu.
• Under “New Providers” select Web Portal to register.
• Enter the following information from the EDI Welcome Letter:
  o Provider ID: Trading Partner/Submitter ID.
  o Trading Partner ID: Trading Partner/Submitter ID.
  o EIN/SSN: The Provider’s tax-ID as entered on the EDI application.
  o Trading Partner Password: Password/User ID – Must be entered exactly as shown on the welcome letter.
• Select Continue
  o Confirm that the information that the provider has entered is correct. If it is, choose Continue, if not re-enter information.
• Additional Trading Partner IDs:
  o If the provider needs to enter additional Trading Partner IDs enter the ID and the Trading Partner password on this page.
  o If the provider does not have any additional Trading Partner IDs select continue.

10.5.2.2 Creating an Office Administrator

The provider’s Office Administrator will be the person responsible for adding and deleting new users as necessary for the provider’s organization along with any other privileges selected.

1. Select Create a new user.
   a. Enter a unique user ID, last name, first name, email address and phone number for the person that the provider wants to be the office administrator.
   b. Confirm the information entered is correct.
   c. This completes the web registration for the office administrator, an email will be sent to the email address entered with a one (1) time use password.
   d. Once the provider receives the single use password, (it is easiest to copy and paste this directly from the email to avoid typographical errors) and must be changed upon logging in for the first (1st) time. Return to the home page and log in.
2. All permissions will be set once the provider has logged in. To do this, select update or remove users. Enter the provider user ID and select search. When the user information is brought up, click on the user ID link.
   a. Select which privileges the provider wishes to have. Once the provider has chosen these privileges click submit.

10.5.2.3 Creating Additional Users

1. Return to the home page and choose Manage Users.
   a. Follow the steps as listed above.
10.5.3 WINASAP

WINASAP allows all Trading Partners to submit claims 24-hours a day, seven (7) days a week from any computer with a dial up modem over an analog phone line that the provider has installed the software on. WINASAP5010 software can be downloaded from the Xerox EDI Solutions website (2.1, Quick Reference) or the provider can call EDI Services (2.1, Quick Reference) and request a CD to be mailed to the provider.

Requirements:

- Pentium processor
- CD-ROM drive
- 25 Megabytes of free disk space
- 128 Megabytes of RAM
- Monitor resolution of 800 x 600 pixels
- Hayes compatible 9600 baud asynchronous modem
- Telephone connectivity

10.5.3.1 WINASAP Start-up

1. Download program from the Xerox EDI Solutions website or install the program from the CD the provider requested.
   a. When the welcome screen appears click next
   b. Read and accept the terms of the Software License Agreement
   c. Enter User Information
   d. Choose Destination Location
   e. Confirm provider current settings and choose Next
   f. Check Yes, launch the program file and Finish.

2. Creating a WINASAP login
   a. The user ID auto fills as ADMIN
   b. Tab to password and type ASAP
      i. The user ID and password are the same for everyone using WINASAP, we suggest that the provider does not change them
   c. After successfully logging in choose ok

3. Steps that must be completed
   a. The screen will automatically open the first (1st) time the provider runs the program that says Open Payer
      i. Select Wyoming Medicaid and choose OK
      ii. Choose File and Trading Partner – Enter the following
      iii. Primary Identification: Enter the provider Trading Partner ID from the EDI Welcome Letter
iv. Secondary Identification – Re-enter the provider Trading Partner ID (primary and secondary identification will be the same)

b. Trading Partner Name:
   i. Entity Type: select person or non-person.
      1. Choose person if the provider is an individual such as; a waiver provider, physician, therapist, or nurse practitioner
      2. Choose non-person if the provider is a facility such as; a hospital, pharmacy or nursing home.

c. Enter the providers last name, first name and middle initial (optional) OR the organization name
   i. Contact Information:
      1. Contact Name: provider Name
      2. Telephone Number: Enter provider phone number
      3. Fax Number: Enter provider fax number (optional)
      4. Email: Enter provider email address

4. The following criteria must be completed:
   a. WINASAP5010 Communications:
      i. Host Telephone Number: This phone number is listed as the Submission Telephone Number on the EDI Welcome Letter. Enter it with no spaces, dashes, commas, or other punctuation marks.
      ii. User ID Number: Enter providers Password/User ID exactly as it appears.
      iii. User Name: Enter providers User Name exactly as it appears.
      iv. Choose Save

10.6 Additional Information Sources

For more information regarding EDI, please refer to the following websites:

- Washington Publishing Co.: http://www.wpc-edi.com/hipaa/HIPAA_40.asp. This website is the official source of the implementation guides for each of the ASC X12 N transactions.
- Workgroup for Electronic Data Interchange: http://www.wedi.org/. This industry group promotes electronic transactions in the healthcare industry.
- Designated standard maintenance organizations: http://www.hipaa-dsmo.org/. This website explains how changes are made to the transaction standards.
## 10.7 Scheduled Web Portal Downtime

<table>

11.12.3 Dental ............................................................................................... 229
11.1 Wyoming Specific HIPAA 5010 Electronic Specifications

This chapter is intended for trading partner use in conjunction with the ASC X12N Standards for Electronic Data Interchange Technical Report Type 3 (TR3). The TR3 can be accessed at http://www.wpc-edi.com. This section outlines the procedures necessary for engaging in Electronic Data Interchange (EDI) with the Xerox Government Healthcare Solutions EDI Clearinghouse (EDI Clearinghouse) and specifies data clarification where applicable.

11.2 Transaction Definitions

- 270/271 – Health Care Eligibility Benefit Inquiry and Response.
- 276/277 – Health Care Claim Status Request and Response.
- 835 – Health Care Claim Payment/Advice.
- 837 – Health Care Claim (Professional, Institutional, and Dental), including Coordination of Benefits (COB) and Subrogation Claims.
- Acknowledgement Transaction Definitions.
- TA1 – Interchange Acknowledgement.
- 999 – Implementation acknowledgement for Health Care Insurance.
- 277CA – Health Care Claim Acknowledgement.

11.3 Transmission Methods and Procedures

11.3.1 Asynchronous Dial-up

The Host System is comprised of communication (COMM) servers with modems. Trading partners access the Host System via asynchronous dial-up. The COMM machines process the login and password, then log the transmission.

The Host System will forward a confirmation report to the trading partner providing verification of file receipt. It will show a unique file number for each submission.

The COMM machines will also pull the TA1s and 999s from an outbound transmission table, and deliver to the HIPAA BBS Mailbox system. The trading partner accesses the mailbox system via asynchronous dial-up to view and/or retrieve their responses.
11.3.1.1 Communication Protocols

The EDI Clearinghouse currently supports the following communication options:

- XMODEM
- YMODEM
- ZMODEM
- KERMIT

11.3.1.2 Teleprocessing Requirements

The general specifications for communication with EDI Clearinghouse are:

- Telecommunications: Hayes-compatible 2400-56K BPS asynchronous modem
- File Format: ASCII text data
- Compression Techniques – EDI Clearinghouse accepts transmission with any of these compression techniques, as well as non-compression:
  - PKZIP will compress one (1) or more files into a single ZIP archive.
  - WINZIP will compress one (1) or more files into a single ZIP archive.
- Data Format:
  - 8 data bit
  - 1 stop bit
  - no parity
  - full duplex

11.3.1.3 Teleprocessing Settings

- ASCII Sending
  - Send line ends with line feeds (should not be set)
  - Echo typed characters locally (should not be set)
  - Line delay 0 millisecond
  - Character delay 0 milliseconds
- ASCII Receiving
  - Append line feeds to incoming line ends should not be checked
  - Wrap lines that exceed terminal width
  - Terminal Emulation VT100 or Auto
### 11.3.1.4 Transmission Procedures

</tbody>
</table>
11.3.2 Web Portal

The trading partner must be an authenticated portal user who is a provider. Only active providers are authorized to access files via the web. Provider must have completed the web registration process. (10.5.2.1, Secured Provider Web Portal Registration Process)

Trading partners can submit files via the web portal in two (2) ways:

- Upload an X12N transaction file – The trading partner accesses the web portal via a web browser and is prompted for login and password. The provider may select files from their PC or work environment and upload files.
- Enter X12N data information through a web interface – The trading partner accesses the web portal via a web browser and is prompted for login and password. Data entry screens will display for entering transaction information.

NOTE: Providers can retrieve their response files via the web portal by logging in and accessing their transaction folders.

Transaction files can be uploaded and downloaded through the Secured Provider Web Portal at https://wymedicaid.portal.conduent.com/.

Transaction transmission is available 24-hours a day, seven (7) days a week. This availability is subject to scheduled and unscheduled host downtime.

11.3.3 Managed File Transfer (MOVEit)

EDI Clearinghouse supports Managed File Transfer using a product suite called MOVEit. In the diagram below, trading partners can deliver files to or retrieve files from the MOVEit DMZ site. EDI Clearinghouse does corresponding pickups from and deliveries to the DMZ via an agreed upon schedule with Medicaid and trading partner.
11.4 Acknowledgement and Error Reports

The following acknowledgement reports are generated and delivered to trading partners:

- **TA1** – Will be used to report invalid Trading Partner Relationship Validation to Provider/Trading Partner.
- **999** – Will be used to acknowledge Syntax Validation (Positive, Negative or Partial) – to Provider/Trading Partner.
- **277CA** – Claims Acknowledgement will be used to provide accept/reject information regarding submitted claims/request – to Provider/Trading Partner.

11.4.1 Confirmation Report

When a trading partner submits an X12N transaction, a receipt is immediately sent to the trading partner to confirm that EDI Clearinghouse received a file, and shows a unique file number for each submission. The Host System will forward a Confirmation Report to the trading partner indicating:

- Verification of file receipt.
- If the file is accepted or rejected.
- Identified as an X12N at a high level.

If a file fails this preliminary check, it will not continue processing.

The Confirmation Report includes the following information:

- Date and time file was received
- File number
- Payer code (Wyoming Medicaid 77046)
- Submission format
- Type of transaction
- Number of claims and batches
- Status of Production or Test
- Additional messages that can be added as a communication to trading partners or may indicate the reason the file is invalid.

11.4.2 Interchange Level Errors and TA1 Rejection Report

A TA1 is an ANSI ASC X12N Interchange Acknowledgement segment used to report receipt of individual interchange envelopes. An interchange envelope contains the sender, receiver, and data type information within the header. The term "interchange" connotes the ISA/IEA envelope that is transmitted between trading/business partners. Interchange control is achieved through several "control" components. Refer to the TR3 documents for a description of Envelopes and Control Structures.
The TA1 reports the syntactical analysis of the interchange header and trailer. The TA1 allows EDI Clearinghouse to notify the trading partner that a valid X12N transaction envelope was received; or if problems were encountered with the interchange control structure or the trading partner relationship.

The TA1 is unique in that it is a single segment transmitted without the GS/GE envelope structure.

If the data can be identified, it is then checked for trading partner relationship validation.

- If the trading partner information is invalid, the data is corrupt or the trading partner relationship does not exist, a negative confirmation report is returned to the submitter. Any major X12N syntax error that occurs at this level will result in the entire transaction being rejected, and the trading partner will need to resubmit their X12N transaction.

- If the trading partner information is valid, the data continues processing for complete X12N syntax validation.

11.4.3 999 Implementation Acknowledgements

The 999 informs the submitter that the functional group arrived at the destination. It may include information about the syntactical quality of the functional group and the implementation guide compliance.

For more information on the relationship between the 999 transaction set and other response transaction sets, refer to the ASC X12N Standards for Electronic Data Interchange Technical Report Type 3 (TR3).

The 999 contains information indicating if the entire file is HIPAA 5010 compliant or not.

11.4.3.1 Batch and Real-Time Usage

There are multiple methods available for sending and receiving business transactions electronically. Two (2) common modes for EDI transactions are batch and real-time.

- **Batch** – In a batch mode the sender does not remain connected while the receiver processes the transactions. Processing is usually completed according to a set schedule. If there is an associated business response transaction (such as a 271 Response to a 270 Request for Eligibility), the receiver creates the response transaction and stores it for future delivery. The sender of the original transmission reconnects at a later time and picks up the response transaction.

- **Real-Time** – In real-time mode the sender remains connected while the receiver processes the transactions and returns a response transaction to the sender.
The 999 contains information indicating if the entire file is HIPAA 5010 compliant or not.

11.4.4 Data Retrieval Method

Secured Web Portal

The web portal allows all trading partners to retrieve data via the internet 24-hours a day, seven (7) days a week. Each provider has the option of retrieving the transaction responses and reports themselves or allowing billing agents and clearinghouses to retrieve on their behalf. The trading partner will access the Secured Provider Web Portal system using the user ID and password provided upon completion of the enrollment process (10.5.2.1, Secured Provider Web Portal Registration Process). Contact the EDI Services for more information (2.1, Quick Reference).

11.5 Testing

Submitters (software vendors, billing agents, clearinghouses, and providers) who have created their own electronic X12 transaction software are required to test their software. Contact EDI Services for more information (2.1, Quick Reference). By testing the submitter is validating their software prior to submitting production transactions.

While in test mode for HIPAA 5010 the provider will not be able to submit production files until testing is complete and the providers software is approved.

If a production HIPAA 5010 file is submitted while in test mode the file will fail with a TA1 error (11.4.2, Interchange Level Errors and TA1 Rejection Report).

11.5.1 Testing Requirements

Contact EDI Services and explain that the provider is ready to test the provider software.

- Testing via EDIFECS
  - Submitters cannot obtain direct Internet access to EDIFECS, the EDI Services call center staff will set this up at the provider’s request.
  - A user ID and password will be generated for the providers use.
  - The provider is required to submit test files through EDIFECS.
  - The provider is required to address any errors discovered during testing prior to moving on to testing with the EDI Clearinghouse.
  - After the provider’s software has received approval provide EDI Services with the EDIFECS certification.

- Testing with EDI Clearinghouse
  - The call center will have the provider submit a test file.
  - After 24-hours contact the call center for test file results.
Make corrections based on the TR3s and Wyoming Specific HIPAA 5010 Specifications.

Resubmit test files as necessary.

Successful completion of the testing process is required before a submitter will be approved for production.

A separate testing process must be completed for each type of transaction i.e. 270/271, 276/277, 837 etc.

Each test transmission is validated to ensure no format errors are present. Testing is conducted to verify the integrity of the format not the integrity of the data. However, in order to simulate a true production environment, we request that test files contain realistic healthcare transaction data. The number of test transmissions required depends on the number of format errors in a transmission and the relative severity of these errors. Additional testing may be required in the future to verify any changes made to Wyoming Specific HIPAA 5010 Specifications or HIPAA mandated changes.

11.6 270/271 Eligibility Request and Response

Health Care Eligibility Benefit Inquiry Request and Response for Wyoming Medicaid.

This section is for use along with the ANSI ASC X12 Health Care Eligibility Request & Response 270/271. It should not be considered a replacement for the TR3’s, but rather used as an additional source of information. This section contains data clarifications derived from specific business rules that apply exclusively to Wyoming Medicaid.

NOTE: The page numbers listed below in each of the tables represent the corresponding page number in the Technical Report Type3 (TR3) ANSI ASC X12N Consolidated Guide; Health Care Eligibility Benefit Inquiry and Response for the 270/271 005010X279 & 005010X279A1, June 2010.

Chapter Twelve – Important Information

| 12.1 | Claims Review | 231 |
| 12.2 | Coding | 231 |
| 12.3 | Importance of Fee Schedules | 232 |
| 12.4 | Interpretation Services | 232 |
| 12.5 | 340B Attestation | 233 |
12.1 Claims Review

Medicaid is committed to paying claims as quickly as possible. Claims are electronically processed using an automated claims adjudication system and are not usually reviewed prior to payment to determine whether the services provided were appropriately billed. Although the computerized system can detect and deny some erroneous claims, there are many erroneous claims that it cannot detect. For this reason, payment of a claim does not mean the service was correctly billed or the payment made to the provider was correct. Periodic retrospective reviews are performed which may lead to the discovery of incorrect billing or incorrect payment. If a claim is paid and Medicaid later discovers the service was incorrectly billed or paid, or the claim was erroneous in some other way, Medicaid is required by federal regulations to recover any overpayment, regardless of whether the incorrect payment was the result of Medicaid, fiscal agent, provider error or other cause.

12.2 Coding

Standard use of medical coding conventions is required when billing Medicaid. Provider Relations or the Division of Healthcare Financing cannot suggest specific codes to be used in billing services. The following suggestions may help reduce coding errors and unnecessary claim denials:

- For claims that have dates of service spanning across the ICD-10 implementation date (10/1/15):
  - Outpatient claims – use diagnosis codes based on the FIRST (1st) date of service
  - Inpatient claims – use diagnosis codes based on the LAST date of service
- Use the current version of the NUBC Official UB Data Specifications Manual.
- Always read the complete description and guidelines in the coding books. Relying on short descriptions can result in inappropriate billing.
- Attend coding classes offered by certified coding specialists.
- Use the correct unit of measurement. In general, Medicaid follows the definitions in the CPTICD-4 and HCPCS Level II coding books. One (1) unit may equal “one (1) visit” or “15 minutes”. Always check the long version of the code description.
- Effective April 1, 2011, the National Correct Coding Initiative (NCCI) methodologies were incorporated into Medicaid’s claim processing system in order to comply with Federal legislation. The methodologies apply to both CPT Level I and HCPCS Level II codes.
  - Coding denials cannot be billed to the patient but can be reconsidered per Wyoming Medicaid Rules, Chapter 16. Send a written letter of
reconsideration to Wyoming Medicaid, Medical Policy (2.1, Quick Reference).

12.3 Importance of Fee Schedules

Procedure codes and revenue codes listed in the following chapters are subject to change at any time without prior notice. The most accurate way to verify coverage for a specific service is to review the Medicaid fee schedules on the Medicaid website (2.1, Quick Reference). Fee schedules list Medicaid covered codes, provide clarification of indicators such as whether a code requires prior authorization and the number of days in which follow-up procedures are included. Not all codes are covered by Medicaid or are allowed for all taxonomy codes (provider types). It is the provider’s responsibility to verify this information. Use the current fee schedule in conjunction with the more detailed coding descriptions listed in the current CPT-4 and HCPCS Level II coding books. Remember to use the fee schedule and coding books that pertain to the appropriate dates of service. Wyoming Medicaid is required to comply with the coding restrictions under the National Correct Coding Initiative (NCCI) and providers should be familiar with the NCCI billing guidelines. NCCI information can be reviewed at:

12.4 Interpretation Services

The Office for Civil Rights (OCR) of the U.S. Department of Health and Human Services (DHHS) Enforces Federal laws that prohibit discrimination by healthcare and human service providers that receive funds from the DHHS. Such laws include Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990.

In efforts to maintain compliance with this law and ensure that Medicaid clients receive quality medical services, interpretation service should be provided for clients who have Limited English Proficiency (LEP) or are deaf/hard of hearing. The purpose of providing services must be to assist the client in communicating effectively about health and medical issues.

- Interpretation between English and a foreign language is a covered service for Medicaid clients who have LEP. LEP is defined as “the inability to speak, read, write, or understand the English language at a level that permits an individual to interact effectively with healthcare providers.”

- Interpretation between sign language or lip reading and spoken language is a covered service for Medicaid clients who are deaf or hard of hearing. Hard of hearing is defined as “limited hearing which prevents an individual from hearing well enough to interact effectively with healthcare providers.”
12.5 340B Attestation

Wyoming Medicaid 340B Attestation Form

Completion Instructions and Provisions

1. Submission of this form is required by 340B Covered Entities that use drug products purchased under Section 340B of the Public Health Service Act for Wyoming Medicaid clients.

2. Separate forms must be completed for EACH “pay to” provider enrolled with Wyoming Medicaid that is designated as a 340B Covered Entity and caring for Wyoming Medicaid clients.

3. Completion of this form does not relieve the Covered Entity’s responsibility to register and appropriately report to the HHS’ Eligibility Site.

4. Annual submission of this form will be required by Covered Entities continuing to carve in.

Covered Entity Information

Please answer all questions below. Incomplete forms may result in the delay of Wyoming Medicaid being able to appropriately record 340B Carve In status.

“Pay To” Provider Name ________________________________

Physical Address: ___________________________ _____________________________

City: __________ State: ___________ Zip: __________

Phone: ___________________________ NPI: ___________________________

Wyoming Medicaid Provider ID: ___________________________

340B Carve In Information

1. Has the provider listed above been designated as a 340B Covered Entity by HHS? Yes No

2. Does this provider use drug products purchased under Section 340B of the Public Health Service Act for Wyoming Medicaid clients? Yes No

3. Carve In Effective Date: This should be a date on or after April 1, 2017 or the beginning of the quarter in which the provider began serving all Wyoming Medicaid clients in the 340B program.

   - January 1, 2017 or earlier (Q0)
   - April 1, 2017 (Q1)
   - July 1, 2017 (Q2)
   - October 1, 2017 (Q3)
   - January 1, 2018 or later (Q4)

Contact Information for 340B Program

Please provide the contact information for the person in your office who Wyoming Medicaid should contact with questions regarding your 340B status.

Contact Name: ___________________________ Email: ___________________________

Phone: ___________________________ Ext. __________

Signature and Date

I certify that the above information is true and correct to the best of my knowledge.

Ch. 12 Index 233 Revision 01/01/20
Chapter Thirteen – Billing Indian Health Services/638 Tribal Facility Encounter Services

13.1 Indian Health Services/638 Tribal Facilities .......................................................... 235
13.1.1 Reimbursement ................................................................................................. 235
13.1.2 Encounter Rate ............................................................................................... 235
13.2 Billing Requirements ............................................................................................ 236
13.2.1 Billing Examples .............................................................................................. 238
13.1 Indian Health Services/638 Tribal Facilities

Appropriate Bill Type(s): 13X  
Pay to Provider Taxonomy: 261QP0904X

Indian Health Services (IHS), an agency of the US Public Health Services within the Department of Health and Human Services, is the principal Federal health care provider for American Indians/Alaskan Natives.

A Tribal 638 Facility is a facility or location owned and operated by a federally recognized American Indian Tribe or tribal organization under a 638 agreement, which provides diagnostic, therapeutic and rehabilitation services to tribal members.

Paramount is raising the health status of the American Indian/Alaskan Native health status to the highest possible level.

The facilities provide comprehensive health services, outpatient services including but not limited to: medical, vision, dental and preventative services, etc.

13.1.1 Reimbursement

Indian Health Services are reimbursed through an encounter method.

An encounter is a face-to-face visit with an enrolled health care professional such as:

- Physician
- Physician’s assistant
- Nurse practitioner
- Nurse midwife
- Psychologist
- Social worker
- Dental professional
- Physical, Occupational and/or Speech therapist
- Dietitian
- Chiropractor
- Home health service provider

13.1.2 Encounter Rate

The encounter rate established by Medicaid includes all services provided during the encounter regardless of actual charges. The encounter rate is considered to be all-inclusive. The rate includes, but is not limited to:

- Therapeutic services
- Diagnostic services
Covered Services - Indian Health Services Billing

- Tests
- Supplies

Payment for multiple encounters on the same date of service will be allowed only if the services are categorically different and/or are provided for distinct and separate diagnoses. Different categories of allowable services shall include but are not limited to practitioner services, mental/behavioral health, optometric services, dental services, physical therapy, occupational therapy, speech therapy, medical social worker, laboratory, radiology, WYVip Administration and Health Check Screening.

Pharmacy encounters will be paid at the federal OMB clinic rate and will not be limited to a certain number of prescriptions per day.

13.2 Billing Requirements

To receive the all-inclusive encounter rate, services must be provided within the “four 4 walls” of the clinic. Services billed at the encounter rate include:

<table>
<thead>
<tr>
<th>Encounter Revenue Codes</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0300</td>
<td>Laboratory</td>
</tr>
<tr>
<td>0400</td>
<td>Radiology</td>
</tr>
<tr>
<td>0421</td>
<td>Physical Therapy</td>
</tr>
<tr>
<td>0431</td>
<td>Occupational Therapy</td>

<tr>
<td>0914</td>
<td>Psychiatric/Psychological Services – Individual Therapy</td>
</tr>
<tr>
<td>0915</td>
<td>Psychiatric/Psychological Services – Group Therapy</td>
</tr>
</tbody>
</table>
All claims (excluding pharmacy) for the services above must:

- Have a minimum of two (2) line items, the 1st would be the encounter line and the 2\textsuperscript{nd}, 3\textsuperscript{rd}, 4\textsuperscript{th}, etc. line items are the detail.
- Both lines must have a revenue and procedure code combination.
- **Encounter lines** will be billed with one of the above encounter revenue codes paired with:
  - Procedure code T1015 for general encounter.
  - Bill the encounter line at the encounter rate
- **Detail line items** will be billed with:
  - An appropriate outpatient revenue code (excluding the encounter revenue codes) paired with an appropriate procedure code (for questions regarding appropriate pairing of revenue codes and procedure codes, use the current version of the NUBC Official UB Data Specifications Manual).
  - Document each procedure that occurred during the visit.
  - Include a detailed line item for each office visit or health check procedure code if appropriate.
  - Bill the detail line items at $0.00

**Note:** Multiple encounters on the same day must be billed on separate claims. For multiple encounters to pay the diagnosis or treatment of the patient must be different that the 1\textsuperscript{st} encounter.

**Prescriptions written after September 5, 2017, must be processed through the Pharmacy Point of Sale system.** Any physician administered drug cannot be billed separately through the point of sale system but must go on the encounter for an office visit using the revenue code 0250.

To receive the all-inclusive encounter rate for pharmacy services prior to September 5, 2017, a prescription must be provided. The encounter revenue code for pharmacy services is:

<table>
<thead>
<tr>
<th>Encounter Revenue Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0250</td>
<td>Pharmacy Encounter</td>
</tr>
</tbody>
</table>

All claims for pharmacy services must have:

- An encounter line but it does not require a procedure code or a detail line
- A valid NDC (National Drug Code).
  - National Drug Codes must be 11 digits. Refer to Chapter 6.8.1 of the provider manual for proper converting 10 digits to 11 digits
  - Bill line at current encounter rate

**Note:** Each prescription/pharmacy encounter must be billed on its own claim.

### 13.2.1 Billing Examples

Client comes to IHS/Tribal facility for a complaint of a cough and sees a physician. No additional tests or treatments are administered. The client is given a prescription for antibiotics and released.

</tbody>
</table>
14.1 **Audiology Services**

**Encounter Revenue Code: 0529**

**Audiology Services** – A hearing aid evaluation (HAE) and basic audio assessment (BAA) provided by a licensed audiologist, upon a licensed practitioner referral, to individuals with hearing disorders.

**Hearing Aid** – An instrument or device designed for or represented as aiding or improving defective human hearing and includes the parts, attachments or accessories of the instrument or device.

**Hearing Aid Dispenser** – A person holding an active license to engage in selling, dispensing, or fitting hearing aids.

**Procedure Code Range: V5000-V5275 and 92550-92700**

14.2 **Requirements**

Clients must be referred by a licensed practitioner. The practitioner must indicate on the referral there is no medical reason for which a hearing aid would not be appropriate in correcting the client’s hearing loss.

Written orders from the licensed practitioner, diagnostic reports and evaluation reports must be current and available upon request.

Basic Audio Assessment (BAA) under earphones in a sound attenuated room must include, at a minimum, speech discrimination tests, speech reception thresholds, pure tone air thresholds, and either pure tone bone thresholds or tympanometry, with acoustic reflexes.

Hearing Aid Evaluation (HAE) includes those procedures necessary to determine the acoustical specifications most appropriate for the individual’s hearing loss.

14.3 **Reporting Standards**

The audiologist’s report for Medicaid clients must contain the following information:

- The client’s name, date of birth, and Medicaid ID number;
- Results of the audiometric tests at 500, 1,000, 2,000, and 3,000 hertz for the right and left ears, and the word recognition or speech discrimination scores obtained at levels which ensure pb max;
- The report shall include the audiologist’s name, address, license number, and signature of the audiologist completing the audiological evaluation, including the date performed; and
- A written summary from the licensed audiologist regarding the results of the evaluation indicating whether a hearing instrument is required, the type of
hearing instrument (e.g., in-the-ear, behind-the-ear, body amplifier, etc.), and whether monaural or binaural aids are requested.

A copy must be sent to the referring practitioner for the client’s permanent record.

If binaural aids are requested, all of the following criteria must be met:

- Two-frequency average at 1 KHZ and 2 KHZ must be greater than 40 decibels in both ears;
- Two-frequency average at 1 KHZ and 2 KHZ must be less than 90 decibels in both ears;
- Two-frequency average at 1 KHZ and 2 KHZ must have an interaural difference of less than 15 decibels;
- Interaural word recognition or speech discrimination score must have a difference of not greater than 20%;
- Demonstrated successful use of a monaural hearing aid for at least six (6) months; and
- Documented need to understand speech with a high level of comprehension based on an educational or vocational need.

A hearing aid purchased by Medicaid will be replaced no more than once in a five (5) year period unless:

- The original hearing aid has been irreparably broken or lost after the one (1)-year warranty period;
- The provider’s records document the loss or broken condition of the original hearing aid; and
- The hearing loss criteria specified in this rule continues to be met; or
- The original hearing aid no longer meets the needs of the client and a new hearing aid is determined to be medically necessary by a licensed audiologist.

The audiologist should provide a copy of the report to the Medicaid client to take to the hearing aid dispenser (if the audiologist is not the provider for the hearing aid). The audiologist retains the original report in the client’s medical file.

14.4 Billing Procedures

Providers must bill for services using the procedure codes set forth and according to the definitions contained in the HCPCS Level II and CPT coding book. Providers are responsible for billing services provided within the scope of their practice and licensure. It is essential for providers to have the most current HCPCS and CPT editions for proper billing.
The date of service is the date the hearing aid is delivered or the date that the repairs are completed. A copy of the invoice must be attached to the claim. No other attachments are required (6.15, Submitting Attachments for Electronic Claims).

14.5 Hearing Aid Repair

The following guidelines apply to the repair of hearing aids:

- Repairs covered under warranty are not billable to Medicaid.
- V5014 is used to bill for repairs that are not covered under warranty.
- Re-dispensing fees may be applicable. When re-dispensing the hearing aid after the repair, use the RP modifier with the appropriate dispensing code.
- Claims must have an invoice attached.
- Claims are reimbursed at invoice plus shipping only

**NOTE:** Cleaning and checking the functionality of a hearing aid cannot be billed as hearing aid repairs.

14.6 Hearing Aid Insurance

Hearing aid insurance is covered for services not covered under warranty or when the warranty expires. Use the following codes:

- X5612 Standard hearing aid insurance, per aid, annual fee.
- X5613 Advanced hearing aid insurance, per aid, annual fee.

15.1 Behavioral Health Services

Encounter Revenue codes: 0500, 0914, and 0915

Outpatient Behavioral Health Services are a group of services designed to provide medically necessary mental health or substance abuse treatment services to Medicaid clients in order to restore these individuals to their highest possible functioning level. Services may be provided by any willing, qualified provider. Services are provided on an outpatient basis and not during an inpatient hospital stay.

Wyoming Medicaid covers medically necessary therapy services, including mental health and substance abuse (behavioral health) treatment services via the federal authority guidelines granted by the Centers for Medicare and Medicaid Services (CMS) and specified in the Code of Federal Regulation's (CFR) rehabilitative services option section. All Medicaid clients who meet the service eligibility requirements and have a need for particular rehabilitative option services are entitled to receive them.

- "Medical necessity" or "Medically necessary" means a determination that a health service is required to diagnose, treat, cure or prevent an illness, injury or disease which has been diagnosed or is reasonably suspected to relieve pain or to improve and preserve health and be essential to life. The service must be:
  - Consistent with the diagnosis and treatment of the client's condition;
  - In accordance with the standards of good medical practice among the provider's peer group;
  - Required to meet the medical needs of the client and undertaken for reasons other than the convenience of the client and the provider; and,
  - Performed in the most cost effective and appropriate setting required by the client's condition.

- Maintenance (Habilitative) Services – Services that help clients keep, learn, or reach developmental milestones or improve skills and functioning for daily living that they have not yet acquired. Examples would include therapy for a child who isn’t walking or talking at the expected age.

- Restorative (Rehabilitative) Services – Services that help clients keep, get back, or improve skills and functioning for daily living that have been lost or impaired because the client was sick, hurt or suddenly disabled.

Federal Medicaid Law defines rehabilitative services as:
"Any medical or remedial services recommended by a physician or other licensed practitioner of the healing arts, within the scope of his or her practice under State law, for maximum reduction of physical or mental disability and restoration of an individual to his best possible functional level" [42 C.F.R. §440.130].

- Patients in Controlled/Baseline State – Patients in this group may well be symptomatic, but symptoms are controlled such that symptoms can be
reasonably treated with Outpatient (OP) Services with no immediate concern for patient safety.

- **Patients in Acute State** – Patients in this group are highly symptomatic and are in need of increased Mental Health treatment. Such that, without increased OP Services, Acute care is highly likely to be appropriate.
  
  - Patients in this category not only experience **decompensation (deviation from controlled/baseline state)** in functioning but the level to which the symptoms the patients are presenting is becoming a concern for their well-being.
  
  - Examples of this would include **post-discharge from a recent inpatient setting, increased intensity of psychosis, disorganization of thought, mania, SI, HI, self-harm behaviors (non-superficial), increased aggression, and at times, an inability to perform ADLs.**

### 15.1.1 Rehabilitative Services

- **What are Rehabilitative services?** “Rehabilitative” means to restore ability
  
  - An ability was once present, but was lost; or, was present and not exercised, and ability is restored through rehabilitative services
  
  - Similar to other rehabilitative therapies, such as occupational therapy, skills are incrementally introduced and practiced to reach achievable and measurable goals so that rehabilitative services are no longer necessary

- **Medicaid rehabilitative service providers** are required to:
  
  - Be familiar with and consult the Wyoming Medicaid mental health and/or substance abuse treatment rehabilitative services policy found in the CMS 1500 Provider Manual, Bulletins, and RA Banners.
  
  - Specify the type, frequency and duration of service in written treatment (rehabilitative) plan with a key focus on ensuring that all services are being directed toward specific and measurable rehabilitation goals which are developed with the client and their family and/or guardian
  
  - Avoid billing Medicaid for provision of services that are "intrinsic elements" of another federal, state, or local program other than Medicaid.
  
  - Rehabilitative services should not automatically be a part of an agency's day programming and are considered an individualized service based on each client's unique treatment needs

<table>

<th>Rehabilitative service documentation issues that will result in a recovery of Medicaid funds</th>
<th>Characteristics of Rehabilitative services that support payment</th>
</tr>
</thead>
</table>

Ch. 15 Index 247 Revision 01/01/20
- Examples of exclusions to rehabilitative option services:
  - Socialization & recreational events with no component of active treatments
  - Academic education
  - Job training/vocational services
  - "Attendance" in a group, psychosocial rehabilitation, individual rehabilitative services, or individual treatment program is not in and of itself a treatment plan goal.

## 15.2 Eligible Providers

15.3 Requirements for Community Mental Health Centers (CMHC) and Substance Abuse Centers

Community Mental Health Centers (CMHC) and Substance Abuse Treatment Centers (SATC) shall meet the following criteria to be enrolled as a Medicaid provider. Prior to enrollment as a Medicaid provider, a mental health center shall have received certification from the Behavioral Health Division as evidence of compliance. The center shall also have resolved any compliance deficiencies within time lines specified by the certifying Division.

To become a provider of Medicaid mental health services, an agency shall apply for certification as a mental health and/or substance use Medicaid provider by submitting the Medicaid provider certification application form and its required attachments to the Behavioral Health Division. To become a provider of Medicaid mental health services, an agency shall be under contract with the Behavioral Health Division; and be certified by the Behavioral Health Division for the services for which the agency provides under the contract.

15.3.1 Provider’s Role

- Each Medicaid provider shall be certified under state law to perform the specific services.
- Certify that each covered service provided is medically necessary, rehabilitative and is in accordance with accepted norms of mental health and substance use practice.
- Providers are required to maintain records of the nature and scope of the care furnished to Wyoming Medicaid clients.

15.3.2 Responsibilities of Mental Health/Substance Abuse Providers

- Each client shall be referred by a licensed practitioner who attests to medical necessity as indicated by the practitioner’s signature, date on the clinical assessment and on the initial and subsequent treatment plans which prescribe rehabilitative, targeted case management or ESPDT mental health services.
- Licensed practitioners who are eligible to refer and to sign for medical necessity are persons who have current license from the State of Wyoming to practice as a:
  - Licensed Professional Counselor
  - Licensed Addictions Therapist
  - Licensed Psychologist
  - Licensed Clinical Social Worker
  - Licensed Marriage and Family Therapist
  - Licensed Physician
  - Licensed Psychiatric Nurse (Masters)
o Licensed Advanced Practitioner of Nursing (Specialty area of psychiatric/mental health nursing)

- For a licensed practitioner to be authorized to refer and to sign for medical necessity, the agreement between the licensed practitioner and the provider by which the practitioner’s responsibilities under the Medicaid Mental Health Rehabilitative Option, Targeted Case Management Option and EPSDT mental health services are specified.
- Any licensed practitioner under contract with, or employed by, a provider shall be required to submit Medicaid claims through the provider and to indicate the provider as payee. All individuals providing services must have their own provider number.
- Prior to the provider’s billing Medicaid for Mental Health Rehabilitative Option, Targeted Case Management Option and EPSDT mental health services a licensed practitioner shall sign, date and add their credentials to the client’s clinical assessment, written treatment plan and clinical notes.
- Licensed practitioners who sign for services that are not medically necessary and rehabilitative in nature are subject to formal sanctions through Wyoming Medicaid and/or referral to the relevant licensing board.

15.3.3 Qualification for Participating Provider and Staff

TO BE ELIGIBLE TO PROVIDE MEDICAID MENTAL HEALTH CLINICAL SERVICES STAFF SHALL:

- For a licensed practitioner to be authorized to refer and to sign for medical necessity, the agreement between the licensed practitioner and the provider by which the practitioner’s responsibilities under the Medicaid Mental Health Rehabilitative Option, Targeted Case Management Option and EPSDT mental health services are specified.
- Any licensed practitioner under contract with, or employed by, a provider shall be required to submit Medicaid claims through the provider and to indicate the provider as payee. All individuals providing services must have their own provider number.
- Prior to the provider’s billing Medicaid for Mental Health Rehabilitative Option, Targeted Case Management Option and EPSDT mental health services a licensed practitioner shall sign, date and add their credentials to the client’s clinical assessment, written treatment plan and clinical notes.
- Licensed practitioners who sign for services that are not medically necessary and rehabilitative in nature are subject to formal sanctions through Wyoming Medicaid and/or referral to the relevant licensing board.
TO BE ELIGIBLE TO PROVIDE MEDICAID SUBSTANCE USE TREATMENT SERVICES, STAFF SHALL:

- Be employed or under contract with the Behavioral Health Division as a certified substance use treatment center and enrolled Medicaid provider, and
- Be a licensed, provisionally licensed or certified by the State of Wyoming, or
- Be a registered nurse (R.N.), licensed in the State of Wyoming, who has at least two years of supervised experience and training to provide mental health services after the awarding of the R.N.
- Be a clinical professional, clinical staff, or qualified as a case manager per the requirements of the service provided as pursuant to Wyoming Medicaid Rules, Chapter 13- Mental Health Services.

TO BE ELIGIBLE TO PROVIDE MEDICAID INDIVIDUAL REHABILITATIVE SERVICES, STAFF SHALL:

- Be employed or under contract with the Behavioral Health Division certified Medicaid provider.
- Be eighteen years of age or older.
- Complete a basic training program, including non-violent behavioral management, and
- Be supervised and meet the qualifications of a certified mental health worker as pursuant to Wyoming Mental Health Professions Board, Chapter 1- General Provisions.
- Under the direct supervision of the primary therapist for that client.

TO BE ELIGIBLE TO PROVIDE PEER SPECIALIST SERVICES, STAFF SHALL:

- Be employed or under contract with the Behavioral Health Division certified Medicaid provider. Self-identify as a person in recovery from mental illness and/or substance use disorder.
- Be twenty-one years of age or older.
- Be credentialed by the Behavioral Health Division as a peer specialist, and
- Be under the direct supervision of the primary therapist for that client.

TO BE ELIGIBLE TO PROVIDE CASE MANAGEMENT SERVICES, STAFF SHALL:

- Be employed or under contract with the Behavioral Health Division certified mental health or substance use treatment center and enrolled as a Medicaid provider, and
- Be a mental health or substance use treatment professional, a mental health or substance use treatment counselor, a mental health or substance use treatment assistant as pursuant to Wyoming Medicaid Rules, Chapter 13- Mental Health Services, or
**15.3.4 Quality Assurance**

The quality assurance program of a provider shall, at minimum, meet these criteria:

- Utilization and quality review criteria
- Agency standards for completeness review and criteria for clinical records
- Definition of critical incidents which require professional review and review procedures

**15.3.5 Psychiatric Services**

- **Psychiatric Services** – Medicaid covers medically necessary psychiatric and mental health services when provided by the following practitioners:
  - Psychiatrists or Physicians; or
  - APN/PMHNP (Advance Practice Nurse/Psychiatric Mental Health Nurse Practitioner).

- **APN/PMHNP Services** – Medicaid covers medically necessary psychiatric services when provided by an APN/PMHNP.
  - The APN/PMHNP must have completed a nursing education program and national certification that prepares the nurse as a specialist in Psychiatric/Mental Health and is recognized by the State Board of Nursing in that specialty area of advance practice.

**15.3.5.1 Psychologists**

Medicaid covers medically necessary mental health and substance abuse disorder treatment and recovery services provided by psychologists and/or the following mental health professionals, when they are directly supervised by a licensed psychologist:

- Persons who are provisionally licensed by the Mental Health Professions Licensing Board pursuant to the Mental Health Professions Practice Act.
- Psychological residents or interns as defined by the Wyoming State Board of Psychology Rules and Regulations.
- Certified social worker or certified mental health worker, certified by the Mental Health Professions Licensing Board pursuant to the Mental Health Professions Practice Act.
15.3.5.2 Licensed Mental Health Professionals

Medicaid covers medically necessary mental health and substance abuse disorder treatment and recovery services provided by Licensed Mental Health Professionals (LMHPs). The LMHPs include Licensed Professional Counselors, Licensed Certified Social Workers, Licensed Addictions Therapists and Licensed Marriage and Family Therapists. LMHPs may enroll independently and must bill using their own National Provider Identifier (NPI) or may enroll as members of a Mental Health group and are required to bill with the group’s National Provider Identifier (NPI) as the pay to provider, and the individual treating providers NPI as the rendering provider at the line level.

15.3.5.3 Provisional Licensed Mental Health Professionals

Medicaid covers medically necessary mental health and substance abuse disorder treatment and recovery services provided by Provisional Licensed Mental Health Professionals which includes Provisional Professional Counselors, Provisional Licensed Addictions Therapists, Master of Social Work with Provisional License, and Provisional Marriage and Family Therapists. The Provisional Licensed Mental Health Professionals may enroll with a CMHC or SATC, physician, psychologist, or under the supervision of a LMHP. They must bill using their own National Provider Identifier (NPI) or may enroll as members of a Mental Health group and are required to bill with the group’s National Provider Identifier (NPI) as the pay to provider, and their individual treating provider NPI as the rendering provider at the line level.

15.3.5.4 Supervision

Supervision is defined as the ready availability of the psychiatrist/physician, psychologist or LMHPs for consultation and direction of the activities of the mental health professionals in the office. Contact with the supervising practitioner (physician /psychiatrist, psychologist, or LMHPs) by telecommunication is sufficient to show ready availability, if such contact provides quality care. The supervising practitioner maintains final responsibility for the care of the client and the performance of the mental health professional in their office.

15.3.5.5 Reimbursement for Behavioral Health Residents and Student Interns

Medicaid providers who sponsor residents and students interns in their practice (per Medicaid policy), may bill for Medicaid-covered services provided by the resident and/or student intern utilizing the supervising clinical supervisor’s NPI. A specific taxonomy for student interns and residents will be implemented utilizing criteria for multiple disciplines that will use the designation. Please submit billing for these services under the supervising clinician’s NPI.
15.3.6 Behavioral Health Providers Eligible for Medicare Enrollment

Taxonomy codes listed in the table below can enroll in Medicare and are required to bill Medicare prior to billing Medicaid for services rendered to clients that have Medicare as primary insurance. If a group is enrolled with one of the taxonomy codes listed in the table, the group MUST bill Medicare prior to billing Medicaid. For these groups, the rendering provider treating a client with Medicare as primary MUST also be enrolled in Medicare. If the rendering provider cannot enroll in Medicare due to taxonomy code, they will not be able to treat clients that have Medicare as primary.

<table>
<thead>
<tr>
<th>Taxonomy</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2084P0800X</td>
<td>Psychiatrist</td>
</tr>
<tr>
<td>103TC0700X</td>

<td>Advanced Practice Nurse Practitioner (APRN)</td>
</tr>
</tbody>
</table>

For behavioral health providers that cannot enroll in Medicare due to taxonomy code, and do not belong to a group with the taxonomy codes listed in the table, these providers can bill Medicaid directly for services rendered to clients with Medicare as primary.

15.4 Covered Services

- **Adult Psychosocial Rehabilitation or Day Treatment** (Community Mental Health and Substance Abuse Treatment Centers only) focuses both on the process of recovery as well as the development of skills clients can use to cope with mental health symptoms. Skills addressed may include:
  - Emotional skills, such as coping with stress, managing anxiety, dealing constructively with anger and other strong emotions, coping with depression, managing symptoms, dealing with frustration and disappointment and similar skills.
  - Behavioral skills, such as managing overt expression of symptoms like delusions and hallucinations, appropriate social and interpersonal interactions, proper use of medications, extinguishing aggressive/assaultive behavior.
• Daily living and self-care, such as personal care and hygiene, money management, home care, daily structure, use of free time, shopping, food selection and preparation and similar skills.
• Cognitive skills, such as problem solving, concentration and attention, planning and setting, understanding illness and symptoms, decision making, reframing, and similar skills.
• Community integration skills, which focus on the maintenance or development of socially valued, age appropriate activities.
• And similar treatment to implement each enrolled client’s treatment plan.
• Excludes the following services, academic education, recreational activities, meals and snacks and vocational services and training.

NOTE: HQ modifier for group sessions is not needed on this code.

• **Agency-Based Individual/Family Therapy:** Contact within the provider’s office or agency with the client and/or collaterals for the purpose of developing and implementing the treatment plan for an individual or family. This service is targeted at reducing or eliminating specific symptoms or behaviors which are related to a client’s mental health or substance abuse disorder as specified in the treatment plan.

• **Peer Specialist Services** (Community Mental Health and Substance Abuse Treatment Centers only): Contact with enrolled clients (and collaterals as necessary) for the purpose of implementing the portion of the client’s treatment plan that promotes the client to direct their own recovery and advocacy process or training to parents on how best to manage their child’s mental health and/or substance use disorder to prevent out-of-home placement; to teach and support the restoration and exercise of skills needed for management of symptoms; and for utilization of natural resources within the community. The skills and knowledge is provided to assist the client and/or parent to design and have ownership of their individualized plan of care. Services are person centered and provided from the perspective of an individual who has their own recovery experience from mental illness and/or substance use and is trained to promote hope and recovery, assist meeting the goals of the client’s treatment plan and to provide Peer Specialist services. This service is targeted at reducing or eliminating specific symptoms or behaviors related to a client’s mental health and/or substance use disorder(s) as identified in the treatment plan. Services provided to family members must be for the direct benefit of the Medicaid client. This service is 15 minutes per unit.

• **Children’s Psychosocial Rehabilitation** (Community Mental Health and Substance Abuse Treatment Centers only): This service is designed to address the emotional and behavioral symptoms of youth diagnosed with childhood disorder, including ADHD, Oppositional Defiant Disorder, Depression, Disruptive Behavior Disorder and other related children’s disorder. Within this service there are group and individual modalities and a primary focus on
behaviors that enhance a youth’s functioning in the home, school, and community. Youth will acquire skills such as conflict resolution, anger management, positive peer interaction and positive self-esteem. Treatment interventions include group therapy, activity based therapy, psycho-educational instruction, behavior modification, skill development, and similar treatment to implement each enrolled client’s treatment plan. The day treatment program may include a parent group designed to teach parents the intervention strategies used in the program.

- **Clinical Assessment:** Contact with the enrolled client and/or collaterals as necessary, for the purpose of completing an evaluation of the client’s mental health and substance use disorder(s) to determine treatment needs and establish a treatment plan. This service may include psychological testing if indicated, and establishing DSM (current edition) diagnosis.

- **Community-Based Individual/Family Therapy:** Contact outside of the provider’s office or agency, with the client and/or collaterals for the purpose of developing and implementing the treatment plan for an individual or family. This service is targeted at reducing or eliminating specific symptoms or behaviors which are related to a client’s mental health or substance abuse disorder as specified in the treatment plan.

- **Comprehensive Medication Services** (Community Mental Health and Substance Abuse Treatment Centers only): Assistance to clients by licensed and duly authorized medical personnel such as a licensed professional counselors, registered nurse, or licensed practical nurse, acting within the scope of their licensure, regarding day-to-day management of the recipient’s medication regime. This service may include education of clients regarding compliance with the prescribed regime, filling pill boxes, locating pharmacy services, and assistance managing symptoms that don’t require a prescriber’s immediate attention. This service is separate and distinct from the medication management performed by physicians, physician’s assistants and advanced practitioners of nursing who have prescriptive authority. This service is 15 minutes per unit.

- **Group Therapy:** Contact with two or more unrelated clients and/or collaterals as necessary, for the purpose of implementing each client’s treatment plan. This service is targeted at reducing or eliminating specific symptoms or behaviors related to a recipient’s mental health and/or substance abuse disorder(s) as identified in the treatment plan.

- **Individual Rehabilitative Services** (Community Mental Health and Substance Abuse Treatment Centers only): Contact with the enrolled client for the purpose of implementing that portion of the client’s treatment plan targeted to developing and restoring basic skills necessary to function independently in the home and the community in an age-appropriate manner and for the purpose of restoring those skills necessary to enable and maintain independent living in the community age-appropriate manner, including learning skills in use of necessary community resources. Individual rehabilitative services assist with the restoration of a recipient to his or her optimal functional level. This service is targeted at reducing or eliminating
specific symptoms or behaviors related to a recipient’s mental health and/or substance use disorder(s) as identified in the treatment plan. Services provided to family members must be for direct benefit of the Medicaid recipient. This service is 15 minute per unit.

- **Intensive Individual Rehabilitative Services** (Community Mental Health and Substance Abuse Treatment Centers only): The short-term use of two skill trainers with one client in order to provide effective management of particularly acute behaviors that are violent, aggressive or self-harmful. Skill trainers who provide Intensive Individual Rehabilitative Services shall have been trained in non-violent behavioral management techniques.

- **Substance Use Intensive Outpatient Treatment Services** (Community Mental Health and Substance Abuse Treatment Centers only): Direct contact with two or more enrolled clients (and collaterals as necessary) for the purpose of providing a preplanned and structured program of group treatment which may include education about role functioning, illness and medications; group therapy and problem solving, and similar treatment to implement each enrolled client’s treatment plan.

- **Psychiatrist Services**: These mental health and substance abuse treatment services are covered by Medicaid when it is determined to be medically necessary and rehabilitative in nature.

### 15.4.1 Targeted Case Management (Community Mental Health and Substance Abuse Centers Only)

Targeted Case Management for adults with serious mental illness age twenty-one (21) and over is an individual, non-clinical service which will be used to assist individuals under the plan in gaining access to needed medical, social, educational, and other services.

The purpose of targeted case management is to foster a client’s rehabilitation from a diagnosed mental disorder or substance use disorder by organizing needed services and supports into an integrated system of care until the client is able to assume this responsibility.

Targeted case management activities include the following:

- **Linkage**: Working with clients and/or service providers to secure access to needed services. Activities include communication with agencies to arrange for appointments or services following the initial referral process, and preparing clients for these appointments. Contact with hospitalized clients, hospital/institution staff, and/or collaterals in order to facilitate the client’s reintegration into the community.

- **Monitoring/Follow-Up**: Contacting the client or others to ensure that a client is following a prescribed service plan and monitoring the progress and impact of that plan.
• Referral: Arranging initial appointments for clients with service providers or informing clients of services available, addresses and telephone numbers of agencies providing services.
• Advocacy: Advocacy on behalf of a specific client for the purpose of accessing needed services. Activities may include making and receiving telephone calls, and the completion of forms, applications and reports which assist the client in accessing needed services.
• Crisis Intervention: Crisis intervention and stabilization are provided in situations requiring immediate attention/resolution for a specific client. The case manager may provide the initial intervention in a crisis situation and would assist the client in gaining access to other needed crisis services.

The client’s primary therapist (employed or contracted by the community mental health or substance use treatment center) will perform an assessment and determine the case management services required.

15.4.2 EPSDT Mental Health Services or Ongoing Case Management

Ongoing Case Management: Ongoing Case Management for persons under age twenty one (21) is an individual, non-clinical service which will be used to assist individuals under the plan in gaining access to needed medical, social, educational, and other services.

The purpose of Ongoing case management is to foster a client’s rehabilitation from a diagnosed mental disorder or substance use disorder by organizing needed services and supports into an integrated system of care until the client or family is able to assume this responsibility.

Ongoing case management activities include the following:

• Linkage: Working with clients and/or service providers to secure access to needed services. Activities include communication with agencies to arrange for appointments or services following the initial referral process, and preparing clients for these appointments. Contact with hospitalized clients, hospital/institution staff, and/or collaterals in order to facilitate the client’s reintegration into the community.
• Monitoring/Follow-up: Contacting the client or others to ensure that a client is following a prescribed service plan and monitoring the progress and impact of that plan.
• Referral: Arranging appointments for clients with service providers or informing clients of services available, addresses and telephone numbers of agencies’ providing services.
• Advocacy: Advocacy on behalf of a specific client for the purpose of accessing needed services. Activities may include making and receiving telephone calls, and the completion of forms, applications and reports which assist the client in accessing needed services.
• Crisis Intervention: Crisis Intervention and stabilization are provided in situations requiring immediate attention/resolution for a specific client. The
case manager may provide the initial intervention in a crisis situation and would assist the client in gaining access to other needed crisis services.

The client’s primary therapist will perform an assessment and authorize the case management services required.

15.4.3 Limitations to Mental Health/Substance Abuse Services

- Medicaid Mental Health Rehabilitative Targeted Case Management Option and EPSDT mental health services are limited to those clients that meet the criteria and have a primary diagnosis of a mental/substance use disorder in the most current edition of the Diagnostic and Statistical Manual Disorders (DSM) or ICD equivalent.
- Specifically excluded from eligibility for Rehabilitative Option, Targeted Case Management Option and EPSDT mental health services are the following diagnosis resulting from clinical assessment:
  - Sole DSM diagnosis of mental retardation
  - Sole DSM diagnosis of any Z code and services provided for a Z code diagnosis (exception for young children)
  - Sole DSM diagnosis of other unknown and unspecified cause of morbidity and mortality
  - Sole DSM diagnosis of specific learning disorders
- Habilitative services are not covered for clients twenty-one (21) years of age or older.

15.4.4 Collateral Contact

As per the Wyoming Medicaid Rules, Chapter 13 - Mental Health Services, it states the following:

"Collateral contact." An individual involved in the client's care. This individual may be a family member, guardian, healthcare professional or person who is a knowledgeable source of information about the client's situation and serves to support or corroborate information provided by the client. The individual contributes a direct and an exclusive benefit for the covered client.

- A collateral is usually a spouse, family member, or friend, who participates in therapy to assist the identified patient. The collateral is not considered to be a patient and is not the subject of the treatment. Behavioral health providers have certain legal and ethical responsibilities to clients, and the privacy of the relationship is given legal protection. The primary responsibility is to the patient.
- The role of a collateral will vary greatly. For example, a collateral might attend only one session, either alone or with the client, to provide information to the therapist and never attend another session. In another case, a collateral might attend all of the client’s therapy sessions and his/her relationship with the patient may be a focus of the treatment.
• Clinicians specializing in the treatment of children have long recognized the need to treat children in the context of their family. Participation of parents, siblings, and sometimes extended family members, is common and often recommended. Parents in particular have more rights and responsibilities in their role as a collateral than in other treatment situations where the identified patient is not a minor.

15.4.4.1 Collateral Visits

• A collateral can attend a session with the therapist with or without the client present.

• Generally, unlike patients, collaterals do not have the right to access clinical records unless they are a parent or legal guardian.

• Collaterals are not responsible for the fees of the sessions they attend, unless they have been responsible for the fees all along, as is often the case when the collateral is the parent of a minor patient.

• Collaterals are not your patients. You do not have the same responsibility for collaterals as you have for your patients.

• Information about the collateral may be entered into the clinical records with a varied range of details, depending on the clinician, the situation, the relationships between the patient and the collateral and the communication between the therapist, client and collateral.

• Clinicians who work with children often treat them in the context of their family. Sometimes family members are included in sessions as collaterals.

• If a clinician thinks it is appropriate, he/she may offer a referral to the collateral for a follow up with another mental health professional.

• Child or adult abuse and similar reporting laws apply to collateral visits.

• In many situations, the patient is not mandated to sign an 'Authorization to Release Information' to the collateral for information shared during the visit if both collateral and patient are present in the room at the same time.

15.4.5 Community-Based Services

Community-based services are services that are provided to a client in their home or community rather than in institutions or other isolated settings. Community-based services should not be billed to Medicaid if the therapy is scheduled in the community for the convenience of the provider or client. The community-based services need to be related to a goal or objective in the treatment plan. To bill Community-based services, please use the code and the new modifier TN after the code.

There is an important policy distinction between an agency based service and a community based service. Agency based services are provided in a clinic or office setting. Community based services are provided outside of the provider's office or
agency and in a client's community. There are exceptions to these service definitions. If a provider has a contract/agreement/employment arrangement to provide services to clients elsewhere (i.e. in a nursing home, hospital, residential treatment center, etc.), those services are still considered to be agency based services rather than community based services - institutions are not considered to be community settings. These alternate service locations are considered to be an extension of, or additional place of business, for agency based providers. For example, if a provider has an agreement with a nursing home to provide therapy services and travels from their agency to the nursing home, these services should still be considered agency based services and are required to be billed as such. A second example would be if an agency based provider travels to a residential treatment center and conducts assessments and therapy sessions. These services would be considered agency based services. Services provided under an agreement with another state agency (i.e. DFS) are also considered to be an extension of agency based services as well under Medicaid policy. A flowchart is provided below.

15.5 Covered Service Codes

Please note that some of these services cannot be billed by the clinics. The medical clinics are not considered Community Health Clinics. Only the Substance Abuse Treatment Centers can bill for certain services. Please see the column on the below table labeled “Pay to Providers with the appropriate Taxonomy Code”.

The following matrix indicates the HCPCS Level II code, the Medicaid defined unit (for codes without a specific time span in the HCPCS Level II coding book) and acceptable modifiers (when applicable).

### Covered Services – Behavioral Health

| Community Mental Health Centers & Substance Abuse Treatment Centers Only |
| --- | --- |
| **Taxonomy** | **Provider Types** | **Allowed Codes** |

## 15.6 Non-Covered Services

- Hospital liaison services that include institutional discharge functions that are Medicaid reimbursable to the institution.
- Consultation to other persons and agencies about non-clients, public education, public relations activities, speaking engagements and education.
- Clinical services not provided through face-to-face contact with the client, other than collateral contacts necessary to develop/implement the prescribed plan of treatment.
- Residential room, board, and care.
- Substance use and mental health prevention services.
- Recreation and socialization services.
- Vocational services and training.
- Appointments not kept.
- Day care.
- Psychological testing done for the sole purpose of educational diagnosis or school placement.
- Remedial or other formal education.
- Travel time.
- Record keeping time.
- Time spent writing test reports with the exception of three hours allowed for report writing by a licensed psychologist for the purpose of compiling a formal report of test findings and time spent completing reports, forms and correspondence covered under case management services.
- Time spent in consultation with other persons or organizations on behalf of a client unless:
  - The consultation is a face-to-face contact with collateral in order to implement the treatment plan of a client receiving Rehabilitative Option services. OR
o The consultation is a face-to-face or telephone contact in order to implement the treatment plan of a client receiving EPSDT Mental Health Services. OR
o The consultation is a face-to-face or telephone contact in order to implement the treatment plan of a client receiving Targeted Case Management Services. OR
o The consultation is a face-to-face or telephone contact in order to implement the treatment plan of a client receiving Applied Behavior Analysis treatment.

- Groups such as Alcoholics Anonymous, Narcotics Anonymous, and other self-help groups, and
- Driving while under the influence (DUI) classes.
- Services provided by a school psychologist

15.6.1 Provisions of Mental Health and Substance Abuse Treatment Services to Residents of Nursing Facilities

Eligibility for Medicaid mental health and substance use services provided to enrolled clients in the nursing facility is limited to the following services under the Rehabilitative Services Option:

- Clinical Assessment
- Community-Based Individual/Family Therapy
- Group Therapy
- Psychiatric Services

15.7 Applied Behavioral Analysis Treatment

Applied Behavior Analysis (ABA) treatments are allowable to children between the ages of 0-20 years of age with a diagnosis of Autism Spectrum Disorder. Applied Behavior Analysis are individualized treatments based in behavioral sciences that focus on increasing positive behaviors and decreasing negative or interfering behaviors to improve a variety of well-defined skills. ABA is a highly structured program that includes incidental teaching, intentional environmental modifications, and reinforcement techniques to produce socially significant improvement in human behavior. ABA strategies include reinforcement, shaping, chaining of behaviors and other behavioral strategies to build specific targeted functional skills that are important for everyday life.

NOTE: ABA Providers must abide by all Wyoming Medicaid policies and documentation requirements.

15.7.1 Applied Behavior Analysis Providers

Applied Behavior Analysis Providers must follow the requirements set by the Board of Certified Behavior Analysts as per https://www.bacb.com/become-credentialed/ in
order to provide applied behavior analysis treatment services to Wyoming Medicaid clients.

</tbody>
</table>
### Definitions:

**“On-Site”** – Is defined as immediately available and interruptible to provide assistance and direction through the performance of the procedure, however, the QHP/BCBA does not need to be present in the room when the procedure is performed.

**Qualified Health care professional (QHP)** – Is an individual who is qualified by education, training, licensure/regulation (when applicable), and facility privileging (when applicable) who performs a professional service within his or her scope of practice and independently reports that professional services. In this section, QHP refers to a Board Certified Behavioral Analyst (BCBA).

**Direct Services** – Includes direction of Registered Behavior Technicians, treatment planning/monitoring fidelity of implementation, and protocol modification.

**Indirect Services** – Includes developing treatment goals, summarizing and analyzing data, coordination of care with other professionals, report progress toward treatment goals, develop and oversee transition/discharge plan, and training and directing staff on implementation of new/revised treatment protocols (patient not present). The AMA codes for Adaptive Behavior Services indicate that the activities associated with indirect supervision are bundled codes and are otherwise considered a practice expense and not reimbursable. The only code that can be billed for indirect services is 97151.

### 15.7.3 ABA Supervision of Technicians

Supervision by a (QHP/BCBA) is required (approximately 1 hour per 10 hours of direct care by the technician). There is no separate code for supervision, but supervision is an essential activity that is part of all the technician codes. The bill for technician time is meant to include reimbursement for total time, including supervision, even though only the technician time is measured. (The codes should be...
selected, however, based strictly on face-to-face technician time.) The professional behavior analysts perform specific activities when providing clinical supervision to ABA technicians. These are, of course, well beyond human resources functions, such as procedural-integrity checks and modifying and modeling modifications to a treatment protocol that has not produced the desired outcomes. These types of activities are separate from human resources supervision, and adaptive behavior treatment with protocol modification code.

When a (QHP/BCBA) is directing the activities of a technician in person (face-to-face contact with the patient) for purposes such as checking procedural integrity and problem solving and/or modifying a treatment protocol that is not effective, the QHP/BCBA would bill for this time using the adaptive behavior treatment with protocol modification code. There is no separate code for QHP/BCBA supervision of technicians without the patient present. This type of supervision is included in the codes used to bill according to a technician’s time, and is typically considered to be 10–15 minutes of QHP/BCBA time for each hour that a technician spends face to face with a patient.

NOTE: The CPT Editorial Panel regards supervision as primarily a human resources function (e.g., providing performance feedback, resolving employee conflicts, approving vacation, conducting annual evaluations). The CPT Editorial Panel considers these activities practice expenses, and therefore does not publish codes to allow professionals to bill for supervision as a separate health procedure.

15.8 Limitations for Behavioral Health Services

The report writing segment, for the purpose of compiling a formal report of psychological test findings, is limited to a maximum of three (3) hours. This only applies to psychologists and neuropsychologists.

Span billing is not allowed for fee for service behavioral health services. Each date of service must be billed on its own separate line.

The following conditions do not meet the medical necessity guidelines, and therefore will not be covered:

- Clients age 21 and over are limited to restorative/rehabilitative services only. Restorative/rehabilitative services are services that assist an individual in regaining or improving skills or strength.
- Maintenance therapy can be provided for clients age 20 and under.
- Services are not medically necessary.
- Treatment whose purpose is vocationally or recreationally based.
- Diagnosis or treatment in a school-based setting by a provider employed by the school district.
15.8.1 Prior Authorization Once Thresholds are Met

For Medicaid clients age 21 and over, dates of service in excess of thirty (30) per calendar year will require a prior authorization which can be obtained through Comagine Health (6.10 Service Thresholds).

Any requests to Comagine Health that are for dates of service which are past timely filing will not be reviewed. Remember the expectation is to have the requests in prior to the dates of service reflected in the treatment plan. Requests that submitted timely will be given priority over retroactive review requests.

15.8.2 Appeals Process

- If the initial request for prior authorization is denied or reduced, a request for reconsideration can be submitted through Comagine Health, including any additional clinical information that supports the request for services
- Should the reconsideration request uphold the original denial or reduction in services, an appeal can be made to the state by sending a written appeal via e-mail to the Behavioral Health Program Manager, Brenda Stout (Brenda.stout1@wyo.gov).
  - The appeal should include an explanation of the reason for the disagreement with the decision and the reference number from Comagine Health’s system. The appeal will be reviewed in conjunction with the documentation uploaded into Comagine Health’s system.

15.9 Documentation Requirements for All Behavioral Health Providers

15.9.1 Provider Agreement

The Provider Agreement requires that the clinical records fully disclose the extent of treatment services provided to Medicaid clients. The following elements are a clarification of Medicaid policy regarding documentation for medical records:

1. The record shall be typed or legibly written.
2. The record shall identify the client on each page.
3. Entries shall be signed and dated by the qualified staff member providing service.
4. A mental health/substance use therapeutic record note must show length of service including time in and time out (Standard or Military time).
5. The record shall contain a preliminary working diagnosis and the elements of a history and mental status examination upon which the diagnosis is based.
6. All services, as well as the treatment plan, shall be entered in the record. Any drugs prescribed by medical personnel affiliated with the provider, as part of
the treatment, including the quantities and the dosage, shall be entered in the record.

- The record shall indicate the observed mental health/substance abuse therapeutic condition of the client, any change in diagnosis or treatment, and client’s response to treatment. Progress notes shall be written for every contact billed to Medicaid.

- The record must include a valid consent for treatment signed by the client or guardian.

Pursuant to Wyoming Medicaid Rules, Chapter 3-Provider Participation, “Documentation requirements,” a provider must have completed all required documentation, including required signatures, before or at the time the provider submits a claim to the Division (Division of Healthcare Financing, Medicaid). Documentation prepared or completed after the submission of a claim will be deemed to be insufficient to substantiate the claim and Medicaid funds shall be withheld or recovered.

15.9.2 Documentation of Services

Documentation of the services must contain the following:

- Name of the client
- Identify the covered services provided and the procedure code billed to Medicaid
- Identify the date, length of time (start and end times in standard or military format), and location of the service
- Identify all persons involved
- Be legible and contain documentation that accurately describes the services rendered to the client and progress towards identified goals
- Full signature, including licensure or certification of the treating provider involved
- Providers shall not sign for a service prior to the service being completed
- No overlapping behavioral health services except for codes 97153 and 97155

NOTE: When providing behavioral health services to a Medicaid client, the documentation kept must be accurate with the date and times the services were rendered (3.11 Record Keeping, Retention and Access, 15.10 Documentation Requirements for All Behavioral Health Providers). Behavioral health services cannot overlap date and time for a client. For example, a client being seen for group therapy on February 28th from 11:00 to 12:00 cannot also be seen for targeted case management on February 28th from 11:00 to 12:00. These are overlapping services and cannot be billed to Medicaid. The importance of proper documentation of services is important to differentiate the times of services being rendered, as you cannot bill times on a CMS 1500.
15.9.3 Client Records

Providers of mental health/substance use services under the Medicaid shall maintain clinical and financial records in a manner that allows verification of service provision and accuracy in billing for services. Billed services not substantiated by clinical documentation shall be retroactively denied payment. The provider shall be responsible for reimbursing any Medicaid payments that are denied retroactively.

Late entries made to the client’s record are allowable to supplement the clinical record. Late entries are not allowable for the purpose of satisfying record keeping requirements after billing Wyoming Medicaid.

15.9.3.1 Requirements

In addition to the general documentation requirements listed above, the following requirements shall be met:

- There shall be a separate clinical note made in each client’s clinical record for every treatment contact that is to be billed to Medicaid. More frequent documentation is acceptable and encouraged
  - A separate progress note in the clinical record for each face-to-face contact with the client and with others who are collaterals to implement the client’s treatment plan. Progress notes shall include:
    - The name of the Medical reimbursable service rendered and procedure code billed to Medicaid
    - The date, length of time (time in and time out in standard or military time format) and location of the contact
    - Persons involved (in lieu of in addition to the client)
    - Summary of client condition, issues addressed, and client progress in meeting treatment goals
    - Signature, date and credentials of treating staff member
  - The note for Psychosocial Rehabilitation shall document:
    - The date and length of time (time in and time out in standard or military time format) of each day’s contact
    - A separate progress note describing therapeutic activities provided, the procedure code billed to Medicaid, and client’s progress in achieving the treatment goal(s) to be accomplished through psychosocial rehabilitation
    - Signature, date and credentials of treating staff member
    - Co-signature of the primary therapist on progress notes for services provided by non-licensed, certified staff or qualified case managers
  - Individual Rehabilitative Services (IRS), a separate chart note shall document each contact to be billed, including:
    - The date and length of time (time in and time out in standard or military time format) of each day’s contact
    - Activities of the skill trainer and activities of the client
    - Any significant client behavior observed
    - The date and signature of the skill trainer
The location of service and the procedure code billed to Medicaid
The signature, date and credentials of the primary therapist

Peer Specialist Services, a separate chart note shall document for each contact to be billed, including:
- The date and length of time (time in and time out in standard or military time format) of each day’s contact
- Activities of the skill trainer and activities of the client
- Any significant client behavior observed
- The date and signature of the skill trainer
- The location of service and the procedure code billed to Medicaid
- The signature, date and credentials of the primary therapist

Ongoing Case Management Services and Targeted Case Management Services, a separate chart note shall document each contract to be billed, including:
- The date and length of time (time in and time out in standard or military time format) of each day’s contact
- The date and signature of the case manager
- Type and description of each service and the procedure code billed to Medicaid

Each note shall show length of service, time in and time out in standard or military format.
The provider shall adhere to clinical records standards defined in Section 3.5.
The provider shall maintain an individual ledger account for each Medicaid client who receives services. The ledger account shall indicate, at a minimum:
- The length of contact rounded to the nearest 15-minute unit, per billing instructions. If seven (7) minutes or less of the next fifteen (15) minute unit is utilized, the unit must be rounded down. However, if eight (8) or more minutes of the next fifteen (15) minute unit are utilized, the units can be rounded up. Date ranges are not acceptable. The date and type of each treatment contact.
- The appropriate Medicaid charge.
- Date that other third-party payers were billed and the result of the billing. Services noted on the individual ledger account and billed to Medicaid shall be substantiated by the clinical record documentation.

15.9.3.2 Clinical Records Content Requirement

Each Medicaid provider shall establish requirements for the content, organization, and maintenance of client records. The content of clinical records shall include, at a minimum:
- Documentation of client consent to treatment at the agency. If an adult client is under guardianship, consent shall be obtained from the guardian. In the case of minors, consent shall be obtained from a parent or the guardian. Wyoming Medicaid shall not reimburse for services delivered before a valid consent is signed.
- A client fee agreement, signed by the client or guardian. For Medicaid, this agreement shall include authorization to bill Medicaid, and other insurance if applicable, using the following statement, “I authorize the release of any treatment information necessary to process Medicaid/insurance claims.”
- A specific fee agreement for any Medicaid non-covered service, and the fee that an enrolled client agrees to pay.
- Documentation that each client has been informed of his or her client rights.
- A clinical assessment completed prior to the provision of treatment services which shall include at a minimum:
  - The specific symptoms/behaviors of a mental/substance use disorder which constitute the presenting problem.
  - History of the mental/substance use disorder and previous treatment.
  - Family and social data relevant to the mental/substance use disorder.
  - Medical data, including a list of all medications being used, major physical illnesses, and substance use (if not the presenting problem).
  - Mental status findings.
  - A diagnostic interpretation.
  - A DSM (current edition) diagnosis
- A diagnostic interpretation or a treatment plan shall be completed prior to or within five (5) working days of the third face-to-face contact with a licensed mental health professional.
- Properly executed release of information, as applicable, and chart documentation of information received or released as a result of the written client consent.
- Testing, correspondence, and like documents or copies.
- For any client receiving ten or more therapeutic contacts, a discharge summary which includes each type of Medicaid service received client progress in achieving treatment goals, and plans for follow-up, necessary. The discharge summary shall be completed within 90 days of the last contact. Any clinical record shall document the reason for case closure.

15.9.4 Treatment Plans

Treatment plans for services must be based on a comprehensive assessment of an individual’s rehabilitation needs, including diagnoses and presence of a functional impairment in daily living, and be reviewed every 90-days.

Treatment plans must also:

- Be developed by qualified provider(s) working within the State scope of practice acts with significant input from the client, client’s family, the client’s authorized healthcare decision maker and/or persons of the client’s choosing;
- Ensure the active participation of the client, client’s family, the client’s authorized healthcare decision maker and/or persons of the client’s choosing in the development, review and modification of these goals and services;
- Specify the client’s rehabilitation goals to be achieved, including recovery goals for persons with mental health and/or substance related disorders;
• Specify the mental health and/or substance related disorder that is being treated;
• Specify the anticipated outcomes within the goals of the treatment plan;
• Indicate the type, frequency, amount and duration of the services;
• Be signed by the individual responsible for developing the rehabilitation plan;
• Specify a timeline for reevaluation of the plan, based on the individual’s assessed needs and anticipated progress, but not longer than 90-days;
• Document that the individual or representative participated in the development of the plan, signed the plan, and received a copy of the rehabilitation plan; and
• Include the name of the individual; and
• The date span of services the treatment plan covers; and
• The progress made toward functional improvement and attainment of the individual’s goals.

15.9.5 Billing Requirements

In order to obtain Medicaid reimbursement for services, the following standards must be observed.

• The services must be medically necessary and follow generally accepted standards of care.
• Bill using the appropriate code set.
• The service must be a service covered by Medicaid.
• Claims must be made according to Medicaid billing instructions.

15.9.6 Time and Frequency

Time and frequency are required on all documentation and must be specific so time in and time out must be reflected on the document in standard or military format. Time can be a unit of 15 minutes depending on the Current Procedural Terminology (CPT) code or Healthcare Common Procedure Coding System (HCPCS) Level II code used to bill the service. For example, if the code is a fifteen (15) minute unit, then follow the guidelines for rounding to the nearest unit. If seven (7) minutes or less of the next 15 minute unit is utilized, the unit must be rounded down. However, if eight (8) or more minutes of the next 15 minute unit are utilized, the units can be rounded up. Date ranges are not acceptable. Please refer to the CPT and HCPCS coding books for more information on how to round a unit per code.

15.9.7 Pre-Admission Screening and Resident Review (PASRR) Assessments

15.9.7.1 Billing Requirements
- Submit PASRR Level II claims to the Medicaid Program.
- PASRR Level II assessments should be sent to WYhealth (2.1, Quick Reference).

These services cannot be paid at the all-inclusive rate. A separate enrollment would need to be completed to be paid the fee for service rate for these services. Youth must also qualify to receive these services.

16.1 Children’s Mental Health Waiver (CMHW) Services as Administered by Magellan Healthcare, Inc., Through the Care Management Entity

Wyoming Medicaid’s Care Management Entity (CME) contractor, Magellan Healthcare, serves Medicaid-covered children and youth ages of four through twenty years of age who are experiencing serious emotional and/or behavioral challenges. The CME provides intensive care coordination services using the High Fidelity Wraparound (HFWA) model. Children and youth not eligible for Wyoming Medicaid may access CME services through the State’s Children’s Mental Health Waiver (CMHW).

All youth applying for CME enrollment must meet clinical eligibility requirements which include completion of the Early Childhood Service Intensity Instrument (ECSII) for children 4-5 or, completion of the Child & Adolescent Service Intensity Instrument (CASII) for youth 6-20.

16.1.1 Enrollment Requirements

In order to enroll with Wyoming Medicaid as an ECSII or CASII evaluator to perform evaluations as an Independent Assessor, one must:

- Be certified by the CMHW/CME Program Manager as having met the training and certification guidelines,
  - Certification is demonstrated by a certificate of good standing which is issued by the CMHW/CME Program Manager to qualified evaluators
- Agree to be listed on a public facing roster for selection by youth and families seeking an evaluation, and
- Meet ongoing recertification requirements as specified in policy

16.1.2 ECSII/CASII Online Add Form

Independent Assessor's (IA's) who are performing a ECSII/CASII assessment for children/youth who are applying for the Wyoming Medicaid Children's Mental Health Waiver (CMHW) and not currently covered by Wyoming Medicaid will need to complete an ECSII/CASII online add form and submit to Magellan per their instructions. The online add form is available on the "Forms" page of the Care Management Entity (CME), Magellan Healthcare Inc., website: http://magellanofwyoming.com

- The completed ECSII/CASII online add form is forwarded by the CME, along with the application packet (or by itself if the child/youth did not clinically
16.1.3 Covered Services
Medicaid home and community-based service (HCBS) waivers are required to adhere to conflict of interest standards. Conflicts of interest can arise from:
  o Incentives for either over- or under-utilization of services;
  o Problems such as an interest in retaining an individual as a client rather than promoting independence; or,
  o Issues that focus on the convenience of the service provider rather than being person-centered.

Many of these conflicts of interest may not be conscious decisions on the part of individuals or entities responsible for the provision of service.

A key component to a conflict free system is keeping the program’s eligibility decisions separate from service provision. This means that individuals or agencies who would benefit financially from the provision of the assessed needs and services may not perform the Independent Assessment.

To accomplish this separation, the Independent Assessor:
  • May not have an interest in or be employed by a potential provider of the waiver services. If a family indicates interest in working with a specific Family Care Coordinator (FCC) or High Fidelity Wraparound (HFWA) provider agency, the Independent Assessor needs to be independent of that FCC or agency that provides FCC. The family can be informed of this decision during the IA process so they have the option to select another IA should there be a potential conflict of interest.
  • Must avoid performing more than two consecutive ECSII/CASII’s for the same youth. While it is unusual for a child/youth to be involved in HFWA for a long period of time, the third assessment that is used to determine ongoing eligibility needs to be completed by a different assessor than the IA who performed the last two assessments.

16.1.4 Billing Requirements
The procedure code for an ECSII or CASII assessment is H0002. A modifier (CG) is allowed in certain circumstances based on the work performed, as described below.

To be eligible to receive payment for initial ECSII/CASII assessments performed by the IA as part of the CMHW/CME application process, the complete CME application must be submitted in the manner specified by the CME’s policy which is detailed in the provider section of the CME’s website.

A complete CME/CMHW application includes:
- Application form-signed by the parent, guardian, or young adult applying (18+ with no guardian) for CMHW/CME services.
  - Page 3 of the application is signed by the IA who completed the application packet
- Level of Care form signed by a qualified Wyoming clinician who is able to diagnose behavioral health disorders per their license and scope of practice
- Completed/signed Freedom of Choice and Provider Choice forms
- Completed ECSII or CASII assessment completed by the IA
- Financial application packet for youth applying for the CMHW only

IA’s who complete the full application process are eligible to add the modifier “CG” to the evaluation’s procedure code which increases reimbursement by 25%.

For ECSII/CASII evaluations that aren’t part of the initial enrollment, please bill with the procedure code only.

- In this case the procedure code modifier is not used

Chapter Seventeen – Covered Services – Chiropractic Services

17.1 Coverage Indications ........................................................................................................... 294
17.2 Definitions ............................................................................................................................. 294
17.3 Medical Necessity ............................................................................................................... 294
17.4 Covered CPT Codes ........................................................................................................... 295
17.5 Documentation Requirements ............................................................................................ 295
17.1 Coverage Indications

**Encounter Revenue Code: 0529**

Coverage of chiropractic service is specifically limited to treatment by means of manual manipulation, i.e., by use of the hands. Manual devices (i.e., those that are hand-held with the thrust of the force of the device being controlled manually) may be used by chiropractors in performing manual manipulation of the spine, however, no additional payment is available for use of the device, nor does Medicaid recognize an extra charge for the device itself.

The word "correction" may be used in lieu of "treatment." The following terms, or combination of may be used to describe manual manipulation as defined above:

- Spine or spinal adjustment by manual means;
- Spine or spinal manipulation;
- Manual adjustment; and
- Vertebral manipulation or adjustment.

17.2 Definitions

- **Acute**: A patient's condition is considered acute when the patient is being treated for a new injury, identified by x-ray or physical exam as specified above. The result of chiropractic manipulation is expected to be an improvement in or arrest of the progression of the patient's condition.

- **Maintenance therapy**: Maintenance therapy includes services that seek to prevent disease, promote health and prolong and enhance the quality of life, or maintain or prevent deterioration of a chronic condition. When further clinical improvement cannot reasonably be expected from continuous ongoing care, and the chiropractic treatment becomes supportive rather than corrective in nature, the treatment is then considered maintenance therapy. Maintenance therapy is not a Wyoming Medicaid covered service.

17.3 Medical Necessity

**ALL of the following criteria must be met to substantiate medical necessity:**

1. The client has a neuromusculoskeletal disorder.
2. The medical necessity for treatment is clearly documented.
3. Improvement is documented within the initial two (2) weeks of chiropractic care.
The service will NOT be considered medically necessary if:

1. No improvement is documented within the initial two (2) weeks unless the treatment is modified.
2. No improvement is documented within 30-days despite modification of chiropractic treatment.
3. The maximum therapeutic benefit has been achieved.
4. The chiropractic manipulation is being performed in asymptomatic person or persons without an identifiable clinical condition.
5. The chiropractic care is occurring in persons whose condition is neither regressing nor improving.

17.4 Covered CPT Codes

99201-99205, 99211-99215

• These office visit codes are subject to a $2.45 co-pay for adults >21 years of age.
• A full schedule of co-pays and exceptions is located in Chapter 6 of the CMS 1500 Manual.

98940, 98941, 98942

70100 -77086 Diagnostic Radiology codes

• Refer to the Wyoming Medicaid CMS 1500 Manual for additional information regarding radiology services.

17.5 Documentation Requirements

1. History as stated above.
2. Description of the present illness including:
   • Mechanism of trauma.
   • Quality and character of symptoms/problem.
   • Onset, duration, intensity, frequency, location, and radiation of symptoms.
   • Aggravating or relieving factors.
   • Prior interventions, treatments, medications, secondary complaints.
   • Symptoms causing client to seek treatment.

These symptoms must bear a direct relationship to the level of subluxation. The symptoms should refer to the spine (spondyle or vertebral), muscle (myo), bone (osseo or osteo), rib (costo or costal) and joint (arthro), and be reported as pain (algia), inflammation (itis), or as signs such as swelling, spasticity, etc. Vertebral
pinching of spinal nerves may cause headaches, arm, shoulder, and hand problems as well as leg and foot pains and numbness. Rib and rib/chest pains are also recognized symptoms, but in general other symptoms must relate to the spine as such. The subluxation must be causal, i.e., the symptoms must be related to the level of the subluxation that has been cited. A statement in the client's file/chart that there is "pain" is insufficient. The location of pain must be described and whether the particular vertebra listed is capable of producing pain in the area determined.

3. Evaluation of musculoskeletal/nervous system through physical examination.
4. Diagnosis (ICD-10 diagnosis codes will be required for dates of service 10/1/2015 and after): The primary diagnosis must be subluxation, including the level of subluxation, either so stated or identified by a term descriptive of subluxation. Such terms may refer either to the condition of the spinal joint involved or to the direction of position assumed by the particular bone named.
5. Treatment Plan: The treatment plan should include the following:
   - Recommended level of care (duration and frequency of visits).
   - Specific treatment goals.
   - Objective measures to evaluate treatment effectiveness.
6. Date of the initial treatment.
Chapter Eighteen – Covered Services – Dietitian

18.1  Dietician Services.................................................................................................................. 298
18.1.1  Medical Nutrition Therapy............................................................................................... 298
  18.1.1.1  Covered CPT Codes ................................................................................................. 298
  18.1.1.2  Documentation Requirements ................................................................................ 298
18.1.2  Diabetes Prevention Program (DPP)............................................................................... 299
  18.1.2.1  Covered Services .................................................................................................... 299
  18.1.2.2  Billing Requirements .............................................................................................. 300
  18.1.2.3  Documentation Requirements ................................................................................ 300
18.2  Limitations.......................................................................................................................... 301
18.1 Dietician Services

18.1.1 Medical Nutrition Therapy

18.1.1.1 Covered CPT Codes

97802 – Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes – Maximum allow 4 units per day.

97803 – Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes – Maximum allow 4 units per day.

97804 – Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes – Maximum 2 units per day.

18.1.1.2 Documentation Requirements

For Medical Nutrition Therapy, the following elements must be in the documentation:

1. Date of MNT visit along with Beginning and Ending Time of visit;
2. ICD-10 code – defines type of visit/counseling;
3. Subjective Data:
   a. Client’s reason for visit
   b. Primary care physician
   c. History
      i. Past and present medical
      ii. Nutrition including food patterns and intake
      iii. Weight
      iv. Medication
      v. Exercise
4. Objective Data:
   a. Laboratory results (if available)
   b. Height, Weight
   c. BMI
   d. Calorie Needs
   e. Drug/Nutrient Interactions
5. Individual Assessment of Diet/Intake:
   a. Laboratory results (if available)
   b. Height, Weight
   c. BMI
   d. Calorie Needs
   e. Drug/Nutrient Interactions
6. Plan:
   a. Individualized dietary instruction that incorporates diet therapy counseling and education handouts for nutrition related problem.
   b. Plan for follow-up.
c. Documentation of referral for identified needs.
d. Send a letter to the client’s physician describing dietary instruction provided and progress. A copy of the letter should be placed in the client’s medical record.

7. Date and legible identity of provider:
   a. All entries must be signed and dated by the provider.

18.1.2 Diabetes Prevention Program (DPP)

The Diabetes Prevention Program is intended to help prevent Type 2 Diabetes through a yearlong plan of care. A client is considered eligible for these services if they have a diagnosis of prediabetes.

18.1.2.1 Covered Services

DPP services may be used only one time per client. The clinical intervention consists of a minimum of 16 core dietician sessions throughout a six (6) month period to facilitate weight control. After completing the initial core sessions, less intensive monthly follow-up visits maybe be utilized to ensure that beneficiaries maintain healthy behaviors.

Plan of Care:

First 6 Months of DPP Initial Core Sessions:

- Sessions 1-4: G9873 – One (1) Expanded Model (EM) Core Session.
- Sessions 5-8: G9874 – Four (4) EM Core Sessions.
- Sessions 9-16: G9875 – Nine (9) EM Core Sessions.

Note: Session one (1) cannot be performed via telehealth. Sessions 2-16 can be provided via telehealth. For billing purposes use the telehealth modifier, GT, to indicate this.

Second 6 Months of DPP Maintenance:

- Months 7-9:
  o G9876 – Two (2) EM Core Maintenance Sessions.
    ▪ Utilized when DPP criteria is NOT achieved
  o G9878 – Two (2) EM Core Maintenance Sessions.
    ▪ Utilized when DPP criteria IS achieved.
- Months 10-12:
  o G9877 – Two (2) EM Core Maintenance Sessions.
    ▪ Utilized when DPP criteria is NOT achieved
  o G9879 – Two (2) EM Core Maintenance Sessions.
    ▪ Utilized when DPP criteria IS achieved.

Note: These sessions can all be provided via telehealth. For billing purposes use the telehealth modifier, GT, to indicate these services.
Second and Subsequent Years of DPP:

- Months 16-18: G9883 – Two (2) EM Ongoing Maintenance Sessions.
- Months 22-24: G9885 – Two (2) EM Ongoing Maintenance Sessions.

Note: These sessions can all be provided via telehealth. For billing purposes use the telehealth modifier, GT, to indicate these services.

18.1.2.2 Billing Requirements

DPP services and non-DPP services must be billed on separate claim forms; however, multiple services for the same client may be submitted on the same claim. The Telehealth Modifier should be billed with any G-code that is associated with a session that was furnished as a virtual make-up session.

18.1.2.3 Documentation Requirements

Each HCPCS G-code should be listed with the corresponding session date of service and rendering dietitian National Provider Identifier (NPI).

Diabetes Prevention Program providers must maintain the following electronic or paper records for 10 years following the last day of a DPP client’s receipt of services. Certain circumstances may require extension.

- Upon first session providers must record:
  - The provider name and NPI
  - Client information, including but not limited to
    - Name
    - Wyoming Medicaid Client Identification Number
    - Age
  - Evidence that each client meets eligibility requirements

- Upon each additional session providers must record:
  - Session type
    - Core or
    - Core Maintenance or
    - Ongoing Maintenance
    - Regularly Schedule session or
    - Make-up session
  - NPI of the provider furnishing the session
  - Date and place of the session
  - Curriculum topic
  - The client’s weight (only required for regularly scheduled sessions)

- When Applicable, DPP provider records must indicate when a client has
  - Attended core sessions
  - Achieved 5% weight loss
Covered Services – Dietitian

- Attended core maintenance session and maintained minimum weight loss
- Attended two ongoing maintenance sessions and maintained required minimum weight loss
- Achieved at least 9% weight loss

18.2 Limitations

Encounter Revenue Code: 0942

- Dietitian services must be ordered by a physician or nurse practitioner.
- For Medicaid clients, dates of service in excess of twenty (20) per calendar year will require authorization of medical necessity. (6.10 Service Thresholds)
# Chapter Nineteen – Covered Services – End Stage Renal Disease

19.1 End Stage Renal Disease (ESRD) ................................................................. 303
19.2 Billing Requirements ..................................................................................... 303
19.3 ESRD Coding Criteria .................................................................................. 304
19.3.1 ESRD Coding Additional Information ...................................................... 304
19.1 End Stage Renal Disease (ESRD)

Encounter Revenue Code: 0821

ESRDs may be a freestanding facility or a hospital based facility, which provides inpatient, outpatient and / or home dialysis.

Procedure Code: 90951 to 90970 – Other procedure codes are billable under this program but at least one (1) of these must be present to be considered a dialysis claim.

Note: For the purpose of this policy this chapter refers to free standing clinics.

19.2 Billing Requirements

- ESRD providers are responsible for the procurement, delivery and maintenance of the equipment and supplies.
- The facility may bill for all medically necessary services for home dialysis.
- Services provided outside the ESRD scope must be billed under other applicable programs and guidelines.
- Personal attendants are not covered.
- Claims should be billed with an appropriate bill type – see ESRD Coding Criteria table below.
- NDC numbers must be billed with all J-codes.
- Medicaid will reimburse ESRD services based on the services that Medicare includes in its composite rate for ESRD (as listed in the Medicare Benefit Policy Manual – Chapter 11 – End Stage Renal Disease (ESRD)).
- Medicaid will reimburse the Tribal ESRD clinic at the OMB Encounter Rate
- If billing for laboratory services, ESRD providers MUST have a valid CLIA on file.
19.3 ESRD Coding Criteria

Bill Type 72x
Taxonomy 261QE0700X

<table>
<thead>

<td>All-inclusive to Dialysis - $0.00</td>
</tr>
</tbody>
</table>

19.3.1 ESRD Coding Additional Information

- The above criterion does not apply to Medicare crossover claims, claims for any other bill type, or for denied lines.
- Claims or claim lines that are billed with a CPT code not on the coding criteria list will be denied.
- Codes within the above ranges that aren’t normally covered by Medicaid will not be covered for ESRD claims either.
Chapter Twenty – Covered Services – Family Planning

20.1 Family Planning Clinics ................................................................................................. 306
20.1.1 Covered Services ........................................................................................................ 306
20.1.2 Non-Covered Services ............................................................................................... 306
20.1 **Family Planning Clinics**

*Encounter Revenue Code: 0500*

Family planning clinics provide services that are prescribed to clients of childbearing age for the purpose of enabling them to freely determine the number and spacing of their children.

### 20.1.1 Covered Services

The following services are covered by Medicaid:

- Appropriate office visits according to CPT guidelines.
- Contraceptive supplies and devices as prescribed by a healthcare provider (limited to a three (3) month supply).
- Insertion or removal of implantable capsules are allowed with appropriate E&M procedure code.
- Insertion or removal of intrauterine devices (IUD’s) are allowed with an appropriate E&M procedure code.
- Pap smears.
- Pregnancy tests.

### 20.1.2 Non-Covered Services

The following services are **not** covered by Medicaid:

- Reversal of Sterilizations.
- Artificial insemination.
- Fertility testing.
- Infertility counseling.

**NOTE:** Pregnant by Choice/Family Planning Waiver has specific covered and non-covered services ([26.1, Pregnant By Choice/Family Planning Waiver](#)).
Chapter Twenty One – Covered Services – Health Check

21.17 Discussion and Counseling .................................................... 321
21.1 Health Check – EPSDT

Encounter Revenue Code: 0779

The Early and Periodic, Screening, Diagnosis and Treatment Program (EPSDT):

- Brings comprehensive healthcare to children from birth up to and including 20-years of age who are eligible for Medicaid.
- Has a preventive health philosophy of discovering and treating health problems before they become disabling and far more costly to treat in terms of both human and financial resources.
- Examines all aspects of a child’s well-being and corrects any problems that are discovered.
- Is administered by the Division of Healthcare Financing (DHCF), Medicaid.

EPSDT is a statewide program that provides children with comprehensive health screenings, diagnostic services, and treatment of any health problem detected. Defining each word of the program title will help explain the concept of EPSDT.

Procedure Code Range: 99381-99394

Early – Well Child Screens will be performed as soon as possible in the child’s life (in case of a family already receiving assistance) or as soon as a child’s eligibility for Medicaid is established.

Periodic – Means Well Child Screens will be performed at intervals established by medical, dental, and other healthcare experts. Periodic screens assure diseases or disabilities are detected in the early stages. Types of procedures performed will depend on age and health history of the child.

Screening – The use of examination procedures for early detection and treatment of diseases of abnormalities. Referrals are made for those in need of specialized care.

Diagnosis – The determination of the nature or cause of physical or mental disease (abnormality). A diagnosis is made through the combined use of a health history, physical, developmental and psychological evaluations, laboratory tests, and x-rays. Practitioners who complete EPSDT examinations may diagnosis and treat health problems uncovered by the screen or may refer the child to other appropriate sources for care.

Treatment – Care provided by practitioners enrolled with Medicaid to prevent, correct, or ameliorate disease or abnormalities detected by screening and diagnostic procedures. Practitioners may screen, diagnosis, and treat during one (1) office visit.
21.2 Periodicity Schedule

The periodicity schedule contains an easy reference table for Well Child Screens defined by the age of the child. Refer to the Well Child Screen Requirements table for all ages.

Key: ✓ = to be performed  ✗ = to be performed for clients at risk  s = subjective, by history  o = objective, by a standard testing method  s/o = objective at 12, 15, and 18 years old, subjective, by history for all other years.

21.3 Reimbursement

If an abnormality(ies) is encountered or a pre-existing problem is addressed in the process of performing preventative medicine E&M service, and if the problem/abnormality is significant enough to require additional work to perform the key components of a problem oriented E&M service, then the appropriate office/outpatient code 99201-99215 should also be reported. Modifier 25 must be added to the office/outpatient code to indicate that a significant, separate identifiable E&M service was provided by the same physician on the same day as the preventative service. The appropriate preventative medicine service is additionally reported.

</tbody>
</table>

All abnormalities detected during the Health Check exam should be referred to the appropriate specialist, including but not limited to a vision, dental and/or hearing specialist as necessary. The appropriate way to indicate that the provider has referred the child is to add Modifier 32 to the preventative service code.
If any insignificant or trivial problem/abnormality is encountered while performing the preventative medicine E&M services, and does not require additional work, the office/outpatient code should not be reported.

It is of utmost importance that the appropriate CPT, modifier and diagnosis codes are reported. For the provider’s convenience, the codes, modifiers, and diagnosis codes for EPSDT-Health Check and the most current fee schedule for the above mentioned codes are attached. Fees are subject to change without notice.

At a minimum, these screenings must include, but are not limited to:

- Comprehensive health and developmental history.
- Comprehensive unclothed physical examination.
- Dental screening.
- Appropriate vision testing.
- Appropriate hearing testing.
- Appropriate laboratory test (Blood Lead Level testing is required at 12 and 24 months for all children).
- The most current copy of the immunization schedule may be found at [http://www.cdc.gov/vaccines/schedules/index.html](http://www.cdc.gov/vaccines/schedules/index.html).

| 99201          | 25       | Office or other outpatient visit for the E&M of a new patient requires three (3) key components:  
|                |          | - A problem focused history.  
|                |          | - A problem focused exam.  
|                |          | - Straight forward medical decision making. |
| 99202          | 25       | Office or other outpatient visit for the E&M of a new patient requires three (3) key components:  
|                |          | - An expanded focused history.  
|                |          | - An expanded focused exam.  
|                |          | - Straight forward medical decision making. |
| 99203          | 25       | Office or other outpatient visit for the E&M of a new patient requires three (3) key components:  
|                |          | - A detailed history.  
|                |          | - A detailed exam  
|                |          | - Medical decision making of low complexity. |
| 99204          | 25       | Office or other outpatient visit for the E&M of a new patient requires three (3) key components:  
|                |          | - A comprehensive history.  
|                |          | - A comprehensive exam.  
|                |          | - Medical decision making of moderate complexity. |
| 99211          | 25       | Office or other outpatient visit for the E&M of an established patient that may not require the presence of a physician. Usually the presenting problems are minimal. Typically five (5) minutes are spent performing or supervising these services. |
| 99212          | 25       | Office or other outpatient visit for the E&M of an established patient which requires at least of these three (3) components:  
|                |          | - A problem focused history.  
|                |          | - A problem focused exam.  
|                |          | - Straight forward medical decision making. |
| 99213          | 25       | Office or other outpatient visit for the E&M of an established patient which requires at least of these three (3) components:  
|                |          | - An expanded problem focused history.  
|                |          | - An expanded problem focused exam.  
|                |          | - Straightforward medical decision making. |
### Evaluation and Management Services – New Patient

<table>
<thead>
<tr>
<th>Procedure Code</th>
<th>Modifier</th>
<th>Description</th>
</tr>
</thead>
</table>
| 99214          | 25       | Office or other outpatient visit for the E&M of an established patient which requires at least of these three (3) components:  
  - A detailed history.  
  - A detailed exam.  
  - Medical decision making of low complexity. |
| 99215          | 25       | Office or other outpatient visit for the E&M of an established patient which requires at least of these three (3) components:  
  - A comprehensive history.  
  - A comprehensive exam.  
  - Medical decision making of high complexity. |

**NOTE:** Please refer to the current CPT for additional information regarding preventative services.

#### 21.4 Detailed Information for Well Child Screens

- In some instances, Well Child Screens may not be completed at the suggested age (example: immunizations); the healthcare professional must follow recommended practices to ensure the child becomes current.
- Results may indicate further testing or referrals are needed. Healthcare professionals should complete tests or make referrals according to standard procedures and practices.
- Well Child Screens must be completed when there is no acute diagnosis applicable (i.e. otitis media).
- May show that a high risk factor is present based on the child’s environment, history, or test results. Healthcare professionals should proceed with required/recommended tests. Evaluation methods used may be different from what is indicated on the Well Child Screen Requirements table (example: a tuberculin test performed on a child who is nine (9) months of age because the child’s sibling had an active case of diagnosed tuberculosis).

The following information contains additional guidelines to be used when performing Well Child Screens.
21.5 Initial/Interval History

The initial/interval history should be obtained from a parent or other responsible adult who is familiar with the child’s health history. This must include, but is not limited to:

- Family history
- Details of birth, prenatal, neonatal periods
- Nutritional status
- Growth and development
- Childhood illness
- Hospitalizations
- Immunization history

NOTE: If a health history has been obtained previously, then update it each visit.

21.6 Assessments

**Appropriate Developmental Screening** – Providers should administer a developmental screen appropriate to the age of the child during each Well Child Screen. The following screening tools are recommended for children age birth to six (6) years:

1. Prescreening Developmental Questionnaire
2. Denver Developmental Screening Test
3. Battelle Screening Test

- Children five (5) years of age and older should have a general developmental assessment including gross-motor and fine-motor skills, social-emotional skills, and cognitive and self-help skills development.
- Results of development screens need to be considered in combination with other information gained through the history, physical examination, observations of behavior and reports of observations by the parents/caregivers.
- Any abnormalities detected during a Well Child Screen outside of the attending physician’s scope of practice should be referred to the appropriate specialist, including vision, dental and hearing specialists as necessary. All services provided must be medically necessary and provided in the most cost-effective manner.
- Nutritional Screen – Providers should assess the nutritional status at each Well Child Screen through the following activities:
Inquire about dietary practices to identify unusual eating habits. Unusual eating habits include pica behavior, extended use of bottle feedings, or diets deficient or excessive in one (1) or more nutrients;

- A complete physical examination including an oral inspection;
- Accurate measurements of height and weight (all measurements should be plotted on the National Center for Health Statistics Growth Charts); and
- Screening for iron deficiency at the appropriate ages and/or intervals.

**NOTE:** Children with nutritional problems may be referred to a licensed nutritionist or dietitian for further assessment, counseling, or education as needed.

### 21.7 Comprehensive Unclothed Physical Examination

Each comprehensive unclothed physical examination should include the following:

- Height measurement
- Weight measurement
- Standard body systems evaluation
- Observation for any signs of abuse
- Observation of any physical abnormality

During each Well Child Screen, providers need to assess the child's growth. All measurements should be plotted on the National Center for Health Statistics (NCHS) Growth Chart.

Growth assessments should be documented in the medical record and any abnormality should be addressed as abnormal if:

- If a child’s height and/or weight is below the 5th percentile or above the 95th percentile; or
- If weight for height is below the 10th percentile or above the 90th percentile (using the weight for height graph).

### 21.8 Head Circumference

An Occipital Frontal Head Circumference (OFHC) should be measured on each child four (4) years and younger at each Well Child Screen. This measurement should be plotted on the NCHS Growth Chart. OFHC should be reported abnormal if:

- It is below the 5th percentile or above the 95th percentile;
- Size of the head is not following a normal growth curve; or
- Head is grossly disproportionate to the child’s length.
Deviations in the shape of the head may warrant further evaluation and follow-up.

21.9 Blood Pressure

- All children three (3) years and older must have a blood pressure reading at each Well Child Screen.
- Measurements should be taken in a quiet environment, with the correct size cuff, and with the fourth (4th) and fifth (5th) phase Korotkoff sound noted for the diastolic pressure.
- Blood pressure is considered abnormal if the systolic and/or diastolic or both are above the 95th percentile. Any child with a blood pressure reading above the 95th percentile should have it repeated in 7-14 days. If the blood pressure is still elevated, the child should be rechecked again in 7-14 days. If blood pressure is elevated on the third visit, the child should receive appropriate medical evaluation and follow-up, as recommended by the American Academy of Pediatrics.

21.10 Vision Screen

A vision screen appropriate to the age of the child should be conducted at each Well Child Screen. Further evaluations and proper follow up should be recommended if the following conditions are present:

- Infants and children who show evidence of infection, squinting, enlarged or lazy cornea, crossed eyes, amblyopia, cataract, excessive blinking, or other eye abnormality;
- An infant or child who scored abnormal on the fixation test, papillary light reflex test, alternate cover test, or the corneal light reflect test in either eye;
- Three (3) to nine (9) year old children who demonstrate a visual acuity of less than 20/40 in either eye or who demonstrate a one (1) line difference in visual acuity between the two (2) eyes within the passing range; or
- Children ten (10) years and older whose vision is 20/30 or worsen in either eye or who demonstrate a one (1) line difference in visual acuity between the two (2) eyes within the passing range.

21.11 Topical Fluoride Varnish

Physicians can apply a topical fluoride varnish for patients who are at a moderate to high risk for dental caries:

- This application should be done in conjunction with EPSDT well child visits.
- Physician offices may bill the CPT code 99188 on the CMS-1500 form.
• Fluoride varnish application can be done up to three (3) times a year on children ages six (6) months (or when the first teeth erupt) through age three (3) years.
• The American Academy of Pediatric Dentistry recommends the establishment of dental home no later than 12-months of age.

21.12 Hearing Screen

A hearing screen appropriate to the age of the child should be conducted at each Well Child Screen. Further evaluations and proper follow up should be recommended if one (1) of the following conditions is present:

• Infants and children who are positive on one (1) or more of the Eight (8) Hi-Risk register items:
  o Visible congenital or traumatic deformity of the ear.
• Congenital, such as atresia (no ear canal) or abnormally small ear canals.
• Traumatic deformity, collapsed canals or a deformed ear that might contraindicate presence of mold or aid.
• History of active drainage from the ear within previous 90-days.
• History of sudden or rapidly progressive hearing loss within the previous 90-days possibly due to viral attack, trauma, etc. should be seen by a medical doctor immediately.
• Acute or chronic dizziness indicates possible problems with semi-circular canals (balance).
• Unilateral hearing loss of sudden or recent onset within the previous 90-days. Could be caused by mumps, virus, head trauma, Meniere's disease, and various vascular disorders.
• Audiometric air-bone gap equal to or greater than 15 decibels (dB) at 500Hz, 1000Hz, 2000Hz and 3,000Hz. Conductive or middle ear pathology can cause a difference of greater that 15dB between the air conduction test results and results by bone conduction.
• Visible evidence of significant cerumen accumulation or a foreign body in the ear canal.
• Pain or discomfort simply indicates there is something wrong and should be seen by a medical doctor.
• Infants and children whose medical, physical, or developmental history indicates possible hearing loss:
• Positive family history of hearing loss.
• Viral or other non-bacterial transplacental infection.
  o Defects of ear, nose or throat system; malformed, low-set to absent pinnae; cleft lip or palate.
  o Birth weight under 1500 grams.
21.13 Laboratory Tests

Providers who conduct Well Child Screens must use their medical judgment when determining the applicability of performing specific laboratory tests and/or analyses. The following are basic laboratory tests that should be performed when a child reaches the required age.

21.13.1 Hematocrit and Hemoglobin

Hematocrit or Hemoglobin is completed at the following ages:

- Newborns (for high risk infants),
- Two (2) months (for high risk infants),
- 8-12 months,
- 18-24 months,
- Three to four (3-4) years, and
- 11-12 years.

21.13.2 Blood Lead Level

- A venous blood lead level determination must be performed on children at 12 and 24 months of age.
- Children who have a history of pica behavior, an environment suspect of lead exposure, or whose history/physical examination findings are suspicious should have a blood lead level follow-up.
- Lead poisoning is an elevated venous blood lead level (that is greater than or equal to 10 micrograms per deciliter (ug/dl).
- If an elevated blood level is discovered, a child should be re-screened every three (3) to four (4) months until lead levels are within normal limits. In addition, a venipuncture blood lead level should be performed annually through at least age six (6).

Beginning at six (6) months of age and at each visit thereafter until six (6) years of age providers must discuss with parent(s)/caregiver(s) about childhood lead poisoning interventions and assess the child’s risk for exposure. A verbal interview or written questionnaire, such as the following may identify those children at high risk of lead
exposure. Blood lead testing should be carried out on those children identified as high risk by this or a similar questionnaire:

- Does your child live in or regularly visit an old house built before 1950? Is your child’s day care center / preschool / babysitter’s home built before 1978? Does the house have peeling or chipping paint?
- Does your child live in a house built before 1978 with recent, ongoing, or planned renovation or remodeling (within the last six (6) months)?
- Do any of your children or their playmates have or had lead poisoning?
- Does your child frequently come in contact with an adult who works with lead? Examples are construction, welding, pottery, or other trades practiced in your community.
- Does your child live near a lead smelter, battery recycling plant, or other industry likely to release lead?
- Do you give your child any home or folk remedies that may contain lead?
- Does your child live near a heavily traveled major highway where the soil and dust may be contaminated with lead?
- Does your home’s plumbing have lead pipes or copper with lead solder joints?

Ask any additional questions specific to situations existing in the provider’s community. Risk is determined from responses to a verbal or written questionnaire risk assessment. A subsequent verbal risk assessment can change a child’s risk category. Any information suggesting increased lead exposure for previously low risk children must be followed up with a blood lead test. Medicaid will pay for samples to be taken from the home and sent to state laboratory for testing.

If answers to all questions are negative, a child is considered low risk for high doses of lead exposure. Practitioners will need to determine whether to perform additional blood lead level test beyond those required at 12 and 24-months of age.

If the answers to any questions are positive, a child is considered high risk for high doses of lead exposure. Practitioners are required to perform a venous blood lead level on children determined to be high risk. Tests need to be repeated every three (3) to four (4) months until lead levels are within normal limits. Tests should continue to be completed if the child is still considered high risk.

21.13.3 Tuberculin Screening

Tuberculin testing should be completed as indicated on the Well Child Screen Requirements table or more often on clients in high-risk populations (Asian refugees, Indian children, migrant children, etc.), or if historical findings, physical examinations or other risk factors so indicate.
21.13.4 Urinalysis

Urinalysis using a multiple dipstick method should be completed on all children at two (2) years and 13-15 years.

- Because of heightened incidence of bacteriuria in girls, they should have additional tests around three (3) years, five (5) years and eight (8) years.
- Children who have had previous urinary tract infections should be re-screened more frequently.
- If test results are positive but the history and physical examination are negative, the child should be tested again in seven (7) days.
- If the results are positive a second (2\text{nd}) time or if there are supportive findings in the history and physical examination from the first (1\text{st}) positive test, further follow-up is required.
- If a male child has a urinary tract infection, a referral for further testing should be completed immediately.

21.13.5 Other

Other laboratory tests (i.e., chest x-ray, Pap smear, sickle cell testing, etc.) should be completed if medically necessary.

21.14 Immunizations

- The immunization status of each child should be assessed at each Well Child Screen.
- Assessing the immunization status of a child includes interviewing parents/caretakers, reviewing immunization history/records, and reviewing known high risk factors to which the child may be exposed.
- Immunizations needed by children at their Well Child Screen should be given on-site, provided there are not existing contradictions.
- Immunizations are to be given according to the Advisory Committee on Immunization Practices (ACIP).
- Arrangements should be made with the parents/responsible adult for the completion of immunizations.
- If immunizations have not been completed at the recommended age, the healthcare professional should set up a schedule to ensure the child becomes current.

**NOTE:** The Recommended Immunization Schedule can be found at [http://www.cdc.gov/vaccines/schedules/index.html](http://www.cdc.gov/vaccines/schedules/index.html).
21.15 Dental Screen

Oral inspections are included in Well Child Screens. Results should be included in the child’s Initial/Interval History. Although an oral inspection is part of Well Child Screens, it does not substitute for an examination through a direct referral to a dentist. A child should be referred to the dentist as follows:

- When the first tooth erupts and at least yearly thereafter.
- If an oral inspection reveals cavities, infection, or the child has or is developing a handicapping malocclusion or significant abnormality.

21.16 Speech and Language Screens

Speech and language screens identify delays in development of children. Referrals for further speech and hearing evaluations may be appropriate if one (1) or more of the following exists:

- Child is not talking at all by the age of 18 months.
- Suspected hearing impairment.
- Child is embarrassed or disturbed by his/her own speech.
- Voice is monotone, extremely loud, largely inaudible, or of poor quality.
- There is noticeable hypernasality or lack of nasal resonance.
- There is undue parental concern.
- Where speech is not understandable at three (3) years of age, a referral may be appropriate, as the condition may be caused by an unsuspected hearing impairment or a variety of undiagnosed conditions.

21.17 Discussion and Counseling

Parents should have the opportunity to ask questions, to have them answered and to have sufficient time allotted for unhurried discussions. Practitioners should discuss and interpret examination results in accordance with the parents’ level of understanding.

NOTE: Interpretation services are available upon request (21.1, Interpreter Services).
Chapter Twenty Two – Covered Services – Home Health

22.1 Home Health.................................................................................................................. 323
  22.1.1 Supervision.................................................................................................................. 323
  22.1.2 Criteria......................................................................................................................... 323
22.2 Covered Services .............................................................................................................. 324
  22.2.1 Limitations.................................................................................................................. 325
  22.2.2 Documentation Requirements .................................................................................. 325
  22.2.3 Billing Requirements.................................................................................................. 326
    22.2.3.1 Prior Authorizations ......................................................................................... 326
    22.2.3.2 Appeals Process............................................................................................... 327
These services are not within the four “4” walls and cannot be reimbursed at the encounter rate. A separate enrollment is required to bill these services. These services also require a prior authorization.

22.1 Home Health

Home Health services are intended to be a temporary transitional program to assist clients with care required after an acute health incident or an institutionalized stay. Home Health services are to provide medical support and education to the client and any caregiver regarding the client's new medical needs. Home Health is never intended to be a long term solution. For clients with long term needs, Home Health is available initially while the client and any caregiver is educated about the new medical needs and determines what the long term solution will be for meeting the needs of the client. Long term solutions may include additional or alternate care givers, waiver programs, higher levels of care such as nursing facilities, and the client providing for his or her own needs as he or she is able.

Long Term custodial care services are not covered under the home health state plan benefit. Long term custodial care is defined as care that has moved beyond the acute state (has become clinically stable) and is expected to be needed for the rest of the client's life.

Medicare certified or State Licensed Home Health agencies can provide Home Health services. These agencies may be independent or based in a hospital, nursing home, Senior Center, or Public Health agency. Agencies that are not Medicare certified must continue to meet the Conditions of Participation for Medicare and will need to be licensed by the Division of Healthcare Licensing and Survey.

Home Health agencies are unable to bill for the sale or rental of Durable Medical Equipment unless they are separately enrolled as a DME provider. For specific billing instructions refer to the DME General and DME Covered Services Provider Manuals on the Medicaid website (2.1, Quick Reference).

NOTE: All claims are subject to post payment review, ensuring home health policy has been adhered to.

22.1.1 Supervision

Supervision is defined as: The Registered Nurse (RN) shall be immediately available to the home health aide for consultation in person or by telephone. The supervising RN must make a supervisory visit to the home at least every 60-days. The supervisory visit is not a Medicaid billable service.

22.1.2 Criteria

Service must be:

- Ordered by a physician.
• Documented in a signed and dated Plan of Care/Medicare 485 Form that is reviewed and revised as medically necessary by the attending physician at least once every 60-days.
• Medically necessary.
• Three (3) or fewer encounters per day for any combination of home health aide and skilled nursing services.
  o An encounter is defined as all home health services provided in a single day that could be provided in a single visit to the client, regardless of how many actual visits to the client are actually completed. For example, shower, shampooing, nail care, and dressing CAN all be completed at the same time, so, even if the shower is in the morning and nail care is completed in the afternoon, this is one encounter. A separate encounter is not to be billed due to the convenience of the provider nor due to scheduling issues or conflicts. A separate encounter can be billed when services must be separated due to orders or medical necessity, such as wound dressings being changed multiple times per day, or medication being given in the morning or at bed time, or assistance with nutritional intake multiple times per day.
• Expected to last six months or less

22.2 Covered Services

• Skilled nursing services provided by a Registered Nurse (RN) for client’s condition while in the acute phase.
• Home health aide services delegated and supervised by a Registered Nurse (RN).
  o Each Home Health Aide visit MUST include at least one (1) or more of the following:
    ▪ Bath (bed, sponge, tub, shower, or shampooing hair).
    ▪ Nail or skin care (applying lotion does not constitute personal care).
    ▪ Oral hygiene.
    ▪ Toileting and elimination.
    ▪ Safe transfers / assisted ambulation.
    ▪ Assist with dressing (not grooming alone).
    ▪ Assisted range of motion / positioning.
    ▪ Assisted nutrition or fluid intake (meal set-up or prep or feeding assist / supervision).

NOTE: Home Health Aid services must be related to the client’s skilled need (SN, PT, OT, ST). Without a related skilled need, HHA services are not covered.

• Physical therapy services provided by a qualified licensed physical therapist.
• Speech therapy services provided by a qualified licensed therapist.
• Occupational therapy services provided by a qualified registered or certified therapist.
• Medical social services provided by a qualified licensed Master of Social Work (MSW) or Bachelor of Social Work (BSW) prepared person supervised by an MSW.

**NOTE:** MSW services are not to be used in place of appropriate behavioral health referrals to community resources. Regular therapy is not appropriate under the MSW benefit. MSW services are to be used to assist the client in coordination with and accessing community resources to meet their needs.

### 22.2.1 Limitations

The following services are not covered through home health:

- Long term custodial care.
- Homemaker services.
- Respite care.
- Home delivered meals.
- Services for clients who are hospital patients or residents of skilled nursing facilities.
- Services for clients that are inappropriate in the client’s home setting.
- Services for clients that are extensive or for long periods and/or are not cost effective.
- Services for clients where the desired outcome could be better and faster accomplished in another setting.
- Services for clients where the client must be compliant to achieve measured success and the client is not compliant.

### 22.2.2 Documentation Requirements

For all documentation of services provided:

- If the client is receiving home health services only, visit notes must state home health services and detail the specific services provided.
- If the client is receiving both home health services and waiver services, visit notes must state either home health services or waiver services as appropriate and detail the specific services provided.
- The Plan of Care/Medicare 485 Form must list all services the client is receiving, regardless of pay source. This includes waiver, private duty nursing, etc. and frequency of the services to portray a clear picture of all services the client is receiving.
- Adequate documentation justifying medical necessity must be kept. Any plans extending past 120-days (two (2) consecutive 60-day plan periods) will be reviewed.
- New clients ordered to home health care must have documentation of a face-to-face visit with the ordering practitioner within the 90 days preceding the
beginning of home health. This face-to-face visit can be in the hospital, clinic, nursing home, or other clinical setting.

- Home Health Agencies that maintain patient records by computer rather than hard copy may use electronic signatures. However, all such entries must be appropriately authenticated and dated. Authentication must include signatures, written initials, or computer secure entry by a unique identifier of a primary author who has reviewed and approved the entry. The agency must have safeguards to prevent unauthorized access to the records and a process for reconstruction of the records in the event of a system breakdown.

### 22.2.3 Billing Requirements

**Appropriate Bill Type(s):** 33X, 32X

**Pay-to Provider’s Taxonomy:** 251E00000X

- Bill using appropriate revenue codes.
- Do not bill with procedure codes.
- Do not span bill. Each date of service must be billed on a separate line.
- Bill using appropriate units.
- Effective for dates of service 3/1/17 and newer, prior authorizations (PA) are required for all services and are reviewed by Comagine Health (6.13 Prior Authorization)
- Prior authorization number must be placed on the claim
- Prior authorization requests must be submitted within 10 business days of the start of services.
- Plans of Care/Medicare 485 Form, Physician Orders, documentation of face-to-face visit, and documentation of non-homebound status for Medicare/Medicaid dual clients stating the client would not be eligible for services under the Medicare Home Health (2.1 Quick Reference)

#### Home Health Revenue Codes

<table>
<thead>
<tr>
<th>Revenue Code</th>
<th>Description</th>
<th>Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>0551</td>
<td>Skilled Nursing</td>
<td>Per visit</td>
</tr>
<tr>
<td>0421</td>

<td>Per visit</td>
</tr>
<tr>
<td>0561</td>
<td>Medical Social Worker</td>
<td>Per visit</td>
</tr>
</tbody>
</table>

**NOTE:** Do not place procedure codes on the claim.

### 22.2.3.1 Prior Authorizations

- Prior authorizations requests must be submitted within 5 business days of the start of services
- Requests submitted without a signed and dated 485 or physician’s detailed order will not be processed
- Requests must be submitted under the home health revenue codes above, not using HCPCS/CPT codes
- Requests for PRN visits must be submitted after the visit has occurred, but within 5 business days, as a separate episode, and with documentation of the medical necessity of the PRN visit including the clinical notes from that visit
- For facility discharges, be sure to upload the discharge summary from the facility and any applicable therapies (PT, OT, ST)
- For wound care related requests, be sure to include current detailed wound specific information including frequency of care, drainage, wound measurements
- For IV medication related requests, include current medication orders with frequency and duration, and how often administration is to be completed
- For Pediatric G-Tube Care: Clients age 20 and younger, when medically necessary, 1 SN visit per month for review of the placement and patency of the G-Tube will be approved. Other PRN visits will be reviewed according to the PRN visit requirements.
- Technical denials will be issued by Comagine Health for the following:
  - No signed/dated 485 or physician’s orders
  - Failure of the provider to respond to requests for additional information
  - Incorrectly submitted codes (such as using HCPCS or CPT codes instead of Revenue Codes)

**22.2.3.2 Appeals Process**

- If the initial request for prior authorization is denied or reduced, a request for reconsideration can be submitted through Comagine Health, including any additional clinical information that supports the request for services
- Should the reconsideration request uphold the original denial or reduction in services, an appeal can be made to the state by sending a written appeal via e-mail to the Home Health Program Manager, Amy Buxton (amy.buxton@wyo.gov).
  - The appeal should include an explanation of the reason for the disagreement with the decision and the reference number from Comagine Health’s system. The appeal will be reviewed in conjunction with the documentation uploaded into Comagine Health’s system.
Chapter Twenty Three – Covered Services – Laboratory Services

23.1 Laboratory Services ................................................................. 329
23.2 CLIA Requirements .................................................................. 329
23.3 Genetic Testing ......................................................................... 331
   23.3.1 BRCA Testing and Counseling ............................................. 331
23.1 Laboratory Services

Encounter Revenue Code: 0300

Medicaid covers tests provided by independent (non-hospital) clinical laboratories when the following requirements are met:

- Services are ordered by physicians, dentists, or other providers licensed within the scope of their practice as defined by law.
- Services are provided in an office or other similar facility, but not in a hospital outpatient department or clinic.
- Providers of lab services must be Medicaid certified.
- Providers of lab services must have a current Clinical Laboratory Improvement Amendments (CLIA) certification number.
- Providers may bill Medicaid only for those lab services they have performed themselves. Medicaid does not allow pass-through billing.
- Services performed in a separate lab or hospital would need to be billed by the provider performing the services, not the provider ordering the services.
- Wyoming Medicaid will only cover medically necessary tests. Tests derived through court order will not be reimbursed by Wyoming Medicaid.

Procedure Code Range: 36415, G0027, G0306, G0307, G0477, 80000-89999

NOTE: Non-covered services include routine handling charges, stat fees, post-mortem examination and specimen collection fees for throat culture or Pap Smears.

23.2 CLIA Requirements

The type of CLIA certificate required to cover specific codes is listed in the table below. These codes are identified by Center for Medicare and Medicaid Services (CMS) as requiring CLIA certification; however, Medicaid may not cover all of the codes listed. Refer to the fee schedule (2.1, Quick Reference) located on Medicaid website for actual coverage and fees. Content is subject to change at any time, without notice.

NOTE: Codes within the below table are NOT Wyoming Medicaid specific. It is the provider’s responsibility to ensure the codes being billed are covered by Wyoming Medicaid.

23.3 Genetic Testing

**Procedure Codes:** 81200-81599; 96040

Prior Authorization is required for all genetic testing codes. Prior authorization documentation must document the following:

- There is reasonable expectation based on family history, risk factors, or symptomatology that a genetically inherited condition exists; and
- Test results will influence decisions concerning disease treatment or prevention; and
- Genetic testing of children might confirm current symptomatology or predict adult onset diseases and findings might result in medical benefit to the child or as the child reaches adulthood; and
- Referral is made by a genetic specialist (codes 81223 and 81224) or a specialist in the field of the condition to be tested; and
- All other methods of testing and diagnosis have met without success to determine the client’s condition such that medically appropriate treatment can be determined and rendered without the genetic testing. (6.14, Prior Authorization).
- Codes 81420, 81507 - Mother must be documented as high-risk to include: advanced maternal age >35 (at EDC), previous "birth" of embryo/fetus/child with aneuploidy, parent with known balanced translocation, screen positive on standard genetic screening test (FTCS, multiple marker screen of one type or another, etc), ultrasound finding on embryo/fetus consistent with increased risk of aneuploidy
- Code 81519 - All of the following conditions must be met and documented in the prior authorization request:
  - The test will be performed within 6 months of the diagnosis
  - Node negative (micrometastases less than 2mm in size are considered node negative)
  - Hormone receptor positive (ER-positive or PR-positive)
  - Tumor size 0.6-1.0 cm with moderate/poor differentiation or unfavorable features (ie, angiolymphatic invasion, high nuclear grade, high histologic grade) OR tumor size >1 cm
  - Unilateral disease
  - Her-2 negative
  - Patient will be treated with adjuvant endocrine therapy
  - The test result will help the patient make decisions about chemotherapy when chemotherapy is a therapeutic option

### 23.3.1 BRCA Testing and Counseling

The U.S. Preventive Services Task Force (USPSTF) recommends that women whose family history is associated with an increased risk for deleterious mutations in BRCA1 or BRCA2 genes be referred for evaluation for BRCA testing (81211-81217)
and 81162-81167). Medicaid covers BRCA testing when the following criteria are met:

- Personal and/or family history of breast cancer, especially if associated with young age of onset; or
- Multiple tumors; or
- Triple-negative (i.e., estrogen receptor, progesterone receptor, and human epidermal growth factor receptor 2-negative) or medullary histology; or
- History of ovarian cancer; and
- 18 years or older; and
- Pre-test genetic counseling has been prior authorized.
Chapter Twenty Four – Covered Services – Non-Emergency Medical Transportation

24.1    Non-Emergency Medical Transportation (NEMT) ........................................ 334
24.1.1   Covered services ................................................................................. 334
  24.1.1.1  Taxi and non-taxi rides ................................................................. 334
  24.1.1.2  Lodging ......................................................................................... 334
24.2    Billing Information .................................................................................. 335
  24.2.1   Non-Taxi Rides (Shuttle Services) ...................................................... 335
  24.2.2   Lodging .............................................................................................. 336
  24.2.2.1  Travel Request Form .................................................................... 337
These services are not within the four “4” walls and cannot be reimbursed at the encounter rate. A separate enrollment and provider number is required to bill these services.

24.1 Non-Emergency Medical Transportation (NEMT)

Wyoming Medicaid provides non-emergency medical transportation (NEMT) services to clients who are in need of assistance traveling to and from medical appointments to enrolled providers to obtain covered services.

Wyoming Medicaid enrolls taxi providers (344600000X), non-taxi ride providers (347C00000X), and lodging providers (177F00000X) to provide covered services.

24.1.1 Covered services

24.1.1.1 Taxi and non-taxi rides

- Covered for adults and children
- Client must call in the ride to the Transportation Call Center (800-595-0011)
  - Transportation Call Center will verify client is covered for the ride and meets criteria
  - Client is given Transportation Authorization Confirmation (TAC) number once travel is confirmed. This number is then given to the transportation provider as proof of approval.
- Transportation Call Center will contact Taxi Provider once the ride is approved
  - For shuttle services, the client would contact the transportation provider and provider the TAC for proof of approval.
- Transportation Call Center will supply client ID for billing purposes to Ride provider
- A Prior Authorization (PA) number will be generated when a client requests a ride and a letter will be mailed to the provider with the PA number that will need to be used when submitting claims

24.1.1.2 Lodging

- Covered for clients 20 years of age and younger
- Client must be inpatient or outpatient at a medical facility that is enrolled with Wyoming Medicaid
- Client must call in the transportation request to the Transportation Call Center and indicate that they are staying with an enrolled lodging provider
- Client must live more than 400 miles round trip from medical facility
  - Exceptions may be granted for special circumstances (several appointments over several days; very early appointments; need for direct medical supervision during outpatient recovery; etc. The client
Covered Services – Non-Emergency Medical Transportation

must contact Transportation Call Center (800-595-0011) to request exceptions)

24.2 Billing Information

24.2.1 Non-Taxi Rides (Shuttle Services)

Procedure Codes: A0110, A0080

- Ride provider must receive authorization for the ride from the Transportation Call Center
- Transportation Call Center will provide client ID and TAC number for billing purposes
  - The TAC number will be entered as the client’s account number on the claim when billing
- Bill procedure code A0110 – Base Rate – 1 unit for each one way trip
- Bill procedure code A0080 – mileage for each mile or part of a mile above 15 miles
- Bill with the PA number associated with the ride

NOTE: The first 15 miles are INCLUDED with the base rate and are not billed
  - Mileage is always rounded up
  - Example – A trip of 23.2 miles would be billed with code A0110 as the base rate (1 unit) and A0080 for the mileage (9 units: 23.2 miles - 15 base miles = 8.2 miles, round up to 9 miles = 9 units)
- Mileage without the client on board is not eligible for billing
- Wait time is not a covered service
- No show or late clients are not a covered service, however, they should be reported to the Transportation Call Center (800-595-0011)
- All rides billed are subject to post payment review and as such records should be kept with detail including:
  - Authorization from Transportation Call Center
  - Prior Authorization number
  - Client information
  - Date and time of pick up
  - Pick up address
  - Destination address
  - Total mileage
  - Total charge

NOTE: Providers cannot span bill for dates. All services (rides) must be billed on separate lines
24.2.2 Lodging

Procedure Code: A0180

- Client must call in transportation to the Transportation Call Center (800-595-0011) and indicate they are staying with an enrolled lodging provider and provide the TAC number to the lodging provider for billing purposes
  - The TAC number will be entered as the client’s account number on the claim when billing
- Client must provide client ID of child to the lodging provider for billing purposes
- Bill procedure code A0180 for each night of lodging – child client must be inpatient in medical facility or outpatient and staying at lodging provider
- All lodging claims are subject to post payment review and as such records should be kept with detail including:
  - Client information
  - Medical facility client was patient of
  - Inpatient/outpatient status
  - Dates of stay
  - Total nights
  - Total charge
- The client’s family will need a copy of receipt/documentation to receive their per diem for the stay
24.2.2.1 Travel Request Form

NOTE: This form is available to IHS clients that do not have access to a phone. The form can be found on the Medicaid Website.
Chapter Twenty Five – Covered Services – Practitioner Services

25.0 Practitioner Services ........................................................................................................ 341
25.1 Covered Services ............................................................................................................ 341
25.2 Dermatology .................................................................................................................. 342
25.0.1 Covered Services ......................................................................................................... 342
25.0.2 Benign Lesion Removal and Destruction of Benign or Premalignant Lesions. 342
25.0.3 Covered Services ......................................................................................................... 342

25.0 Practitioner Services

Practitioners Include:

- Physicians (MD/DO).
- Locum Tenens.
- Nurse Practitioners.
- Physician’s Assistants, prior to 7/1/16 can only bill for Medicare crossover claims.
- Mental Health Providers.
- Ordering, Rendering and Prescribing Providers.

25.1 Covered Services

- Dermatology
- Diabetic Training
- Family Planning
- Imaging Services
- Immunizations
- Injections
- Interpretation Services
- Laboratory Services
- Maternity Care
- Practitioner Visits
- Preventive Medicine
- Psychiatric Services
- Public Health Services
- Screening, Brief Intervention, Referral and Treatment (SBIRT)
- Vision Service
25.2 Dermatology

Encounter Revenue Code: 0500
Medicaid covers medically necessary services rendered in the treatment of dermatological illnesses.

25.0.1 Covered Services

- Acne surgery due to disfigurement requires prior authorization. ([6.14, Prior Authorization]
- Removal of lesions suspected to be precancerous.
- Removal of a benign lesion, ganglion cyst, skin tag, keloid, or wart, may be covered when medically necessary.

25.0.2 Benign Lesion Removal and Destruction of Benign or Premalignant Lesions

25.0.3 Covered Services

Benign skin lesions include seborrheic keratosis, sebaceous (epidermoid) cysts, skin tags, milia (keratin-filled cysts), nevi (moles) acquired hyperkeratosis (keratoderma), papillomas, hemangiomas and viral warts.

25.0.4 Billing Requirements

Wyoming Medicaid considers removal of benign skin lesions as medically necessary, and not cosmetic, when any of the following is met and is clearly documented in the medical record, operative report or pathology report:

- The lesion is symptomatic as documented by any of the following:
  o Intense itching
  o Burning
  o Irritation
  o Pain
  o Tenderness
  o Chronic, recurrent or persistent bleeding.
  o Physical evidence of inflammation (e.g., purulence, oozing, edema, erythema, etc.)
- The lesion demonstrates a significant change in size or color.
- The lesion obstructs an orifice or clinically restricts vision.
There is clinical uncertainty as to the likely diagnosis, particularly where malignancy is a realistic consideration based on lesional appearance, change in appearance and/or non-response to conventional treatment.

The lesion is likely to turn malignant as documented by medical peer-reviewed literature or medical textbooks.

A prior biopsy suggests the possibility of lesional malignancy.

The lesion is an anatomical region subjected to recurrent physical trauma that has in fact occurred and objective evidence of such injury or the potential for such injury is documented.

Wyoming Medicaid considers destruction of benign or malignant skin lesions as medically necessary, and not cosmetic, when any of the following is met and is clearly documented in the medical record, operative report or pathology report.

- An over-the-counter (OTC) product has been tried and was ineffective (when applicable)
- Lesion causes symptoms of such a severity that the patient’s normal bodily functions/activities of daily living are impeded (e.g., palmar or plantar warts)
- Periocular warts associated with chronic recurrent conjunctivitis thought secondary to lesion virus shedding;
- Warts showing evidence of spread from one (1) body area to another, particularly in immunosuppressed patients.
- Lesions are condyloma acuminata or molluscum contagiosum.
- Cervical dysplasia or pregnancy associated with genital warts.
- Port wine stains and other hemangiomas when lesions are located on the face and neck.
  - Progress notes and photos documenting improvement must be kept in the patient record and available upon request.

**NOTE:** Wyoming Medicaid does not consider removal of skin lesions to improve appearance as medically necessary. Removal of certain benign skin lesions that do not pose a threat to health or function are considered cosmetic, and as such, are not medically necessary. In the absence of any of the above indications, removal of seborrheic keratoses, sebaceous cysts, nevi (moles) or skin tags is considered cosmetic. Wart removal can be requested for 3 units at a time.

### 25.0.5 Documentation Requirements

One (1) or more of the above conditions, clearly documented in the medical record, operative report or pathology report.
25.1 Diabetic Training

Encounter Revenue Code: 0942

Procedure Code Range: G0108-G0109

Physicians, public health nurses, and nurse practitioners managing a client’s diabetic condition are responsible for ordering diabetic training sessions. Certified Diabetic Educators (CDE) or dietitians may furnish outpatient diabetes self-management training.

25.1.1 Covered Services

Individual and group diabetes self-management training sessions are covered. Curriculum will be developed by individual providers and may include, but is not limited to:

- Medication education.
- Dietetic/nutrition counseling.
- Weight management.
- Glucometer education.
- Exercise education.
- Foot/skin care.
- Individual plan of care services received by the client.

25.1.2 Billing Requirements

- HCPCS Level II codes, G0108 (individual session) and G0109 (group session) should be used.
- Do not bill a separate office visit on the same date of service.
- Billing is to be done under the physician, nurse practitioner or hospital’s provider number.

25.1.3 Documentation

- Documentation should reflect an overview of relative curriculum and any services received by the client.
- The Diabetic Education Certificate is not required to be submitted with each claim.

25.2 Family Planning Services

Encounter Revenue Code: 0500
Family planning services are to assist clients of childbearing age with learning the choices available to them to freely determine the number and spacing of their children.

Family planning services include the following:

- Initial visit
- Initial physical examination
- Comprehensive history
- Laboratory services
- Medical counseling
- Annual visits
- Routine visits

### 25.2.1 Covered Services

- Sterilization procedures are covered only when all Medicaid guidelines have been met (6.16.1.1, Sterilization Consent Form).
- Contraceptives
- Cervical caps
- Male/female condom
- Contraceptive injections
- Creams
- Diaphragms
- Foams
- Insertion/removal of implantable contraceptives (Norplant and Implanon).
- Insertion/removal of IUDs.
- Oral contraceptives when prescribed by a physician or nurse practitioner and dispensed a participating pharmacy.
- Spermicides
- Sponges

**NOTE:** Pregnant by Choice/Family Planning Waiver has specific covered and non-covered services. The plan information can be found in Section 26.1.

### 25.3 Public Health Services - Home Visits

**Revenue Code:** 0529

**Procedure Code Range:** 99341-99350

- Public health clinic services are physician and mid-level practitioner services provided in a clinic designated by the Department of Health as a public health clinic.
• Services must be provided directly by a physician or by a public health nurse under a physician’s immediate supervision (i.e., the physician has seen the client and ordered the service).

Home visits are evaluation and management services provided by a practitioner in a private residence. These visits must be medically necessary. These home visits must be medical in nature.

25.3.1 Documentation

The following documentation must be included in the client’s medical record:

• Documentation of practitioner order and treatment plan of care.
• Documentation of observed medical condition, progress at each visit, any change in treatment, and the client’s response to treatment.
• Documentation of coordination of care between office and home visit.

25.4 Immunizations

Encounter Revenue Code: 0771 (if given by the physician, nurse practitioner, nurse, physician’s assistant this cannot be billed separate from the medical encounter)

Wyoming Vaccinates Important People (WyVIP) Program (formerly VFC).

Providers must enroll with the WyVIP program to receive and distribute WyVIP vaccines. The WyVIP program makes available, at no cost to providers, selected vaccines for eligible children 18 years old and under. Medicaid will therefore pay only for the administration of these vaccines (oral or injection). WyVIP covered vaccines may change from year to year. For more information on the WyVIP program current WyVIP covered vaccines or how to enroll as a WyVIP provider contact the Wyoming Immunization Program at (307)777-7952.

25.4.1 Billing Procedures: WyVIP Supplied or Private Stock

Use the following guidelines when submitting claims to Medicaid:

• Providers must use a WyVIP provided vaccine when available and client appropriate. If the vaccine is supplied by WyVIP, bill the appropriate procedure code and use the SL modifier. Codes 90477-90748 identify the vaccine product only. To report the administration of vaccine/toxoid, the appropriate administration code (see table below) must be reported in addition to the vaccine/toxoid code. Reimbursement will be made for the administration only.
• When Medicaid is the secondary payer, the provider must submit the claim according to Medicaid guidelines. Bill other potential payers before billing Medicaid.
• Providers are reminded that use of any vaccine or immunization solely for the purpose of travel is not covered by Medicaid.

• According to WyVIP policy, providers may not impose a charge for the administration of the vaccine that is higher than the maximum fee established by the Centers for Medicaid and Medicare Services (CMS) regional cap of $21.72 per dose.

• A previous policy from our office indicated that additional units could be billed for each antigen in the combination vaccination. Separate codes are available for combination vaccines. It is inappropriate to code each component of a combination vaccine separately.

• Codes 90477-90748 identify the vaccine product only. To receive reimbursement for administration they must be reported in addition to an immunization administration code from the tables below.

• When a vaccine is privately obtained due to lack of availability through the WyVIP program, it will be reimbursed at 100% of purchase invoice. DO NOT USE the SL modifier in this instance. This policy applies exclusively to situation where the WyVIP Program has issued a notice of vaccine shortage and has specified which vaccines are affected.

• For vaccines administered to adults over 18 years of age, or for vaccines/toxoids not supplied by WyVIP, report the appropriate CPT code and administration fee. DO NOT USE the SL modifier. Medicaid will reimburse for the vaccine/toxoid and the administration.

• When the vaccine/toxoid product code does not contain the SL modifier, a manufacturers’ invoice must be attached to the claim. The vaccine/toxoid will be reimbursed at 100% of the invoice cost. Exception:
  o For procedure codes 90656, 90660, 90703, 90707, and 90714, an invoice is only required for those clients age 18 years and younger. Those claims for clients 19 years and older will be reimbursed at a flat rate of $15.00 for these codes.
  o For procedure code 90658, an invoice is only required for those clients age 18 years and younger. Those claims for clients 19 years and older will be reimbursed at a flat rate of $20.00 for this code.
  o For procedure code 90715 an invoice is only required for those clients age 18 years and younger. Those claims for clients 19 years and older will be reimbursed at a flat rate of $30.00 for this code.

• Human Papilloma Virus (HPV) Vaccine
  o For Codes & 90650 90649
    ▪ Use CPT-4 code, 90649, for HPV Types 6, 11, 16, and 18 (quadrivalent)
    ▪ Administer intramuscularly as three (3) separate doses. Use CPT code 90650, for HPV Types 16, 18 (bivalent)
    ▪ Administer intramuscularly as three (3) separate doses.
If the client turns 19 years of age between the 1st and 2nd doses administration, a VFC supplied vaccine cannot be used to complete the series. Any HPV vaccine administered at age 19 or older must be administered from a provider’s private stock vaccine.

If the vaccine is supplied by VFC, bill code 90649 or 90650 with the SL modifier. Also bill the appropriate administration code (see table below). Only the administration code will be reimbursed.

If the vaccine is supplied from private stock, bill code 90649 without the SL modifier and attach the manufacturers’ invoice. Also bill the appropriate administration code (see table below). The vaccine will be reimbursed at 100% of invoice cost along with the administration code.

- **For Code 90651**
  - Use CPT-4 code, 90651, for HPV Types 6, 11, 16, 18, 31, 33, 45, 52, and 58 nonvalent (HPV) for females only
    - Administer intramuscularly as three (3) separate doses. If the client turns 19 years of age between the first (1st) and second (2nd) doses administration, a VFC supplied vaccine cannot be used to complete the series. Any HPV vaccine administered at age 19 or older must be administered from a provider’s private stock vaccine.
    - The vaccine must be supplied by VFC, bill code 90651 with the SL modifier. Also bill the appropriate administration code (see table below). Only the administration code will be reimbursed.

- **Influenza Vaccine**
  - Medicaid covers influenza vaccines for clients age 6 months and older.
    - If the vaccine is supplied by WyVIP, bill the appropriate procedure code and use the SL modifier. Also bill the appropriate administration code (see table below). Only the administration code will be reimbursed.
  - For codes 90656 and 90660:
    - If the vaccine is supplied from private stock and the client is 18 years of age or younger, **DO NOT USE** the SL modifier, and attach a manufacturers’ invoice. Also bill the appropriate administration code (see table below). The vaccine will be reimbursed at 100% of invoice cost, along with the administration code.
    - If the vaccine is supplied from private stock, and the client is 19 years of age or older, **DO NOT USE** the SL modifier. No manufacturers’ invoice is necessary. Also bill the appropriate administration code (see table below). The vaccine will be
reimbursed at a flat $15.00 rate along with the administration code.

- **For code 90658:**
  - If the vaccine is supplied from private stock and the client is 18 years of age or younger, **DO NOT USE** the SL modifier, and attach a manufacturers’ invoice. Also bill the appropriate administration code (see table below). The vaccine will be reimbursed at 100% of invoice cost, along with the administration code.
  - If the vaccine is supplied from private stock, and the client is 19 years of age or older, **DO NOT USE** the SL modifier. No manufacturers’ invoice is necessary. Also bill the appropriate administration code (see table below). The vaccine will be reimbursed at a flat $20.00 rate along with the administration code.

- **All other influenza vaccine codes:**
  - If the vaccine is supplied from private stock and the client is of any age, **DO NOT USE** the SL modifier, and attach a manufacturer’s invoice. Also bill the appropriate administration code (see table below). The vaccine will be reimbursed at 100% of invoice cost, along with the administration code.
  - When a Medicaid client is a resident of a long-term care facility, the vaccine and administration are included in the nursing home per diem rate, and not paid separately.

- **Pneumococcal Vaccine**
  - Medicaid covers pneumococcal vaccines for where it is medically indicated.
  - If the vaccine is supplied by WyVIP, bill the appropriate procedure code and use the SL modifier. Also bill the appropriate administration code (see table below). Only the administration code will be reimbursed.
  - If the vaccine is supplied from private stock and the client is of any age, **DO NOT USE** the SL modifier, and attach a manufacturer’s invoice. Also bill the appropriate administration at 100% of invoice cost, along with the administration code.
  - When a Medicaid client is a resident of a long-term care facility, the vaccine and administration are included in the nursing home per diem rate, and not paid separately.

**NOTE:** If a significant separately identifiable Evaluation and Management service (e.g. Office or other outpatient services, preventive medicine services) is performed, the appropriate E&M service code should be reported in addition to the vaccine and toxoid administration codes.
25.4.2 Other Immunizations

Other immunizations include, but are not limited to:

- Synagis can only be billed via pharmacy. The provider will only bill for the services that they provided i.e. E & M and administration. The providers will need to work with a pharmacy to provide the medication.
- Please see instructions for Synagis on the following Pharmacy site under prior authorization: http://www.wymedicaid.org/
- Additional Vaccines, Toxoids
  - CPT-4 codes for vaccines are to be used to bill for the vaccine product itself and are reported in addition to the immunization administration codes (90471, 90472) unless the WyVIP program supplied the vaccine.
  - Separate codes are available for combination vaccines. It is inappropriate to code each component of a combination vaccine separately.

**NOTE:** The most accurate way to verify coverage for a specific service is to review the Medicaid fee schedule on the website (2.1, Quick Reference).

25.5 Injections

Reimbursement for J-codes and therapeutic injections include the cost of the administration fee. This cost is already calculated into the fee for each code.

**NOTE:** Therapeutic injections may not be billed with a J-code (6.9, National Drug Code (NDC) Billing Requirement).

If multiple drugs are included in a single injection, separate codes may be billed for the drugs, however, the administration fee should be included with only one (1) code.

For an accurate listing of codes, refer to the fee schedule on the Medicaid website (2.1, Quick Reference).
25.5.1 Belimumab (Benlysta®) Criteria

Procedure Code: J0490

25.5.1.1 Covered Services

Belimumab is covered and considered medically necessary if the below requirements are met.

25.5.1.2 Billing Requirements

Prior authorization requirements:

Wyoming Medicaid considers Belimumab medically necessary, when all of the following is met and is clearly documented in the medical record, operative report or pathology report:

- The patient is 18 years of age or older.
- The patient has a diagnosis of active systemic lupus erythematosus (SLE) disease.
- The patient has positive autoantibody test results [positive antinuclear antibody (ANA >1:80) and/or anti-dsDNA (>30 IU/mL)].
- ONE (1) of the following:
  - The patient is currently on a standard of care SLE treatment regimen comprised of at least one (1) of the following: corticosteroids, hydroxychloroquine, chloroquine, nonsteroidal anti-inflammatory drugs (NSAIDS), aspirin, and/or immunosuppressives (azathioprine, methotrexate, cyclosporine, oral cyclophosphamide, or mycophenolate).
  - The patient has a documented intolerance, FDA labeled contraindication, or hypersensitivity to the standard of care drug classes listed above.
- The patient does NOT have severe active lupus nephritis [proteinuria >6 g/24-hour or equivalent or serum creatinine >2.5 mg/dL OR required hemodialysis or high-dose prednisone >100 mg/day] within the past 90-days.
- The patient does NOT have severe active central nervous system lupus [e.g. seizures, psychosis, organic brain syndrome, cerebrovascular accident, cerebritis, CNS vasculitis requiring therapeutic intervention] within the past 60-days.
- The patient has NOT been treated with intravenous cyclophosphamide in the previous six (6) months.
- The patient is NOT currently using another biologic agent.
• The patient is NOT currently being treated for a chronic infection.
• The dose is within the FDA labeled dosage of 10 mg/kg intravenously at two (2) week intervals for the first three (3) doses and at four (4) week intervals thereafter.

NOTE: Length of Approval: 12 months.

25.5.2 Botox®, Dysport® and Myobloc®

Procedure Code Range: J0585-J0587

25.5.2.1 Covered Services

Botulinum toxin type A (e.g., onabotulinumtoxinA [Botox®], or abobotulinumtoxinA [Dysport®]) or B (fimabotulintoxinB [Myobloc®]) for the treatment of the following conditions and are considered medically necessary when specific criteria is met.

25.5.2.2 Billing Requirements

Prior authorization requirements:

Wyoming Medicaid considers Botulinum toxin A (onabotulinumtoxinA [Botox®] and abobotulinumtoxinA [Dysport®]) appropriate for the treatment of the following conditions and meet medical necessity criteria where it is stated:

• Strabismus with ALL of the following:
  1. Associated with dystonia (impaired or disordered tonicity)
  2. ABSENCE of ALL of the following:
     a. Duane’s syndrome with lateral rectus weakness.
     b. Restrictive strabismus.
     c. Strabismus secondary to prior surgical over-recession of the antagonist.
     d. Strabismus deviations more than 50 prism diopters.
     e. Chronic paralytic strabismus except when used with surgical repair to reduce antagonist contracture.

• Severe primary hyperhidrosis with ALL of the following:
  1. Location is ANY ONE (1) of the following:
     a. Axillary
     b. Palmar
  2. Treatment is not adequately managed with topical agents
  3. The condition causes ANY ONE (1) of the following:
     a. Functional impairment
     b. Medical complications
• Urinary incontinence with ALL of the following:
  1. Documentation of EITHER:
     a. Individual has undergone urodynamic studies with diagnosis of idiopathic detrusor over-activity (IDO) OR 
     b. Neurogenic bladder 
  2. Anticholinergic therapy has failed to provide adequate control.

NOTE: Not allowed when an individual has a urinary tract infection, in patients with urinary retention and in patients with post-void residual (PVR) urine volume > 200 mL who are not routinely performing clean intermittent self-catheterization (CIC).

• Blepharospasm
• Cranial nerve VII disorders (eg. Hemifacial spasms)

Wyoming Medicaid considers Botulinum toxin type A (e.g., onabotulinumtoxinA [Botox®], or abobotulinumtoxinA [Dysport®]) or B (fimabotulin toxinB [Myobloc®]) for the treatment of the following conditions are considered **medically necessary**:

• Achalasia
• Cervical Dystonia
• Chronic anal fissure
• Hereditary spastic paraplegia
• Idiopathic torsion dystonia
• Infantile cerebral palsy, spastic
• Organic writer’s cramp
• Orofacial dyskinesia
• Oromandibular dystonia
• Spasmodic dysphonia
• Spasmodic torticollis
• Spastic hemiplegia
• Symptomatic torsion dystonia

Botulinum toxin type A (e.g., onabotulinumtoxinA [Botox®]) for the prevention of migraine headaches is considered **medically appropriate** if the headaches are chronic with ANY ONE (1) the following criteria met:

• Initial six (6) month trial for migraine headaches with ALL the following:
  o Occur 15-days or more per month.
  o Experienced for three (3) months or more.
Symptoms persist despite adequate trials of a minimum of two (2) agents from different classes used in the treatment of chronic migraines (e.g. Angiotensin-converting enzyme inhibitors/antiotensin II receptor blockers, anti-depressants, anti-epileptics, beta blockers and calcium channel blockers), unless the individual has contraindications to such medications.

- Continuation of therapy after six (6) month trial for the prevention of migraines requires frequency reduced by at least seven (7) days per month.

NOTE: Botox® can only be requested one (1) session at a time, with medical necessity provided for each session and only 360 units (three (3) month supply) per limb.

25.5.3 Ocrelizumab (Ocrevus)

Procedure Code: – J2350 ONLY NDC Approved 50242.0150.01

25.5.3.1 Covered Services

Ocrelizumab (Ocrevus) is used for the treatment of clients with relapsing or primary progressive forms of multiple sclerosis and considered medically necessary if the prior authorization criteria are met. (See the criteria below)

25.5.3.2 Billing Requirements

Prior Authorization Requirements:

INITIAL APPROVAL

- Ocrelizumab (Ocrevus) for the treatment of multiple sclerosis is considered medically appropriate if ALL of the following criteria are met:
  - Individual is 18 years of age and older
  - Individual is screened for and is without Hepatitis B viral infection prior to initial dose
  - Further diagnosis of ANY ONE of the following:
    - Primary Progressive MS (PPMS)
      - Indications: For PPMS – This is the only agent that is FDA approved
    - Relapsing Form of MS (RMS)
      - Patient has had adequate trials with two drugs from Wyoming Medicaid’s preferred Drug List; Avonex, Betaseron, Rebif, Copaxone, or Gilenya and the preferred drugs were ineffective or caused intolerable adverse side effects. An adequate trial is eight weeks of therapy where a member was compliant and adherent to the regimen
Quality Limits and PA issuance:

- Product comes as 300mg/10ml, single dose vial
- Patient receives initial dose of 300 (IV), with second 300mg dose two weeks later
- Subsequent dose is 600mg every six months
  - A single PA will be provided in 600mg increments

PA Renewal Criteria

- Ocrelizumab is considered medically appropriate for renewal only when ALL of the following criteria are met:
  - Documented adherence to the regimen, with no adverse side effects warranting discontinuation of therapy
  - Absence of unacceptable toxicity from the agent, e.g., severe upper respiratory tract infections, lower respiratory tract infections, skin infections, herpes-related infections, bronchospasm, pharyngeal or laryngeal edema, hypotension, headache, dyspnea, pyrexia, tachycardia.
  - Absence of active infection
  - Evidence of ANY ONE of the following:
    - Diagnosis of primary progressive multiple sclerosis (PPMS) shows maintenance of baseline or reduction of confirmed disability progression
    - Diagnosis of relapsing forms of multiple sclerosis (RMS) show relative reduction in annual relapse rate (ARR) to baseline

Reason for denial of PA request

- Unclear indication
- Active hepatitis B virus infection
- History of life-threatening infusion reaction
- Patient has not completed an adequate trial with the preferred drugs (RRMS only)

25.5.4 Synvisc® Injections

(Hyaluronan, Hyaluronic acid, Sodium Hyaluronate, Hylan polymers)

Procedure Code: J7321-J7326

25.5.4.1 Covered Services

Hyaluronic Acid Derivatives are injected directly into the knee joint to improve lubrication and reduce the pain associated with osteoarthritis of the knee. Hyaluronic Acid Derivatives are subject to prior authorization as well as step therapy. When prior authorization criteria is met and approval given, step therapy must still be followed. The FDA has not approved intra-articular hyaluronan for joints other than the knee.
25.5.4.2 **Limitations**

- **Euflexxa®** – Is injected into the affected knee, 20 mg once (1) weekly for three (3) weeks, a total of three (3) injections.
- **Synvisc One®** – Is injected into the affected knee, 48 mg for one (1) dose only.
- **Synvisc** – Is injected into the affected knee, 16 mg once weekly for three (3) weeks, a total of three (3) injections.
- **Hyalgan®** – Is injected into the affected knee, 20 mg once (1) weekly for a total of five (5) injections.
- **Orthovisc** – Is injected into the affected knee, 30 mg once (1) weekly for three (3) or four (4) injections.
- **Supartz®** – Is injected into the affected knee, 25 mg once (1) weekly for a total of five (5) injections.
- **Gel-One®** – Is injected into the affected knee, 30 mg, for one (1) dose only.

25.5.4.3 **Billing Requirements**

Prior authorization requirements:

Wyoming Medicaid considers Synvisc injections as medically necessary when any of the following is met and is clearly documented in the medical record, operative report or pathology report. The following criteria must be met for approval of coverage:

Documented diagnosis of symptomatic osteoarthritis of the knee.

- Trial of conservative nonpharmacologic treatment, (education, physical therapy, weight loss if appropriate) has not resulted in functional improvement. Medical records documenting these therapies must be submitted.
- Trial of pharmacotherapy (NSAIDs, COX II Inhibitors, acetaminophen) has not resulted in functional improvement.
- Pain interferes with functional activities such as ambulation and prolonged standing.
- Prior therapy with at least one (1) intra-articular corticosteroid injection.

Repeat doses of any viscosupplement will be approved only when the following criteria are met:

- At least six (6) months has elapsed since the previous injection or completion of the prior series of injections.
- Medical records must document significant improvement in pain and functional capacity of the knee joint.
25.5.5 Reslizumba (CINQAIR) Criteria
Procedure Code: J2786 Only NDC approved 59310.0610.31

25.5.5.1 Covered Services
Reslizumab is the treatment for severe asthma and is covered when the following conditions in the billing requirements section are met.

Limitations:
One infusion every 4 weeks when documented improvement is present.

25.5.5.2 Billing Requirements
Prior authorization (PA) requirements:
- Client must be 18 years and older on the date of prior authorization request
- Only when used as an add on maintenance treatment for patients with severe eosinophilic phenotype asthma
- Blood eosinophil count of >400 cells/mcL within 3 to 4 weeks of dosing (other symptoms of eosinophil phenotype may be considered on an individual basis)
- Severe asthma that is inadequately controlled despite standard of care (medium to high dose inhaled corticosteroids with long acting beta agonists)
  - Symptoms at least >2 days a week
  - Short acting beta agonist use for symptom control at least > 2 days a week
  - Severe interference with daily activities – well documented
- At least 1 asthma exacerbation requiring use of oral (systemic) corticosteroids over the last 12 months.
- Compromised lung function

25.5.6 Tysabri®
Procedure Code: J2323

25.5.6.1 Covered Services
Tysabri® is a treatment for MS to delay the accumulation of physical disability and reduce the frequency of clinical exacerbations. It is used as a monotherapy. Tysabri® is recommended for patients who have had an inadequate response to, or are unable to tolerate alternate MS therapies.

NOTE: Tysabri® increases the risk of Progressive Multifocal Leukoencephalopathy (PML), an opportunistic viral infection of the brain that usually leads to death or severe disability.

25.5.6.2 Billing Requirements
Prior authorization (PA) requirements:

- Tysabri® must be prescribed by a neurologist enrolled in the Touch Program.
- Both the provider administering the Tysabri® and the patient receiving the Tysabri® must be enrolled in the Touch Program.
- Medicaid will only authorize Tysabri® for clients that have a diagnosis of MS.
- Length of PA: 12 months
- For continued PA the neurologist must submit documentation to show improvement or stabilization.
- Dosage: 300 mg IV infusion every four (4) weeks.
- Must be billed using the NDC number and the appropriate J-code.

**NOTE:** Medicaid will not cover Tysabri® when used in conjunction with other medications for the treatment of progressive MS.

25.5.6.3 **Documentation Requirements**

- Physician’s prescription
- Complete Prior Authorization Form ([6.14, Prior Authorization](#))
- Must document an inadequate response to, or inability to tolerate an appropriate trial with at least one (1) of the following interferon agents:
  - Betaseron
  - Avonex
  - Rebif
  - Copaxone

This documentation **must** include information that states when the drug(s) was started and discontinued, and the reason the drug(s) was discontinued.

- Documentation must state the date the treating provider and patient were enrolled in the Touch Program, and both must meet all eligibility requirements of that program. As of 11/18/2015, the first infusion can be documented with Initial Notice of Patient Authorization.

25.6 **Genetic Testing**

**Procedure Codes:** 81201-81479; 96040

**Prior Authorization is required for all genetic testing codes. Prior authorization documentation must document the following:**

25.6.1 **Covered Services**

Medicaid covers genetic testing under the following conditions:
There is reasonable expectation based on family history, risk factors, or symptomatology that a genetically inherited condition exists; and

Test results will influence decisions concerning disease treatment or prevention (in ways that not knowing the test results would not); and

Genetic testing of children might confirm current symptomatology or predict adult onset diseases and findings might result in medical benefit to the child or as the child reaches adulthood; and

Referral is made by a genetic specialist (codes 81223 and 81224) or a specialist in the field of the condition to be tested; and

All other methods of testing and diagnosis have met without success to determine the client’s condition such that medically appropriate treatment can be determined and rendered without the genetic testing. (6.14, Prior Authorization).

Codes 81420, 81507 - Mother must be documented as high-risk to include: advanced maternal age >35 (at EDC), previous "birth" of embryo/fetus/child with aneuploidy, parent with known balanced translocation, screen positive on standard genetic screening test (FTCS, multiple marker screen of one type or another, etc), ultrasound finding on embryo/fetus consistent with increased risk of aneuploidy

Code 81519 - All of the following conditions must be met and documented in the prior authorization request:

- The test will be performed within 6 months of the diagnosis
- Node negative (micrometastases less than 2mm in size are considered node negative)
- Hormone receptor positive (ER-positive or PR-positive)
- Tumor size 0.6-1.0 cm with moderate/poor differentiation or unfavorable features (ie, angiolymphatic invasion, high nuclear grade, high histologic grade) OR tumor size >1 cm
- Unilateral disease
- Her-2 negative
- Patient will be treated with adjuvant endocrine therapy
- The test result will help the patient make decisions about chemotherapy when chemotherapy is a therapeutic option

25.6.1.1 BRCA Testing and Counseling

The U.S. Preventive Services Task Force (USPSTF) recommends that women whose family history is associated with an increased risk for deleterious mutations in BRCA1 or BRCA2 genes be referred for evaluation for BRCA testing (81211-81217). Medicaid covers BRCA testing when the following criteria are met:

- Personal and/or family history of breast cancer, especially if associated with young age of onset; or
- Multiple tumors; or
• Triple-negative (i.e., estrogen receptor, progesterone receptor, and human epidermal growth factor receptor 2-negative) or medullary histology; or
• History of ovarian cancer; and
• 18 years or older; and
• Pre-test genetic counseling has been prior authorized.

25.6.1.2 Billing Requirements

Enrolled laboratories should bill Medicaid directly for genetic testing, refer to Section 25.8.

The following billing procedures must be followed when the physician agrees to act as a third party agent for a non-enrolled laboratory:

The following documents must be attached to the claim (6.14, Submitting Attachments for Electronic Claims):

• The physician’s letter justifying the genetic testing must be attached to the claim. The letter must document the necessity for the genetic testing by meeting the covered service conditions mentioned above.
• Manufacturer’s invoice (Reimbursement will be invoice plus 15%).
• No prior authorization is required.

NOTE: Post payment claim review will be conducted.

25.7 Maternity Care

Encounter Revenue Code: 0500

Maternity services include antepartum, delivery & postpartum care of a pregnant woman, according to guidelines set forth in the current edition of the CPT-4 book.

Procedure Code Range: 59000-59898

25.7.1 Billing Requirements

Non-Global Services for Routine Obstetric Care

Use the following billing procedures when a patient is seen by a different physician or a different physician group for their antepartum care:

• If the total antepartum visits with the patient is 1-3, bill the appropriate E&M (Evaluation and Management) code for each visit.
• Bill only one (1) of the following two (2) antepartum procedure codes (depending on the total number of antepartum visits):
  o 59425 – Antepartum care only; four (4) to six (6) visits. This code would be used in the case where the patient was only seen for four (4)
to six (6) visits and then quit seeing that provider. The provider would not be providing services of delivery or postpartum care. If the provider saw the patient at least four (4) times and no more than six (6) times, this is the correct code the provider would submit.

- **59426** – Antepartum care only; seven (7) or more visits. This code would be used for the patient who was seen for seven (7) or more antepartum visits, but the provider did not provide services for delivery or postpartum care.

- Bill procedure code 59430 for postpartum care only (separate procedure). This code is to be used when the provider did not provide the service of the delivery, but they may have provided the antepartum care.

**NOTE:** It is not appropriate to separately report the antepartum, delivery and postpartum care when provided by the same physician or same physician group. However, any other visits or services provided within the antepartum period, other than those listed above, should be coded and reported separately. The date of service is the date of delivery.

**Patient has Other Medical Conditions, or a Complicated Pregnancy**

Use the following billing procedures when the patient has other medical conditions, or a complicated pregnancy:

- If the provider needs to treat the patient for additional services due to complication of pregnancy, use the proper CPT and ICD codes to reflect the complication.
- If the provider attempts to bill a separate E&M visit and only code the encounter as a normal pregnancy code, the claim will be denied and considered unbundling of the Global Maternity package.

**Elective Inductions and Medical Necessity**

Induction of labor for medical reasons is appropriate when there may be health risks to the woman or baby if the pregnancy were to continue. Some indications for inducing labor include:

- High blood pressure caused by the pregnancy.
- Maternal health problems affecting the pregnancy.
- Infection in the uterus.
- Water has broken too early.
- Fetal growth problems.

Documentation, which substantiates that the patient’s condition meets the coverage criteria, must be on file with the provider.
All claims are subject to both pre-payment and post-payment review for medical necessity by Medicaid. Should a review determine that services do not meet all the criteria listed above, payment will be denied or, if the claim has already been paid, action will be taken to recoup the payment for those services.

Induction is not a covered service unless it meets the guidelines listed above. Inductions without medical necessity will be subject to post pay reviews and possible recoupment of payments to both the physician and hospital.

**Obstetrical Ultrasound**

**Procedure Code Range:** 76801-76828  
**Acceptable Modifiers:** TC, 22, 26 and 52

Medicaid covers obstetrical ultrasounds during pregnancy when medical necessity is established for one (1) or more of the following conditions:

- Establish date of conception
- Discrepancy in size versus fetal age
- Early diagnosis of ectopic or molar pregnancy
- Fetal Postmaturity Syndrome
- Guide for amniocentesis
- Placental localization associated with abnormal vaginal bleeding (placenta previa)
- Polyhydramnios or Oligohydramnios
- Suspected congenital anomaly
- Suspected multiple births
- Other conditions related directly to the medical diagnosis or treatment of the mother and/or fetus.

**NOTE:** Maintain all records and/or other documentation that substantiates medical necessity for OB ultrasound services performed for Medicaid clients as documentation may be requested for post-payment review purposes. Medicaid will only pay for two (2) routine ultrasounds per pregnancy.

Medicaid will not reimburse obstetrical ultrasounds during pregnancy for any of the following reasons:

- Determining gender
- Baby pictures
- Elective
Post-payment review will be conducted on obstetrical ultrasound claims after payment is made to the provider in order to ensure claims meet the Medicaid policies contained in this manual.

25.8 Practitioner Visits

Encounter Revenue Code: 0500
Procedure Code Range: 99201-99443

Practitioner services are provided in outpatient settings and include:

- Consultation services
- Emergency department services
- Home visits
- Hospital services
- Nursing facilities
- Office visits
- Telephone services

NOTE: Practitioner services provided to a client between ages 22 and 64 at an Institution for Mental Disease (IMD) are a non-covered service pursuant to federal Medicaid regulation. This includes Medicare crossover claims for dual eligible clients. An IMD is defined as a hospital, nursing facility, or other institution of 17 beds or more that is primarily engaged in providing diagnosis, treatment, or care of people with mental diseases.

25.8.1 New Client

Procedure Code Range: 99201-99205

Medicaid considers a new client to be a client who is new to the practitioner and whose medical and administrative records need to be established. A new client visit should be submitted once per client lifetime per provider. An exception may be allowed when a client has been absent for a period of three (3) years, or more.

25.8.2 Established Client

Procedure Code Range: 99211-99215

Medicaid considers an established client to be a client that has been seen by the practitioner and whose medical and administrative records have been established.

25.8.3 After Hours Services

Medicaid reimburses physicians and practitioners who see clients in their offices rather than the emergency room, when appropriate. The following codes are only to
be used when the client is seen in the physician/practitioner’s office. The following
codes may be billed in addition to Evaluation and Management codes.

<table>
<thead>
<tr>
<th>CPT-4 Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99050</td>
<td>Services provided in the office times other than regularly scheduled office hours, or days when the office is normally closed (e.g. holidays, Saturday, or Sunday) in addition to basic service</td>
</tr>
<tr>
<td>99051</td>
<td>Service(s) provided in the office during regularly scheduled evening, weekend, or holiday office hours, in addition to basic service</td>
</tr>
<tr>
<td>99058</td>
<td>Service(s) provided on an emergency basis in the office, which disrupts other scheduled office services, in addition to basic service</td>
</tr>
</tbody>
</table>

**NOTE:** Do not use these codes for seeing clients in the emergency room.

**25.9 Preventive Medicine**

**Encounter Revenue Code: 0500 (in most cases)**

**Procedure Code Range: 99381-99385**

**25.9.1 Covered Services**

For specific information on preventive health services for clients under age 21, refer to Section 21.1, Health Check – EPSDT.

Preventive health services for clients over 21 are:

- Cancer screening services.
- Screening mammographies are limited to a baseline mammography between ages 35 and 39; one (1) screening mammography per year after age 45. All mammograms require a referral.
- Annual gynecological exam including a Pap smear. One (1) per year following the onset of menses. This should be billed using an extended office visit procedure code. The actual Lab Cytology code is billed by the lab where the test is read and not by the provider who obtains the specimen.

**25.10 Radiology Services**

**Encounter Revenue Code: 0400**

**Procedure Code Range: 70010-79999**

Radiology services are ordered and provided by practitioners, dentists, or other providers licensed within the scope of their practice as defined by law. Radiology
providers must be supervised by a practitioner licensed to practice medicine within the state the services are provided. Imaging providers must meet state facility licensing requirements. Facilities must also meet any additional federal or state requirements that apply to specific tests (e.g., mammography). All facilities providing screening and diagnostic mammography services are required to have a certificate issued by the Federal Food and Drug Administration (FDA).

25.10.1 Covered Services

Medicaid provides coverage of medically necessary radiology services, which are directly related to the client’s symptom or diagnosis when provided by independent radiologists, hospitals and practitioners.

25.10.2 Billing Requirements

For most radiology services and some other tests, the fee schedules indicate different fees, whether the practitioner provided only the technical component (performed the test), only the professional component (interpreted the test), or both components (also known as the global service). Practitioners must bill only for the services they provide (2.1, Quick Reference).

- Technical components of imaging services must be performed by appropriately licensed staff (e.g., x-ray technician) operating within the scope of their practice as defined by state law and under the supervision of a practitioner.
- Multiple procedures performed on the same day must be billed with two (2) units to avoid duplicate denial of service.

<table>
<thead>
<tr>
<th>Modifier</th>
<th>Description</th>
<th>Reimbursement</th>
</tr>
</thead>
<tbody>
<tr>
<td>26</td>
<td>Professional Component</td>
<td>30% of allowed fee</td>
</tr>
<tr>
<td>TC</td>
<td>Technical Component</td>
<td>70% of allowed fee</td>
</tr>
</tbody>
</table>

25.10.3 Limitations

- Screening mammographies are limited to a baseline mammography between ages 35 and 39; one (1) screening mammography per year after age 45. All mammograms require a referral by a practitioner.
- X-rays performed as a screening mechanism or based on standing orders.
- Separate consultations or procedures unless ordered by the attending practitioner.

25.11 Screening, Brief Intervention, Referral and Treatment (SBIRT)

Encounter Revenue Code: 0500 or 0914
SBIRT is a comprehensive, integrated, public health approach to the delivery of early intervention and treatment services for persons with substance abuse use disorders, as well as those who are at risk of developing these disorders. Primary care centers, hospital emergency rooms, trauma centers and other community settings provide opportunities for early intervention with at-risk substance users before more severe consequences occur. The goal of SBIRT is to make screening for substance abuse a routine part of medical care.

- Screening is a quick, simple way to identify patients who need further assessment of treatment for substance use disorders. It does not establish definitive information about diagnosis and possible treatment needs.
- Brief intervention is a single session or multiple sessions of motivational discussion focused on increasing insight and awareness regarding substance use and motivation toward behavior change. Brief intervention can be tailored for variance in population or setting and can be used as a stand-alone treatment for those at-risk as well as a vehicle for engaging those in need of more extensive levels of care.
- Brief treatment is a distinct level of care and is inherently different from both brief intervention and specialist treatment. Brief treatment is provided to those seeking or already engaged in treatment, who acknowledges problems related to substance use. Brief treatment in relation to traditional or specialist treatment has increased intensity and is of shorter duration. It consists of a limited number of highly focused and structured clinical sessions with the purpose of eliminating hazardous and/or harmful substance use.
- Referral to specialized treatment is provided to those identified as needing more extensive treatment than offered by the SBIRT program. The effectiveness of the referral process to specialty treatment is a strong measure of SBIRT success and involves a proactive and collaborative effort between SBIRT providers and those providing specialty treatments to ensure access to the appropriate level of care.

A key aspect of SBIRT is the integration and coordination of screening and treatment components into a system of services. This system links a community’s specialized treatment program with a network of early intervention and referral activities that are conducted in medical and social service settings.

### 25.11.1 Covered Services and Billing Codes

Acceptable billing providers for SBIRT include:

- Physician – All 20X taxonomy types
- Public Health Clinic – 251K00000X
- FQHC – 261QF0400X
- RHC – 261QR1300X
- IHS – 261QP0904X
Medicaid covers SBIRT services for clients 18 years of age and older.

- **H0049** – Alcohol and/or drug screening, per screening. WY SBIRT Screening Tool – ASSIST – The Mental Health and Substance Abuse Services Division has chosen the Alcohol, Smoking and Substance Involvement Screening Test (ASSIST) developed by the World Health Organization (WHO). The ASSIST screening tool can be accessed through their website at: [http://www.who.int/substance_abuse/activities/assist/en/](http://www.who.int/substance_abuse/activities/assist/en/)

- **H0050** – Alcohol and/or drug services, brief intervention, per 15 minute units – Maximum of four (4) units.

**NOTE:** Providers are to bill these codes in addition to the code they will bill for the primary focus of the visit. Screening and brief intervention are not stand alone services, rather they may be part of a medical visit with another problem focus. For example, a patient presents for migraine headaches and is given the ASSIST (H0049 – screening). The ASSIST tool indicates the need for brief intervention (H0050 – brief intervention). The physician would bill the most appropriate code for their services related to the initial complaint of migraine headache, in addition to the appropriate SBIRT codes.

### 25.11.2 Limitations

SBIRT will not be covered for clients with services limited to emergency services only.

### 25.12 Vision Services

**Encounter Revenue Code: 0519**

Vision and dispensing services are benefits for client’s ages 0-20. Limited office visits for the treatment of an eye injury or eye disease is available for clients 21 & older. A licensed ophthalmologist, optometrist, or optician, within the Scope of the Practice Act within their respective profession, may provide vision services and dispensing services.

Vision services for clients 21 and older are only reimbursable for the treatment of eye disease or eye injury based on the appropriate ICD diagnosis code and client records must support billing of any vision services. Routine eye exams and/or glasses are **not** a covered benefit for clients 21 and older.
NOTE: Wyoming Medicaid will pay the deductible and/or coinsurance due on Medicare crossover claims for post-surgical contact lenses and/or eyeglasses, up to the Medicaid allowable.

25.12.1 Eye and Office Examinations

25.12.1.1 Covered Services

For clients under the age of 21 years:

- Eye exams determine visual acuity and refraction, binocular vision, and eye health.
  - 92002-92004 - New patient eye exams are a covered benefit for clients who are new to the provider’s practice.
  - 92012-92014 - Established patient eye exams are a covered benefit once in a 365 day period unless there is medical necessity to support an additional exam.

- Office visits for the treatment of eye disease or eye injury.
  - 99201-99215 – May be billed by ophthalmologists for office exams.
    - Documentation: Eye care provider records must reflect medical necessity and include interpretation and report, as appropriate, of the procedure.

- 92018-92060, 92081-92226, 92230-92287 - Special Ophthalmological Services should be performed only when medically necessary. 99283 requires a prior authorization.

For clients 21 years and older:

- Eye exams to diagnose an eye disease or eye injury.
  - 92002-92004 - New patient eye exams are a covered benefit for clients who are new to the provider’s practice.
  - 92012-92014 - Established, patient eye exams are a covered benefit once in a 365 day period unless there is medical necessity to support an additional exam.

NOTE: Routine eye exams are not covered for adult clients. Do not bill for routine eye exams for clients 21 years and older. Exam codes may pay, and then upon audit, be taken back as Medicaid abuse recovery. These codes are not limited by diagnosis at this time and should only be billed when medical necessity can be documented to show an eye disease or injury.
• Office visits as for the treatment of eye disease or eye injury.
  o **99201-99215** - Ophthalmologists may bill these codes for office exams
    • **Documentation:** Eye care provider records must reflect medical necessity and include interpretation and report, as appropriate, of the procedure.
• **92018-92060, 92081-92226, 92230-92287** - Special ophthalmological services should be performed only when medically necessary and will be subject to post-payment review of the client’s records. 92283 will require a prior authorization.

25.12.1.2 **Non Covered Services**
• Exam codes should not be billed for routine eye exams for clients over 21 years old.

25.12.2 **Eyeglasses.Materials**
  **Procedure Code Range:** V2020, V2100-V2499, V2627, V2784

25.12.2.1 **Covered Services**
**For Clients under the age of 21 years:**
• One (1) pair of eyeglasses is covered per 365 days
• **V2020** – Standard frames are covered up to $73.49. The provider may not “balance bill” the client for frames that cost more than the allowable amount.
  o **NOTE:** Balancing billing example – When the client selects $120 frames and Medicaid allows up to $73.49 then the optometrist should either, mutually agree in writing with the client that the client is responsible for the payment of the frames ($120), or, the provider may bill Medicaid for $73.49 and accept this payment as payment in full for the frames.
• Covered eye glass lenses – only 2 units of any type of lens (V2100-V2499) are to be billed per pair of eye glasses:
  o **V2100-V2121** (V2199 requires prior authorization) - Single lenses
  o **V2200-V2221** (V2299 requires prior authorization) – Bifocal lenses
  o **V2300-V2321** (V2399 requires prior authorization) – Trifocal lenses
  o **V2410-V2430** (V2499 requires prior authorization) – Variable lenses
  o **V2782-V2783** (requires prior authorization) – High Index Aspheric lenses
Aspheric lenses will only be covered when medically necessary.

- **V2784** – Polycarbonate lens (billed as an add on to a standard C-39 lens)

**NOTE:** Only two (2) units of any lenses can be billed on the same DOS and must be ordered as pairs. If the lens on one (1) side is aspheric or high index, then the matching lens should also be aspheric or high index, even if it does not meet the threshold.

- **V2700-V2783** are considered add-ons to eye glasses and require a prior authorization (PA) prior to the glasses being ordered. These services are only covered by Medicaid when they are deemed medically necessary to treat a vision condition. When requesting a PA, providers should describe in detail the condition the add-on is needed for in order to treat the medical condition. (6.13 Prior Authorizations)

- Medicaid will allow one (1) replacement of lenses and frames within the 12 month period if:
  - There is a change in the prescription for the lenses, use the existing frames if possible.
  - Eyeglasses are lost or broken beyond repair – This will require documentation stating it was not due to blatant abuse or neglect

**NOTE:** The provider will need to submit an electronic claim and attach necessary documentation of the medical necessity to substantiate why the replacement glasses are needed. The claim will then be review and processed if criteria is met. (6.15 Submitting Attachments)

- Repair of eyeglasses may be billed upon expiration of the warranty
- **V2623, V2629 (Prosthetic eyes) V2627 (Scleral cover shell)** – requires a prior authorization. (6.14 Prior Authorizations)

### 25.12.2.2 Non Covered Charges

- Reimbursement for dispensing of frames, frame parts, and/or lenses is not allowed in addition to reimbursement for dispensing of total eyeglasses
- Clients 21 years of age and older are not covered for eyeglasses

### 25.12.2.3 Reimbursement

- Obtain eligibility information from Medicaid prior to placing order for eyewear
- Verify with client and Provider Relations (1-800-251-1268) if the benefit has been used in the past year
• Deliver glasses in a reasonable amount of time (typically within one to two weeks)
• Verify client eligibility for the date of delivery
• Bill Medicaid on the delivery date of the glasses. The date of delivery must be used as the date of service on a claim.
• If the client does not return to receive their glasses, the glasses should be mailed to the client and the mail date used as the date of service.

NOTE: If the client is not eligible on the delivery date or does not return for the delivery, the provider may submit an “Order vs Delivery Date Exception Form” for authorization to bill on the order date. (7.14.1 Order Vs Delivery Date)

25.12.3 Contact Lenses

Procedure Code Range: V2500-V2599, 92072

Contact lenses are covered for correction of pathological conditions when useful vision cannot be obtained with regular lenses.

25.12.3.1 Covered Services

For Clients under the age of 21 years:

• V2500-V2599 – Contact lenses require prior authorization (PA) and documentation provided must show medical necessity and state why the client’s vision cannot be corrected with eyeglasses. (6.14 Prior Authorizations)
• Contact lenses will be reimbursed at the cost of invoice, plus shipping and handling, plus 15% (6.15, Submitting Attachments for Electronic Claims).
• 92072 – Fitting of contact lens does not require PA, however, should only be billed when PA has been obtained for the lens.

25.12.3.2 Non-Covered Services

• Contact lenses are not covered for clients 21 and older.

25.12.4 Vision Therapy

Procedure Code: 92065, 99070

Vision therapy is a sequence of activities individually prescribed and monitored by the doctor to develop efficient visual skills and processing. It is prescribed after a comprehensive eye examination has been performed and has indicated that vision therapy is an appropriate treatment option. The vision therapy program is based on
the results of standardized tests, the needs of the patient, and the patient’s signs and symptoms.

Research has demonstrated vision therapy can be an effective treatment option for individuals under the age of 21 or individuals with Acquired Brain Injury:

- Ocular motility dysfunctions (eye movement disorders)
- Non-strabismic binocular disorders (inefficient eye teaming)
- Strabismus (misalignment of the eyes)
- Amblyopia (poorly developed vision)
- Accommodative disorders (focusing problems)
- Visual information processing disorders, including visual-motor integration and integration with other sensory modalities.

25.12.5 Covered Services

- **92065** – Vision Therapy can be billed for clients under the age of 21 and clients eligible for the Acquired Brain Injury Waiver benefit plan with a qualifying medical diagnosis (See tables below)
- When administered in the office under the guidance of a practitioner.
- It requires a number of office visits and depending on the severity of the diagnosed conditions
- The length of the program typically ranges from several weeks to several months
- Activities paralleling in-office techniques are typically taught to the patient to be practiced at home to reinforce the developing visual skills
- Vision therapy visits are capped at 32 per 365-days for treatment of ICD diagnosis
  - Additional visits or exceptions to these diagnosis codes will be considered on a case by case basis only
- **99070** - Vision Therapy training aids will be reimbursed at cost of invoice. Invoices must be submitted with documentation of medical necessity to Medial Policy (2.1, Quick Reference) for consideration (6.15, Submitting Attachments for Electronic Claims)

Chapter Twenty Six – Covered Services – Pregnant by Choice

26.1 Pregnant by Choice/Family Planning Waiver .......................................................... 375
26.1.1 Covered Services ................................................................................................. 375
26.1.2 Non-Covered Services ......................................................................................... 375
26.1.3 Eligibility Criteria ............................................................................................... 375
26.1.4 Enrollment Process ............................................................................................. 376
26.2 Pregnant by Choice Covered Codes ...................................................................... 376
26.1 Pregnant by Choice/Family Planning Waiver

Pregnant by Choice provides family planning service to women who have received Medicaid benefits through the Pregnant Women Program. This program extends family planning options to women who would typically lose their Medicaid benefits up to two (2) months postpartum.

26.1.1 Covered Services

- Initial physical exam and health history, including client education and counseling related to reproductive health and family planning options, including a pap smear and testing for sexually transmitted diseases.
- Annual follow up exam for reproductive health/family planning purposes, including a pap smear and testing for sexually transmitted diseases where indicated.
- Brief and intermediate follow up office visits related to family planning.
- Necessary family planning/reproductive health-related laboratory procedures and diagnostic tests.
- Contraceptive management including drugs, devices and supplies.
- Insertion, implantation or injection of contraceptive drugs or devices.
- Removal of contraceptive devices.
- Sterilization services and related laboratory services (when properly completed sterilization consent form has been submitted).
- Medications required as part of a procedure done for family planning purposes.
- Services must be provided by an enrolled Medicaid provider.

26.1.2 Non-Covered Services

- Services are limited to approved family planning methods and products approved by the Food and Drug Administration (FDA).
- Sterilization reversals, infertility services, treatments or abortions.

26.1.3 Eligibility Criteria

- The client must be transitioning from the Pregnant Women Program.
- She is not eligible for another Medicaid program.
- Does not have health insurance including Medicare.
- Is a Wyoming resident.
- Is a US Citizen.
- Her age is 19 through 44 years.
- She is not pregnant.
26.1.4 Enrollment Process

- The Customer Service Center, Wyoming Department of Health (WDH) must be notified of the pregnancy and birth of the baby.
- The Customer Service Center, WDH will send a review form and a Pregnant by Choice Questionnaire to women eligible for the Pregnant Women Program while in the two (2) month postpartum period to determine if they are interested in the program.
- If a mother allows her Medicaid benefits to lapse after the two (2) month postpartum period she will not be eligible for the Pregnant by Choice Program.
- Eligibility is determined yearly.

   27.3.2 Limitations .................................................................................................. 383
   27.3.3 Documentation ............................................................................................ 384
If these services are not within the four “4” walls they cannot be reimbursed at the encounter rate. A separate enrollment would be required to bill these services.

27.1 Therapy Services

**Physical Therapy** – The treatment of physical dysfunction or injury by the use of therapeutic exercise and the application of modalities intended to restore or facilitate normal function or development; also called physiotherapy.

**Occupational Therapy** – Occupational therapy addresses the physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts to support engagement in everyday life activities that affect health, well-being, and quality of life.

**Speech Therapy** – Services that are necessary for the diagnosis and treatment of speech and language disorders, which result in communication disabilities and for the diagnosis and treatment of swallowing disorders (dysphagia), regardless of the presences of a communication disability.

**Restorative (Rehabilitative) Services** – Services that help patients keep, get back, or improve skills and functioning for daily living that have been lost or impaired because the client was sick, hurt or suddenly disabled.

**Maintenance (Habilitation) Services** – Services that help patients keep, learn, or improve skills and functioning for daily living. Examples would include therapy for a child who isn’t walking or talking at the expected age.

27.2 Physical and Occupational Therapy

**Physical Therapy (if provided in the facility)** – Encounter Revenue Code: 0421

**Occupational Therapy (if provided in the facility)** – Encounter Revenue Code: 0431

27.2.1 Covered Services

Services must be directly and specifically related to an active treatment plan. Independent physical therapy services are only covered in an office or home setting.

- **Physical Therapy & Occupational Therapy** – Services may only be provided following physical debilitation due to acute physical trauma or physical illness. All therapy must be physically rehabilitative and provided under the following conditions:
  - Prescribed during an inpatient stay continuing on an outpatient basis;
  - or as a direct result of outpatient surgery or injury.

- **Manual Therapy Techniques** – When a practitioner or physical therapist applies physical therapy and/or rehabilitation techniques to improve the client’s functioning.
Occupational Therapy interventions may include:
  o Evaluations/re-evaluations required to assess individual functional status.
  o Interventions that develop, improve or restore underlying impairments.

### 27.2.2 Limitations

Reimbursement includes all expendable medical supplies normally used at the time therapy services are provided. Additional medical supplies/equipment provided to a client as part of the therapy services for home use will be reimbursed separately through the Medical Supplies Program.

- For Medicaid clients, dates of service in excess of twenty (20) per calendar year, providers will need to contact Comagine Health for prior authorization
  - Physical therapy visits and occupational therapy visits are counted separately. ([6.10 Service Thresholds](#))
- Visits made more than once daily are generally not considered reasonable.
- There should be a decreasing frequency of visits as the client improves.
- Clients age 21 and over are limited to restorative services only. Restorative services are services that assist an individual in regaining or improving skills or strength.
- Maintenance therapy can be provided for clients 20 and under.

### 27.2.3 Documentation

The practitioners and licensed physical therapist’s treatment plan must contain the following:

- Diagnosis and date of onset of the client’s condition.
- Client’s rehabilitation potential.
- Modalities.
- Frequency.
- Duration (interpreted as estimated length of time until the client is discharged from physical therapy).
- Practitioner signature and date of review.
- Physical therapist’s notes and documented measurable progress and anticipated goals.
- Initial orders certifying the medical necessity for therapy.
- Practitioner’s renewal orders (at least every 180-days) certifying the medical necessity of continued therapy and any changes. The ordering practitioner must certify that:
  - The services are medically necessary.
  - A well-documented treatment plan is established and reviewed by the practitioner at least every 180-days.
Covered Services – Therapy Services

- Outpatient physical therapy services are furnished while the client is under their care.
- Total treatment minutes of the client, including those minutes of active treatment reported under the timed codes and those minutes represented by the untimed codes, must be documented, to include beginning time and ending time for services billed.

Practitioners and licensed physical therapist’s progress notes must be completed for each date of service and contain the following:

- Identification of the client on each page of the treatment record;
- Identification of the type of therapy being documented on each entry (i.e., 97530 vs. 97110);
- Date and time(s) spent in each therapy session; total treatment minutes of the client, including those minutes of active treatment reported under timed codes and those minutes represented by the untimed codes, must be documented, to include beginning time and ending time for each service billed;
- Description of therapy activities, client reaction to treatment and progress being made to stated goals/outcomes;
- Full signature or counter signature of the licensed therapist, professional title and date that entry was made and the signature of the therapy assistant and date the entry was made. Licensed therapist must sign progress notes of assistants within 30-days.

27.3 Speech Therapy

Encounter Revenue Code: 0441

Speech (pathology) therapy services are those services necessary for the diagnosis and treatment of speech and language disorders, which result in communication disabilities and for the diagnosis and treatment of swallowing disorders (dysphagia), regardless of the presences of a communication disability.

27.3.1 Covered Services

Speech therapy services provided to Medicaid clients must be restorative for clients 21 and over. Maintenance therapy can be provided for clients 20 and under. The client must have a diagnosis of a speech disorder resulting from injury, trauma or a medically based illness. There must be an expectation that the client’s condition will improve significantly.

To be considered medically necessary, the services must meet all the following conditions:

- Be considered under standards of medical practice to be a specific and effective treatment for the client’s condition.
Covered Services – Therapy Services

- Be of such a level of complexity and sophistication, or the condition of the client must be such that the services required can be performed safely and effectively only by a qualified therapist or under a therapist’s supervision.
- Be provided with the expectation that the client’s condition will improve significantly.
- The amount, frequency and duration of services must be reasonable.

In order for speech therapy services to be covered, the services must be related directly to an active written treatment plan established by a practitioner and must be medically necessary to the treatment of the client’s illness or injury.

In addition to the above criteria, restorative therapy criteria will also include the following:

- If an individual’s expected restoration potential would be insignificant in relation to the extent and duration of services required to achieve such potential, the speech therapy services would not be considered medically necessary.
- If at any point during the treatment it is determined that services provided are not significantly improving the client’s condition, they may be considered not medically necessary and discontinued.

### 27.3.2 Limitations

The following conditions do not meet the medical necessity guidelines, and therefore will not be covered:

- For dates of service in excess of thirty (30) per calendar year provider will need to obtain prior authorization. (6.10 Service Thresholds)
- Clients age 21 and over are limited to restorative services only. Restorative services are services that assist an individual in regaining or improving skills or strength.
- Maintenance therapy can be provided for clients age 20 and under.
- Self-correcting disorders (e.g., natural dysfluency or articulation errors that are self-correcting).
- Services that are primarily educational in nature and encountered in school settings (e.g., psychosocial speech delay, behavioral problems, attention disorders, conceptual handicap, mental retardation, developmental delays, stammering and stuttering).
- Services that are not medically necessary.
- Treatment of dialect and accent reduction.
- Treatment whose purpose is vocationally or recreationally based.
- Diagnosis or treatment in a school-bases setting.
Maintenance therapy consists of drills, techniques, and exercises that preserve the present level of function so as to prevent regression of the function and begins when therapeutic goals of treatment have been achieved and no further functional progress is apparent or expected.

NOTE: In cases where the client receives both occupational and speech therapy, treatments should not be duplicated and separate treatment plans and goals should be provided.

27.3.3 Documentation

The practitioners and licensed speech therapist’s treatment plan must contain the following:

- Diagnosis and date of onset of the client’s condition.
- Client’s rehabilitation potential.
- Modalities.
- Frequency.
- Duration (interpreted as estimated length of time until the client is discharged from speech therapy).
- Practitioner signature and date of review.
- Speech therapist’s notes and documented measurable progress and anticipated goals.
- Initial orders certifying the medical necessity for therapy.
- Practitioner’s renewal orders (at least every 180-days) certifying the medical necessity of continued therapy and any changes. The ordering practitioner must certify that:
  - The services are medically necessary.
  - A well-documented treatment plan is established and reviewed by the practitioner at least every 180-days.
  - Outpatient speech therapy services are furnished while the client is under their care.
- Total treatment minutes of the client, including those minutes of active treatment reported under the timed codes and those minutes represented by the untimed codes, must be documented, to include beginning time and ending time for services billed.

Practitioners and licensed speech therapist’s progress notes must be completed for each date of service and contain the following:

- Identification of the client on each page of the treatment record;
- Identification of the type of therapy being documented on each entry (i.e., 97530 vs. 97110);
- Date and time(s) spent in each therapy session; total treatment minutes of the client, including those minutes of active treatment reported under timed codes and those minutes represented by the untimed codes, must be documented, to include beginning time and ending time for each service billed;
- Description of therapy activities, client reaction to treatment and progress being made to stated goals/outcomes;
- Full signature or counter signature of the licensed therapist, professional title and date that entry was made and the signature of the therapy assistant and date the entry was made. Licensed therapist must sign progress notes of assistants within 30-days.

28.1 Dental Covered Services

Encounter Revenue Code: 0512

28.1.1 Dental Services Performed in an IHS/638 Tribal Facility

Dental services that are performed in a tribal health clinic must be billed on the most current ADA claim form/837D. The encounter rate includes ALL services provided during the encounter regardless of actual charges, or is considered to be an all-inclusive rate. The first billed line item should be procedure code T1015, with the encounter rate. Additional lines should be billed with appropriate covered CDT codes showing each service provided and billed with a zero (0) dollar amount. All charges must be submitted on one (1) claim. If any codes on the claim deny due to being non-covered, the entire claim will deny. The provider is responsible for only billing Medicaid for covered dental services for the client.

28.1.2 Claims Review

Medicaid is committed to paying claims as quickly as possible. Claims are processed using an automated claims adjudication system and are not usually reviewed prior to payment to determine whether the services provided were appropriately billed. Although the computerized system can detect and deny some erroneous claims, there are many erroneous claims that it cannot detect. For this reason, payment of a claim does not mean the service was billed or the payment made to the provider was correct. Periodic retrospective reviews are performed which may lead to the discovery of incorrect billing or incorrect payment. If a claim is paid and Medicaid later discovers the service was incorrectly billed or paid, or the claim was erroneous in some other way, Medicaid is required by federal regulations to recover any overpayment, regardless of whether the incorrect payment was the result of Medicaid, fiscal agent, provider error or other cause.

28.1.3 Coding

Standard use of dental coding conventions is required when billing Medicaid. Dental Services, Provider Relations or the Division of Healthcare Financing cannot suggest specific codes to be used in billing services. The following suggestions may help reduce coding errors and unnecessary claim denials:

- Use Current Dental Terminology (CDT) coding book
- Always read the complete description and guidelines in coding book
- Attend coding classes

28.1.4 Importance of Fee Schedules and Providers Responsibility

Procedure codes listed in the following sections are subject to change at any time without prior notice. The most accurate way to verify coverage for a specific service
is to review the Medicaid fee schedule on the website (2.1, Quick Reference) or contact Dental Services. Fee schedules list Medicaid covered codes, provide clarification of indicators, such as whether a code requires prior authorization. Not all codes are covered by Medicaid or are allowed for all taxonomy codes (provider types). It is the provider’s responsibility to verify this information. Use the current fee schedule in conjunction with the more detailed coding descriptions listed in the current CDT coding book. Remember to use the fee schedule and coding books that pertain to the appropriate dates of service. Providers may elect to utilize CPT or CPT codes as applicable. However, all codes pertaining to dental treatment must adhere to all state guidance and federal regulation. Providers utilizing a CPT code for Dental services will be bound to the requirements of both manuals.

28.1.5 Master Fee Schedule

When using the fee schedule at the Medicaid website, refer to the Master Fee Schedule indicated by M01 for all dental codes.

28.1.6 By Report or Manual Pricing (MP) Codes

Certain dental codes are manually priced (MP) or by report. By report dental codes are noted on the fee schedule by MP and will be paid at 70% of billed charge. Retrospective reviews may reveal inappropriate codes being billed or paid. After review by the Division of Healthcare Financing and the Department of Oral Health, if it is determined that the billing was inappropriate, federal regulations require that Medicaid recover any overpayment. Documentation should always support billing.

28.1.7 No Show Appointments/Broken Appointments

Dental Code Range: D9986

Appointments canceled or missed by Medicaid clients cannot be billed to Medicaid. Medicaid recognizes the concern of missed/broken appointments and for tracking purposes only has created code D9986. Providers will not be reimbursed for this code. When submitting a claim to Medicaid for missed/broken appointments an amount of $0.00 should be entered in box 31 (fee) of the claim form. This line will show as a denial on your Remittance Advice. If a provider’s policy is to bill all patients for missed appointments/broken appointments, then the provider may bill Medicaid clients.

28.1.8 Requesting Prior-Approval (PA) for Dental Codes

Medicaid requires a Prior Authorization (PA) on selected services and equipment. Approval of a PA is never a guarantee of payment. A provider should not render services until a client’s eligibility has been verified and a PA approved (if a PA is required). Services rendered without obtaining a PA prior to providing services will not be reimbursed.
The following dental codes require a prior-authorization be obtained before services are rendered:

- **D0367** - Cone Beam CT Capture
- **D5860-D5861, D5863-D5866** - Specialized Denture Services
- **D6010-D6199** - Implant Services
- **D6205-D6999** - Fixed Prosthodontics (bridges)
- **D7941-D7953** - Oral Surgeries
- **D8000-D8999** - Orthodontics

Providers must request a PA from the Division of Healthcare Financing, Medicaid. Prior Authorizations will not be issued after a procedure is complete. The provider must obtain a PA prior to rendering services.

Providers must complete a Medicaid Prior Authorization Form (6.14.1.1, Medicaid Prior Authorization Form) for all requests.

### 28.1.9 Dental Provider Client Acceptance Form Requirement

Each quarter the Division of Healthcare Financing must collect data from the Medicaid dental providers regarding accepting Medicaid clients into their practice. In order to comply with this requirement, a provider must complete the Dental Provider Client Acceptance Form (28.1.7.1 Dental Provider Client Acceptance Form). This form relays the required information to the Division. All dental providers will be required to complete this form as a new enrolled provider and annually. Dental providers will only be required to complete this form quarterly if there have been changes to their office policies on accepting Medicaid clients. If no changes have occurred, the dental provider will only need to complete this form annually in July.
Covered Services – Dental Services

28.1.9.1 Dental Provider Client Acceptance Form

Dental Provider Client Acceptance Form

Billing Provider Name: ____________________________
Provider NPI Number: ____________________________
Provider Address: ________________________________

Provider Phone: _________________________________
Person completing form: __________________________
Date form completed: _____________________________

1. Are you currently seeing Medicaid clients? ___ yes ___ no
2. Are you currently accepting new Medicaid clients? ___ yes ___ no
3. Are you currently seeing/accepting children with special health care needs? ___ yes ___ no
4. Are you currently seeing/accepting adults with special health care needs? ___ yes ___ no
5. Can your office provide services for children with mobility limitations? ___ yes ___ no
6. Can your office provide sedation for children with complex medical or behavioral conditions? ___ yes ___ no
7. Can your office provide services for children who may have difficulty communicating or cooperating such as those with Autism, mental retardation, or intellectual disabilities? ___ yes ___ no

Dentist Signature ___________________________ Date ___________________________

A provider’s form must be received by the Division of Healthcare Financing by July 15th of each year. A provider is responsible for completing a new form if their policy on accepting Medicaid clients changes during the year.

Return this form to:
Division of Healthcare Financing, Medicaid
Attn: Dental Program Manager
6101 Yellowstone Road, Suite 210
Cheyenne, WY 82002

NOTE: Click image above to be taken to a printable version of this form.
28.1.10  Supernumerary Teeth

- For Alphabetic tooth codes, add an S after the tooth code (e.g. supernumerary tooth A becomes AS)
- For Numeric tooth codes, add 50 to the tooth codes value (e.g. supernumerary tooth 15 becomes 15+50 = 65)

28.1.11  Billing of Deliverables

All dental procedures that involve delivering an item to the client can only be billed to Medicaid on the date the item is delivered to the client. This includes crowns, bridges, removable appliances, partial and complete dentures. The provider is responsible for billing these procedures only on the seat/delivery date.

Wyoming Medicaid will allow a provider to bill using the prep date only if one of the following conditions are present:

- Client is not eligible on the delivery date but was eligible on the prep date
- Client does not return to the office for the delivery of the product

A provider may use the order date as the date of service only if they have obtained a signed exception form from the State. To obtain this authorization, follow the steps below.

- Print the “Order vs Delivery Date Exception Form” from https://wymedicaid.portal.conduent.com/provider_home.html – Under Forms section
- Complete the form and fax or mail the form to the address at the bottom of the form
- Once the form is signed by the State, it will be returned to the provider and must be a part of the client’s permanent clinical record
- The provider may then bill the claim using the order date as the date of service

NOTE: If an audit of clinical records is performed, and it is found that the provider billed on the order date but does not have a signed “Order vs Delivery Date Exception Form” for the client and the DOS, the money paid will be recovered

28.2  Dental Covered Services for Children/ Clients Ages 0-20 (unless otherwise stated)

Medicaid clients, 0-20 years of age, are eligible for the following dental services. Check client eligibility through Dental Services, the Medicaid Integrated Voice Response (IVR) System and Chapter 5 for verification. (2.1, Quick Reference)
28.2.1 Examinations

Dental Code Range: D0120-D0180

- **D0120** – Routine periodic oral evaluations, **reimbursable** once every six (6) months.
- **D0140** – Limited oral evaluations, **reimbursable** twice every 12-months.
- **D0145** – Oral evaluation for patients 0-3 years of age – **reimbursable** once every six (6) months but not in addition to D0120 or D0150.
- **D0150** – Comprehensive oral evaluations, **reimbursable** once every 12-months, and may replace a D0120.
- **D0160 and D0170** – Detailed and extensive oral evaluations, **reimbursable** as needed.
- **D0180** – Comprehensive periodontal evaluations are **reimbursable** once every 12-months, ages 19-20 years. Not to be billed with any other exam codes (D0120-D0170)

- **D0412** – Blood Glucose Test is a covered service for client of any age once every six (6) months.

28.2.2 Radiographs and Diagnostic Imaging

Dental Code Range: D0210-D0330

Diagnostic radiological procedures, performed in accordance with current American Dental Association (ADA) guidelines, are to be limited to those instances in which a dentist anticipates that the information is likely to contribute materially to the proper diagnosis, treatment, and prevention of disease. **Routine use of periapical radiographs for primary anterior teeth is not considered appropriate unless there is clearly documented medical need.**

- **D0210** – Intraoral complete series* – **reimbursable** every five (5) years for clients of any age.
- **D0330** – Panoramic film* – **reimbursable** every five (5) years for clients five (5) years and older.
- **D0270, D0272, or D0274** – Bitewing x-rays – **reimbursable** once every year for clients of any age.
- **D0220** – Intraoral first film
- **D0230** – Each additional film after the first (as needed)
  Note: A maximum of seven (7) periapicals are allowed per visit.
- **D0367** – Cone Beam CT Capture and Interpretation with Field of view of Both Jaws – **reimbursable** when providers are performing an implant, exposure of unerupted tooth for the purpose of orthodontic bonding, or jaw surgery for clients age 0-20, or a request has been made by a Cleft Palate team for diagnostic purposes related to a client’s cleft palate/lip treatment. A Prior Authorization (PA) will be required for this code (**28.1.6 Requesting Prior Authorization (PA) for Dental Codes**).
- **D0210 or D0330** is reimbursable once every five (5) years.
NOTE: When making referrals, the referring dentist should send the dentist/specialist a copy of the current radiographs to prevent unnecessary duplication of services, expenditure and radiation exposure. Medicaid will only reimburse one (1) provider per date of service for radiographs.

28.2.3 Preventive Dental Care

Dental Code Range: D1110-D1351

- D1110 – Prophylaxis-Adult (ages 12 - 20) **reimbursable** every six (6) months
- D1120 – Prophylaxis-Child (ages 0-11) **reimbursable** every six (6) months
- D1206 – Topical application of fluoride varnish (office procedure) – reimbursable every six (6) months, for ages 0-14
- D1208 – Topical application of fluoride (office procedure), reimbursable every six (6) months, for ages 0-14.
- D1310 – Nutritional Counseling **reimbursable** every six (6) months for ages 0-3.
- D1330 – Oral Hygiene Instruction **reimbursable** one (1) time for any client age 4-20 for different treating providers.
- D1351 – The application of sealants, for permanent molar teeth and primary second (2nd) molars. Sealants are allowed once per tooth per 18-months. Medicaid will not pay for a sealant and a filling on the same tooth on the same date of service.

**Allowed Tooth Numbers:** 1, 2, 3, 14, 15, 16, 17, 18, 19, 30, 31, 32, A, J, K and T

- D1352 – Preventive resin restoration in a moderate to high caries risk patient – permanent tooth are allowed once per tooth per 18 months. Conservative restoration of an active cavitated lesion in a pit or fissure that does not extend into dentin; includes placement of a sealant in any radiating non-carious fissures or pits. D1351- sealant should not be billed on the same tooth on the same date of service. When there are separate restorations on each surface, D1352 may be billed multiple times per tooth and requires a tooth number along with quadrant. Your records must clearly indicate each restoration is treatment for a separate surface of decay and not one continuous restoration.
- D1354 - Interim Caries Arresting Medicament (Silver Diamine Fluoride) is allowed once per tooth per 18 months. D1351, D1352, or any other restorative procedure (D2000-D2999) cannot be billed on the same tooth on the same date of service. Your records must indicate tooth number and surface applied to. When billing, a tooth number is required but not a surface. Wyoming Medicaid will perform post-payment review of this code monthly to review for high utilization and appropriateness. Clinical records must support billing for each tooth and outcomes of the treatment at follow-up visits.

28.2.4 Restorative Treatment (D2140-D2394 and D2510-D2664)

Dental Code Range: D2140-D2394 and D2510-D2664
Restorative treatment is limited to those services essential to restore and maintain adequate dental health. Pins and special preparations are reimbursed separately from the restoration. Temporary restorations are reimbursable only as a result of palliative or emergency treatment. When more than one (1) surface is involved, and one (1) continuous filling is used, select the appropriate code from the range of D2140-D2394. When there are separate fillings on each surface, the one (1) surface codes (D2140 and D2391) are to be used. Your records must clearly indicate each filling is treatment for a separate surface of decay.

Inlays and Onlays are a covered service but paid at the same rate as amalgam and composite fillings.

**NOTE:** D2140-D2394 and D2510-D2664 are allowed once per tooth, per surface, every 18-months.

### 28.2.5 Crowns

**Dental Code Range: D2710-D2934**

- D2929-D2933 - Prefabricated metal or tooth colored (plastic/composite/stainless/zirconia) materials for the fabrication of an **interim** crown on a primary or permanent tooth to protect until exfoliation or a permanent crown can be placed. Treatment of severely decayed primary posterior teeth is reimbursable for those teeth that are not near exfoliation
- D2710-D794 - **The dentist may place a permanent crown when determined appropriate for clients between the ages of 14-20 OR prior to the age of 14 if the permanent tooth has had a root canal therapy.** Primary molars, with no permanent tooth bud visible by x-ray, may have permanent crowns placed if decay or marked attrition is present.

**NOTE:** For clients under the age of 14, a pre-treatment request may be submitted prior to the treatment, if the tooth has not been treated with a root canal therapy and the dentist substantiates the need for a permanent crown prior to the age of 14 to preserve the integrity of the tooth structure. Send this request to Wyoming Medicaid Attn: Dental Services.

- D2910-D2920- Recementation of crowns, inlays, or onlays is covered as needed.

### 28.2.6 Labial Veneers

**Dental Code Range: D2961-D2962**

Labial veneers may be used instead of full crowns for anterior permanent teeth that are severely fractured or carious, having continuous loss of fillings. Only CDT codes D2961 or D2962 will be reimbursed. Documentation to justify the need for services must be included in the patient’s record.
28.2.7 Endodontics

Dental Code Range: D3110-D3330

The fee for endodontic treatment will include all necessary radiographs during treatment, including preoperative and postoperative radiographs. Root canal therapy for permanent teeth includes, extirpation, treatment, filling of root canals, and all necessary radiographs, including a post-treatment radiograph. Emergency endodontic procedures, i.e., open tooth to drain, may be performed prior to root canal therapy. Endodontic treatment will only be reimbursed for situations where adequate bone viability can be documented. A radiograph demonstrating the completed endodontic treatment is required to be a part of the clinical procedure and must be included in the patient’s permanent clinical record. Pulpal therapy for primary teeth is reimbursable for those teeth only not near exfoliation.

NOTE: A pulpotomy is not to be billed in conjunction with root canal therapy when performed on the same date or as an emergency endodontic procedure. Additionally, a provider may not bill for a pulpotomy and a root canal therapy on the same tooth. The provider may only bill for the pulpotomy or the root canal therapy.

28.2.8 Apicoectomy

Dental Code Range: D3410-D3426

Preoperative and postoperative radiographs are required as part of the clinical record for apicoectomies. A retrograde filling may be placed when necessary and billed separately.

28.2.9 Periodontal Treatment

Dental Code Range: D4210-D4999

Scaling, root planing and curettage can be billed once per quadrant and are considered one (1) procedure regardless of the number of visits it takes to complete. Periodontal treatment is allowed once in a 24-month period when indicated with a diagnosis of periodontitis. This includes scaling and root planing or a full mouth debridement. D4910, Periodontal Maintenance is reimbursable every three (3) months for clients who have had scaling and root planning. Clear evidence of bone loss must be present on the current radiographs to support the diagnosis of periodontitis. There must be current six (6) point periodontal charting inclusive of a periodontal prognosis. Gingivectomies can be billed once per quadrant, per lifetime. Minor scaling procedures will be considered part of a prophylaxis.

- **D4346** – Scaling in presence of generalized moderate or severe gingival inflammation- full mouth, after oral evaluation. This procedure is allowed once every 24-months, AND client cannot have had D4341, D4342, or D4355
within the last 12-months. This procedure is intended to treat gingival inflammation

- **D4355** – Full mouth debridement is allowed once every 24-months, AND the client cannot have had D1110 or D4346 within the last 12 months. This procedure is intended to debride the mouth so that further examination can be done to determine stage of periodontal disease.

### 28.2.10 Prosthetics Removable

**Dental Code Range: D5110-D5899**

There are no limits on the fabrication of denture and/or partial services for clients under the age of 21 years old.

- **D5110-D5140** – Complete dentures (including routine post-delivery care) placed immediately must be of structure and quality to be considered the final prosthesis.
- **D5211-D5281** – Partial dentures (including routine post-delivery care)
- **D5410-D5422** – Denture/partial adjustments, this service is limited to two (2) per 12-month period.
- **D5510-D5721** – Other services include the repair of a broken denture base, repair or replacement of broken clasps, replacement of teeth.
- **D5730-D5761** – Denture/partial relines, this service is limited to two (2) per 12-month period.
- **D5810-D5821** – Interim complete/partial dentures
- **D5850-D5851** – Tissue conditioning, this service is limited to once per lifetime, per arch.
- **D5860-D5866** – Specialized denture services require Prior Authorization (PA) ([28.1.6 Requesting Prior Authorization (PA) for Dental Codes](#)).

**NOTE:** In the event a client is not satisfied with the denture/partial, the client must return to the provider who made the appliance to allow the provider the opportunity to work with the client to fit it properly. If a client has returned to the provider more than three (3) times and is still not able to wear the appliance, a client may contact Dental Services for guidance on how to proceed with the dispute. A client should not proceed to a different provider to have adjustments done.

Contact Dental Services ([2.1, Quick Reference](#)) for denture benefit availability.

### 28.2.11 Implant Services and Fixed Prosthesis

**Dental Code Range: D6010-D6199 and D6205-D6999**

The client must be between the ages of 17-20 and be eligible for Medicaid for permanent tooth replacement to be considered. Temporary replacement of a lost tooth may be provided to a client to maintain space prior to the age of 17 by using the appropriate code.
The tooth/teeth to be replaced must be documented and must have been lost due to one (1) of the following.

- Be congenitally missing
- Loss due to trauma
- Loss due to abnormal pathology not related to periodontal disease or carious lesions

The requesting dentist is responsible for determining if the client is an appropriate candidate for an implant or bridge based on completion of growth and neighboring teeth. Documentation of bone density, bone height and completion of skeletal growth must be in the patient record.

Fixed bridges and cast partials are covered only for the replacement of permanent teeth. A fixed bridge is not a reimbursable service when done in conjunction with a removable appliance in the same arch.

When a provider is requesting an implant, the length of treatment must be considered based on the client’s age. Typically when a client turns 19 years old, eligibility ends and restorative treatment for the previously placed implant will not be a covered service. Prior-authorizations (PAs) are only valid for client’s who are eligible for Medicaid benefits at the time of service.

**NOTE:** If the tooth/teeth to be replaced were not lost due to the above conditions, Wyoming Medicaid will not pay for an implant or fixed bridge. The requesting dentist must also consider the condition of neighboring teeth when requesting prior authorization. If the neighboring teeth are free of decay and/or large restorations, an implant can be indicated. If the neighboring teeth are in need of restorations, a fixed bridge should be indicated.

The client must be free of gingivitis and/or periodontal disease and must have proven adequate home care. The request will not be approved without a documented home care status included. The client must also be tobacco free; if the client is currently using tobacco products they must be referred to the Wyoming Quit line (800)784-8669 and display abstinence for six (6) months.

**NOTE:** Replacement of a missing tooth will only be reimbursed once per lifetime. If Wyoming Medicaid has paid for any type of permanent tooth replacement to replace the tooth/teeth, then an implant or fixed bridge will not be approved.

All implant codes and fixed prosthesis require an approval, prior to performing the services, from the Division of Healthcare Financing, Medicaid, in the form of a Prior Authorization (PA). Prior Authorizations will not be issued after a procedure is complete. The provider must obtain a PA prior to rendering services (28.1.6 Requesting Prior Authorization (PA) for Dental Codes).
28.2.12 Extractions

Dental Code Range: D7111-D7250

- Extractions are reimbursable for those teeth that demonstrate radiographically, pathologic, pulpal involvement, periapical infection, periodontally involved teeth of the class IV category, and large carious lesions that the eligible client wants extracted even though they have been informed of alternate treatment remedies. Current radiographs and other clinical documentation of teeth that are extracted must be maintained in the patient record.
- Incision and drainage is reimbursable when an emergency extraction cannot be performed due to health reasons or in the case of gingival infections, pericoronal or lateral abscess due to periodontal pathology.

28.2.13 Oral and Maxillofacial Surgery

Dental Code Range: D7111-D7999

Reimbursement of oral surgical procedures includes routine preoperative and postoperative care, sutures, suture and/or wire removal, and local anesthetics.

Impacted third molars or supernumerary teeth are covered only when they are symptomatic; that is, causing pain, infected, preventing proper alignment of permanent teeth or proper development of the arch. Reimbursement for prophylactic extractions of third molars is not a covered service.

The following oral surgery codes require an approval prior to performing the services, from the Division of Healthcare Financing, Medicaid, in the form of a Prior Authorization (PA): D7941, D7943, D7944, D7945, D7946, D7947, D7948, D7949, and D7950. Prior Authorizations will not be issued after a procedure is completed. You must obtain a PA prior to rendering services (28.1.6 Requesting Prior Authorization (PA) for Dental Codes).

NOTE: Oral surgery procedures that are not covered using a CDT procedure code should be billed using a CPT code on a CMS-1500 Claim Form. It is the provider’s responsibility to check covered medical services prior to rendering services. For use of the CPT codes refer to the CMS-1500 Provider Manual and obtain Prior Authorizations as required.

28.2.14 Biopsy of Oral Tissue – Soft

Dental Code Range: D7286

Removal of oral soft tissue lesions is allowed as needed to restore oral cavity to normal function and/or to check for pathology.
28.2.15 Occlusal Orthotic Device

Dental Code Range: D7880 (By Report), D9944 and D9945

- **D7880** – An occlusal splint may be provided to a client if the client has been diagnosed with Temporomandibular Joint Dysfunction (TMJ). A report of the TMJ diagnosis and complete treatment plan including any physical therapy, and/or drug used to treat symptoms must be submitted with the claim. This must be billed in the delivery date.

- **D9944** – occlusal guard-hard, full arch. Prior authorization required with documented medical necessity. Prior authorization required will not be issued after impressions have been taken. The provider must obtain a PA prior to rendering services. This must be billed on the delivery date.

- **D9945** – Occlusal guard-soft, full arch. Prior authorization required with documented medical necessity. Prior authorization will not be issued after impressions have been taken. The provider must obtain a PA prior to rendering services. This must be billed on the delivery date.

28.2.16 Anesthesia

Dental Code Range: D9222-D9223, D9239-D9243 and D9248

- D9222-D9223, D9239-D9243 and D9248 are reimbursable. Dentists may only administer parenteral sedation and general anesthesia if they meet the requirements of the Wyoming State Board of Dental Examiners or the licensing board in the state they practice and it is within their scope of practice.

- Sedation and general anesthesia shall not be billed routinely, but limited to those patients requiring dental care who would not be expected to tolerate treatment or become unmanageable in the usual office setting due to medical, emotional or developmental limitations, and/or extent of treatments needs that are documented.

- The administration of intravenous (IV) or intramuscular (IM) sedation is subject to the same requirements as general anesthesia.

28.2.17 Nitrous Oxide/Analgesia

Dental Code Range: D9230

Nitrous Oxide is a covered benefit for any client age 0-19. Nitrous will only be reimbursed in conjunction with extractions or restorative procedures. Supporting documentation of why the client required the use of nitrous must be part of the patient’s record and be available upon request. It is the provider’s responsibility to verify the client’s eligibility prior to services rendered. When checking eligibility, the provider must verify if the client is under the age of 20 years old.

28.2.18 Behavior Management

Dental Code Range: D9920
Behavior Management, is a covered benefit for clients under ten (10) years old and/or 
disabled clients under 21 with a recognized mental or physical disability i.e. Autism, 
Down Syndrome, Paralysis, who exhibit behavior(s) that require additional time 
for a procedure to be completed; supporting documentation must be a part of 
the patient’s record and a report of specific behavior that warranted behavior 
management must be attached to the claim form. This procedure is reimbursable 
at one (1) unit per visit and a maximum of three (3) units per 12-months.

28.2.19 Other Drugs and Medications

Dental Code Range: D9630

D9630 can be billed for clients if there is a documented need for additional 
medications. Antibiotics, antimicrobials and fluoride gels or rinses are the only 
medications that will be considered. This code should not be billed for pre-med 
prophylactic antibiotics given in office. Wyoming Medicaid will only cover D9630 
for clients who need medications to treat the following diagnosed conditions:

- Rampant caries
- Cervical decay
- Gingivitis/Periodontitis
- Severe sensitivity

The report of specific drugs given in the office and for the treatment of what 
condition must be attached to the claim form. The following must be present on the 
report:

- Client name
- Date of service
- Diagnosed condition
- Medication given
- Doctor or hygienist signature

28.2.20 Space Maintenance

Dental Code Range: D1510, D1516, D1517 and D1575

- D1510, D1516, D1517 and D1575 - Space maintainers must be billed using a 
  quadrant in box 25 (area of oral cavity) of the claim form. Use UA, UR, UL, 
  LA, LR or LL to indicate which area of the oral cavity the space maintainer 
  was placed.
- D1550 - Recommendation of a space maintainer is covered as needed.
28.2.21 Tobacco Counseling

Dental Code Range: D1320

Tobacco Counseling is a covered benefit for clients under 21. This code is reimbursable once (1) per 12-month period.

28.2.22 Orthodontics

Dental Code Range: D8000-D8999

Medicaid eligible clients under the age of 19 may receive treatment for severe malocclusion. Medicaid only reimburses codes D8000-D8999 to enrolled orthodontists who have obtained a Prior Authorization (PA) for treatment in the Wyoming Severe Malocclusion (SM) Program prior to treatment.

Severe malocclusion is defined as malocclusion that is detrimental to the child’s physical well-being, i.e. the ability to chew food in a compatible manner for digestion and/or breathing, or for correction of speech pathology.

28.2.22.1 Referral to the Severe Malocclusion Program

When a client is provided services at their general dentist for a check-up appointment, and the client appears to meet the set criteria of the Severe Malocclusion Program, the client may be referred to an enrolled orthodontist. It is up to the provider to know the criteria for the Severe Malocclusion Program and only refer appropriate clients to participating orthodontists.

- If the client does not appear to meet the Severe Malocclusion Program, there is a parent handout available on the website to assist in explaining why the client does not meet the criteria. (2.1, Quick Reference)
- No referral form is needed for ages 12-18 for D8660.
- Orthodontists may also provide consultations to walk in clients ages 12-18 with no referral.
- If a provider finds it medically necessary for a child under the age of 12 to be part of the Severe Malocclusion Program, a Referral to Severe Malocclusion Program – Under 12 Form (28.2.21.5, Referral to Severe Malocclusion Program – Under 12 Form) should be sent to the Medicaid Program Manager. A PA will be required for these clients for the consultation (D8660).
  - The form must be filled out completely and the child should not be provided services by the orthodontist until a PA is issued.

28.2.22.2 Submitting Records for Approval/Denial

The orthodontist will need to do the following prior to rendering services to a new client for consultation (D8660):

- Verify client eligibility prior to rendering services to the client.
- Verify age appropriateness.
• Verify the code/service has not been billed previously. (One (1) lifetime benefit)

The orthodontist may collect records on a new client. The records should include the Severe Malocclusion Request Form (28.2.21.6, Severe Malocclusion Request Form), color photos, and x-rays of the client. These, along with the Medicaid Prior Authorization Request Form (6.14.1.1 Medicaid Prior Authorization Request Form), should be submitted to Wyoming Medicaid at:

Wyoming Medicaid
Attn: Medical Policy
PO Box 667
Cheyenne, WY 82003-0067
WYMedPol@conduent.com

• Each case will be reviewed, and based on qualifying criteria, will be forwarded to the State Orthodontic Consultant for review; OR
• The case will be administratively denied and a letter will be mailed to the client and the orthodontist with the reason why it was denied.

Orthodontic cases will be forwarded to the State Dental Consultant if they meet at least one (1) of the following criteria;

• Cleft palate deformities with a recommendation from the Cleft Palate Team.
• Impacted anterior teeth – Considered when it is demonstrated that the tooth or teeth is or are impacted (soft or hard); not indicated for extraction and treatment planned to be brought into occlusion. Arch space must be available for correction.
• Deep Impinging Overbite – Considered when the lower incisors are destroying the soft tissue of the palate and there is tissue laceration and/or clinical attachment loss.
  o Photographic documentation will be required.
• Anterior Crossbite – Considered when clinical attachment loss and recession of the gingival margin are present.
  o Photographic documentation will be required.
• Severe Traumatic Deviation.
  o Traumatic deviations are, for example, loss of a premaxilla segment by burns or by accident; the result of osteomyelitis; or other gross pathology.
  o Congenitally missing teeth are not considered a Severe Traumatic Deviation. Missing teeth should be indicated on Part 2 (Diagnostic Information) of the Severe Malocclusion Request Form (28.2.22.6, Severe Malocclusion Request Form).
  o A narrative should be written on Part 2 (Diagnostic Information) of the Severe Malocclusion Request Form (28.2.22.6, Severe Malocclusion Request Form) explaining what the deviation is.
A minimum HLD index score of 30 is required to qualify for the program. All cases will be reviewed by the Orthodontic Consultant and the Medicaid Program Manager and if special circumstances apply, a lower score may be approved.

Cases that are forwarded on to the Orthodontic Consultant will be sent with all attached x-rays/color photos and the completed Severe Malocclusion Request Form (28.2.22.6, Severe Malocclusion Request Form) from the orthodontist.

- After the consultant reviews the case, he/she will document his/her recommendation and return the entire case back to the Medicaid Program.
- If the case is approved, Medicaid will issue a Prior Authorization (PA) to the provider, for treatment to be started.
- If denied, the client and orthodontist will be sent a denial letter with an explanation.

Cases that are recommended for surgical intervention in conjunction with orthodontic treatment will require a consultation with an oral surgeon prior to approval/denial of orthodontic treatment and/or orthognathic surgery.

- An oral surgeon consultation form will be included with this letter to the orthodontist.
- The referring orthodontist should send this form along with any x-rays with the client to the oral surgeon.
- The oral surgeon will be responsible for completing this form and returning it to the Medicaid Medical Policy Team.
- The Medicaid Medical Policy Team will add this to the client’s file and re-submit the case to the orthodontic consultant for consideration.
  - If approved, the orthodontist and the oral surgeon will each be issued a PA for their portions of the treatment.
  - If denied, the orthodontist, the oral surgeon, and the client will be sent a denial letter.

**NOTE:** A PA is only valid if the client is eligible for Medicaid on the date of service.

Cases that are submitted to the program as transfers from other states may be evaluated and approved with the intent of completing treatment that was already started. The requesting orthodontist should indicate on their request how much time is expected to complete the treatment. When approved, the State Orthodontic Consultant will also evaluate the length of time needed to complete the case. A PA will be issued for the D8670 and the number of units determined to complete the case will be approved. If the client does not have orthodontic bands/brackets on one of the arches, D8080/D8090 may be authorized for a partial payment, if the requesting orthodontist anticipates banding this arch.
An orthodontist may request reconsideration of a denied application.

- The orthodontist must write a request letter stating the reason for the request. Any additional supporting documentation should be sent to the Medicaid Program Manager for reconsideration.
- The Medicaid Program Manager will forward this on to the orthodontic consultant for reconsideration. The request will only be sent back to the orthodontic consultant if the orthodontist has provided new evidence supporting the request. The orthodontic consultant will then provide a new review of the request.
- Requests for reconsideration that do not have any new information to support the request will be denied by the Medicaid Program Manager and a letter will be sent to the orthodontist with an explanation.
- If reconsideration is approved by the program, a Prior Authorization (PA) will be issued to the orthodontist and a letter will be sent to the provider informing them that the client has been approved for treatment.
- The provider must also indicate on their claim form, in box 30, that the client has entered the retention phase.

The following codes will be reimbursed to enrolled orthodontists who have obtained a PA for the client:

- **D8660** – Pre-Orthodontic Consultation, once per lifetime per client
  - A PA is only required for this code for children under the age of 12 if the provider finds it medically necessary for a child to be part of the Severe Malocclusion Program early for Interceptive treatment.
- **D8080** – Comprehensive Orthodontic Treatment (ages 12-14), once per lifetime per client.
- **D8090** – Comprehensive Orthodontic Treatment (ages 15-18), once per lifetime per client.
- **D8670** – Periodic Orthodontic Treatment, maximum of eight (8) payments; Maximum of one (1) payment per three (3) month period.
- **D8680** – Orthodontic Retention and Removal, this will only be authorized for clients who have moved here from another state and that were on the other state’s malocclusion program and do not plan to continue treatment.
- **D8692** – Replacement of Lost/Broken Retainer, once per lifetime per arch per client.
- **D8060** – Interceptive Orthodontic Treatment
  - This will only be authorized for clients who are under the age of 12 and meet the interceptive treatment criteria [(28.2.22.5, Referral to Sever malocclusion Program – Under 12 Form)](28.2.22.5, Referral to Sever malocclusion Program – Under 12 Form).
- **D8690** – Final Balance Payment
  - This code to be billed for client’s who lose eligibility during treatment. A Prior Authorization is required.
28.2.22.3 Billing Instructions for Severe Malocclusion (SM) Program

The Severe Malocclusion Program will issue a Prior Authorization (PA) to each provider for each client. The PA will authorize the specific treatment for the client. The provider is only permitted to bill for services authorized within the PA. It is the responsibility of the provider to check client eligibility for each date of service. To check eligibility, call the IVR at (800)251-1270 or Dental Services at (888)863-5806.

- **D8660** – Pre-orthodontic treatment visit. This code will be paid once per lifetime per client unless the client has been placed on a hold by the State to monitor growth or oral hygiene progress. The State can issue a PA for a 2nd consultation at a time determined appropriate by the State Orthodontic Consultant and program manager.
  - PA is only required for this code for children under the age of 12 if the provider finds it medically necessary for a child to be part of the Severe Malocclusion Program or if the client is having a 2nd consultation.
  - The provider may not bill any other services with this visit. The fee indicated includes exam, records, all photos, diagnostic casts, and x-rays.
  - Providers who offer this service as part of a free consultation to all of their patients should not bill Medicaid for this service. If a client is screened with no records for application consideration and the client returns on a 2nd visit to have records taken, the provider can bill for this service at that visit.

- **D8080 (age 12-14) or D8090 (age 15-20)** – Comprehensive orthodontic treatment. The provider may not bill any other services with this visit. The fee indicated includes exam, banding, retention, and all photos during the treatment phase. This code will only be paid once per lifetime per client.
  - If the client has a primary insurance, the D8080 or D8090 must be billed to the primary insurance before billing Medicaid. A primary EOB must be attached when submitting the claim.
    - If the primary insurance does not cover orthodontic services, the EOB that states orthodontics are not covered must be attached to all claims submitted throughout treatment.
    - If the primary insurance covers orthodontic treatment, the primary insurance must be billed before each claim can be submitted (including D8670, quarterly payments) and the EOB must be attached to all claims submitted. When the maximum benefit from the primary insurance is met, attach a copy of the final EOB to each subsequent claim.
    - Providers must bill Medicaid for their full treatment amount for D8080 or D8090.

- **D8670** – Periodic orthodontic treatment visit (as part of the PA) reimburses per quarter (maximum of four (4) quarters per year for not more than 24 months).
When billing for periodic treatment visits, the claim should contain the actual date of service for each time the client was seen during the quarter. These dates of service should be on separate lines of the claim with the fee for each line showing $0.00. The last line should have the last date of service for the quarter with the fee of $300.00. The client must be seen within the quarter for the provider to bill this code. The provider will be paid the quarterly payment as long as the client is seen within the quarter and the provider has not exceeded eight (8) payments in the authorized treatment time period (typically 24-months).

Due to the federal government’s match to this program, tracking of each time a client is seen in the office for orthodontic adjustments is required to be reported.

Once orthodontic bands are removed and the retention phase has begun, the provider may continue to bill D8670 (quarterly payments) until the total amount of the PA has been paid. Once the total has been paid to the provider, the provider may no longer bill for any orthodontic services without a new PA.

- When bands are removed and the retention phase begins, the client must be seen at least once per quarter in order for the provider to bill the D8670 (quarterly payments).

When the client enters retention, the provider is responsible for sending in a final photo of the client to Medicaid to be included in the client’s State records.

- **Billing Example:**
  Client comes to provider’s office for periodic treatment visits on 1/2/15, 2/2/15, and 3/2/15. The provider should bill as follows:
  
  - Line 1: 1/2/2015 D8670 $0.00
  - Line 2: 2/2/2015 D8670 $0.00
  - Line 3: 3/2/2015 D8670 $ - OMB Encounter Rate

**D8690** – If the client becomes ineligible for Medicaid at any time during treatment, the provider will be paid the balance of the original Prior Authorization (PA). Providers must request this payment by submitting a final claim. The final claim must contain the following:

- Date of service must be the last day the client was seen during the last month of eligibility.

  - **Example:** Client was seen 1/2/19, 2/2/19, 2/19/19 and 3/2/19. Client’s eligibility ended 2/28/19. The final date of service should be 2/19/19.

- Indicate in box 30 (Description), “PA balance for Orthodontic Treatment.”

- A separate PA number for this code will be required to bill.

- Fee must be the total balance due from the original Prior Authorization (PA).
• **D8680** – Orthodontic Retention and Removal (removal of appliances and/or bands and construction and placement of retainers) reimburses $600.00. **This code is only to be billed by providers who are accepting orthodontic clients from other states who have participated in a Medicaid orthodontic program or are currently on Wyoming Medicaid.** This code will only be paid once per lifetime per client.

• **D8692** – Replacement of lost or broken retainer reimburses $150.00 per arch. **This code will only be paid once per lifetime per arch per client.**

**NOTE:** When billing D8692, indicate in box 25 (area of oral cavity) on the claim form, UA for upper retainer or LA for lower retainer.

• **D8060** – Interceptive orthodontic treatment for transitional dentition (7-11 years). The provider may not bill any other services with this visit and the fee indicated includes exam, banding, retention, all photos, and follow-up visits. **This code will be paid once per lifetime per arch per client.**

### 28.2.22.4 Wyoming Medicaid Interceptive Criteria

- Interceptive orthodontic treatment may be approved for ages 6-11 and will only be billable by enrolled orthodontists.
- Interceptive orthodontic treatment may be authorized for mixed dentitions where early intervention could result in avoiding a future crippling malocclusion, or reducing the need for complex comprehensive appliance therapy.
- The goal of the interceptive treatment is to reduce the severity of the malformation/malocclusion, mitigate its cause, and to prevent subsequent occlusal conditions that could cause a worsening malocclusion.
- Interceptive treatment will be evaluated on a case-by-case basis and may be authorized by the program only if there is clear evidence of immediate need for treatment based on the established criteria.
- A client with a pre-qualifying condition may not display sufficient need to have the orthodontic service approved immediately. The State Orthodontic Consultant will review each case for timing and will discuss the plan with the requesting orthodontist if there is need. It is imperative that the treatment request form provide adequate documentation of immediate need and treatment planning.
- It will be the provider’s responsibility to inform the parent/guardian that if interceptive treatment is approved their child may not be eligible for full comprehensive treatment later, depending on the severity of their condition.
- The provider has full responsibility for maintaining documentation to justify the services provided and billed to Medicaid.
- Cases that are denied can be resubmitted at appropriate intervals as determined by the client’s orthodontist and the State Orthodontic Consultant.
• Space maintenance appliances (D1510, D1515) are billable separately from D8060 Interceptive Orthodontic Treatment if necessary prior to Interceptive Treatment.

• Diagnostic Criteria for Interceptive Orthodontic Treatment (D8060) is as follows:
  o Cleft and other craniofacial anomalies.
  o Overjet of more than 10mm.
  o Anterior crossbite-class III mandibular prognathism or reverse overjet.
  o Anterior openbite greater than 3mm.
  o Impeded eruption of teeth due to crowding, displacement, presence of supernumerary teeth, retained primary teeth, (and) any pathologic cause, or impacted anterior teeth.

• HLD (Handicapping Labio-Lingual Deviation) index scoring will be collected for documentation purposes, but will not be part of the qualifying criteria for this program.
28.2.22.5 Referral to Severe Malocclusion Program – Under 12 Form

CONSIDERATION FOR ORAL SURGERY RELATED TO ORTHODONTIC APPROVAL

ORAL SURGEON NAME: ____________________________________________________________

28.2.23 Dental Services Performed in an FQHC/RHC

Dental services that are performed in an FQHC/RHC must be billed on the most current ADA claim form/837D. Dental services will receive an encounter rate that is established by Wyoming Medicaid and includes ALL services provided during the encounter and is considered to be an all-inclusive rate.

28.2.23.1 Dental (Other Than Orthodontics) Claims

- D9999 – Must be billed as line one as the encounter rate
- Additional detail lines must be billed with appropriate covered CDT codes showing each service provided and billed with a zero (0) dollar amount.
- All charges for the same visit must be submitted on one (1) claim.

Example:
Child is seen for an exam, x-ray, and prophy. Bill as follows:

<table>
<thead>
<tr>
<th>Line</th>
<th>Procedure Code</th>
<th>Date</th>
<th>Amount</th>
<th>NPI</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>D9999</td>
<td>1/5/19</td>
<td>Fee encounter rate</td>

<td>D0240</td>
<td>1/5/19</td>
<td>$0.00</td>
<td>Treating Provider NPI</td>
</tr>
<tr>
<td>4</td>
<td>D1120</td>
<td>1/5/19</td>
<td>$0.00</td>
<td>Treating Provider NPI</td>
</tr>
</tbody>
</table>

NOTE: If any codes on the claim deny due to being non-covered, the entire claim will deny. The provider is responsible for checking eligibility and frequency limitations and only billing Medicaid for covered dental services for that client.

Refer to the Dental Fee schedule for age limitation.

Services provided outside the clinic, including inpatient services, should be billed under the clinic’s fee-for-service provider number.

Multiple encounters with one (1) or more health professional that take place on the same day at the same office location constitute a single visit except when the patient, after the first encounter, suffers illness or injury requiring a distinctly separate diagnosis or treatment.

28.2.23.2 Dental Orthodontic Services D8000-D8999

Providers must obtain a prior authorization (PA) before beginning any orthodontic treatment (10.2.22 Orthodontics D8000-D8999). Providers will only be allowed to bill for procedure codes that are listed on their PA.

Wyoming Medicaid has a set rate of $1200 for an approved interceptive case and $3600 for an approved Comprehensive case. Facilities will be paid their full encounter rate during each quarterly billing cycle, up to these established maximums.
When claims paid reaches these set amounts, the provider is expected to continue orthodontic treatment until complete, but no further payments will be made to the provider.

- D8999 – Must be billed as line one as the encounter rate
- Additional detail lines must be billed with appropriate covered CDT codes showing each service provided and billed with a zero (0) dollar amount.
- All charges for the same visit must be submitted on one (1) claim.
- Prior authorization (PA) numbers must be on all claims for the client’s orthodontic visits.
- Provider may bill Medicaid for the initial banding and then quarterly (including all of the dates the child was seen for orthodontic adjustments during the quarter). The facility will not bill each time the child is in the facility for orthodontic treatment, only once per quarter.
- Actual dates of service must be included on the quarterly claim.
- No other dental codes may be billed on an orthodontic claim. Only codes in the D8000-D8999 range can be on the claim.

**Example:**

Child is banded on 1/5/2019 and returns on 2/12/2019, 3/20/2019 and 4/30/2019 for adjustments. Bill as follows

**Claim number 1:**

<table>
<thead>
<tr>
<th>Line</th>
<th>Procedure Code</th>
<th>Date</th>
<th>Amount</th>
<th>NPI</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>D8999</td>
<td>1/5/19</td>
<td>Fee encounter rate</td>
<td>Treating Provider NPI</td>
</tr>
<tr>
<td>2</td>
<td>D8080</td>
<td>1/5/19</td>
<td>$0.00</td>
<td>Treating Provider NPI</td>
</tr>
</tbody>
</table>

**Claim Number 2:**

<table>
<thead>
<tr>
<th>Line</th>
<th>Procedure Code</th>
<th>Date</th>
<th>Amount</th>
<th>NPI</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>D8999</td>
<td>2/12/19</td>
<td>Fee encounter rate</td>
<td>Treating Provider NPI</td>
</tr>
<tr>
<td>2</td>
<td>D8670</td>
<td>2/12/19</td>
<td>$0.00</td>
<td>Treating Provider NPI</td>
</tr>
<tr>
<td>3</td>
<td>D8670</td>
<td>3/20/19</td>
<td>$0.00</td>
<td>Treating Provider NPI</td>
</tr>
<tr>
<td>4</td>
<td>D8670</td>
<td>4/30/19</td>
<td>$0.00</td>
<td>Treating Provider NPI</td>
</tr>
</tbody>
</table>

(This claim will not be submitted until the last date of service on the quarter, 4/30/2019)

**Note:** If any codes on the claim deny due to being non-covered, the entire claim will deny. The provider is responsible for checking eligibility and frequency limitations and only billing Medicaid for covered dental services for the client.
28.2.23.3 End of Treatment

At the conclusion of orthodontic treatment, the provider must provide the client with retainers. The removal and retention visits are not reimbursable in addition to the PA amount. The established PA amount includes these procedures.

28.2.23.4 Discontinued Treatment

If the client discontinues treatment (does not return, removes their own braces, or requests removal early), the provider stops billing Wyoming Medicaid. No further payments can be made to the provider if services have discontinued. Wyoming Medicaid can only pay claims for actual dates of service the provider saw the client in the facility. This also applies to the provider removing appliances early for non-compliance.

28.2.23.5 Resuming Treatment

If the client returns at a later date to resume treatment and the PA is not expired, the facility may resume treatment but can only be reimbursed for the remaining amount on the PA.

28.2.24 Health Check – EPSDT

The Early Periodic Screening, Diagnosis and Treatment (EPSDT) program was enacted by Congress mandating states provide eligible children under the age of 21 with well-child screening, diagnostic and medically necessary treatment services through their Medicaid programs. Services provided under EPSDT include periodic screening to include dental, vision and hearing, as well as any medically necessary treatment. As part of the requirements for proving EPSDT services under the federal Medicaid program the state is required to publish a periodicity schedule which meets reasonable standards of dental care. The periodicity instructions and table that the state has chosen are listed below. The EPSDT program in Wyoming is referred to as Health Check.

28.2.24.1 Suggested Procedures for Health Check Dental Services

- Birth to 12-months
  - Clinical Oral Examination – First examination at the eruption of the first tooth and no later than 12-months. Repeat every six (6) months or as indicated by the child’s risk status/susceptibility to disease. Includes pathology and injuries. A provider must request, in writing, authorization to see a child more often than every six (6) months based on risk status and medical necessity.
  - Assess Oral Growth And Development – By clinical examination.
  - Caries Risk Assessment – Must be repeated regularly and frequently to maximize effectiveness.
Covered Services – Dental Services

- **Radiographic Assessment** – As allowed by the child’s cooperation and frequency limitations.
- **Prophylaxis & Topical Fluoride** – Must be repeated regularly and frequently to maximize effectiveness and as allowed by the child’s cooperation and frequency limitations.
- **Fluoride Supplementation** – Considered when systemic fluoride exposure is suboptimal. Up to at least 16 years.
- **Anticipatory Guidance/Counseling** – Appropriate discussion and counseling should be an integral part of each visit for care.
- **Oral Hygiene Counseling** – Initially, responsibility of parent; as child matures, jointly with parent; then, when indicated, only child.
- **Dietary Counseling** – At every appointment; initially discuss appropriate feeding practices, then the role of refined carbohydrates and frequency of snacking in caries development and childhood obesity.
- **Injury Prevention Counseling** – Initially play objects, pacifiers, car seats; when learning to walk; then with sports and routine playing, including the importance of mouth guards.
- **Counseling For Nonnutritive Habits** – At first, discuss the need for additional sucking; digits vs pacifiers; then the need to wean from the habit before malocclusion or skeletal dysplasia occurs. For school-aged children and adolescent patients, counsel regarding any existing habits such as fingernail biting, clenching, or bruxism.

- **12 to 24-months**
  - **Repeat birth** – 12-month procedures every six (6) months or as indicated.

- **Two (2) to six (6) years**
  - **Repeat birth** – 12-month procedures every six (6) months.
  - **Assessment And Treatment Of Developing Malocclusion** – Discuss possible future malocclusions with parent and refer if early interceptive treatment is medically necessary.
  - **Assessment For Pit And Fissure Sealants** – For caries-susceptible first primary molars and permanent molars with deep pits and fissures; placed as soon as possible after eruption.
  - **Six (6) to 12 years**.
  - **Repeat two (2) – six (6) year procedures every six (6) months.**
  - **Substance Abuse Counseling** – As appropriate/needed.
  - **Counseling For Intraoral/Perioral Piercing** – as needed.

- **12 years and older**
  - **Repeat six (6) –12 year procedures every six (6) months.**
  - **Assessment and/or Removal of Third Molars** – as needed.
  - **Transition to adult dental care.**
28.3 Dental Covered Services for Clients Age 21 Years and Older

Medicaid clients 21 years of age and older are limited to the following dental services if the client is on a full Medicaid plan. Check client eligibility through Dental Services, the Medicaid Integrated Voice Response (IVR) System and Chapter 5 for verification (2.1, Quick Reference).

28.3.1 Examinations

Dental Code Range: D0120-D0191

- **D0120 or D0150** – Oral evaluations, **reimbursable** once every six (6) months.
- **D0140** – Limited oral evaluations, **reimbursable** twice every 12-months.
- **D0191** – Assessment of a patient, reimbursable to clients on the Nursing Home (NH) plan once every 12-months only if the client has not been to a dentist within the last year.

28.3.2 Radiographs and Diagnostic Imaging

Dental Code Range: D0210-D0330

Diagnostic radiological procedures, performed in accordance with current American Dental Association (ADA) guidelines, are to be limited to those instances in which a dentist anticipates that the information is likely to contribute materially to the proper diagnosis, treatment, and prevention of disease.

- **D0210** – Intraoral complete series*, reimbursable every five (5) years.
- **D0330** – Panoramic film*, reimbursable every five (5) years.
- **D0270, D0272 or D0274** – Bitewing x-rays, reimbursable once every year.
- **D0220** – Intraoral first film
- **D0230** – Each additional film after the first (as needed)

*Note:* A maximum of seven (7) periapicals are allowed per visit.

* D0210 or D0330 is reimbursable once every five (5) years

**NOTE:** When making referrals, the referring dentist should send to the dentist/specialist a copy of the current radiographs to prevent unnecessary duplication of services, expenditure and radiation exposure.

28.3.3 Preventive Dental Care

Dental Code Range: D1110

- **D1110** – Prophylaxis, reimbursable once every six (6)-months.

**NOTE:** When an adult client (21 years and older) is scheduled for a D1110, but the client is in need of a D4341, scaling and root planing, these procedures are the
financial responsibility of the client. Providers may bill the client for this
service as long as the client is informed, in writing, prior to the procedure that
they are financially responsible.

28.3.4 Scaling and Full Mouth Debridement

Dental Code Range: D4346, D4355

- **D4346** - Scaling in presence of generalized moderate or severe gingival
  inflammation- full mouth, after oral evaluation. This procedure is allowed
  once every 24-months, AND client cannot have had D4341, D4342, or D4355
  within the last 12-months. This procedure is intended to treat gingival
  inflammation.

- **D4355** – Full mouth debridement is allowed once every 24-months, **AND** the
  client cannot have had D1110 or D4346 within the last 12 months. This
  procedure is intended to debride the mouth so that further examination can be
done to determine stage of periodontal disease.

**NOTE:** No other periodontics codes are covered for adult clients (21 years and older).

28.3.5 Prosthetics Removable- Relines and Repairs

Dental Code Range: D5410-D5761

Relines and repairs to existing removable appliances are covered.

- **D5410-D5422** – Denture/partial adjustments, this service is limited to two (2)
  per 12-month period.

- **D5510-D5721** – Other services include the repair of a broken denture base,
  repair or replacement of broken clasps, replacement of teeth.

- **D5730-D5761** – Denture/partial relines, this service is limited to two (2) per
  12-month period.

In the event a client is not satisfied with the denture/partial, the client must return to
the provider who made the appliance to allow the provider the opportunity to work
with the client to fit it properly. If a client has returned to the provider more than three
(3) times and is still not able to wear the appliance, a client may contact Dental
Services for guidance on how to proceed with the dispute. **A client should not**
proceed to a different provider to have adjustments done.

Contact Dental Services (2.1, Quick Reference) for denture benefit availability.

28.3.6 Extractions

Dental Code Range: D7111-D7510

- Extractions are reimbursable for those teeth that demonstrate radiographically,
  pathologic, pulpal involvement, periapical infection, periodontally involved
  teeth of the class IV category, and large carious lesions that the **eligible client**
wants extracted even though they have been informed of alternate treatment remedies. Current radiographs and other clinical documentation of teeth that are extracted must be maintained in the patient record.

- D5710: Incision and drainage is reimbursable when an emergency extraction cannot be performed due to health reasons or in the case of gingival infection, pericoronal or lateral abscess due to periodontal pathology.

28.3.7 Oral and maxillofacial Surgery

Dental Code Range: D7111-D7140, D7210-D7241, D7250, D7410-D7411, and D7510

Reimbursement of oral surgery procedures includes routine preoperative and postoperative care, sutures, suture and/or wire removal, and local anesthetics.

Impacted third molars or supernumerary teeth are covered only when they are symptomatic; that is, causing pain, infected, preventing proper alignment of permanent teeth or proper development of the arch. Reimbursement for prophylactic extractions of third molars is not a covered service.

NOTE: Oral surgery procedures that are not covered using a CDT procedure code should be billed using a CPT code on a CMS-1500 Claim Form. It is the provider’s responsibility to check covered medical services prior to rendering services. For use of the CPT codes refer to the CMS-1500 Provider Manual and obtain Prior Authorization as required.

28.3.8 Anesthesia

Dental Code Range: D9222-D9223, D9239-D9243 and D9248

- D9222-D9223, D9239-D9243 and D9248 are reimbursable. Dentists may only administer parenteral sedation and general anesthesia if they meet the requirements of the Wyoming State Board of Dental Examiners or the licensing board in the state they practice and it is within their scope of practice.
- Sedation and general anesthesia shall not be billed routinely, but limited to those patients requiring dental care who would not be expected to tolerate treatment or become unmanageable in the usual office setting due to medical, emotional or developmental limitations, and/or extent of treatment needs that are documented.
- The administration of intravenous (IV) or intramuscular (IM) sedation is subject to the same requirements as general anesthesia.

28.3.9 Dental Services Performed in an FQHC/RHC

Dental services that are performed in an FQHC must be billed on the most current ADA claim form/837D. Dental services will receive an encounter rate that is
established by Wyoming Medicaid and includes ALL services provided during the encounter and is considered to be an all-inclusive rate.

28.3.9.1 Dental (Other than Orthodontics) Claims

- D9999 – Must be billed as line one as the encounter rate
- Additional detail lines must be billed with appropriate covered CDT codes showing each service provided and billed with a zero (0) dollar amount.
- All charges for the same visit must be submitted on one (1) claim.

Example:
Child is seen for an exam, x-ray, and prophy. Bill as follows:

<table>
<thead>
<tr>
<th>Line</th>
<th>Procedure Code</th>
<th>Date</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>D9999</td>
<td>1/5/19</td>
<td>Fee encounter rate</td>
</tr>
<tr>
<td>2</td>
<td>D1120</td>
<td>1/5/19</td>
<td>$0.00</td>
</tr>
<tr>
<td>3</td>
<td>D0240</td>
<td>1/5/19</td>
<td>$0.00</td>
</tr>
<tr>
<td>4</td>
<td>D1120</td>
<td>1/5/19</td>
<td>$0.00</td>
</tr>
</tbody>
</table>

NOTE: If any codes on the claim deny due to being non-covered, the entire claim will deny. The provider is responsible for checking eligibility and frequency limitations and only billing Medicaid for covered dental services for that client.

Refer to the Dental Fee schedule for age limitation.

Services provided outside the clinic, including inpatient services, should be billed under the clinic’s fee-for-service provider number.

Multiple encounters with one (1) or more health professional that take place on the same day at the same office location constitute a single visit except when the patient, after the first encounter, suffers illness or injury requiring a distinctly separate diagnosis or treatment.

**CH 2 – Getting Help When You Need It**

2.1 Quick Reference – Updated table:
- Medical Policy reformatted to separate AOMN and PAs, list the PA types and refer to 6.13 for specifics, changed surgeries to specify “with DOS prior to 2/1/20.”
- WYhealth section now lists “surgeries with DOS on or after 2/1/20,” added unlisted codes with DOS on or after 2/1/20, and removed inpatient rehab.

**CH 6 – Institutional/UB – Common Billing Information**

6.10.2 Ages 21 and Older –
- Updated *PT, OT, ST, Behavioral Health Visit, Chiropractic Visits, and Dietitian* Table procedure and revenue codes in column 1.
- Changed the table to show a 30 visit threshold for BH and ST in column 2

6.10.3 Authorization of Medical Necessity – removed redundant info on which providers can request authorization.

6.10.3.1 Authorization of Medical Necessity Form – moved back to this location from 6.10.4.1

6.10.3.2 Instructions for Completing the Authorization of Medical Necessity Form – moved back to this location from 6.10.4.2 and renamed from Authorization of Medical Necessity Form Instructions

6.11 Reimbursement Methodologies – added bullet point concerning APR-DRG

6.14 Prior Authorization - Updated table:
- Medical Policy section now lists all injections, dental, and surgeries (with DOS prior to 2/1/20) that require auth.
- WYhealth section now lists all surgeries (with DOS on or after 2/1/20) that require PA, unlisted codes with DOS on or after 2/1/20, and no longer lists inpatient rehab.

6.24 Telehealth – added the last sentence on the first paragraph.

6.24.1 Covered Services – removed tables

6.24.3 Billing Requirements – reorganized bullet points.

6.24.3.1 Billing Examples – added section.

**CH 7 – CMS 1500 - Common Billing Information**

7.8.2 Ages 21 and Older –
- Updated *PT, OT, ST, Behavioral Health Visit, Chiropractic Visits, and Dietitian* Table procedure and revenue codes in column 1.
- Changed the table to show a 30 visit threshold for BH and ST in column 2

7.8.3 Authorization of Medical Necessity – removed redundant information concerning which providers can request authorization

7.8.3.1 Authorization of Medical Necessity Form – moved back to this location from 7.8.4.1

7.8.3.2 Instructions for Completing the Authorization of Medical Necessity Form – moved back to this location from 7.8.4.2 and renamed from Authorization of Medical Necessity Form Instructions

7.23 Telehealth – updated to delete subsections and instead refer back to 6.24

**CH 15 – Covered Services – Behavioral Health**

15.1 Behavioral Health Services – added last 2 bullet points.

When 1099’s Are Returned, Medicaid Payments Are Held

ALL PAY-TO PROVIDERS

In preparation of the State Auditor's mailing of the 1099 Forms in January 2020, it is imperative for pay-to providers' addresses be correct with the SAO and Medicaid.

1099 Forms will not be forwarded by the Post Office and when returned to the SAO as undeliverable your Medicaid payments will be placed on hold until an IRS W-9 (rev. 10-2018) Form is completed and processed.

PAY-TO PROVIDERS

- Did you have a change of address in 2019?
  - No - No action required
  - Yes - Action may be required
- Did you complete the IRS W-9 Form at the time of the address change
  - No - Action is required
  - Yes - No action required
- If action is required **DO NOT DELAY!**
  - Only the IRS W-9 (rev. 10-2018) Form will be accepted, all other versions will be returned unprocessed.
    - Electronic or stamped signatures are NOT accepted
    - Complete and mail form to:

Wyoming Medicaid

Attn: Enrollment
NOTE: Behavioral Health/DD providers (taxonomy 251C00000X), to avoid delays mail your completed W-9 Form to the address above BUT notify the Behavioral Health Division of your new address.

**IRS W-9 Update**

The IRS published a new version of the W-9 which became effective February 1st, 2019. The State Auditor's policy is to accept only the most current published version of the [IRS W-9 (Rev. 10-2018) Form](https://health.wyo.gov/healthcarefin/program-integrity/).

- [IRS W-9 (Rev. 10-2018)](https://health.wyo.gov/healthcarefin/program-integrity/) is available on the SAO website.
- All W-9’s submitted on outdated forms will be returned unprocessed.

Attention Behavioral Health Provider and Speech Therapy Providers

Beginning January 1, 2020, the first **30 visits** for behavioral health services and speech therapy services, cumulative per client for all providers, will not require prior authorization. Clinical records must support the medical necessity of the visits and may be requested at any time for post-payment review. Policies related to the medical necessity for coverage of services are not changing. Only the requirement for prior authorization for visits beyond the initial **30 visits** is being changed.

**Behavioral Health Services**

- Clients age 21 and older are covered for only medically necessary rehabilitative care.
- Clients age 20 and younger are not subjected to the prior authorization requirements at this time.
- Prior authorizations will be issued based on the treatment plan, up to 90 days at a time.

**Speech Therapy Services**

Speech Therapy Codes: 92507-92508, 92609, and 92526 (when the Rendering provider is a Speech Therapist)

- Clients age 21 and older are covered only for medically
necessary rehabilitative care.

- Clients age 20 and younger are covered for medically necessary rehabilitative and restorative therapy. Prior Authorizations for these clients can be issued for up to 180 days, or 8 visits at a time, depending on the services needed.

RA Banner Deployment:

Active Dates: 11/14/19 – 12/9/20

Audience: All Providers
Attention Dietitians

Introducing Medicaid's Diabetes Prevention Program

In 2020, Medicaid will offer a one year trial of a Diabetes Prevention Program (DPP) similar to Medicare's. Medicaid's DPP will begin with January 1, 2020 dates of service. Please provide feedback to Dustin Brown at dustin.brown@wyo.gov, as appropriate, to maximize the value and quality of this program.

Diabetes Prevention Program

The Diabetes Prevention Program (DPP) is intended to help prevent Type 2 Diabetes through a yearlong plan of care. A client is considered eligible for these services if they have a diagnosis of Pre-Diabetes.

DPP services may be used only one time per client. The clinical intervention consists of a minimum of 16 core dietician sessions throughout a six (6) month period to facilitate weight control. After completing the initial core sessions, less intensive monthly follow-up visits maybe be utilized to ensure that beneficiaries maintain healthy behaviors.

Plan of Care:

First 6 Months of DPP Initial Core Sessions:

- Sessions 1-4: G9873 - One (1) Expanded Model (EM) Core Session.
- Sessions 5-8: G9874 - Four (4) EM Core Sessions.
- Sessions 9-16: G9875 - Nine (9) EM Core Sessions.

Note: Session one (1) cannot be performed via telehealth. Sessions 2-16 can be provided via telehealth. For billing purposes use the telehealth modifier, GT,
to indicate these services.

**Second 6 Months of DPP Maintenance:**

- **Months 7-9:**
  - G9876 - Two (2) EM Core Maintenance Sessions
    - Utilized when DPP criteria is NOT achieved
  - G9878 - Two (2) EM Core Maintenance Sessions
    - Utilized when DPP criteria IS achieved.

- **Months 10-12:**
  - G9877 - Two (2) EM Core Maintenance Sessions
    - Utilized when DPP criteria is NOT achieved
  - G9879 - Two (2) EM Core Maintenance Sessions
    - Utilized when DPP criteria IS achieved.

**Note:** These sessions can all be provided via telehealth. For billing purposes use the telehealth modifier, GT, to indicate these services.

**Billing Requirements**

DPP services and non-DPP services must be billed on separate claim forms; however, multiple services for the same client may be submitted on the same claim. The Telehealth Modifier should be billed with any G-code that is associated with a session that was furnished as a virtual make-up session.

**Documentation Requirements**

Each HCPCS G-code should be listed with the corresponding session date of service and rendering dietitian National Provider Identifier (NPI).

Diabetes Prevention Program providers must maintain the following electronic or paper records for 10 years following the last day of a DPP client’s receipt of services. Certain circumstances may require extension.

- **Upon first session providers must record:**
  - The provider name and NPI
  - Client information, including but not limited to
    - Name
    - Wyoming Medicaid Client Identification Number
    - Age
    - Evidence that each client meets eligibility requirements

- **Upon each additional session providers must record:**
  - Session type
    - Core or
    - Core Maintenance or
    - Ongoing Maintenance
- Regularly Schedule session or
  - Make-up session
    - NPI of the provider furnishing the session
    - Date and place of the session
    - Curriculum topic
    - The Client's weight (only required for regularly scheduled sessions)
- When applicable, DPP provider records must indicate when a client has:
  - Attended core sessions
  - Achieved 5% weight loss
  - Attended core maintenance session and maintained minimum weight loss
  - Attended two ongoing maintenance sessions and maintained required minimum weight loss
  - Achieved at least 9% weight loss

NURSING HOME AND SWING BED PROVIDERS

TO AVOID DELAYS OR DENIALS IN PAYMENTS:

Facilities should bill all insurances primary to Medicaid, including Medicare, for therapy services provided to nursing home and swing bed residents. Medicaid is the payer of last resort, and secondary to all other payment sources and programs. Medicaid should be billed only after payment or denial has been received from primary carriers.

Therapy services are part of the Medicaid per diem rate. If a facility is not able to provide therapy in the facility, or chooses to send the client to an external therapist, the facility is responsible for the therapy charges for clients who are covered only by Wyoming Medicaid.

Although included in the per diem, facilities should first bill Medicare and all other primary insurances for therapy services. This would include:

- Physical Therapy
- Speech Therapy
- Occupational Therapy

If you have any questions or concerns, please feel free to contact Amy Guimond at amy.guimond@wyo.gov.

Attention Providers: Prior Authorization Vendor Change

Beginning with dates of service February 1, 2020 and forward, Wyoming Medicaid will be changing the vendor processing Prior Authorization (PA) requests for surgical and medical procedures and vision codes which require PA. Formerly handled by the Medical Policy unit within the Fiscal Agent (Conduent), these PA requests will now be processed by WYhealth.

WYhealth will begin accepting requests on January 2, 2020 for any dates of service February 1, 2020 and after. Dates of service prior to February 1, 2020 should continue to be submitted as they currently are, even after January 2, 2020.

Additionally, unlisted procedure codes will require a prior authorization starting with dates of service February 1, 2020. If your office knows in advance that a service will be coded with an unlisted CPT code, prior authorization MUST be requested in advance of the procedure. If a procedure is planned but is changed to one with an unlisted code once the surgery has begun, then the office will have **five (5) business days** to initiate the request for prior authorization.

Conduent Medical Policy will continue to process PA requests for all dates of service for:

- Pharmaceutical J-Codes that require PA
  - Tysabri IV Infusion Treatment (J2323)
  - Ocrevus (J2350)
The below table identifies the appropriate vendor to request authorizations from:

With the change in vendor, Wyoming Medicaid will use Milliman Care Guidelines (MCG) for criteria when reviewing prior authorizations except in cases where that criteria conflicts with state policy. State policy specific guidelines will continue to be found in the provider manuals. This move also changes the review process from an administrative process to a clinical review process based on URAC guidelines.

The process for reviews and reconsiderations will be as follows:

- Initial review by an RN level reviewer - if unable to approve, then:
- Review by a physician reviewer - if denied, then:
- Requesting provider may request a Peer to Peer conversation between the requesting provider and the physician reviewer - if the denial is upheld or the requesting provider chooses to forego the Peer to Peer conversation, then:
- A formal appeal request can be made resulting in a review by a second physician reviewer - if the denial is upheld, then:
- The client can request an Administrative Hearing (note - this cannot be requested by the provider) in accordance with the Wyoming Medicaid Rules, Chapter 4 - https://rules.wyo.gov which will also trigger a review by the Wyoming Medicaid Medical Director

Forms and instructions will be available on the WYhealth web site (wyhealth.net) beginning January 2, 2020. WYhealth also offers an online submission portal called iExchange. For information on registering and training to use this portal for your prior authorization requests, please contact Provider Relations at wyhealth@optum.com.
To verify if a procedure code requires prior authorization, please review the fee schedule located online at https://wymedicaid.portal.conduent.com/fee_schedule.html or contact Provider Relations at 800-251-1268.

If there are any questions regarding this change, please contact the Utilization Management Coordinator, Amy Buxton at 307-777-7531 or amy.buxton@wyo.gov.

Attention Providers

Recently a post payment review was conducted on a random sample of immunization claims billed to Wyoming Medicaid. A significant number of the claims failed the review in the following areas:

- Immunization administration codes on the claim but no vaccines billed
- Immunization administration codes on the claim but fewer vaccines billed than administered
- Immunization administration code 90460 used on the claim but not the companion code 90461 for additional components in multi-component immunizations
- Documentation failing to contain required immunization information including: immunization type, route of administration, dose, location of administration, and batch/lot/serial numbers.

NOTE: This information should be contained in the provider's records in addition to the Wyoming Immunization Registry (WyIR).

The failure to report immunizations accurately on Wyoming Medicaid claims has led to significant under reporting to the Centers for Medicare & Medicaid Services (CMS) regarding the immunization rates of Wyoming Medicaid covered clients.

The result of this review is the implementation of the following edit and a reminder of Wyoming Medicaid Vaccine Policy. Please review
New Claims Edit

Effective for claims billed 1/1/2020 and after, for all dates of service, any claim billed using an immunization administration code (90460, 90471-90474) will require a matching number of immunization products (90477-90748) billed on the same claim, or else the immunization administration(s) will deny. Claims denied for this edit will appear on remittance advices with explanation of benefits code 247.

Immunization Policy

To review the full immunization policy, please see section 24.7 Immunizations in the most recent CMS-1500 Professional Provider Manual.

State Supplied Immunizations

For those immunizations supplied through the WyVIP program, the immunization product should be billed with the SL modifier, which will cause the immunization to be paid at $0. The provider can bill this line using a $0 charge or the usual and customary charge of the immunization.

Administration Codes

When billing for immunization administration provided with physician counseling (or other qualified health care professional) for clients 18 and younger, CPT code 90460 is used to indicate the administration of the immunization. CPT 90461 is used to indicate additional components of a multi-component immunization.

Example:

The MMR immunization contains 3 components total - administration would be billed with 1 unit of 90460 and 2 units of 90461. Medicaid will reimburse up to $21.00 for each unit of 90460 and $0 for each unit of 90461.

Examples of multiple immunizations with state supplied or privately obtained product are available in the Provider Manual.
For questions regarding immunization policy after reviewing the provider manual information, contact Provider Relations at 800-251-1268.

ATTENTION PROVIDERS

CHANGES TO NUTRITIONAL AND INCONTINENCE PRODUCTS

Effective January 1, 2020, nutritional products and incontinence supplies will no longer be covered through the Wyoming Medicaid Pharmacy point-of-sale. Furthermore, oral enteral nutrition products (e.g. Ensure, Pediasure) dispensed on or after 1/1/2020 will require prior authorization. These products will continue to be covered in accordance with Wyoming Medicaid DME policy when billed by DME providers through the medical billing system. Infant formula claims submitted through the Medicaid Pharmacy point-of-sale system will continue to be covered for clients eligible for infant formula through the pharmacy.

DME Policy for Nutritional Products:

Enteral nutrition may be covered when ordered by a physician who has seen the client within 30 days prior to ordering the therapy and has documented that the client cannot receive adequate nutrition by dietary adjustments and/or oral supplements, enteral therapy may be given by:

A. Nasogastric
B. Jejunostomy
C. Gastrostomy Tube
D. Orally

Enteral Nutrition Therapy administered through a feeding tube (B4104-B4162) is covered when considered reasonable and necessary for clients with:

A. Functioning gastrointestinal tracts which, due to pathology or non-function of the structures that normally permit food to reach the digestive tract, cannot maintain weight, strength, and overall health status.

Enteral Nutrition Therapy administered orally (B4100, B4102, and B4103) is covered if the patient has a diagnosed medical condition such as, but not limited to:

A. A mechanical inability to chew or swallow solid or pureed or blended foods;
B. A malabsorption inability due to disease or infection;
C. Weaning from Total Parenteral Nutrition or feeding tube;
D. A significant weight lost over the past six (6) months, or children under age 21 who experience significantly less than expected weight gain;
E. If the patient receives less that 75 percent of daily nutrition from a nutritionally complete enteral nutrition product; a nutritionist, speech-language pathologist, or a physician must write a detailed plan to decrease dependence on the supplement.

Enteral nutrition therapy is not covered for:

A. Clients whose nutritional deficiencies are due to a lack of appetite or cognitive problem;
B. Healthy newborns;
C. Individuals living in a nursing facility or residential facilities as this should be part of the per diem or room and board;
D. Clients whose need is nutritional rather than medical, or is related to an unwillingness to consume solid or pureed foods;
E. A convenient alternative to preparing or consuming regular foods;
F. An inability to afford regular foods or supplements.

Prior Authorization:

Nutritional products provided through a feeding tube will not require
prior authorization. Nutritional products provided orally will require prior authorization. Requests for oral enteral nutrition must be submitted to Comagine prior to services being rendered. For information on how to submit a request call 1-800-783-8606 or see their website at http://qualishealth.org/.

Documentation Requirements:

For all requests for authorization of enteral nutritional products, documentation must include the following:

A. Specific enteral product requested
B. Average number of calories to be obtained per day from the enteral nutritional product
C. Average number or calories to be obtained per day via other sources
D. Medical condition that requires an enteral nutrition product
E. Type of food preparation that have been tried (mechanically chopped, pureed or blended)
F. Documentation that a swallowing study or swallowing evaluation has been completed with a history of aspiration
G. Medical document to support the clinical need of the prescribed product

Documentation of medical necessity must be kept on file by the provider and made available upon request.

DME Policy for Incontinence Products:

Incontinence products are covered for clients who are unable to control bladder or bowel function

Covered HCPCS Codes: A4310-A5200; T4521 - T4537; T4539 - T4544

Please check the HCPCS book for appropriate codes.

Indications/Limitations:

Incontinence diapers/briefs and liners are not covered for clients under age three and are limited to a 30 day supply, unless listed below. The codes below are limited as indicated:
T4521 - T4524: 390 per calendar month
T4525 - T4528: 210 per calendar month
T4529 - T4534: 390 per calendar month
   T4535: 210 per calendar month
T4536 - T4537: 4 per calendar month
T4539 - T4540: 3 per calendar month
T4541 - T4544: 210 per calendar month

Prior Authorization: Not Required

Documentation: Written Order

For any questions related to these policies, please contact Comagine at 1-800-783-8606 or Amy Guimond at amy.guimond@wyo.gov.
